Commissioners White and Tossberg were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 27, 1984

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner White and Commissioner Tossberg present.

The Commissioners were on hand to attend to office management.

Chairman Williams was out of the office for the day.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 28, 1984

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner White was out of the office for the day.

Dan Kemmis was in to discuss RC&D problems with Chairman Williams.

The Commissioners were on hand to attend to office management and audit the monthly claims.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, December 31, 1984

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Blanche Rogers came in in regards to the possibility of establishing an RSVP program for the Ravalli County elderly.

Stan Snyder, Al Gile, Larry Higginbotham, County Surveyor; Darlene E. Hughes, Clerk and Recorder; and Don Mullin, Planning Office; met with the Commissioners to request that the plat on Lt. 9 and a Portion of Lt. 10, Block 4, Corvallis Tract, be filed.

Chairman Williams moved that we approve the amended plat of Lt. 9 and a Portion of Lt. 10, Block 4, Corvallis Tract, relative to the purpose of relocating a common line between the lots for Robert Engels. Motion carried.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes (Clerk and Recorder)

APPROVED: F. T. Williams (Chairman)

APPROVED: F. B. Tossberg (Member)

APPROVED: _____ (Member)

----------0----------

Hamilton, Montana, January 2, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner Harold White, Commissioner F. B. Tossberg, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of November, 1984, were audited and found to be in balance with cash on hand in all funds in the sum of $9,320,500.18.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Bobby Cutler was in to say he wished to resign from the Park Board. He is going to be a legislative intern and is also attending school so does not have time to serve. Commissioners Williams and Tossberg thanked him for serving.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of December 3, 1984:

Ravalli County Bank----------	$ 1,600,000
Citizens State Bank----------	1,345,000
Farmers State Bank----------	1,195,000
First State Bank----------	765,100
First Federal Savings & Loan----------	1,699,685
Western Fed. Savings & Loan----------	2,033,666
	$ 8,638,451

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Carol Jeppesen, Planning Office, the following Certificates of Survey were filed:

Retracement - In NE¼SE¼ Sec. 26-6-21 - Anaconda Copper Mining

Mtg. Rel. - In SE¼ Sec. 11-5-21 - Roger Peterson

See Subdivision Planning Review File for Minutes of Meeting Held in the Upstairs Courtroom at 4:00 P.M.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Bids for painting the Human Services offices were received as follows:

Westrom and Olson Painting & Decorating----------$	1,176.00
Julio's Painting----------	675.00
Glenn N. McDaniels----------	1,776.00

Commissioner White moved that we accept the lowest bid for the painting of the Human Services offices. Commissioner Tossberg seconded said motion. Motion carried.

The Commissioners signed an Easement for Mountain Bell for Paul Davis.

Our auditor, Ronald Paul Foltz, has submitted to Chairman Williams his Financial Report for

the year ended June 30, 1984.

Commissioner Williams reported to the board and Sheriff Dale Dye relative to his Dec. 26th visit to the Spokane County jail and law enforcement facility.

Spokane County is presently erecting a new city-county-state jail and law enforcement facility which should be completed about March 1, 1986. This new Public Safety Building was designed by Walker-McGough Inc. of Spokane who are nationally recognized architects in this specific field.

Many areas of concern were discussed with Mr. Jack Barnes, Chief Security Supervisor of the Spokane County Sheriff's Dept.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Darlene E. Hughes, Clerk and Recorder, administered the oath of office to Marion H. Davis and Margaret A. Stelling. Betty Davis, Chuck Fricke, and Raynor and Gladys Roberts were present for the ceremony.

During action to reorganize the Board, Clerk and Recorder, Darlene E. Hughes, occupied the chair and invited nominations for Chairman of the Board of Commissioners.

Commissioner Tossberg nominated F. T. Williams as Chairman of the Board of Ravalli County Commissioners for 1985. Commissioner Davis seconded said nomination. Motion carried unanimously.

Darlene E. Hughes then stepped down as acting chairperson and Chairman Williams accepted the chair.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams explained that the creek is eroding the road on the East-West section of Meridian road, by Pistol Lane, and gave Jay pictures of the problem area. Jay said that he would take care of this.

Commissioner Tossberg explained that there is water running across the Blodgett Camp Road--Jay said that he had sanded in that area on Friday, and there was no problem, but had noticed the water himself this morning--he said he would check this out.

Commissioner Davis asked about signs for the Florence Fire Dept. Chairman Williams explained that they have been checking into this with the prison and have talked with Neal McCurdy at the Post-office about people getting money orders there to pay for this so that it would not have to go through the County's accounting system. Commissioner Davis said this was a good idea.

During the meeting, the Commissioners received a call from Tom Hanson, PCI, in connection with the roads in Riverview Orchards--all Commissioners and Jay Unrue talked with Tom about this situation.

Commissioner Davis said that there had not been a snowplow on the old highway at Florence and it was in need of plowing. Jay said he would check into this. Commissioner Davis said that there is no line painted down the middle of the Old Florence Highway and he feels one is needed as they have had a couple of accidents on this road. Jay explained that they do not have stripping equipment of their own and have to do trade-offs with the State to get this done. He said that the State does owe them some stripping right now, but have complained that this messes up their accounting system, and would like to pay the County instead. The County does not want the money, but would like to keep trading services. The State can not be paid for their services either. Jay said that they do not stripe the same areas every year because of the costs.

Commissioner Davis explained that he does not like the way the 8-Mile road is barricaded--he feels it is hazardous and explained why he feels this way. Jay explained that former Commissioners had asked the State's advise on this and the State's findings were inconclusive, but the State had suggested this barricade as a possible alternative. The former Commissioners had then ordered Jay to set up the barricade according to the suggestions of the State. Jay drew a picture on the board to explain the situation. After some discussion, both Jay and Commissioner Davis agreed that the present stop signs would serve the purposes needed and that the barricade should be removed and the signs involved in the barricade. Commissioner Tossberg asked Jay if this decision is completely ours to make, or if this will get us mixed up with the State. Jay said it was ours to make. Commissioner Tossberg said he would have no objections to the Board authorizing Jay to take care of this and remove the barricade. Jay would have to wait until spring to remove the stripping. Commissioner Davis said that the stripping is probably no problem as long as the other is removed. Jay said that it might eliminate some liability to the County to go ahead and remove it as soon as possible. Jay said he would take care of this as the Board was all in agreement that he should.

Commissioner Davis asked Jay if he has a more recent map of the County roads. Jay said that the 1981 map is the most recent, but he plans to redo it between now and spring with a 3/4 inch scale instead of the 1/2 inch one, and will make copies available as soon as he completes this.

Commissioner Tossberg said that he had talked with Jeff Langton on the North Kootenai Trail road and Jeff said that there was something else that needed completed. Jay said that the Forest

Jeff to see what else is needed.

Jay will be bringing in the projections for road work for the coming year as soon as possible.

The Commissioners gave Jay the booklet "Uniform Traffic Control Devices" that they had received in the mail.

Jay explained that he is getting real close to having all of the asphalt roads in the County that he can maintain with his present budget, so will not be able to oil any more roads even though he would like to.

Jay explained the Moles road situation for the benefit of Commissioner Davis.

Lloyd Moran was in to say that he feels that Gary Preston is being harassed by the County road department in connection with sprinkling the roads. He had just had a trial up in J.P. court with Nancy Sabo. Lloyd said he would like the Commissioners and Bob Brown, County Attorney, to come out to his place and let him show them how this affects the watering of his hay crop. Bob Brown, County Attorney, came down and explained that the road department had given Gary Preston three notices before they gave him a citation, and Gary Preston had made the statement that he was going to continue to water the road in spite of the warnings. Lloyd said that he has a list of 15 people who also water the roads with their sprinklers. Bob Brown said that he will be having the road department keep a log of their procedures on this and they will be noting how the wind is blowing, etc. The Commissioners said they would check into this.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

The Commissioners worked on the proposed changes in the subdivision regulations, audited the monthly claims, and were on hand to attend to office management.

Application for Cancellation of Taxes #715 was approved in the amount of $133.33.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

Bob Thomas from Bob Thomas Insurance met with the Commissioners to discuss their insurance coverage. Bob Brown, County Attorney, sat in on said meeting. Commissioner Tossberg explained that their concern has been that the Commissioners are not covered against personal liability during business hours. Each Commissioner carries a policy to protect them personally, but their activities as Commission are not covered. Bob Thomas said he would like to check out the policies they presently have. Bob Brown explained the concern of the Commissioners that they might be sued for "acting beyond their authority". Bob Thomas said he would check this out, but that it will take around 10 days to get the figures.

Commissioner Davis moved that the following people be appointed and reappointed, as designated, to serve 2-year terms running from January 1, 1985 through December 31, 1986, for the County Planning Board:

School District #1 - Nancy Coe (reappointment)
School District #2 - Barbara Chilcott (reappointment)
School District #3 - Richard Weber (reappointment)
School District #7 - Wm. Stephanie (reappointment)
School District #9 - DeVon Warren (new appointment)
School District #13 - Lloyd Eickert (new appointment)
School District #15 - Robert Fields (reappointment)

Commissioner Tossberg seconded said motion. Motion carried unanimously.

Commissioner Davis moved that the following people be reappointed to serve 1-year terms running from January 1, 1985 through December 31, 1985 on the Veterans Burial Board:

Truman Smith
W. D. Stephani

Commissioner Tossberg seconded said motion. Motion carried unanimously.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

Ken Wanner came in to talk with the Commissioners in connection with the proposed Sawtooth Center. He said they have the opportunity to apply for an EDA grant for assistance on the sewer and water project, as sewer and water are not available in that area. They have a total of about 6 acres of ground. Their engineer is Sorenson and he has approached the city on this and they have agreed to hook-ups with the condition that this development will not contest the annexation into the city. The city has made it clear that they do not want to put up any money for this sewer and water project. In order to apply for the EDA grant, they will need the approval of the County.

Ken said that the new mall will include a bowling alley, motel, restaurant, lounge, and shopping facilities, all under one roof, with two stories. They have planned for parking space for 400 vehicles, and a 100 unit motel, but would start with 50 units to see how the conference facilities go over. Ken feels that there would still be a need for another bowling alley even though one is going up over in the Foxfield addition.

Commissioner Tossberg said he would not want to commit to giving County approval right now, but could see no problems with doing this as long as it does not cost the County anything.

Chairman Williams commented that he would hope that the developers were providing for expansion while they are doing this. Ken said that there was a possibility that their sewer project could be used to help alleviate problems in the Southwest corner of the City. Ken and the other developers have options on the land required to put in the sewer and water systems.

Ken said they are in the process of raising money for a feasibility study--this will cost around $80,000, which includes the engineering necessary to get started. Ken said he would check back with the Commissioners on this.

See minutes in subdivision planning file in regard to meeting held at 7:30 p.m. in the downstairs conference room.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Larry Johnson and Dr. Charles Reed met with the Commissioners in connection with the City Library of Hamilton. Bob Brown, County Attorney, sat in on said meeting. Larry explained that they have a meeting coming up next Thursday, January 17, 1985, at 8:00 p.m., and are putting together the arguments that something needs to be done with the library. Larry feels that the best option is a City-County library so that there will be a written agreement between the City and the County. The County is now contributing less money than the County customers are using in proportion to what the City contributes. The Feds are breathing down the City's neck because the building is not set up for the physically handicapped. They have looked into the possibility of putting an elevator on the outside of the building, but that would run $20,000, and would take some of the space they need in the library. They probably need at least twice the floor space they now have for books--they do have the meeting rooms downstairs. Larry gave comparisons in size with Whitefish, Bigfork, Columbia Falls, and says we do need to do something. There are some Federal funds available and the Library Board has their name in for these. Larry just wants the Commissioners to be thinking on this as they will be coming to the Commissioners to see what support they can get. They are now getting .47 mills for all of the libraries in the valley, and could levy up to 4 or 5 mills.

Chairman Williams explained the situation they are in and the possibility that they may lose federal funding, so we may have to cut back our operation here. He said we are not saying "No", but this is a tough question with what we are facing.

Commissioner Tossberg asked what Larry has in mind. Larry explained that the library sits on land donated for library purposes only--the area to the North is three city lots, and he does not know if the city will let the library expand into them as they have problems of their own. Commissioner Davis asked if they had considered moving the library downstairs--this would eliminate the access problem. Larry said that this is one of the options, another option would be to add on to existing building; another option would be to tear the existing building down and build a new one; and still another option would be to move to another site. If they use the basement for books, they could then use the upstairs for meeting rooms--however, there would still be a problem with the restrooms and still an access problem. Commissioner Davis commented that a ramp costs less than an elevator. Larry said that Mark Annin has commented that in order to get the grade required by law, they "would have to ramp halfway to Darby".

Commissioner Tossberg asked if there is sufficient room on the present site--Larry said that they could build over the ditch, so there is sufficient space, especially if they make the book portion two story. However, this requires more help. Chairman Williams asked about space requirements and number of books required for each square foot--Dr. Reed said he could dig up these figures. Commissioner Tossberg said that he remembers someone preparing a sketch recently. Larry said that one had been prepared, but this created two entrances, which would require more help. It also did not provide enough space--our minimum requirements are 2,000 more square feet--there was some discussion on planning for future expansion.

Larry explained that the City has problems with City Hall worse than they are dealing with for the library. They are in the process of exploring options too--such as Gambles Building, old hospital, Elks building, etc.

Commissioner Tossberg said we have a cash problem ourselves--would not really affect the library because it is not in the general fund, but would increase taxes, and that is always a problem. Also, we have a political problem--how far can the County go to create a library located in the City of Hamilton when we have Stevensville, Darby, etc. Could a Library District be formed? The district could then vote about whether they were willing to pay for more library funds. Larry said there is a provision in the statute that allows library districts, but there are more people in the County that use the library than those in the City. Bob Brown commented that this is true of all of the libraries.

Chairman Williams asked if the library needs to be located in the middle of Hamilton

explained that studies show that the useage is lessened when the library is moved from the city. Commissioner Tossberg said he would take time to read up on the laws. Larry said that the City seems flexible on this and he will keep the Commissioners informed as to whatever progress they make and would appreciate any comments the Commissioners may have.

Commissioner Tossberg moved and Commissioner Davis seconded that we defer the decision on Riverview Orchards Subdivision until January 22, 1985. Motion carried.

Mr. Bancroft came in to give his opinion on last night's meeting on the amendments to the subdivision regulations. He said he had been to the Sanitarian and to City Hall to talk with them and wanted to let the Commissioners know where he is coming from. He said that after he had studied the proposed changes, he really has no objections to what the Commissioners had proposed at their meeting last night. His main objections are to the City-County Planning Board. The Commissioners explained that this is not firm yet, but they feel it is necessary to do the planning. They explained that a Planning Board appointed in 1970 had made very accurate projections as to what occurred in the years they were working with. Mr. Bancroft said that he objects to the cash-in-lieu of parks money. Chairman Williams explained how this money is used in Ravalli County.

Mr. Bancroft asked for copies of the letters from Swift and Thoft and they were given to him. Commissioner Tossberg commented that he does not feel the legislators will change their opinions. He said he does not think Bob Thoft has taken time to check things out carefully. He said he had talked with Bernie Swift and he is sure he will not change his mind.

Commissioner Tossberg said he may give Mr. Bancroft a phone call when we need advice. Mr. Bancroft said he worked with Weyerhauser in Las Vegas and San Diego in the land use and development part for 15 years.

Bob Bartholomew was in to voice his opinions on the proposed subdivision regulations--he said he is against high density and the abuse of the exemptions and is in favor of almost all of the points as to qualifying people to take an exemption. He thinks that the subdivision laws do take care of the problems through the subdivision review process, but these amendments will place pieces of property under review that would not have gone through review before, and he does not think the Commissioners have the power to do this. The Commissioners explained the position they are in and read the Attorney General's Opinion on this to Mr. Bartholomew.

Bob Bartholomew also suggested that the questionnaire not be called a questionnaire, but be called an Exemption Application.

Following review with Carol Jeppesen, Planning Office, the following Certificates of Survey were filed:

Occ. Sale & Rem. - In SW¼SW¼ Sec. 1-1-20 - Charles E. Lord

Retracement - In NW¼SE¼ Sec. 26-1-22 - Gene Ogrod

The County's Auditor, Ron Foltz, brought in audit reports for the 1983-84 Fiscal Year for the Commissioners to review.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg testified at a Board of Investments meeting before the Legislature in Helena, Montana, and returned to the office during the afternoon.

Ken Wanner brought in a drawing on Sawtooth Village and the market analysis on the bowling alley and restaurant. He said he has done no leasing of the facilities but has interested people all lined up and does not think they will have any problem leasing the facilities.

Commissioner Davis asked of the 120 jobs that Ken said would be created, which would be new jobs and which would be transfers of existing jobs--Ken said around 3/4ths would be new jobs. Commission Davis asked when they plan to start to build if all goes well--Ken said in the spring.

Ken said that the EDA man has asked for a letter from the Commissioners and they would like to have someone pick it up tomorrow. The grant will pay up to 80% in high unemployment areas like this for sewer and water only--they will not pay for purchases of access property or anything. They have a $90,000 potential from EDA, the rest will come from the developers. Chairman Williams said that the letter will be ready sometime tomorrow afternoon.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay brought in his proposed road plan for the upcoming year. Chairman Williams asked about a place on Ricketts Road where Ethlyn Champlin had been in to complain that she had to repair the fence 14 times because people have slid into it. Chairman Williams asked if it will help to put up reflectors--Jay said that they just slide into the reflectors too--the problem is usually imprudent driving. Mrs. Champlin could put up barriers.

Commissioner Davis asked about the roads down in the subdivision by the Florence School. Jay said that they are County roads--they drew a picture on the Board. Jay said they were taken in in 1974

said that last spring the road was just full of holes.

Commissioner Davis said that he had received a call about the barricade and had been able to explain that the Commissioners had authorized Jay to put it back as a normal road with just the stop signs.

Commissioner Davis asked if Jay plans to do anything more on the Florence Loop road--Jay said it will be taken care of.

There was some discussion on what will be done on the roads this year--Jay said that the oiling of Tin Cup Road is contingent on a lady giving some right of way.

Commissioner Davis said that the fine stuff has worn off on Lower Woodchuck Road--Jay said that this is on limited maintenance and they grade twice a year--it is almost down to a private driveway.

Jay said that in spite of the Champion Int. layoff causing a reduction in Forest Reserve monies, they still need a back-hoe, and he has located one in Seattle for $22,000 and will be going to check this out tomorrow--he wants to be able to move quickly and take advantage of the deal if it is a good one-- Chairman Williams said they will check into this. Jay said he will get two other quotes but this is under $25,000, so bids will not be required.

Amelia Bedey was in to complain about the condition of Honey Lane and to ask Chairman Williams about some Council on Aging business.

Natalie Drake and John Robinson met with the Commissioners to challenge their decisions relative to their appointments to the city-county Planning Board as authorized under 76-1-201.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

John McQuaid met with the Commissioners in connection with his request to be appointed to the Planning Board. Gary Wiens, Ravalli Republic, sat in on said meeting. Chairman Williams explained that they had had four applicants from that area and had reappointed the incumbant, Nancy Coe, because they felt she had done a good job and she wanted to be reappointed.

Mr. McQuaid asked about getting a computer printout on the land owners in the Corvallis School District. After some discussion, Chairman Williams said he would check this out with the Treasurer and see if they could give out this information. John said he was willing to pay for this if it is available.

The Board authorized Chairman Williams to sign the Montana Highway Traffic Safety Admin. Standard Agreement form relative to 85-01-05-13, Ravalli County Alcohol Testing Equip.

Following review with Don Mullin, County Planning, the following Certificate of Survey was filed:

Absence of agreement - Court Order - SE¼ Sec. 24, T6N, R21W - Pacific Rocky Mt. Inc. - Steve W. Wilson

The Board authorized Chairman Williams to sign the Airport lease for Keith Evans.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Fred Hoffman from Blue Shield met with the Commissioners in connection with County Health Insurance. Bob Brown, County Attorney, sat in on said meeting. He asked if the Commissioners would like a report on claim experience monthly or quarterly--either as a group, or individually. Commissioner Tossberg said they are not particularly interested on an individual basis as, if someone has a problem, they come in to talk it over with the Commissioners. Mr. Hoffman said a medical confidentiality release would be needed if they give out personal information. Fred said he could get the information through December since they now have access to computer information--he will be bringing it in soon.

Paul Baker met with the Commissioners to complain that he is not getting any County business. He is the owner of Mac's Auto Parts and said he has not received any County business from the road department in about two years. He said that Jay had claimed that he did not get good service from Mac's and that their prices were higher. Paul said he did have a gripe about his road and that could be some of the problem. Chairman Williams said he would talk with Jay on this. Commissioner Davis said he would like them to keep the business and the roads issue separate. Paul said that they have a manufacturing rebate available to government entities that keeps the prices real competitive. Paul said that there is some antagonism between them and Bud Dye, the Shop Manager.

Cathy Erickson and Elden Roberts met with the Commissioners in connection with a parcel of land that Elden is trying to sell. The land is in the flood plain and there is an existing house and an existing sewer on there. Their potential buyer wants to move in a mobile dental clinic. Cathy is trying to sell the property for Elden and wants to be sure that things are done right. Commissioner Tossberg explained that if this were a piece of bare ground, you could not put anything on it because of the floodplain situation. As it is, we can not stop someone from living in the existing house and using the existing system, or someone from tearing the house down and in that case, we would want the system improved--the Commissioners would really like an improvment on what is presently there.

Elden said he would be glad to sell this piece to the Fish and Game if they will buy it.

Commissioner Tossberg said this is not a bad idea.

Bob Brown said that Eldon would be within the guidelines for a variance on this piece of property.

The Commissioners said that they would be willing to permit something that they didn't really like completely in order to get rid of a situation that was worse.

In connection with the mobile home--if this is a new structure and would be hooked up to a septic system and not mobile, it could not be allowed. However, if it is an RV and could be moved at any time, it would be okay.

Commissioner Tossberg explained that a problem is that when a trailer is put in, it has to be anchored down because if a mobile home broke loose and floated down the river, it could be very destructive.

Don Mullin, Sanitarian, came in on the meeting. Don agreed that an RV would not be a problem.

Cathy and Elden said they would check this out and keep in touch with the Commissioners on this so it is done right.

All three Commissioners, Bob Brown, County Attorney; and Don Mullin, Sanitarian; went to view the Lynn Gerlinger property.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Ren Cleveland was in to voice his fears and objections about the City-County Planning Board. He said he is afraid that the City may try to take over too much on this. There was some discussion on how the Board is appointed--Commissioner Davis commented that it works good to have representation from all parts of the County because you get an overall view of how people feel. Chairman Williams asked Ren if he feels there are problems because of the large board. Ren said that the bigger cross-section covered, the better input is received. He said he is just apprehensive of what would happen if the City takes over. He agrees that his area needs to be zoned and thinks the people in his area might work on voluntary zoning. Ren said that his area would run into problems if the houses get too close together, because there is high ground water. He does not want the County to relinquish their powers to the City.

Chairman Williams nominated Ralph Smith to be appointed to the Fair Board replacing Otto Quast, and moved that Arlo Ellison be reappointed for another term on the Fair Board. Commissioner Tossberg seconded said motion. Motion carried. Said appointment to be effective until December 31, 1986.

Following review with Carol Jeppesen, Planning Office; and Darlene E. Hughes, Clerk and Recorder; the following Certificates of Survey were filed:

Occ. Sale & Rem. - NE¼ Sec. 15-T7N, R21W - Lawrence C. Haffke
Occ. Sale & Rem. & Family Conveyance & Reloc. - N½ Sec. 10-T3N-R21W - Curtis Ray
Mtg. Rel. - In NW¼ Sec. 26-9-20 - Selway Corp.

Jim Johnson was in on the Riverview Orchards RSID--he wondered why he had not heard the decision of the Commissioners. Commissioner Tossberg explained that the decision had been postponed because they have been negotiating with the developers--until the Commissioners get something firm, they do not want to make a decision. Commissioner Tossberg said he does not think Jim needs to be concerned about there being an RSID up there. Jim lives on lower Woodchuck Road.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioners Tossberg and Davis attended a Mental Health meeting in Polson, Montana.

Chairman Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Williams and Tossberg present.

Commissioner Davis was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams said that there is a lot of water running off in his area. Jay said that the water situation is bad all over the County.

The Commissioners explained that they had had a visit from the Highway Patrol requesting a "Stop Sign" to replace the "Yield" sign up on the Blodgett-Oertli Road intersection. Jay said that he has no feelings on this and it would be no problem installing a stop sign. He said he can remove some of the brush too--he will look into this and get back with the Commissioners so they can draw up a Resolution for the "Stop" sign.

Commissioner Tossberg said that he had driven through the area down by Florence where the water is washing across the road and the signs can not be seen clearly, and one should be moved back. Jay said that these signs get stolen regularly and he will check into this and take care of the signs.

there is a sizable erosion of the road--this was the result of a plugged culvert. Jay said he would check into this.

Jay explained that he had gone ahead with the purchase of the backhoe for $22,000, and will be buying three extra buckets for $1500. He said that the machine is in excellent mechanical shape--it needs a little work on the body, but nothing major. It has a good maintenance record. He said that the nearest estimate he got was a 1978 model--this one is a 1979--for around $25,000, and the other bids were in the $50,000 range. He will be auctioning off the old backhoe at Gardner's machinery auction in the spring.

Jay said that Missoula County is looking favorably at trading Ravalli County and having them replace a bridge for them in return for striping. The State will take care of the striping for this year, but this will help us out for a couple more years.

C. V. Fullmer was in to complain about his road situation up by Sheafman Creek.

Janet Potter was in to inquire about zoning up Willow Creek, Perm. File #6431, in Pine Meadows. Commissioner Tossberg took her into the plat room to help her get her questions answered.

It was moved by Commissioner Tossberg and seconded by Chairman Williams that a decision on the Riverview Orchards RSID be postponed until March 1, 1985, due to negotiations being conducted with the attorney for the developer, Mr. Dennis Lind. Both Commissioners voted "Aye".

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg present.

Chairman Williams attended a Council on Aging meeting in Polson, Montana.

Commissioner Davis was out of the office for the day.

James A. Ross, who lives East of Bell Crossing, came in to let the Commissioners know that they have support on the new subdivision regulations out in the Bell Crossing area. He feels it is lots easier to prevent a law suit than to have to fight one.

Joyce Galbraith was in to ask what is happening on her petition that Cormoret Loop be included in the County road system. They would like the schoolbus to come around their loop and have talked with the school board and they can not put a bus on the road without it being part of the county system. Commissioner Tossberg said he had driven this loop and counted around 15 homes. He explained that the general criteria in subdivisions is that until 40% of the available plots are occupied, we will not consider accepting the road. Another thing is whether the road meets County specs. He said it seemed like this was a reasonable decent road when he was out there. The first thing that needs done is for the County Road Supt. to go out and look into this. If the road does not meet specs, the people in the area will have to come up with the money to fix it up. Mrs. Galbraith said that the neighbors are all willing to do this. Commissioner Tossberg said that the Commissioners do their level best not to take in more roads--because of the cost in maintaining, we are very careful when we do take some in.

Mrs. Galbraith said that right now there are eleven children who are walking to the bus stop on 8-mile--about ½ a mile, and this is quite a bit for this cold weather.

Commissioner Tossberg said it might help to get a letter from the school board saying that they would be willing to bring the bus down the road if the county takes the road into the system.

Mrs. Galbraith said they do not even care if the road is snowplowed as long as the bus can come down it because the cars keep it packed down pretty good. Commissioner Tossberg explained that the County has a "limited maintenance" system, which is grading once or twice a year and no snow maintenance. Commissioner Tossberg said he could make no commitment as he is alone, but he will discuss this with the other Commissioners.

Don Dobberstein was in to discuss the subdivision regulations and proposed changes.

Gerald Schultz was in to talk about the Golf course.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Chairman Williams present.

Commissioner Davis was out of the office for the day.

The Commissioners attended a Board of Health meeting which was held in the Commissioners' Office. Minutes are in the Board of Health file.

Following review with Carol Jeppesen, Planning Office; and Darlene E. Hughes, Clerk and Recorder, the following Certificate of Survey was filed:

Mtg. Rel. - In NW¼ Sec. 32-5-20 - John H. Leinan

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

The Commissioners sent a letter to Dennis Lind in response to his proposal on Riverview Orchards.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

Chairman Williams and Commissioner Tossberg attended a MACO Legislative session in Helena, Montana.

Commissioner Davis was out of the office for the day.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Tossberg seconded that we award the bid for the new counter and opening in the Reclassification office to Ausum Enterprises, Inc., in the amount of $939.40. Motion carried.

Glen Scanlan visited with the Commissioners on his road problems up on North Nordheim Lane. He said he paid his taxes under protest because of this road. He said that the County used to grade his road but quit doing it--there are four families on this road. The last time the County graded this was three years ago. He said he thinks the right of way is around 50 feet. He would like it graded once a year after the wash season. The Commissioners said they would talk with Jay on this and would go up and look at the road. Commissioner Tossberg explained that Glen's protest was not official because it was turned into the Commissioners instead of the Treasurer. Glen said that he meant it to be done that way, and did not want to go the whole legal route unless it becomes necessary. He said that he does not agree with oiling the roads in his area; he feels that a good job of grading serves a better purpose because the oil just makes the roads slick for them to haul hay, etc.

Commissioner Tossberg asked Glen if he would consider giving the County some land if they need a turnaround spot. Glen said that there has never been any problems with turning around before. Commissioner Tossberg explained the liability involved for the County if the County equipment turns around on private property. Glen said he would consider donating land if it becomes necessary.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay explained that he had put up more signs down by Florence where the water is coming onto the road. Jay explained the laws that he is following when he makes the placement of signs. There was some discussion about a car going off the road in that area, and Commissioner Davis had called Jay about it on Sunday. Jay said that they have about 25 areas around the County where the water is coming on the road. Commissioner Tossberg asked about the Lost Horse Road and Jay said they have been working on it. Commissioner Davis said he would like Jay to contact the officials in Missoula and get a "Danger" sign on their side of the road. Jay said he would do this. Commissioner Davis said he had received compliments for Jay on the good job he is doing graveling the roads in the Florence area.

Chairman Williams said that he had received complaints on the condition of the Eastside Highway by Porter Hill--there had been 6 accidents and one car had gone over a bank, down 206 feet. Jay said that the road conditions had been bad all over and all three sanders were out doing school bus routes, mail routes, and then whatever else they could get to. He has one sander down permanently now--it is just worn out, but he has ordered two more and they are on their way. The life span of a sander is around 12 years.

Commissioner Tossberg explained the Glen Scanlan complaint. Jay said that he thinks the right of way is only around 25 feet--the Commissioners checked this out in the plat room. The Commissioners are considering a road tour on Thursday, January 31, 1985, at 10:00 a.m., at which time they will check out this road and other areas they have received complaints about.

Bob Rollins was in to get instructions on the Reclassification window.

The Chairman of the Board was authorized to sign a lease for Keith Evans for Area C-28 at the Ravalli County Airport.

Following review with Carol Jeppesen, and Don Mullin, Planning Office, the following amended plat was filed:

Am. Pl. of Lt. 9, Blk. 5 - Paradise Heights #2 - Gordon S. Sutcliffe

Commissioner Davis moved that we approve the amended plat of Lt. 9, Bl. 5, Paradise Heights #2 for filing. Commissioner Tossberg seconded said motion. Motion carried.

Commissioner Tossberg moved that we grant conditional approval to New Farm Acres, with the conditions as set forth in the letter from the Planning Board, and an additional condition that all roads be brought up to County specs. Commissioner Davis seconded said motion. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jack Beatty from Telecreations was in to talk to the Commissioners about purchasing the pay phone in the lobby. He said that they have about 2000 pay phones in Montana alone. He said that

is real profitable to own your own phone and quoted figures on what profit could be expected. He said that we have to pay $22.19 for the phone line coming into the building and 6¢ for each call. The phone would cost $834 cash for the Model 2410--this is installed and running, with a one-year warranty. This phone takes care of both local and long distance calls. The County would keep the cash from the machine and would be billed by Mtn. Bell for whatever calls had been made. The box in the phone holds $540 worth of dimes and $420 worth of other change.

Commissioner Tossberg asked how they could find out how much Mtn. Bell makes from this phone. Jack said they should call Mtn. Bell and give them the pay phone number, and if they refuse to give the information, then write for it on our letterhead. Jack will call in the Toll Free 800 number. He said that when we remove the phone, we just call this Toll Free number and ask Mtn. Bell to come and take it.

Stan Hanson and Bert J. Gailushas, Sales Representative from Colonial Life, met with the Commissioners to discuss their program. They said that about 40 Ravalli County Employees have their coverage. Commissioner Tossberg said that they are reticent to let them talk with employees during working hours because they occupy their time. After some discussion, it was decided that the men could arrange a night-time meeting for the employees and use one of the courthouse conference rooms.

Larry Kreis from Big Pines Subdivision was in to discuss the bridge situation with the Commissioners. He feels that the bridge will go out this spring--it is a bridge that was built from an old railroad car and was not put in right. The Commissioners said that they would not be able to help on this but told Mr. Kreis to go talk with Tom Murphy on this.

Jay Gasvoda was in on a problem he is having with the land description on an old gravel pit that he has purchased. The Commissioners said they would check this out. The gravel pit is on North Birch Creek road. Gary Wiens sat in on said meeting.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Mary Ann Peterson from Prudential Life met with the Commissioners and Bob Brown, County Attorney, to ask if the Commissioners are willing to provide TDAs (Tax Deferred Annuities) for the employees. The Commissioners explained that we already have a program available from G. T. Murray and would not be interested unless there would be a tremendous advantage.

Concerning health insurance, Mary Ann said Prudential has said they would handle group insurance and she feels that the County would qualify. She is trying to get the loading factor off (this adds one-fourth on top of the premium rate), and feels that the premiums would be a decent figure if she can accomplish this. She will proceed on this if the Commissioners agree. Commissioner Tossberg said he would be agreeable for her to look into this as what we have has some problems. Chairman Williams agreed and said we are always looking for something better. Mary Ann said that if this would happen, there would be a clause that would cover existing conditions for the present employees. She said she would also ask that what deductible had been credited on the Blue Shield policies up to June 30th would be applied to the new policies too. She said they are looking at a $150 deductible.

Roger Wingo was in to ask what is happening on the Riverview Orchards RSID. The Commissioners explained that they are negotiating with Mr. Lind, Attorney for the Developers.

The Commissioners signed a letter of agreement with the Pinnacle Engineering relative to Weber Estates.

Steve Harris and Wendy Ninteman from KECI TV in Missoula filmed the delivery of a petition by Naomi Powell, head of a group called Concerned Citizens of Ravalli County, which had been signed by approximately 2700 people. Mrs. Powell was accompanied by thirteen people as shown in the minutes on file in the office of the County Commissioners. Said petition deals with subdivision regulations and planning. See minutes of said meeting for more detail.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 31, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jim Parker was in to discuss the possibilities in the distribution of the Daly Estate.

The Commissioners went with Jay Unrue, County Road Superintendent, for a road tour and checked out areas on which we have received complaints.

Nick Kaufman of Sorenson Assoc. met with the Commissioners for a minute.

Penny Hitchcock brought in a letter of support on the subdivision regulations.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. Williams
(Chairman)

APPROVED: J. B. Tossberg
(Member)

APPROVED: Marion H. Davis

----------0----------

Hamilton, Montana, February 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of December, 1984, were audited and found to be in balance with cash on hand in all funds in the sum of $7,764,212.55.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Steve Goheen was in to bring a letter in connection with the amendments to the subdivision regulations.

Bill Bickle stopped to say he is behind the Commissioners in this subdivision deal.

John McQuaid was in to talk about the constitutionality of what the Commissioners are doing

Following review with Carol Jeppesen, Planning Office, the following Certificate of Survey was filed:

Occ. Sale & Rem. - In SW¼ Sec. 2-7-21 - Lester D. Beers

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, February 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis said he has water running on his driveway down in Florence, and it will soon be on the highway. Chairman Williams explained that Phil Meis from the Highway Patrol had been in to say that there had been two accidents out by Gary Prestons on the intersection of Sunnyside Cemetery Road and Leece Lane. Jay said he would look into this.

Chairman Williams said he had received a complaint on the icy conditions up the East Fork by the Broad Axe. Jay said he had been up there and it was pretty normal for the weather conditions. Commissioner Tossberg asked how far Jay plows on the Blodgett Canyon Road, and Jay explained where he goes.

The Commissioners explained that they had written in on a House Bill that would affect Jay and told him about another that provides that he has to give up some of his Forest Reserve monies to the cities.

There was some discussion on the Golf Course and Rifle Range and whether Jay should help with these entities. Chairman Williams said that Jay could maybe plow the airport, and asked if he would be willing to have his crew do this if he were reimbursed. Jay said he is so short on equipment when he is pressed with bad weather, he would not want to be in a situation where the airport was first priority. He said he would be willing to do these jobs if he were reimbursed and could work it in with his other work. He said his two sanders came Thursday.

Commissioner Tossberg moved to appoint Judy Williams to fill the vacancy on the Health Board. Commissioner Davis seconded said motion. Motion carried.

Gerald Schultz was in to talk with the Commissioners about some problems on the Golf Course.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to audit the monthly claims and attend to office management.

The Commissioners attended an RSID meeting on the Riverview Orchards subdivision at Florence, at 7:30 p.m. in the evening. The Commissioners and Bob Brown, County Attorney, presented a proposal for the homeowners to consider. Tapes of said meeting are available at the office of the County Commissioners. Lucinda M. Duxbury, Rich Duxbury, Roger Boehrs, Sherry Boehrs, Melvin Finlay and Mark T. Finlay attended said meeting.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jim Kazebier met with the Commissioners in connection with the remodeling project in the basement.

Jim Parker was in to discuss the Daly legislation.

John Boyer from American Life and Casualty Insurance, met with the Commissioners. Bob Brown, County Attorney, sat in on said meeting. John said that he has a program that is a result of the TEFRA legislation of 1982 that allows the employee to borrow against their Tax Sheltered Annuity. He said that another benefit of his program is that the employee has access to his money without going through the employer, and can also change the beneficiary without going through the employer. He would like to have the Commissioners make this program available to the employees by allowing payroll deductions. His accounts are paying 12.5% interest right now. The rates are adjusted on a quarterly basis, with no annual guarantee.

Wally Weber met with the Commissioners to talk about the proposed subdivision regulations and the City-County Planning Board. Bob Brown, County Attorney, sat in on said meeting. Wally said he wonders why the city would want a couple of packing plants. Chairman Williams explained the maximum area involved. Wally said that he has chosen to stay away from the meetings because things always get blown out of proportion. Chairman Williams said that the City already has the right to go out one mile with the zoning. Bob Brown explained that zoning does not necessarily affect the city limits. Commissioner Tossberg explained that the biggest fear of the people is annexation, and there is nothing in a City-County Planning Board that makes annexation any easier to accomplish, and annexation is exceedingly hard to do. There was more discussion on the misunderstandings involved. Commissioner Tossberg explained that the one thing they would have the power to do is to zone, but zoning has to be accepted by 60% of the people. Wally said he would want his area zoned for Commercial so that they would not be limited to what they could have. He said he thinks guidelines are definitely needed along

Wally said he thinks maybe we even need some tougher subdivision laws than have been proposed.

Wally asked what the Commissioners plan to do with Blodgett Park. Chairman Williams said he had talked with Geo. Rummel of the Lion's club and they plan to do something on this in the spring.

Commissioner Tossberg went to Helena during the afternoon to testify at the State Legislature for the State Board of Investments.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members presen

Commissioner Tossberg testified at a Board of Investments hearing before the Legislature in Helena, Montana, and returned to the office to plan for the scheduled evening meeting.

Following review with Carol Jeppesen, Planning Office, the following Certificate of Survey was filed:

Boundary Relocation - In SE¼ Sec. 9 - 1S - 19 - Stella M. Powers

At 7:30 p.m. a meeting was held in the downstairs conference room for the purpose of explainin the proposed amendments to the Subdivision regulations. See minutes on file in the office of the County Commissioners.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Dick Weber, Planning Board Chairman, met with the Commissioners to discuss some Planning Board problems.

Muriel Knapp was in to complain about Bear Creek Trail and the need for it to be plowed. The Commissioners said they would check into this.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, February 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Rich Duxbury and Roger Boehrs were in to get copies of all minutes for meetings in connection with Riverview Orchard's RSID. They are concerned about getting good roads in their subdivision and have decided to hire an attorney to defend their rights. They said that they have been offered $50,000 in cash and $48,000 in materials, and this is so close to the original $104,000 on the RSID to bring to County standards that they want to be sure they get a road up to standards. They said that they may want to get rid of the Homeowner's Association too--the Commissioners said they should talk with Bob Brown on this. Up to this point, the developers have had the majority of the votes and can do what they want.

Commissioner Tossberg said that they had discussed with Mr. Lind that the developer could pay everyone's costs, and this may be possible.

Concerning the requirements for the fire department, Commissioner Tossberg and Commissioner Davis both said that they had confirmations from the fire department that the requirements had been met. In connection with park land, Commissioner Tossberg said he thinks this requirement was forgiven in exchange for the agreement that the lots not be split less than 5 acres. Commissioner Tossberg said he would be interested in seeing the papers if this is not true.

Chairman Williams said he wanted the people to know that they would not be getting road maintenance if the roads weren't up to County specs. Commissioner Tossberg reminded them that the County is not required to accept the road into the maintenance system--in fact, what we have said in the past, and we are not bound by that, is that we will consider it when 40% of the lots are occupied. He said that the property owners' legal counsel may want to negotiate on this.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams said they had received a call on Maki Lane and they want plowed out--Earl Maki called. He said Commissioners Popham and Cummings had both assured them this would be done. Jay said they had been in there to fix the road up for a funeral once, but it is not on their system. He said their plows would get tangled up in the fences as the road is only 19 feet wide. There are four families on this road.

Concerning the complaint by Muriel Knapp on Bear Creek Trail, Jay said this was a Forest Service trade-off and he thinks he can take care of this.

The Commissioners said they had received a call on Winship Hill out north of Woodside--there ar three elderly people up there who need some help. They said they brought the road up to specs in 1980 and thought it would be accepted at that time and brought into the system.

There was discussion on the water situations around the County and Jay said he has a lot of problem areas because of the severity of the winter.

There was some discussion on the new NAPA dealer in Corvallis. Jay said that he checks

Because of the Lincoln Day holiday, the Board adjourned to meet the following Wednesday at 10:00 a.m.

Hamilton, Montana, February 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present. The Commissioners attended a MACO convention in Helena, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present. The Commissioners attended a MACO convention in Helena, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m. with no members present. The Commissioners attended a MACO meeting in Helena, Montana.

The Board adjourned to meet the following Tuesday at 10:00 a.m., because of the Washington's Birthday holiday.

Hamilton, Montana, February 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office Manager, the following Certificates of Survey were filed:

Occ. Sale - NW¼ Sec. 8, T6N, R19W - John Robinson

Occ. Sale & Rem. - In E½ Sec. 15-3-21 - James Drinville

Occ. Sale & Parcel over 20 acres - In SE¼ Sec. 10-7-21 - Larry D. Wright

2 Ag. Parcels - In NE¼ Sec. 28-8-20 - John C. Wallace & Donald E. Olson

Retracement - Calument Addn. - Lt. 4, Blk. 51 - Robert Brophy and Donald Moore

Mr. and Mrs. Earl Maki from Maki Lane were in to complain about their road situation. They own 190 acres and their son, Neal, owns 60. Mr. Maki has emphysema and a bad heart and their road is snowed in--they got out by driving through the ditch. They said that they have lived on that road for 60 years and the road had been plowed for them up until 10 years ago when Howard Hammer stopped it, and they have paid in a lot of taxes and feel it is wrong for the County not to do something about their situation. Chairman Williams explained the tax situation, and said that a lot of the taxes paid go to education. Mr. Maki said he would be willing to pay more if they could get their road plowed out. There was some discussion about the adjacent land owners and the possibility of obtaining some more land to widen the road on the South side. Commissioner Tossberg explained that the Commissioners have a real problem with this as they have a number of roads that are in the same situation and the County is not supposed to go into a road that is not up to standards. He asked if there is room for the grading equipment to turn around; the Makis said they could turn around at the Meesers--that is where they always had before. They said that there are four families who use that lane. Chairman Williams told them to call the Commissioners in the event of an emergency. They said that a couple of years ago they had to call the ambulance three times. Over the past ten years, this is the only time they have been snowed in like this.

The Commissioners wished to officially acknowledge the receipt of a petition from the "Ravalli County Concerned Citizens for Freedom". A copy of the preamble to this petition is herein quoted:

"To: County Commissioners
Ravalli County
Hamilton, Montana

We, the under-signed citizens of Ravalli County hereby demand that the County Commissioners of Ravalli County cease adding controls and restrictions on the use, transfer and sales of private property in this county.

We further request that the present controls outlined in the county comprehensive plan be cut back to the absolute minimum required by state law, this includes no county planner nor planning board, which is presently a more than thirty seven thousand dollar annual tax burden on citizens of this county.

We also demand that all efforts to consolidate city and county governments for zoning, planning or other purposes be stopped immediately in keeping with the mandates of the citizens of this county. These issues have always been overwhelmingly voted down at the polls. Hamilton has no right to govern the county citizens surrounding the city unless the citizens themselves petition for annexation."

The Commissioners are cognizant of the amount of work involved in securing the signatures for the petition and the sincerity of those involved. It should be noted, however, that because of the number of issues involved in the petition's preamble, it was impossible to separate those issues which we believe we are mandated by law to do, and those issues where we have some discretion.

In our opinion, the Resolution No. 347 we have adopted today is in the best long term interest of all of the citizens of Ravalli County. We are also convinced after numerous discussions with the County Attorney that we are legally within our power to adopt the Resolution and the clarifications of the Ravalli County Subdivision Regulations.

subdivision regulations. Chairman Williams seconded said motion. Commissioner Tossberg called for a Roll Call vote. Commissioner Davis - Nay; Commissioner Tossberg - Aye; and Commissioner Williams - Aye. Motion carried.

Commissioner Davis stated reasons for his vote as follows: The State has made a law and they require the Counties to set up the guidelines--I feel this is wrong--the State should make all of the regulations so that they are uniform throughout the state.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members presen

Mr. Bancroft was in to comment on the Commissioners approving the amendments to the subdivision regulations. Bob Brown, County Attorney, was present for said meeting. Mr. Bancroft wanted to know the Commissioners' feeling in regard to the City-County Planning Board--he commented that he supposed that they would not attempt to abandon what they have started. Commissioner Tossberg commented that they are waiting for the Attorney General's opinion on this, and this could take from six to eight months. Mr. Bancroft wondered why the Commissioners are devoting their time and energy to this. Commissioner Tossberg stated that the only time and energy they are devoting is to talk with people like Mr. Bancroft. Chairman Williams said that there is some possibility of changes being made, but some planning will be needed. Mr. Bancroft said that there is some truth in the fact that the County misuses the City's facilities, but any changes should be put before the people for a vote.

Commissioner Tossberg asked Mr. Bancroft how far away he lived and Mr. Bancroft said 4.2 miles. Mr. Tossberg suggested that Mr. Bancroft should relax on this--Mr. Bancroft commented that he could not relax as he has seen what has happened in Las Vegas, etc., and wants to protect his grandchildren. Commissioner Tossberg said that all the Commissioners would be doing is taking this one mile at a time.

There was some discussion on the Jail situation, and Commissioner Tossberg suggested that Mr. Bancroft might be of some help to the County with this. Commissioner Tossberg said that it looks like the Commissioners will be forced to build a jail.

In connection with the suggestion of a recall of the Commissioners, Commissioner Tossberg commented that he does not think they can be recalled for enforcing the law. Bancroft said that it appears that there may have been some collusion involved in the voting process between the Commissioners because there is an advantage in someone voting against an issue. Bob Brown, County Attorney, commented that if that were the case, Commissioner Davis should have voted for it and one of the others against it, because Marion can't be recalled. Commissioner Davis said that he has never felt there are any grounds for recall. Mr. Bancroft commented that the ramifications of a recall would be real great as it is a matter of individuals against individuals. Commissioner Tossberg commented that he appreciated Mr. Bancroft's "Vote of Confidence".

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file.

Commissioner Tossberg moved that we appoint Jo Ann Woodgerd to fill the opening in the Tax Appeal Board. Commissioner Davis seconded said motion. Motion carried.

Commissioner Tossberg moved that we appoint Margaret Mason and Al Olson to fill the openings in the Park Board to clarify any misunderstandings on prior appointments. Commissioner Davis seconded said motion. Motion carried.

Dale Dye, Sheriff; Ron Fisher, Undersheriff; Jay Printz, Sergeant; Bob Brown, County Attorney; met with the Commissioners in connection with the jail situation.

Bob Brown said that he would like to explain the Attorney General's opinion on comp time before starting on the jail situation. He said that there is no longer any "Comp" time, that the employees have to be paid time and a half for any overtime they work over a 40-hour week. This does not cover elected officials. Bob Brown said that the Supreme Court has been known to reverse decisions, but right now Dale should be careful to know that he has to pay time and a half for overtime for his men.

Ron Fisher said that they are having a problem with the lines not transmitting into the Sheriff's Dept. from the Road Dept., Fair Grounds, and Museum. They said they need an electrician to look into this.

In regard to the jail problems, Dale said that he thinks the first move would be to hire an architect with some knowledge on penial institutions to look into the needs. They need a projected capacity of 20 beds for the adult male section; 6 beds for the female section; 6 beds for the male juvenile section; and 6 beds for the female juvenile section. Juveniles have to be separated from adults by both sight and sound--this includes even the booking facilities--they are not supposed to even come in contact with each other in an elevator--some courts are going so far as to say that the facilities should be completely separate. Chairman Williams commented that the requirements are staggeri Dale said he feels they are "asinine and stupid".

Commissioner Tossberg asked Dale if he is interested in a "jail consultant". Dale said he does not think this is necessary as the jail consultants are available to the architects if they need

Dale said that a few years ago the National Correction Institution had a program where a Commissioner and the Sheriff could have their way paid to a week or two of schooling to plan a jail, and something like this might be feasible. Commissioner Tossberg said he has a feeling that grants like this have disappeared. Dale said he would have to check this out.

Bob Brown said that if he remembers right, the way to solicit for an architect is to give notice in the paper and then interview those who are interested. He said that you should always try to make deals with the architects as some provide extra benefits. Commissioner Tossberg commented that it may be similar to the way they selected the engineer for the airport. Chairman Williams said that he wants to be sure that they are not spinning their wheels and end up with a jail that still does not meet the requirements. Dale said that the requirements are changing all the time and the only thing we can do is work with what we now have. He said that he would want to be sure that the architect is bonded so that we can come back on him if he does not produce what he is hired for.

Commissioner Tossberg said that there are three firms that we can start with: 1. Link and Assoc.; 2. the Spokane Outfit; and 3. The Great Falls outfit that is building the jail in Lewis and Clark County. He said we would solicit those three firms by mail and then put a notice in the paper.

There was some discussion about the Legislature and the Commissioners said that the bill that they thought might have helped them out had been defeated.

The present jail holds 17 people, and Dale said that at times they have up to 16, so are at capacity; he thinks it might be a good idea to increase the 38 bed projection to 40.

Commissioner Tossberg said that we are looking to budget cuts up to 35% in the General Fund, so this comes at a time we might have a real problem meeting our regular budgets. Dale said that their paper work is getting so complicated that it's almost impossible to comply.

Chairman Williams asked Dale if he will be planning for a congregate area like they have in the Spokane jail--Dale said that he thinks this is against regulations and Spokane may get into trouble on this--he thinks you can only have two persons per cell, with toilet facilities for each 2-man cell.

Bob Brown commented that he is sure juvenile facilities would be used if we built them as Missoula County's do not comply and they would use ours.

Dale said that we should also plan for a cooking facility in the new jail and laundry facilities.

Commissioner Davis asked if the juvenile facilities could just be put on a different floor than the adult facilities. Dale said they could be as long as different entrances were provided.

Chairman Williams commented that we need a work release area--Dale said it is much needed--he said that he is sure the program to keep people overnight and release them to their jobs will come back.

There was some discussion about building over the employee's parking lot--Dale said this would have to be looked into to see if it is cost effective, and we might even look into putting another story over the present courtroom. He said that a lot of jails around the state are on the second floor. The Commissioners said they may check into the Lewistown jail and the Circle jail to see if they are like what we would need. They could also check Kalispell.

Dale said that it may be that we could get a feasibility study done free with the economy as it is now. Commissioner Tossberg said that we could shoot to get something on the June, 1986 ballot. Dale said this is a good idea.

Commissioner Tossberg commented that he had heard that a local architect should work along with the other architect if you pick one that is not local--this avoids problems in the long run.

Dale said that the law says that we can work the people in jail. He would also like to have a cost-effectiveness study done on having the Sheriff's office close to the jail.

Concerning the old jail blankets, Ron Fisher said he would like to sell them at the auction this spring. The Commissioners said to go ahead. They said they would also like to have the extra office equipment sold at the same auction. Blue Mountain Auction will be conducting this.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

A meeting was held in the basement conference room in connection with the AIS Voting Counter.

Chairman Williams attended the RC&D Financial Resource Committee in Missoula during the afternoon.

Stacey and Sherrie Auch met with the Commissioners in connection with Cash in lieu of Parks in Stock Addition. Commissioner Tossberg said we could possibly save them some money on this as there is a bill pending before the legislature that would make it so that if this is your first minor subdivision, you would not have to pay cash in lieu of parks or give any land. We have no idea if this will pass, but Commissioners Tossberg and Davis said they would be agreeable to extend the conditional approval for another six months to see what will happen. Commissioner Tossberg said that this will leave them in limbo for a while longer.

The Auchs wondered if they could cancel out Geigers in their chain of title and pay directly

Recorder and be sure this is done right.

Dr. and Mrs. Sage met with the Commissioners to talk about subdividing some property they own down by Victor. They wanted to know if they could divide a 20-acre parcel into 4-5 acre parcels without getting involved in paying park monies. Commissioner Davis explained that they should hold up on this because there is a bill in the legislature and if it passes, they do not have to pay cash-in-lieu of parks or give any park ground on their first subdivision. The Commissioners explained that the legislature will be through about the first of April, and it would be worth waiting for their decision. Dr. Sage asked if they would have to pay a park fee as it now stands and the Commissioners said "Yes", as long as there are more than two lots created. They also asked about dividing into 2-acre parcels and Commissioner Tossberg explained that a major subdivision is not much harder than a minor. Commission Tossberg said that if this law does not pass, you could just as soon divide it into five parcels. Commissioner Tossberg expressed his appreciation for what Dr. Sage is doing for the Senior Citizens in Victor. Commissioner Davis said it might be a good idea to have the County Sanitarian look into this before they do any surveying so he could pick up problems before any money goes out.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Reloc. of Bdry. - SE¼SW¼ Sec. 14-3-21 - Maynard & Molenda

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, February 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved that we adopt Resolution #348 relative to the Selway Corporation, and direct that the Chairman sign all necessary documents. Commissioner Davis seconded said motion. Motion carried.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Gary Wiens, Ravalli Republic, sat in on said meeting. Commissioner Davis told Jay about a telephone call he had received from Joy Ritchie on the West Fork Road. There was some discussion on the Maki Road and Chairman Williams said they would write a Letter to the Editor to answer the one Frances Maki wrote. Bob Brown, County Attorney, will check this out.

There was some discussion on the Indian Prairie Loop Road and adjoining roads as the Commissioners had received calls from several people complaining about the condition of the roads. Jay said it would be hard to build a barrow pit deep enough to stop the water in that area, but his crews would be working on this to do whatever they could. There was some discussion on a portable steam plant and Jay said that it is expensive and slow.

Commissioner Davis commented that the water situation has cleared up down by Florence.

Commissioner Tossberg asked if arrangements were ever made on the Moise Bridge with Mr. Norway Jay said that the bridge is still frozen up but they will be doing this as soon as it loosens up.

Henrietta Brandon was in to say that she has hired Annette McDonald to replace Teresa Wicks, who has moved away.

Order of Transfer of Lands was received from Greg Danelz, Acting Ravalli County Superintendent of Schools, transferring lands from Elementary School District #2 into Elementary School District #13, as described in said order, on file in the office of the County Commissioners.

The Commissioners set March 25, 1985, at 1:30 p.m. as the hearing date for the Roaring Lion fire petition to be annexed to the Hamilton Fire boundaries.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Kermit Indreland, transportation supervisor for the Stevensville school, was in to discuss the paving of the street by the school bus shop. After some discussion and research, it was decided that the street in question was in the Stevensville city limits.

Mr. and Mrs. Henry Meyer from the Lower Burnt Fork School Bus Road down by Stevensville, were in to say that the course of the creek is being changed and the result will be a dry bridge if something is not done. Mr. Meyer feels this was caused by the water the Three-Mile water users are not using from the Big Ditch, and turning down this creek. He said that this was turned down this creek most of the summer last summer and did a lot of washing. They said that one of the Leese boys is the ditch walker down there. Commissioner Davis said he would stop and look into the situation.

Planning Board situation. The Commissioners explained that they have requested that Bob Brown get an Attorney General's opinion on this. Natalie then asked if the Commissioners had made up the resolutions stating the status of the board. The Commissioners explained that this Board is only an advisory Board, not a legal Board. Natalie said that she wanted the status of the Board established. Commissioner Tossberg explained that they will be starting over on the whole thing. Natalie said that there are State laws that should be followed to get the proper procedure. Commissioner Tossberg said that they are following the State laws. Natalie then commented that in order to stop this Board, they would have to start a law suit. Commissioner Tossberg said that the Board is not doing anything--they are just studying the situation. Natalie argued that this is not an advisory board as long as it is set out by the State statutes. Commissioner Davis explained that we are not taking any information from the Board and Commissioner Tossberg confirmed this by saying there is no direct input and no written documents, that the only connection with the group was the first meeting they attended and a meeting with Nick Kaufman. Commissioner Davis said that they had told the Board that they were only a study group and not to do anything until they get the Attorney General's opinion. Natalie asked why they should even be there if there is no legal status to the Board--she said she would like to have a Resolution made showing that they are only a study group or an advisory group.

Commissioner Tossberg explained that there are two places in the law that call for Resolutions:

1. To establish boundaries.
2. If you were to appropriate any money.

Commissioner Tossberg explained that we have not done either of these things. He said that when we hear from the Attorney General, if the decision is in our favor, we will adopt these two Resolutions. Natalie said she still felt that these Resolutions should have been adopted before the Board was ever created.

Commissioner Tossberg asked if the thing that was bothering Natalie the most was the area of jurisdiction. Natalie said that her main concern is that it was illegally constituted. She said they could study 4½ miles or whatever they want as long as it is done according to the State codes. She said she does not think that a citizen should have to file a law suit to be heard.

Dave Demmons, Probation Officer, was in to say that he would like the Commissioners to study HB 801 as he feels this will cost the County a lot more money if it is passed.

Following review with Don Mullin, Planning Office Manager, the following Certificates of Survey were filed:

Bdry. Rel. - NW¼ 33-7-20 - Tom Menager

Non-Residential - SE¼ 31-7-20 - William Engler

Bob Metcalf, the newly appointed Chief of the Sula Fire Dept., was in to discuss the Fire Dept. situation with the Commissioners.

Charlotte Critchlow, County Extension agent, was in regarding telephones. She said that her office could use another line and has researched the situation and it appears that it would be cheaper to buy a Merlin system than to keep the old system.

Commissioner Tossberg said that it appears there are two ways they might save money:

1. By owning our own equipment.
2. By reducing the lines into the building.

The Commissioners are wondering if they should allow this to happen piecemeal, or do the whole thing at once. They said that it is possible that they can find a company other than Mountain Bell and AT&T that would sell the equipment cheaper. Charlotte commented that the trouble with other companies is that they have to be paid for all at once, they are not able to carry their equipment on a credit status. Commissioner Davis said that Charlotte should ask if this equipment could be converted into a central system.

The Commissioners said that they would study this situation and it might be that this should be done around June 30th when it could be incorporated into the new budgets.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Bob Brown, County Attorney; and Jack Beatty met with the Commissioners in connection with the courthouse phone system. Bob Brown expressed concern about keeping the confidentiality of the phones. Jack said that this feature is available in the Merlin system and many of the others too. Bob also expressed concern about cutting down on the lines in his office as he said his lines are constantly in use and many times someone is waiting for a free line so that they can place a call. Jack explained the electronics of the new systems and said that they are set up to free up the lines. He said that there is so much more available than was available a few years ago that it is astronomical. He said that some of the better systems are Japanese--that Toshiba is Japanese made and is a real good system. The four best systems you can get are Japanese made.

Commissioner Tossberg asked what Jack could do for the Commissioners and what it would cost. Jack said that the first thing would be to bring in a technician to check out the wiring and talk with

the department heads to determine the needs. A proposal would then be made. He said that they could also do cost comparisons. After more discussion, the following motion was made:

Commissioner Davis moved and Commissioner Tossberg seconded that "Beatty Associates", Star Route, Conner, Mt., be authorized to perform an inspection and evaluation of our present telephone facilities at a cost not exceeding $600.00. Commissioner Davis further moved and Commissioner Tossberg seconded that Beatty Associates be authorized to replace the public pay telephone in the foyer of the courthouse with a new unit at an installed cost of $834.00. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, February 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Lyle Thiebault from the Ward's Cove Mobile Estates met with the Commissioners in connection with some people in their area who are not keeping the covenants. He said he would like the Commissioner to drive through and see for themselves. Commissioner Tossberg explained that the people themselves have to enforce the covenants, that the County can not. Mr. Thiebault said that there are some conditions that are close to a health hazard and Commissioner Tossberg said that the County Sanitarian may be able to help with that and the Commissioners would have him check into this. Commissioner Tossberg said that the people out there who object should see an attorney and a letter from the attorney might do the trick.

The Commissioners attended a Board of Health meeting which was held at 1:30 p.m. in the Extension Conference room. Minutes are in the Board of Health file.

Susan Dodd, a school teacher from Victor, met with the Commissioners. She has been living in the Skyport area in a rental house and said it is quite a problem to her to move right now as she has 10 truck loads of personal property plus a couple of loads of wood to move and will be moving out of the State in June anyway. Commissioner Tossberg said he feels we should give a notice of eviction to be out in three weeks, and Susan can keep us posted as to how she is doing. Commissioner Tossberg said that the landlords should make some kind of a deal with Susan as they owe her a favor. He suggested that maybe she could leave some of her belongings in the house until her move. Commissioner Davis said that he thinks she should definitely have her belongings out of there before May 1st, as that is when high water could start and she might get into a situation where she could not get out. He suggested that "The Manz" in Victor might be available to rent and told her where to inquire about it. Susan said she would work actively at finding another place to stay.

The County Commissioners approved a Notice of Bid on a centralized vote counter to be published in the Ravalli Republic on March 5, 12, and 19, 1985.

Upon motion, the Board adjourned.

ATTEST:

Darlene E Hughes
(Clerk and Recorder)

APPROVED: F T Williams
(Chairman)

APPROVED: Marion H Davis
(Member)

APPROVED: F.B. Tossberg
(Member)

----------0----------

Hamilton, Montana, March 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of January, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $8,843,762.18.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Commissioner Tossberg and Commissioner Davis attended an energy meeting in Missoula.

Jay Printz served Chairman Williams with papers in regard to a civil action Cause No. DV-85-80 - Janet Wildhaber v. Ruth Cleveland, Ravalli County Treasurer, Ruth Cleveland individually, and Ravalli County.

Tom Parks was in to say he is concerned about the road he lives on--Grouse Butte Lane. He said that he has been plowing this road all winter and thinks the County should do something on it. Chairman Williams said he would check into this.

Chairman Williams attended meetings in Missoula in connection with RC&D and the Financial Resource Committee.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, March 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Williams and Tossberg present.

Commissioner Davis was out of the office for the day.

A meeting was held in the downstairs conference room with department heads to explain the new Attorney General's opinion on comp time.

Tim Miller was in to complain about the condition of Tin Cup Creek road. He said that where the Sturgis driveway joins the road, the water is gushing down the road and he thinks a culvert is necessary to get the water off the road. The Commissioners said they would discuss this with Jay Unrue when he comes in for his weekly road report today.

In connection with the Upper Bitterroot TV business, Chairman Williams asked Tim if they had settled their problems and Tim said he felt they had. The Board of Directors are Bob Hart, Tim Miller, and Wilmer Wildey, and Wilma Brist is the Secretary-Treasurer. They have been unable to find any By-Laws.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams asked Jay what size sand they had on hand as the Golf Course needs some. Jay said he had some with pebbles up to 5/8ths inch--that is the best he has. Chairman Williams said they could screen it. Chairman Williams said that they may have a need for an additional culvert out at the Golf Course.

The Commissioners explained that they had received a complaint on Grouse Butte road and Jay called his men to do some heavy sanding on this road.

Commissioner Tossberg said that he had received a call from Mr. Bridges on a bad water problem on Harold White's road. Jay said that he had discovered this yesterday and had his men on it.

The Commissioners explained the Tin Cup Road situation to Jay and Jay said his men had worked on this last Thursday and put a drain down the side of the road. Jay said he does not think a culvert is necessary and that the drain will work.

Jay explained that he had a bad wash on the Dry Gulch road that his men would be working on. He also explained a situation on Wakantanka Road where they had cut the trees out of the right of way and someone had felt they were his trees, but Jay explained the right of way situation and resolved the problem.

Both Commissioner Tossberg and Chairman Williams said that they had checked out the Black Lane situation. Chairman Williams said he noticed some large concrete blocks and wondered if they could be removed to allow better drainage. Commissioner Tossberg said it looked like this has always flooded from the kind of grass that is growing there. Jay said he is working out a proposal on this.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Tossberg seconded that we extend the decision on Riverview Orchards 60 days from March 1, 1985. (to April 29, 1985) Motion carried.

Kathy Hadley and Gail Kuntz (Kuntz-Hadley & Assoc.) Kathy-846-1125 (Deer Lodge); and Gail-782-7515; and Greg Lakes, The Missoulian; met with the Commissioners in connection with energy conservation. Kathy said that they were visiting Ravalli County first and using Ravalli County as sort of a guinea pig

to get the opinions of the Commissioners. They will be contacting other local governments too to get their opinions. The girls said that the BPA has appropriated $600,000 to be used to help local governments to conserve energy and they want to establish a program that will help them to take advantage of the opportunities that have been provided by the BPA and other utility companies.

Commissioner Tossberg said that they are not interested in any innovation projects--what we need is some insulation and some storm windows. Our problem is that the courthouse is served by Montana Power Company and probably most county buildings are, with the possible exception of a County Road Station that might be on RCC. The girls said that their understanding has been that local governments might not be as well informed on what is available as they should be, and they would like to get a grant to do a study to accomplish the following:

1. Better educate people on the availability of existing programs available from BPA, Federal, State, MPC, and the electric co-ops.
2. Enable the rural governments to take advantage of these programs.
3. Determine if there are programs that can be implemented to help local governments.
4. Inventory programs for measures practical for local governments--find out what each county is presently doing.
5. Screen programs to see what is appropriate and accessible to the Counties.
6. Write a blueprint report to document activities.

The girls would plan to tap the knowledge of Dale Horton, who has done extensive research in several counties, to see what is needed, and use him as a starting point to find sources of financial assistance to the counties.

Chairman Williams stated that his concern would be that he would not want to see the girls parallel any of the existing programs--he feels their program will be much more effective if they do not do this. Chairman Williams said that the Human Resource people have been working on energy conservation in several ways and the girls should check with them to see what they are doing.

Commissioner Tossberg said that we already have a report from Dale Horton on what is needed in the Courthouse and Museum to save from 20-25% of the energy expended. We have done no surveys on the vehicles yet to see if some fuel could be saved. What we really need is someone to get the money for us--we lack expertise on how to get the money.

The girls said that perhaps they should start with Dale's report and target their energies toward obtaining funding to implement Dale's suggestions.

If the girls do apply for a grant to help in this area, they would need help from the Countys to administer and apply for the grant and to sponsor them. They will also need a letter of support from the Commissioners and will be getting letters of support from the utility companies, etc. They would then plan to work closely with Dale Horton.

Commissioner Tossberg said that he does not have much of a feeling that the Montana Power Company has tried to sell energy conservation in a big way--the Co-op has done a little better. He said that Dale Horton has scheduled a demonstration for March 26th and will have an engineer go through our heating system to see how it could be made more energy conservative.

Greg Lakes commented that one of the attractions of the proposed program is that it would be specifically designed for our county. He said that if the girls have to go to a lot of other counties in order to obtain their grant, there is a danger that the program would become watered down. The girls said that they only intended to include 2 or 3 counties so that this would not happen. Greg asked if the girls will be writing proposals for grants and the girls felt that this may be where they could be of the most service.

Jim Morton and Rose Goss met with the Commissioners in connection with the RC&D and 5-Valley Council.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved and Commissioner Davis seconded that we grant conditional approval to Loretta Martin on Lt. 24, Blk. 2, Corvallis Tracts. Motion carried.

Motion was made by Commissioner Davis to accept the bid of Campbell Massey in the amount of $2433.00 for work on the old reclassification office. Motion was seconded by Commissioner Tossberg. Motion carried.

Dale Sickles, John Link, Bob Brown, County Attorney; and Dale Dye, Sheriff; met with the Commissioners in connection with the proposed jail. Dale Sickles said that HB 651 is still alive and might help the counties with some funding for the jails. Dale passed out brochures explaining what his architectural firm has done. There was some discussion on the jails that would be similar to what we need--he said that one in Sheridan County would be similar to ours. They feel that a split level facility provides good visibility. In the exercise yard, they have been topping the fence with razor ribbon and not covering it. Dale gave some cost figures per cell on some of the buildings he is working on--it depends upon what other facilities are added on.

Commissioner Tossberg explained that the Commissioners would like to be in the position to submit their proposal to the public for voting in June of 1986--at that time, presumably we would have a location and a good idea of the cost and a projection of how long the building would last and fill the needs of the County. He explained that we are pretty limited in where we can put it--if we can not build over the parking lot, we are talking about new courtroom facilities too. Commissioner Tossberg said that the Commissioners would like John and Dale to look at the parking area and see if a structure could be constructed out there that would serve the County for 30 years. Bob Brown commented that the County is short on room for the courts right now. Commissioner Davis asked if it would be possible to plan so that stories could be added as the need arises. John said that many things have to be thought through in order to accomplish this--it is reasonable to assume that the court system would be inadequate in a few years and there would be a need for space for the mechanics--there is even the possibility that the whole courthouse will be needed for the law enforcement process within the next 20 years, and the administrative part of the courthouse would have to be moved elsewhere. Glendive is planning to go up on their building. John said that the Commissioners should be careful not to think too small on this project. He said that you can not judge completely by the cell count--extra cells have to be built in for detention, etc., as there has to be swing cells to serve the temporary needs. Dale Dye said that they proposed around 40 beds five or six years ago when the jail was proposed.

John said that this is a critical issue. Planning should be done right now for expansion. There are two ways to go about this: 1. Through the National Institute of Corrections in Boulder, Colorado--they will send up a study team for a nominal amount of money. Dale said that he had understood it was free--John said that it is not free, there are some administration costs, but they are nominal. They require this before they provide the free school. John said that the only problem with this is that Ravalli County gets thrown together with the overall picture and compared with big places like San Francisco so that the numbers get beyond the scope of being practical. 2. Another way is to use local services--John likes to use John Fitzpatrick in Helena. He has a doctorate in statistical analysis and his numbers are based on what we have here. John said that accurate background information is really necessary to get the kind of projection we need. John said that their firm can handle the whole thing or we can contract this out separately. This takes a couple of months to compile statistics, but John feels this is worthwhile.

John said another serious issue is the bond election--he said they have been through many bond elections and try to learn something with each one. One thing they have adopted is that bond elections should not be run in the spring--there is a dismal record of those run in the spring--it is tax time, election time for local officials, mill levy time. He said he urges us to run the bond election at some time other than spring--he said the records of success have been better in the months from September through December. Commissioner Tossberg said that we can not spend $20,000 for a special election, and had figured we could try in June, and if it failed, try again in November. John said he feels it would be better to put all of our eggs in one basket and do it in November. He said that there is a way to go about this that would be very effective, and that is to form a citizen's committee. We can go through the voter registration and determine yes, no and swing votes--leave the yes and no votes alone and go after the swing votes--then on the day they vote, check the register and go after the yes and swing votes who have not come in to vote.

John said that the preliminary design development plans would run between $12,000 to $18,000 and would fall under the $20,000 category. It would probably be around $3,000 to $4,000 for the statistical study. It would take around five months to put this package together. John said that they have done in less time, but feel pushed.

There was some discussion about doing this this November; Bob Brown said that this would require a special election.

John said that the $20,000 package would give good figures for going to the voters--he would not advise the commission to go beyond this preliminary study as it involves too many dollars. After a successful bond issue, it takes about six months to draw up the plans and another 16 months to build the facility.

Commissioner Tossberg asked John to give them a couple of good reasons why the Commissioners should choose their firm over another. John said that he thinks they offer a substantial service--if you hire a local architect, it does not guarantee the best job. He said they work all over the state, and he feels the people they have done work for will stand behind them. In connection with cost--over the years owners have been reluctant to accept architectural cost figuring because they have been burned--he said that they have an outstanding record of cost control--they keep within the margin. On the Montana State Prison, they have estimated $14,500,000, and have just completed the bidding and have come within $200,000--on a big project, that is real close--they feel they have earned the right to be believed.

Commissioner Davis asked if they work with the local architects on their projects. John said that they work differently on each project--on the Montana State Prison, they have a man on site all of the time as it is such a big project. In Fergus County they have a man on site once a week during

construction. They always have the man who designed the project carry through on his particular project As Helena is close to Hamilton, they would definitely work from the Helena office on our project.

Commissioner Tossberg explained that the Commissioners are real interested in keeping the number of employees down for maintaining the facilities. John said that staffing patterns is a real critical issue and they do work on this--in Glendive they felt they saved hiring two men by their planning procedures--he said that you do have to plan that a new structure will cost more money, but they keep it down as much as possible. He said that John Fitzpatrick is real good with projecting figures for this too.

Commissioner Tossberg asked about energy conservation. John said that this is a hard issue, he does not like to get the pendulum too much to one side and feels it has gone too far at this point in time. They try to strike a balance. They hire a company as a part of their program to run a study for energy characteristics usually using Sonny Hanson out of Billings. They are real careful to keep within the means where the energy conservation construction will pay off.

Commissioner Tossberg stated that if financing were available, it might be that the bond issue would pass more readily. He said they would like to get a commitment from the State for one-half the costs. John said that this may or may not work--Dawson County had commitments for a large part of the money, but their bond issue still failed. He said that citizen involvement is the best way.

The Commissioners told John and Dale that they would be making a decision after the 15th of March.

There was some discussion on joining with the City on the facilities and Dale said he would not want to do this as it would cause too many problems.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

A letter to Dennis Lind, Attorney for the Developers in the Riverview Orchards Subdivision, was dictated by Bob Brown, County Attorney, signed by the three Ravalli County Commissioners, and mailed. Said letter made a proposal on the roads and set up a meeting for March 12, 1985, at 7:30 p.m., at the Florence High School.

Chairman Williams and Commissioner Tossberg went to Helena to testify on HB 870 for District Court and to talk with the legislative representatives concerning bills of interest to Ravalli County.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Commissioner Tossberg testified before the legislature for the Board of Investments. Chairman Williams talked with the legislative representatives in connection with various problems concerning Ravalli County.

Jim Jensen and Erin Houtchens from the Lone Rock Park were in to visit with Commissioner Davis.

Dick Hagerty, Licensed Contractor, came in to get a set of plans for the basement project.

Cliff Ensley was in to visit with Commissioner Davis in connection with setting up an auction service in the County.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, March 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Mel Finlay was in to say that he would like to put up a sawmill down by his place. He is buying it from Morris Jessop and will be making railroad ties and shipping them to Somers to get creosoted. They will need sanitary facilities and Mel has already talked with Don Mullin on this and everything is okay. Chairman Williams asked what kind of a building will be put up and Mel said it won't be a big building, but it won't be an eye-sore either--it will look nice. Commissioner Davis expressed concern about that ground being swampy and Mel said that it is okay where he is putting the mill. Commissioner Tossberg gave the address of the State Highway man to Mel for him to check with.

Gary Jacobson, architect; and Dale Dye, Sheriff; met with the Commissioners in connection with the proposed jail project. Chairman Williams explained that we are looking into the possibility of using the parking lot and explained the requirements and said we would like to project this for 25 years. Commissioner Tossberg explained that we would like to have a proposal ready to put on the ballots for the June or November, 1986, election. There was more discussion on the needs for the jail.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay gave the Commissioners a copy of the letter he has mailed to Mr. John Ryan, of 161 Black Lane, Corvallis, relative to his complaint. Chairman Williams asked where the water comes from up there and Jay said he thought mostly from Daly Lake.

On Cormoret Loop, Jay said his proposal would be for the people either to put 4 inches of gradable gravel on the road, which would cost them approximately $12,000, or put $12,000 cash up front and Jay will prepare the road and oil it so that they will not have the maintenance in future years. The $12,000 would buy the oil for the project. Commissioner Davis said that they should put up the money

first, then the road should be accepted into the County system, and then the road crew could go to work on this. This would be a two shot oil penetration, which would be just like the 8-mile road right next to it. Jay said that the people should be told ahead that upon the acceptance of a County road, everyone will have to have a permit for their driveway and will have to have the proper culverts, etc. The Commissioners said they would work up a letter on this to the people on Cormoret Loop.

Commissioner Davis said that there are three big holes along the County-line road. Jay said his patch crew is out today.

Chairman Williams said that he has talked with George Rummel on the Lion's Park and they are going to have the big pine tree in the entrance removed and a smaller dead pine. They really need some help getting some cottonwood trees out of the river. If all of this could be accomplished, the Good Sam club has volunteered to cut up the trees for firewood for the campers. Chairman Williams wondered if Jay could use the crane to get the cottonwood trees out of the river, etc. Jay commented that this is not a road, and Commissioner Tossberg expressed concern about using road equipment for this. Chairman Williams said that George Rummel has made arrangements with the Donaldsons to put some of their cement in the river. Jay said he would be able to do this if he were compensated for his expenses. Commissioner Tossberg said they should discuss this with Bob Brown.

Commissioner Davis asked if cleaning the ditch on the Golf Course was a County job. Jay said that it is not hurting their roads--he said it is not their problem if ground water is coming to the surface, and he is concerned about where the lines are buried out there and would have to have them marked in red if he takes his equipment in there. In connection with the culvert that is needed at the Golf Course, Jay said that a steel one would be $102 per foot and a concrete one would be $85 per foot. He said that if they decided on the concrete, he would want the privilege of working it into his schedule so it does not disrupt what he has already planned.

Jay said that he has a complaint from Joe Johnson on the Woodside bridge. Joe said that when the road department came in and riprapped, they changed the course of the river and washed out his road and he thinks the road department should protect his bank. Commissioner Tossberg commented that this was never much of a road, and that Jay should tell Bob Brown about this. Jay said that he feels this is not the road department's responsibility and would not plan to do this

Ron Fisher, Undersheriff, served Chairman Williams with a Notice of Deposition in the Wildhaber vs. Ruth Cleveland Civil Case.

Jim Parker was in to talk about the Daly estate.

The Commissioners, as members of the Ravalli County Park Board, signed a "hold harmless" agreement with Ronald Gibford, who has been authorized to remove certain pine trees along a channel of the Bitter Root River as it flows through the Lion's Park.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Dave Schlechten and Jerry Schultz met with Bob Brown, County Attorney; and the Commissioners in connection with the jail project.

Tom Gorczyski, architect from Missoula, met with the Commissioners to discuss the jail project.

Helen Tout was in to introduce Wendy Holmes to Marion Davis. Commissioner Davis consented to become a member of the Summit Board.

The Commissioners attended a Riverview Orchards meeting in Florence at the High School at 7:30 p.m. Minutes for said meeting are on file in the office of the County Commissioners.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board File.

The League of Women Voters has asked the Commissioners to talk with them on current legislation and how it affects the local government. Said meeting was set for May 2, 1985, at 1:30 p.m. in the Extension Conference Room.

Del Crawford was in to talk with the Commissioners about an indoor range for pistol shooting. He said that Whittecar is considering putting up an indoor range out there. Commissioner Tossberg said that they are in the process of making plans to use one of the fair buildings to shoot in and Dale has ordered some equipment. Del wondered if there would be any financial support on this available. He is the liason for the rifle range and will have a meeting tonight and will know more after the meeting. The Commissioners said they would talk with Dale on this.

Bruce Midgett from Ravalli County Chemical Dependency met with the Commissioners to talk about two bills that are before the House. He said that the Commissioners and his organization are on opposite sides on HB 651 as it proposes that the extra revenue from tax on alcohol go to help build jails. Commissioner Tossberg said that as of March 6th, this bill was not dead--the last he knows, it is still alive. Bruce said that he would like to agree to disagree on HB 651, and would like the Commissioners' support of HB 374 if HB 651 dies. The Commissioners said that they could see no problem with this.

Bruce said he would keep the Commissioners informed.

A contract was signed between the Commissioners and Campbell Massey on the $2433 project to fix up the old Reclassification Office so that the Treasurer's Office can use it.

Dave Ballinger was in to discuss cash-in-lieu of parks on New Farm Acres.

Fred Nelson from Arrow Ambulance; Dale Dye, Sheriff; and the Commissioners met to discuss the possibility of Arrow Ambulance taking over the business of running the ambulances in Ravalli County. Fred said he would have to check this out to see if they could make anything from taking this over--he said that he would have to use the volunteer system as it is now. He asked Dale if he wants out of the dispatching also. Dale said he does not think that is feasible as they have a central dispatch.

Fred asked for a record of the calls that are made and Dale said he could get them for him. He said he would need to collect around 85% and asked what the collection rate is in Ravalli County. Dale said he thinks around 65%, and that Fred could get those figures from the Credit Bureau. Fred said that he would have to run a person full time down here to keep charge of the operation. He said that he would have to raise the rates some, but would not try to charge as much as they do in Missoula. He also asked if it would be a problem to bill out of Missoula as they run their billing off the computer. The Commissioners said they saw no problem with this--if he took over the business, it would be up to him.

Fred also asked about the possibility of using the ambulance vehicles that the County owns--he would maintain them and supply tires, etc. Commissioner Tossberg said that they would have to discuss this with the County Attorney. He said he could see a problem with this as Arrow Ambulance could decide after a couple of years that the business did not pay and then the County would have to run the ambulances again. Fred said that he would have no objections to Dale's crew inspecting the ambulances regularly--he always keeps his vehicles in good shape as it is poor business to do otherwise. If one of the ambulances had to be replaced, we would replace the vehicle and retain ownership, or Fred could purchase the new vehicle and then it would belong to him.

Fred commented that he likes the central dispatch system. Commissioner Tossberg said it looks like the State is going to go with the 911. Fred said that this would be beneficial to him.

Fred said that he runs a strict training session with his people and wants everyone to be an EMT. Dale said only about 30% are EMTs right now.

Fred said that he would check this out and get back with the Commissioners.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

2 Ag. Ex. & Remainder - In NE¼ Sec. 12-10-20 - William Hayward

Don Hall met with Commissioner Davis to check out the basement lounge area.

Jeff Langton, Attorney, met with the Commissioners in connection with North Kootenai Creek Road. Jeff explained the background to Commissioner Davis--he said that the road has gotten real rough during the winter and he has talked with Frank Klements at the Forest Service and they are willing to go in and level the road up and do the fills, and then they would like the County to go in and do some topping work as agreed in the agreement. After that, the Forest Service will do the maintenance work. The Commissioners said they would talk with Jay on this. Jeff said that there is another technicallity and that is the accepting of the road into the county system and then turning it over to the Forest Service by signing their Forest Development Maintenance Agreement. Commissioner Tossberg said he would get together with Bob Brown on this, and they would get together with Jay to have him work with Frank Klements.

Jim Haynes, Attorney for the landowners in the Riverview Orchards subdivision, and Jay Unrue, County Road Superintendent, met with the Commissioners. Jim said he had talked with Tom Hanson and can have a meeting with him tomorrow afternoon to see about a reduced bid. He talked with Lind and said that he thinks the price of the bidders is double what it should be--that they raised their bids after they had talked with Jay Unrue. He said that according to what the Commissioners said at the last meeting, they thought it could be close, but not to county specs. He does not think he needs to build this road to specs. He said that his people will give $50,000 and a "hold harmless" claim would be signed. Jim said that he is not willing to accept less than county specs for his clients. He said the "Bitterroot Hacks" that gave their bids claim that they got professional advise from Jay Unrue, and are relying on Jay's name to say that the road is acceptable, and Lind is under this impression. Jim said that he feels they need to talk in more detail and then maybe Mr. Lind's clients could come up with more money if it was discovered that the bids were not what they should be. Jim said that he brought up the $80,000 figure to Mr. Lind and he said "Definitely not", but he said maybe $10,000 and the culverts.

Jim would like a meeting with a couple of the Homeowners--probably Rich and Mel, the Commissioners, Bob Brown, Dennis Lind, and Jay Unrue, and the road builders to see if they could talk this out--Jim said that he needs to satisfy his clients as to whether they are going to get a satisfactory road that will last--he said that Tom Hanson might come to the meeting too--let these people come and hear what

is going on and have an opportunity to question these bidders, etc. Jim said that he thinks he could sell them on the road, but they need to hear from a couple of their own people that an acceptable road can be built. He wants to meet next Wednesday. He said that Dennis Lind is still harping on the RSID--maybe that is his backup position.

Jay said that he had just seen Anderson and checked out the quality of the gravel. Jim said that the developers are using Jay's name as almost a guarantee that things are okay. Mr. Lind assumes that Jay has told these people that the bid is acceptable.

Commissioner Davis said that some of this could have come from Anderson as he talked with him and Anderson said Jay had okayed the material. Jay said that is all that he had checked out.

Jim said that he thinks Mr. Lind needs to hear what Jay has done and whether or not he has gone up to the site. He said that he thinks Mr. Lind assumes that Jay has been involved with the top soil removal and all of the other things that are necessary to build a road.

Commissioner Tossberg explained that the County does not want to be involved in building the road.

Chairman Williams asked Jim if he was aware that these land owners had done a 180° turnaround from their original approach--in the beginning they didn't want an RSID or the roads fixed up.

Jim said that this may have been true a while ago when they were not interested in getting too much traffic up that road, but things have gotten worse--Jim said that he thinks they will accept a road that is not up to specs, but they want a road that will hold up.

Chairman Williams said he thinks they are going the right way.

Commissioner Davis said that they deserved better than that.

Jim said that they have a bogg in the spring and the people's approach is to get this done. Jim said that he does not think Mr. Lind is interested in meeting with the whole group and having all the harange from them. He thinks this meeting will let them know if this can be resolved.

Commissioner Tossberg said he would meet, and meet and meet--he wants to get this resolved.

Jim said he would set the meeting for Wednesday, March 20, 1985, at 7:00 in the evening at the Florence High School.

Commissioner Tossberg said he feels it is Mr. Lind's responsibility to contact the bidders.

Commissioner Tossberg asked Jim if he got the feeling that the $50,000 includes the culvert being added on--Jim said that he stated this, and Mr. Lind did not deny it.

Commissioner Tossberg asked Jay if the engineers would be making more money than is stated in the RSID figures--Jay said that that should be the total amount. Commissioner Tossberg said that if we get the engineer out and the County, we should be real near to having the money to build the road. Jim said that the problem with getting the engineer out is that he does not think we can turn the bidders lose on that road without some kind of an engineer--we need a bond to cover this--maybe with a reduced bid, Hanson would come in and do it.

Commissioner Tossberg said that Hanson has the same amount of culverts the bidders came up with and Jay's estimate on the culverts is $1,000 more than Hansons.

Jay explained that if they put this out for bid, they would have to know the quantities needed. Another route to go is time and materials--pay for time and materials after the fact--the contractor submits price for gravel per yard, price for culverts--everything in place. After the job is completed, you total the actual loads, etc. This does away with excessive engineering work--it all depends on what kind of a contract we go for.

Jim Haynes, Attorney, said he thinks Mr. Lind can come up with enough money for this to be done, his concern is being able to assure his clients that it will be done by an engineered plan, and wonders if Hanson would be able to do that.

Jim said he is also wondering if the County is interested in contributing to this to try to get this accomplished.

Commissioner Tossberg said we would leave that unanswered for the present.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, March 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Bob Burt and his Boy Scouts met with the Commissioners while the Commissioners signed a Proclamation for Environment Day, proclaiming March 30, 1985 as a day to clean up our environment.

Bids were received for remodeling the lounge in the basement as follows:

Hagerty Construction----------	$ 10,675.00
Ausum Enterprise----------	11,394.00
Rod Beard Construction----------	14,969.00
Campbell Massey----------	11,123.00
Don Hall----------	14,812.00

Motion was made by Commissioner Tossberg and seconded by Commissioner Davis that we accept the bid

of Hagerty Construction for the lounge remodel job in the basement. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Joe Haines from WMFL Architects met with Dale Dye, Sheriff; Jay Printz, Sergeant; and Bob Brown, County Attorney; and the Commissioners to talk about the proposed jail.

Larry Charlton and Dean Stenslen from Mtn. Bell Telephone met with the Commissioners and Bob Brown, County Attorney; in connection with the County's phone needs. They said that their Horizon system could handle the County's needs, Commissioner Tossberg explained that they had hired someone to do a survey on the phone needs and when that was concluded, we would be in a better position to make some decisions, and would be asking for bids.

Commissioner Davis asked how the men felt about the Merlin system and Larry said he likes the system He has been with the phone company for 20 years--10 of those have been with business phones. He said that the Merlin system gives a lot of flexibility--more than any other on the market today. Commissioner Davis asked how many lines the men feel will be necessary to the courthouse and Larry said he thought around 20--usually you need around one trunk line for four phones. There is a smaller Horizon system that will serve up to 75 stations that is like the one Dixie showed the Commissioners a few years ago. It is less expensive too.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Todd Urosevich from AIS, Betty Lund, Election Administrator; Bob Brown, County Attorney; Steve Fullerton, Ravalli Republic; and Darlene Hughes, Clerk and Recorder; met with the Commissioners to open bids on a centralized vote counter, as follows:

1. CES - (no bond enclosed--they state they sent by Fed. Express)
   10 optics----------$ 61,750
2. AIS - bond enclosed ---------- 42,500
   (lease arrangements included)

Commissioner Tossberg moved that we take the matter of acceptance of these bids under advisement and that we will make a decision no later than March 27, 1985. Commissioner Davis seconded said motion. Motion carried.

There was some discussion on what AIS is doing around the state. Mr. Urosevich said they will be conducting an election in Polson on April 2nd and it would be worthwhile for Betty to come up and watch.

John McQuaid and Mr. Bancroft were in to ask what is happening on the City-County Planning Board. The Commissioners explained that they are waiting for the Attorney General opinion, so it is on hold. Mr. Bancroft asked Commissioner Tossberg to verify the Board members. Commissioner Tossberg said that he understands that Keith Robinson does not live in the City anymore, and that Gene Vining was selected by the Board members, but is a County resident.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Skip Preston was in to voice a complaint about a proposed junkyard in his area.

Dale Sickles, representing Link Associates, was in regarding the jail situation.

Ned Applebury was in to talk with the Commissioners about some problems at the fairgrounds.

Frank Mason, who lives in Hamilton Heights, Lts. 1 & 2, Blk. 15, said that he had come to visit with the Commissioners as he has heard that a trailer court is going in on Lt. 4 right next to him. He wanted to know if the people in the area had anything to say about this. He said that Randy Summers lives right in front of where they have proposed to put the trailer court and this would just ruin the value of his property. The Commissioners said they would check this out.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Mr. and Mrs. Houston; Bob Brown, County Attorney; met with the Commissioners in connection with their road up West Fork. They would like the County to plow 1/3rd of a mile more than they now plow. They live at the mouth of Chicken Creek, between Chicken Creek and Hughes Creek. They said that the County could turn around at the campground above them.

Commissioner Davis moved and Commissioner Tossberg seconded that we accept the bid for an AIS-315 Optical Scanner Vote Tabulator System at a purchase price of $42,500, to be leased over a period of five years. Motion carried.

The Commissioners authorized the Chairman of the Board to sign a lease for the Ravalli County Head Start with Mr. Don Scheline of Darby, Montana, for a period of 12 months, at the rate of $180 per month, for a one-year period ending May 15, 1986.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was signed:

Ag. Exempt. & Remainder - In NE¼ Sec. 22 & NW¼ Sec. 23-10-20 - Richard Martin

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, March 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners explained the request made by the Houstons to have the West Fork Road graded another 1/3rd of a mile. Jay said that the Forest Service grader grades this a couple of times in the summertime. Jay said he would check out the possibilities on this and get back with the Commissioners.

There was some discussion on inventorying the County's assets--Jay said that this will be a tedious job as the records are here at the courthouse and they will have to go through them. Commissioner Tossberg said that they will only need to go back 7 or 8 years--going back any further would be too hard.

Commissioner Tossberg explained a phone call he had received from Les Moles on his problem in the Darby area. He said that Allen Hamilton has said that he will take care of the road and keep it cleaned out if they give him two acres of ground. Mr. Hamilton runs a backhoe.

Jay gave the Commissioners a Resolution on reducing speed in several areas around the County. Commissioner Tossberg said he felt we should talk with Bob Brown, County Attorney, on this.

Chairman Williams told Jay that the Golf Club wants to purchase some sand from the Road Dept. They will screen it, so the sand from the Dutch Hill pit will work okay. Jay said that he would be contacting Gerald Schultz on this in the foreseeable future. Chairman Williams said that they might also need some crushed rock for the golf cart paths.

There was some discussion on the location of County gravel pits for a list Commissioner Tossberg is making of County-owned land. There was discussion on a complaint Chairman Williams had received about the County needing a crane, and the fact that it has about paid for itself in preventing the need for hiring one to come down from Missoula. There was also some discussion about the succession proposal of Lolo from Missoula County and the amount of manpower and equipment that would be needed to maintain that many more roads.

The State of Montana, Dept. of Commerce, Aeronautics Division, has licensed the Hamilton Airport as a Class "D" airport in accordance with Section 67-3-301, Mt. Codes Annot., with the date of inspection being 2-22-85.

Pat Stewart, Mavis Wilson, and Ruth Centers met at 1:30 p.m. with the Commissioners and Lloyd Greenup, Hamilton Fire Chief, for the Public Hearing on the Roaring Lion Fire Petition. Chairman Williams said that 71¼% of the freeholders had signed the petitions. He then asked for comments for said petition and Pat Stewart said that the petition speaks for itself. Lloyd Greenup said that he strongly recommends that the Commissioners accept said petition.

Commissioner Tossberg moved that we accept the petition for the inclusion of the land described in the petition into the Hamilton Fire District. Commissioner Davis seconded said motion. Motion carried. Said petition and related documents are filed in Permanent File #7033.

Pat Stewart said she would notify all of the individuals involved in said petition individually. Chairman Williams said that he would see that there was a notice in the paper on this too.

By mutual agreement, Mr. Hagarty withdrew his bid for remodeling the courthouse basement. Commissioner Davis then moved that the bid be awarded to Campbell Massey in the amount of $11,123.00. Commissioner Tossberg seconded said motion. Motion passed unanimously.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams attended a Council on Aging meeting in Polson, Montana.

Tom Parks from Grouse Butte Lane south of Darby came in to ask the Commissioners again if something could be done on his road. He said that he needs the big plow to come up and widen out the road and push the gravel over. Commissioner Tossberg said he would look into this and talk with Jay on it.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Amended Plat was filed:

Hamilton Heights, Am. Pl. Lts. 2 & 3, Blk. 3 - Guy Winkler

Commissioner Davis moved that we accept the amended plat of Hamilton Heights, Lts. 2 & 3, Blk. 3. Commissioner Tossberg seconded said motion. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Court Order - E½SW¼SE¼ 8-5-20 - Charles Thomas

The Commissioners discussed the subdivision application with Don Mullin and decided that it should be taken care of in his office and filed in his office, with Don consulting the Commissioners only on problem situations.

Jay Caspeda met with the Commissioners in connection with the Corvallis Fire Dept. and the Darbi

County Fire Council. The Ravalli County Fire Council has received $1375 for help in installing communication equipment to help the departments to work together more closely. Chairman Williams said that John Vugteveen, who is an expert in communications, might be able to help. Chairman Williams said that Buzz Greenup had said that they might get help in this area. Jay said that he feels each department needs one multi-channel scanner, and this would be first priority. Jay said that the licensing is all mixed up and he has the forms to get this all straightened out. Jay asked if the Commissioners will have made a decision on what help they can give by their next meeting on April 16th at the Corvallis Fire Hall. Commissioner Tossberg said he saw no problem in matching the $1375.

Dick Weber, Attorney, met with the Commissioners to say that a mistake had been made in Steve Powell's survey back in 1981 when he surveyed Tom and Mary Kern's property and made a Declaration of Covenant. He divided this parcel into three parcels--one occasional sale, a remainder, and an agricultural exemption, and forgot to put the parcel (in this case, Parcel A) that was the agricultural exemption on the Declaration of Covenant. The plat specifies that Parcel A is the Ag. Exemp. and B & C are residential, but this needs to be changed on the Declaration of Covenant.

Dick has talked to Steve Powell and Steve said that it was an oversight, and suggested that Dick present an amended Declaration of Covenant to the Commissioners showing "A" as an agricultural exemption Commissioner Tossberg said that he would like a confirmation from Steve Powell by letter of this. Bob Brown, County Attorney, came in and checked this out and said he saw no problem with the Commissioners signing the Amendment to the Declaration of Covenant.

Commissioner Tossberg moved that the Covenant covering property located in Certificate of Survey #2947 be amended to reflect that Parcel "A" is the particular parcel to be used exclusively for agricultural purposes, and that "B" and "C" are not subject to such restrictions, and that the Chairman of the Board of Commissioners be authorized to sign the Amended Covenants. Commissioner Davis seconded said motion. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners appointed Commissioner Davis as the head of the County Transportation Committee.

Commissioner Davis moved that we adopt Resolution No. 350 annexing lands in the Roaring Lion area into the Hamilton Fire District. Commissioner Tossberg seconded said motion. Motion carried. See Perm. File #7033.

Commissioner Tossberg moved that we grant conditional approval to the N½ Lt. 16, Blk. 12, Hamilton Heights - R. P. Baxter, subject to the conditions as shown in the letter from the Planning Board. Commissioner Davis seconded said motion. Motion carried.

Pete and Judy Penner, George Fox, Bob Brown, County Attorney; Connie Timpson and Wendy Nineteman, KECI TV; met with the Commissioners to discuss the succession movement in the Lolo area. Mr. Penner gave the Commissioners a copy of the petition they are circulating in their area. He said that they are sincere in their efforts. Commissioner Tossberg asked what the people are dissatisfied with and Mr. Penner said that their area is more interested in being rural and Missoula County is not rurally oriented. The people don't like the restrictions that are being put on them. Four bus loads of students go from Lolo into Missoula. Commissioner Davis commented that Missoula has their schools all set up for this many students and there is no reason why we should not continue with the joint school system. Mr. Penner commented that the Clinton area has already agreed that Missoula County should retain the high schools as it has in the past.

There was some discussion on how many people would be involved and the conclusion was that there would be around 4,000 people. Chairman Williams asked about zoning and about the amount of private land in the area.

Chairman Williams voiced his concerns about law enforcement and the reply time from that area. He said that we have been criticized because we don't have people in Florence. This succession movement could result in a considerable increase in the Sheriff's Department. Mr. Penner said that they have a good neighborhood watch program and felt there would be no problem with law enforcement. Mr. Penner said that they are not disgruntled with their services from Missoula County, but would just like to be allowed to talk things over once in a while.

Chairman Williams asked how many subdivisions are being developed in the Lolo area. The Penners said that the Shrader subdivision had been tabled temporarily as someone has leased the land for 5 years and it has been put back in the Greenbelt, so nothing will happen on this for the next four years--the hillside land is still being developed. Chairman Williams commented that the development in Ravalli County is the 2nd fastest growing in the State. The succession movement would make Ravalli County a 2nd class county instead of a 3rd class County.

Chairman Williams said that there would be a number of considerations, and they will have to do some studying on this. If this were going to cost our Ravalli County citizens more money, that would weigh heavily against the acceptance of the group; but on the other hand, if we found out the citizens would get more than they gave, that would be another consideration.

Commissioner Tossberg said that he feels it is just a matter of degree as to regulations--Ravalli County is more rural, but is swiftly growing and having to partake of the problems of a more populated area. Each time you add people, or groups of people, to an area, the problems do increase. Commissioner Tossberg commented "I don't know if you would be happy, or less happy."

Mr. Fox said that each area has different problems and should be able to work out their particular problems. Commissioner Tossberg commented that the sanitation laws and subdivision regulations would remain the same wherever they were--the Ravalli County Commissioners just had to tighten up the subdivision laws because of more people.

Mr. Penner commented that they still like the ideas of the Ravalli County Commissioners and the fact that they allow community input--in Missoula County they listen but don't do anything.

Chairman Williams asked if the Lolo residents have access to the Missoula County courthouse and its facilities--Mr. Penner said they do, but are not given any consideration.

Commissioner Davis said that he assumes that Mr. Penner has taken time to study and make comparisons to see how this would work out. Mr. Penner said that they just feel that they share the views of Ravalli County more than Missoula County. Commissioner Tossberg said that it is sort of a natural thing that occurs to have dissatisfaction with the regulations.

There was some discussion on the voting process for a succession movement. Bob Brown said that the whole county votes on something like this, and Missoula County would have a vote also. When asked how he felt the vote would go, Mr. Penner said he did not know, but you don't catch any fish if you don't go fishing. Mr. Penner said that he had talked with several of the legislators on this matter.

Chairman Williams said that of the 56 counties in the State, we are the lowest cost operator. Mr. Penner said that they realized this and knows that there is definitely a difference in taxes. Both Mr. Penner and Mr. Fox own 10 acres in the Lolo area--there was some discussion on taxes.

Commissioner Tossberg asked if Fred Thomas has agreed to introduce the bill--Mr. Penner said that the last time he talked with him, he agreed to try. It is late in the session, so they don't know if it will go through.

Mr. Penner said they are having no problem getting signatures on Petitions, in fact, they keep getting volunteers to carry the petitions, and are not afraid of getting enough.

Chairman Williams asked Mr. Penner to give us any information they have gathered so that the Commissioners can study this out.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, March 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. of Bk. 160-566 - In NW¼ Sec. 29-9-20 - Greg P. Welna

Retrace. - In SE¼NE¼ Sec. 31 & SW¼NW¼ & NW¼SW¼ 32-8-20 - Wm. & Francis Clack

Agreement was signed between Ravalli County and Timothy Myers to permit Mr. Myers to stay two weeks at the Blodgett Park Campgrounds in exchange for painting the interior of the restrooms and performing other clean-up work within the park. Said Agreement was signed by the Chairman of the Board, F. T. Williams, and attested to by Commissioner Davis.

Upon motion, the Board adjourned.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners went with Jay to check out the bridge construction process down at the road dept.

Bill Kuhrs, Architect, met with the Commissioners to discuss the proposed jail situation.

Mel Finlay and Mark Finlay, representing the Riverview Orchards subdivision property owners, met with the Commissioners to object to having to have cul-de-sacs in their subdivision. Jeff McDowell, Ravalli Republic, sat in on said meeting. Mel Finlay said that he feels that if the power lines don't have to be buried, then they should not have to put in cul-de-sacs. Bob Brown, County Attorney, was present.

Commissioner Tossberg explained that he had been through all of the material in connection with this subdivision and can find no where that it specifies whether the power lines were to be above or under the ground. Bob Brown, County Attorney, said this was apparently an oral agreement.

Mel Finlay said that it seemed to him like the developers get by with everything and the land owners get turned down every time they ask for something. He said that Rich Duxbury was going to be upset if they put a cul-de-sac by him because his well is right out there where the plat is marked for a cul-de-

sac. Commissioner Tossberg said he felt that any contractor would work this out so that Mr. Duxbury's well would be okay. Mel expressed concern about how cul-de-sacs look when they are uncared for. He said that they end up being a mud hole with a bunch of boulders around it. Bob Brown explained that if they ever wanted the road to be maintained by the County, the County could not take over if there were no cul-de-sacs--they are needed for a turnaround for emergency vehicles. Commissioner Tossberg said that they were in no way commiting to ever taking the roads into the County system, and wanted to be sure that was clear.

Chairman Williams explained the necessity of cul-de-sacs and said he felt that this would stand the test of time and the Commissioners are just trying to be consistent on these things.

Concerning the proposed contractor, Dewey Skelton, Mel said that he has heard some good things about him.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 2, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Fred Hoffman, Blue Shield representative, met with the Commissioners in connection with the County's health insurance coverage. He said that his company will be offering some extra coverage without changing the premiums. They will be offering chiropractice services, paying 80% of a reasonable office charge, and limiting the number of visits. They will also have a family stop-loss provision and 100% accident coverage. Fred said that he could make these changes on May 1st, and then they review the situation every six months to see how the loss ratio is in an attempt to protect themselves on the real large claims--nine out of ten times it does not change. After some discussion, the Commissioners said that they would want to be in a position that this will not be revised after 6 months and would want to keep within the County Fiscal Year, beginning July 1st. Fred said that they could make up a contract on this and they usually do not change in the middle of the year--he said he would get his underwriter to come up with figures and would be in around the second week of May. There was some discussion on self-insurance and Fred said it all comes out about the same--he sees no real advantage.

Fred said that they also have a dental package, but everyone has to take it--it would be $6.00 more for singles, $12.00 for couples, and $18.00 for families. They pay 80% on normal dental work, less on past-neglect situations.

The Commissioners received a petition to abandon a County road commencing at Ambrose Creek Road, with 17 signatures.

Chairman Williams signed three RC&D project requests covering repair projects at Blodgett Park. RC&D will recommend that this service shall be performed by Trapper Creek Job Corps Center.

The Commissioners signed authorization letters to permit Wallace A. Oliff, Asst. Fire Chief of Sula Rural Volunteer Fire Dept., to procure surplus government materials at various Air Force bases located in Utah.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of March 31, 1985:

Farmers State Bank----------	$ 1,145,000
First Fed. Savings & Loan----------	1,681,447
Western Fed. Savings & Loan----------	2,024,000
Ravalli County Bank----------	1,600,000
Citizens State Bank----------	945,000
First State Bank-=----------	1,307,100
	$ 8,702,547

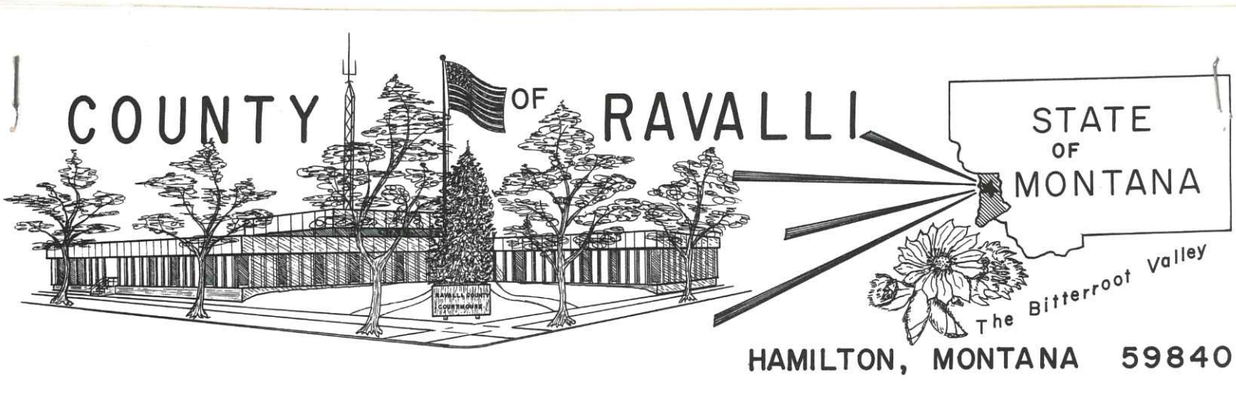
The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Henrietta Brandon and JoAnn Catalano, Public Health Nurses office, met with the Commissioners in regards to getting terminals for their office.

Commissioner Tossberg moved that in accordance with MCA 15-16-701, the attachedlist of unpaid personal property taxes for the year 1975 be ordered cancelled. Commissioner Davis seconded said motion. Motion carried.



The Commissioners signed authorization letters to permit Wallace A. Oliff, Asst. Fire Chief of Sula Rural Volunteer Fire Dept., to procure surplus government materials at various Air Force bases located in Utah.

April 1, 1985

Board of Commissioners
Ravalli County
Hamilton, Montana

Gentlemen:

Attached find a list of unpaid personal property taxes for the year 1975 which are not a lien on real estate. These taxes have now been delinquent for ten years.

These taxes are hereby submitted for cancellation per MCA 15-16-701.

Sincerely,

Ruth Cleveland

Ruth Cleveland, Treasurer
Ravalli County

Approved for cancellation April 3, 1985

F T Williams

F.B. Tossberg

Marion H Davis

Commissioners Journal 15 Page 504

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams attended a MACO Directors' meeting in Helena, Montana.

Commissioner Davis moved that the contract with Mr. Danelz as Acting Superintendent of Schools be approved. Commissioner Tossberg seconded said motion. Motion passed with Commissioner Davis and Commissioner Tossberg voting "AYE".

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton, the County Seat, on April 4, 1985, for the purpose of canvassing returns and declaring results of the Rural Fire Districts and Irrigation Districts elections held in the County of Ravalli, on the 2nd day of April, 1985. Present: F. B. Tossberg, Marion H. Davis, Darlene E. Hughes, and Betty T. Lund. For official returns, see records in the Clerk and Recorder's Office.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day.

Len Cranford visited with the Commissioners in connection with the airstrip shown on the plat of Riverview Orchards, which is on Mr. Cranford's property. Commissioner Tossberg took him into the plat room to check this out and then referred him to Bob Brown, County Attorney.

Reba Falk, Administrative Assistant, met with the Commissioners to make her first report on the Grant Review monitoring for Headstart and Public Health Nurse grants.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, April 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed: (Jeff McDowell, Ravalli Republic, sat in on said meeting.)

Court Order - #DR83 - 435, In SW¼ Sec. 34-8-21 - Ben C. Blackburn and Pamela J. Blackburn

Stan Mitchell, 821-3082, met with the Commissioners regarding the problem on Tin Cup Road. He said that Bill Noble got a permit a couple of years ago to dig across the road and use the water to sprinkle his property from a sump hole--there is a spring right there. Stan feels that the solution would be to put this back the way it was because the person who was going to do this has sold out and the new people are not interested in sprinkling. Mr. Mitchell said he has lived there 8 years and they had no problem until this spring was converted. The Commissioners said they would be taking a road tour on Thursday and would check this out.

Mr. Larry Johnson informed the County Commissioners that he has completed all his legal work on the Jerry Korrell case. Since he has no further duties as a special deputy, he requested that the Commissioner make note that he is no longer an employee.

Upon motion by Commissioner Tossberg, seconded by Commissioner Davis, Chairman Williams was authorized to sign an Equipment Lease with Christopher Capital Corp. covering an AIS 315 Centralized Ballot Counter for a five-year period at a yearly cost of $10,726.15.

Chairman Williams signed an agreement with Braun Engineering Testing, Inc., P.O. Box 30697, Billings, Mt., to perform a Subsurface Investigation of the Frost Heaves at the Hamilton Airport, at a cost of $2,000. Ninety percent of the cost will be funded by FAA under their project AIP 3-30-0037-01, and Ravalli County will assume the remaining 10% contract cost.

Howard Jacobson was in to talk with the Commissioners about changing the easement on his property in Home Acres subdivision. The Commissioners had Larry Higginbotham, County Surveyor; talk with him and showed him the plat in the plat room.

The Commissioners appointed Commissioner Davis and Larry Higginbotham, County Surveyor; as viewers for the Petition requesting relocation of the Grizzly Way road.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Tossberg explained that Dick Grant had been in to request that the road be fixed up in Corvallis in time for the Memorial Day parade. Jay said he would take care of this.

Commissioner Davis explained that Stan Mitchell, from up Tin Cup Road, was in to say that he feels the problem with the bog holes comes from the spring being converted to the other side of the road, and that it could be solved by putting it back where it was. Jay said that he feels that this is a frost

take care of itself as soon as it warms up. Commissioner Tossberg said that he felt that Stan's main concern was that the neighbors were saying that they created the soft spot. Jay said that he has never felt that the driveways created the soft spot. The Commissioners decided that they would take a road tour on Thursday, April 11th, at 9:00 a.m. and check this out along with Grouse Butte Lane, Hart Bench Road, Hughes Creek, etc.

Commissioner Tossberg asked Jay if he plans to oil the Blodgett Creek Road and Jay said he did. Commissioner Tossberg said to hold off on this a while as the developer of Blodgett Creek Heights has indicated that he may oil this road to help his development.

Chairman Williams asked if a speed bump could be put in down at the Blodgett Park to slow the speeders down. Jay explained that each little job takes more of their money from what they need it for, and when they are reimbursed, it just goes to reduce what the County has to provide next year, so the Road Dept. keeps getting farther behind. Chairman Williams said that he would check this out.

Commissioner Davis explained that a person on One Horse Road has requested a culvert. Jay said that they pretty much wear theirs out--they turn them over and use them again when they rot out on the bottom. He said that he may be able to find something to help out and would check into this.

Dr. Reed was in to explain what is happening with the Hamilton City-County Library. He said that they have several steps planned to remodel and extend the present library. A couple of the Board are taking classes in grant writing and will be making every effort to obtain some grants. They would like a letter from the Commissioners supporting their efforts. The first letter should be "To Whom It May Concern" and they may be in later to ask for more letters to specific people. The Commissioners said that they would be glad to do this.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., will all members present.

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file. The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners, Jay Unrue, County Road Supt.; and Bob Brown, County Attorney; went on a road tour to check out the roads in Ravalli County and the complaints that have been received on said roads.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended an energy conference in Missoula, Montana.

Fred Hanson, Arrow Ambulance, met with the Commissioners in connection with the possibility of taking over the ambulance in Ravalli County. Bob Brown, County Attorney, sat in on said meeting.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, April 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners said that they had received a request from Bob Thoft to have LaFontaine Road graded.

Jay presented the safety contract to the Commissioners for signing. It provides for a flasher in Corvallis at the Eastside intersection and some road signing.

Commissioner Davis said he had received a call from Jim Hasselton on the Bunk House Road about some problems on his road. Jay said he would check into this.

Chairman Williams said that he had been up the Eastfork over the week-end and there were a lot of big rocks in the road, on the North side--Jay said he would have his crew take care of this.

The Commissioners showed Jay a request they have received from the MPEA for road negotiations. They said that they will try to set this Friday as the first meeting date.

Jay said that he will be leaving tomorrow for Billings to the Road Supt. Convention to be held Wednesday, Thursday and Friday.

Chairman Williams was authorized to sign an Equipment Agreement with AT&T for the JP office.

Marlin Foss was in for Lillian and Charles Johnson on Ideal Acres requesting an extension letter for the conditional approval of said subdivision. Commissioner Davis moved and Commissioner Tossberg seconded that we grant an extension of one year to Lillian and Charles Johnson on Ideal Acres. Motion carried.

Mr. Oliff from the Sula Fire District was in to say that the letters he had requested from the Commissioners to get surplus supplies from the Government would not work and that he would be working with Joe Reif, Civil Defense, to obtain the supplies he needs, if this is okay with the Commissioners. Commissioner Davis said that the Commissioners never had any objections to him getting these supplies and would support him in any way they can.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Barry Rowe, Don Prill, and Gary Jacobson met with the Commissioners in connection with the proposed County jail.

The Commissioners attended a meeting at the U.S. Forest Service in the afternoon. Said meeting was in regard to the "Lolo National Forest Plan and Revised Draft of Environmental Impact Statement of January 1, 1985".

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Chairman Williams attended an RC&D meeting in Missoula, Montana, during the afternoon.

The Commissioners attended a Board of Health meeting which was held at 1:30 p.m. in the Extension Conference room. Minutes are in the Board of Health file.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Ed Sparks, who works for the Hamilton Cemetery, was in and said he would like to update the grave-count--he said that 5002 people are buried in the cemetery right now--this included those who are cremated Cremation is a simple operation--usually the ashes are placed on an existing grave. He said that the actual digging takes about one hour for a grave, but the total job takes around four. Commissioner Tossber asked if they charge the same for cremations as regular burials and Ed said that cremations are $25.00 and regular burials are $75.00.

Ed presented a bill to the County in connection with cement work he had done for veteran burials--he said that this has no connection with his salaried job with the City, but is extra work he does on his own time with his own cement mixer. After some discussion, the Commissioners said that they would want all of this channeled through the city. Ed asked the Commissioners if he could come back to them on this if he runs into a problem and they said he could. Commissioner Tossberg asked Ed to get the code reference for him to study and Ed said he would. Ed said that he would like to take on additional responsibilities and would like to take on other cemeteries if they become available. He feels that this would be more economical for the county than the way it is done now. Chairman Williams asked if Ed had any inkling that this might happen and Ed said he did not, but just wants the opportunity if something happens.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis attended a Mental Health meeting in Kalispell, Montana.

A petition was received from Kathy Bailey to include lands in the Hamilton Fire District as describec in said petition. Said petition was signed by nine property owners. Kathy said she had contacted people who own property that do not live here and they were all agreeable to said petition.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, April 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

A meeting was held in the downstairs conference room with the elected officials and department heads to pass out budget sheets. The economic situation was discussed and it was agreed that all employees would be allowed a 3% cost-of-living raise. The department heads were asked to have their budget sheets back to the Commissioners no later than May 27th.

Bev Peterson, a member of the Hamilton Library Board, was in to request funds for the Hamilton Library as Larry Johnson and Charles Reed have submitted a grant for building funds and the people from Bozeman called right back and said that the chances of receiving these funds are real good in a dollar for dollar match. The city has agreed that the library can expand to the back and sides if necessary, and that the land is really library land. Lucile Gordon is meeting with the City officials today to see if they will give support to the library. The lady in Bozeman indicated that it would probably be no problem for the library to receive as much as $75,000, if we can match that amount. Bev said that the Board is concerned that this might be a one-time opportunity and they would not want to pass it up if they can help it. Commissioner Tossberg asked Bev to find out what strings the State attaches to this grant and the amount of time they have to come up with the money. The Commissioners said that they would have to check this out and see what can be done. The entire library project will cost around $400,000.

Chairman Williams met with Richard Sipes, Clarence Popham, and Ron Foltz, CPA, at Stevensville for the purpose of initiating exit audits for the defunct Five Valley Development Council. Said audits to be performed as stipulated in a Memorandum of Agreement as approved by the Commissioners of Mineral, Missoula, and Ravalli Counties.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. He showed the Commissioners a film on Speed Zones.

Mr. Brunner and his wife, Marjorie, met with the Commissioners in connection with their road that connects with the Riverview Orchards subdivision. He said that the person who lives next to him uses his road and he does not want them to--he has talked with three different attorneys who say that the County Attorney has the power to make the decision. The Commissioners explained that this is a private road and the County Attorney has no jurisdiction on this--they would have to take the people to court to keep them off their road. Mr. Brunner is also concerned as the contractors that are building the roads in the Riverview Orchard subdivision are not going down the side of Lot 18, and Lot 18 will not have a road, so will have to use his road. Mr. Brunner said that by not extending this road, the water will dump right onto his property because of the way the land lies. Commissioner Davis said he drove up there last night and no culverts have been installed yet--Mr. Brunner said that they have put one in and explained where. The Commissioners said Mr. Brunner should talk with the County Attorney on this.

Helen Tout was in in connection with the Summit Board. She said that they would like to declare May 14th as National Handicap Day, and would like the employees at the courthouse to assume a handicap for that day. Chairman Williams explained that this might be extremely hard for some of the employees and they would give this some thought. They said that they would be glad to make a proclamation that this day be set as National Handicap Day.

Commissioner Tossberg moved and Commissioner Davis seconded that Resolution #351 be approved in connection with the recent passing of SB99, stating that vehicles could not be taxed back beyond the present year and one year previous on any vehicle that has been sitting unlicensed, and stating that refunds should be made by the County Commissioners retroactive through Jan. 1, 1985. Said resolution provides that the Commissioners not refund in amounts of $10.00 or less. Motion carried.

Terry Magone, Highway Patrol, was in to say that a tree on Daly Avenue by Carpet Corner is obstructing the view and was largely responsible for a 2-vehicle accident this morning. The Commissioners went with him to check this out.

Maxine Jones was in to protest about the concerns she has about the Council on Aging. She said that she has spent a lot of time on the program to have them reach out and help each other, and is getting no response, so she wonders if she is just wasting her time--she wants to decide before fall if this program is going anywhere, or if she should just drop it.

Commissioner Tossberg moved and Commissioner Davis seconded that we order irrigation pumps and accessories in the amount of $626.00 from Fred T. Parker to take care of the irrigation system at the courthouse. Motion carried.

Commissioner Davis attended the Summit Board meeting in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Loretta Martin was in to ask about changing the road location in Lot 24, Blk. 2, Corvallis Tracts. She drew a picture on the board explaining that she wants to run the road up the middle, taking 15 feet from each lot. The Commissioners said that they did not see a problem with doing this as long as there was an understanding that a cul-de-sac would be included if the road is long enough to need one to meet road requirements. The Commissioners said they would talk with Don Mullin on this and it might be that Denis Applebury would have to change the plat.

Don Mullin, Planning Office, after reviewing the following Certificates of Survey, requested that they be filed:

Over 20 acre parcel N½SW¼ and SW¼NW¼, Sec. 1, T8N, R20W - Bob Popham

Court Order - NE¼ Sec. 8, T1N, R21W - Phillip Sander

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution #352 granting funds to the Sheriff and Fire Departments from funds available in the General Fund due to larger than anticipated receipts of Payment-in-lieu of taxes. Motion carried.

Commissioner Davis moved and Commissioner Tossberg seconded that we adopt Resolution No. 353 setting the salaries for elected officials for Fiscal Year 1985-86. Motion carried.

Hal Madsen, who just bought property on the East-side of Stevensville, up on South Sunset Bench Road, came in to see if something could be done on the road up to where he plans to build a new home--he said that there is about 3/4ths of a mile that has been prepared for a road but never fixed up. Commissioner Tossberg explained that if they are not maintaining this road, we probably don't, and would not want to. If something were to be done, it would be at the cost of the property owner to bring it up to county standards. Commissioner Tossberg explained that we have roads like this all over the county and the road budget just is not large enough to take care of them all. Chairman Williams said he did not understand why it was shown on the maintenance map, but they would talk with Jay on this, and Jay

could probably give an estimate of the cost to bring it up to standards, and whether there was any chance that the County could take it over and maintain it if they do bring it up to standards. Commissioner Tossberg explained that maintenance would probably be grading it twice a year. He commented that it would probably be cheaper for Mr. Madsen to buy a couple of 4-wheel drive vehicles and tough out the road

Commissioner Tossberg moved that the County Attorney be empowered to negotiate a settlement on the Burgess and related court cases (Skyport)--Commissioner Davis seconded said motion. All three Commissioners voted "AYE".

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Bev Peterson from the Hamilton Library Board met with the Commissioners in connection with the Library grant. Commissioner Tossberg asked if they had heard any more from the people in Helena and Bev said that they had and they are supposed to get more specific about where the money will be spent. The Board feels the handicapped person provisions should be made first. If they get enough, they can add onto the existing building and make the addition accessible to the handicapped.

Commissioner Tossberg said the Commissioners have talked about what the county might pledge--they are talking about $50,000--they would want the understanding that it would be for building, not operating and would expect it to be matched, they would also expect that the City and Library monies would be matched first and the County money second. They will write a letter to the Montana State Librarian on this.

Kathy Hadley, Gail Kuntz, and Dale Horton met with the Commissioners in connection with an energy grant to fix up the Courthouse and Museum.

Chairman Williams was authorized to sign the Food & Consumer Saftey Bureau contract with DHES for Don Mullin, Sanitarian.

Commissioner Davis moved and Commissioner Tossberg seconded that we select Mr. Gary Jacobsen of Hamilton and Page Werner & Co. of Great Falls to handle the initial jail planning and financing on the jail project. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Chairman Williams and Commissioner Davis were on hand to attend to office management.

Warren Midyett of Montana Public Employees Assn. and Willard Titus, Phil Richards and Nick Evanoff, representatives for the Ravalli County Road Department employees, presented their contract proposals to the Commissioners for the new contract to be effective July 1, 1985.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, April 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on Bob Lake's tree on Daly Avenue which is in the road right of way. Bob Lake does not want to cut the tree down, but said he would trim it back. Jay said that the law spells out what they have to do on a situation like this and this is an "absolute", so he can follow the codes and do what is required.

Jay said that he has budgeted for a pot-hole patcher and would like to proceed with the bidding process. They run around $30,000-$32,000--he explained how they work.

There was some discussion on the roads in the Riverview Orchards subdivision--Jay said that they need to do better on the cul-de-sacs--they are leaving 80 feet and need to leave 100. Jay said that there is a law suit in process between a land owner and developer--they are in the process of putting the culverts in today.

Commissioner Davis said that the school wants to dig across Highway #93, and what should they do--Jay said they should contact him and he will lend some barricades.

Commissioner Davis said that the store owner at Florence would like to put a sign in a cream can or barrel and fill it with cement--would this be okay. Jay said it depends upon how his insurance company feels about this--the liability is like someone falling on your sidewalk when you don't clean the snow off.

Commissioner Davis asked if the portion of road on Old Highway 93 could be striped--after some discussion, Jay said he would do about 300 feet of striping and see what happens.

Ruth Thorne and Ruby Berry were in to see if they could get an extension on some overdue taxes as they have not received their income tax refund and it has to be paid by April 30th. Commissioner Tossberg checked this out with Ruth Cleveland, County Treasurer, and she said it was mandated by law that there could be no extensions. Commissioner Tossberg suggested that the girls borrow the money until their return comes in so that they can avoid having to pay the entire amount after April 30th

At 1:30 p.m., the Grizzly Way hearing was held on the petition which was presented to the Commissioners on April 2nd by Mark Lewing. Those present were: Bob Brown, County Attorney; Mark Lewing, and Bruce Bailey. Chairman Williams read the petition and the Viewer's Report, which was given by Commissioner Davis and Larry Higginbotham, County Surveyor. He asked for comments from proponents and Mark Lewing said he had submitted the petition and owns property surrounding the piece that needs to be abandoned, and would like to have it abandoned. Bruce Bailey commented that he is the next property next to the property in the petition--he owns Lot 27 and Part of Lot 28, and would like to see the road closed. He said that they now have a nice access and feels for the safety of Mark's children, the road should be closed. There were no comments from Opponents.

Commissioner Tossberg moved for abandonment of the portion of the road as requested in said petition. Commissioner Davis seconded said motion. Motion carried.

Bruce said that he would like to have his access graded--this was provided for in the court order. The Commissioners said they would talk with Jay Unrue on this. Bruce said that the road might need around 5 yards more gravel.

Jeff McDowell, Ravalli Republic, sat in on the following motions:

Commissioner Tossberg moved that we grant conditional approval to Mountain View Meadows subdivision with the stipulations that Dick Martin pay taxes and cash-in-lieu of parks. Commissioner Davis seconded said motion. Motion carried.

Commissioner Tossberg moved that we grant conditional approval to Lot 8A, Block 7, Lake Como Orchards #2, an amended subdivision plat, and that the only condition be that the taxes be paid. Commissioner Davis seconded said motion. Motion carried.

Commissioner Davis moved and Commissioner Tossberg seconded that we grant a one-year extension to Blodgett Creek Heights subdivision--to run from May 10, 1985 to May 10, 1986. Motion carried.

Commissioner Davis moved that we adopt Resolution No. 354 abandoning the road on Grizzly Way as shown in Permanent File No. 7036. Motion carried.

Chairman Williams was authorized to sign Mental Health Center Contract Agreement for the Head Start Program by motion of Commissioner Tossberg, seconded by Commissioner Davis. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, April 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

John Filz of Ravalli Services came in to ask for a school zone designation and speed limit for the area in front of their facility and that of Head Start.

Fred Thomas came in to discuss the County's insurance program.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. T. Williams, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. B. Tossberg, Member

----------0----------

Hamilton, Montana, May 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of March, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $10,370,194.67.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same.

All three Commissioners attended the MACO three district conference in Missoula, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 2, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved and Commissioner Davis seconded that we accept the bid of Veien's Plumbing & Heating of Darby in the amount of $1295.00 for the courthouse irrigation system. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occ. Sale - SE¼ 16-9-20 - Spencer Thomas

The Commissioners attended a meeting with the League of Women Voters in the Extension Conference Room at 1:30 p.m. The meeting was held to explain the affects the legislature has had on the County.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Dean Frost was in to ask for the Commissioners' backing in getting the personnel department back in Ravalli County at the Supervisor's Office of the Bitterroot National Forest--this affected three girls: Betty Frost,Shirley Marsh, and Eleanor Marvin--they are now having to drive to Missoula. This was effective Monday, April 29th. Commissioner Tossberg asked if these girls might move to Missoula--Dean said that Shirley and Eleanor may, but the Frosts do not plan to move. He said that this move is affecting their family life and he does not think it is necessary. Commissioner Tossberg asked Dean to bring in the letter that rescinded this move in other areas and the Commissioners would check this out.

Vern Sylvester from the Illinois Bench area came in to voice his concern about what may result from the Herriot bankruptcy sale scheduled for May 17th. The people in the area are very concerned that this could be subdivided and that this will definitely affect their drinking water--the soil in this area is limited as there is a hard-pan and some of the people have had to drill real deep for their water. Vern's well is only 30 feet deep, so he is real concerned. There are 180 acres, and if they divided down to 20s, Vern feels there would be a problem. Commissioner Tossberg explained that it would be up to the State to grant permits on pieces 20 acres and over. He suggested that Vern talk with Bob Brown, County Attorney, on this.

Morris Gardner was in to visit the Commissioners and there was some discussion on the problem Vern Sylvester has up on Illinois Bench.

Barry Rowe from Page-Werner and Gary Jacobsen visited with Bob Brown, County Attorney, and the Commissioners about the proposed contract for the Ravalli County jail study.

At 3:30 p.m. a Jail Advisory Board meeting was held in the Extension Conference Room. Commissioner Tossberg started the meeting by introducing Barry Rowe and Gary Jacobsen to the Board members. Commissioner Tossberg explained that the County will provide secretarial help to the Board and would pay for their transportation to and from the meetings. He said that the next order of business was to elect a chairman for the Board. He then asked for nominations. Dale Dye nominated Peggy Verburg. John Robinson seconded the nomination. Bob Brown then nominated John Robinson. Commissioner Tossberg asked Peggy and John if they were willing to serve and they both said they were. Bob Brown suggested that Peggy and John serve as Co-Chairmen. John Robinson said he would withdraw in favor of Peggy. Peggy said that she felt the prospect of serving as Co-Chairmen would be helpful. Commissioner Tossberg said that since he hears no objections, he would ask for a motion that this nomination be made.

Harold Hopwood moved that John Robinson and Peggy Verburg serve as Co-Chairmen of the Jail Advisory Board. Wayne Hedman seconded said motion. Motion carried that nominations be closed. Commissioner Tossberg then asked that the election be validated. Bob Brown so moved. J. R. Iman seconded. Motion carried.

Commissioner Tossberg then turned the meeting over to Barry Rowe so he could explain what is happening on the Choteau jail. Commissioner Tossberg explained that Dale Dye will give a jail tour to those who are interested at the end of this meeting.

Barry Rowe explained that it is difficult to pass a jail bond issue, and that this would be something that the Board would have to be working on to convince the public that a new jail is necessary. He explained that the ACLU takes cases on jails and almost never loses a case--he said that the chances that they would win are very good if they ever decide to take a case against Ravalli County. He said that our County Commissioners are personally liable for suits such as these and explained what has happened in other areas. He explained that jails are very expensive per square foot and said that in Choteau they are right at $100 a square foot.

Commissioner Tossberg explained that the Commissioners have asked Barry Rowe to look into the possibility of building over our employee parking lot. He said that the building will need to include additional courtroom space, and the Sheriff's department will need to be moved to the new area.

Harold Hopwood asked if forming this study committee will help stave off the wolves from back East. Barry said that he feels this will help.

Dale Dye showed the Board members a book that he has available showing the legal guides from the United States Supreme Court for jail standards. This is the 1983 Civil rights federal statutes. He said that the prisoners are entitled to sue if their rights are violated because the Supreme Court has restored the civil rights to prisoners. Dale explained that the Supreme Court has given the entire

that a Court Master can be appointed to oversee a jail and then the County has to conform to everything that that Court Master asks for, which would put the County in a bad position. He said that these people receive about $80,000 a year in salaries, so he would not want to get in this position.

Dale explained that he has taken the position of harping at the Commissioners the last few years about the conditions of the jail, mainly to relieve himself of liability in this situation, because Ravalli County is in violation of the requirements.

Wayne Hedman asked that Dale explain what happened when the courthouse was built to put us in the situation we are in. Dale explained that the plans had been made to build a judicial wing to the West of the new courthouse and then the Historical Society got together to save the old courthouse and this was put out on the ballot with no provision to rebuild the jail--the general impression was that they could sell the public on a jail when the time came, so they went ahead with the administrative part of the courthouse. There was some provision that the Sheriff's office would be where the Council on Aging now is. John Robinson said that he understood that some federal funds were used to help with the Council on Aging facilities. Bob Brown said he had checked this out and the federal monies were used for equipment only. Dale said that when the plan finally came up, he was asked what they wanted for a jail and then the plans were chopped down six or seven times until they ended up with what they have, which is no where near standards. Commissioner Tossberg commented that even if they could move the Council on Aging out of their building, there is insufficient space in that area, so he feels they should let by-gones be by-gones and proceed from here on what is needed.

Barry Rowe explained that the National Institute of Corrections has set up courses now so that they check out all plans for jails to see if they are up to standards so that Counties are no longer in the position to waste their money by building a jail that will not meet standards. He said that they will be having an all-day session on May 29th, and he would like all of the Board members to plan to attend. --At this time, they would hope to explain some of the problems Ravalli County faces. It was explained that in July, one of the Commissioners, Dale Dye, Sheriff, and perhaps one of his staff will go to Boulder, Colorado, to attend a one-week session with the NIC. Dale will be going to Boulder on the 17th for a 1-day session.

Bette Ford asked where the exercise area will be if the parking lot area is used. The Commission said that this would be provided on the roof. Bette commented that Jack Dowling might not like the prisoners looking down into his backyard.

Chuck Shonkwiler commented that he does not feel a prisoner is entitled to everything--Peggy Verburg commented that you have to realize that a lot of people that are held in jails are charged with something they have not been convicted with--all people are guaranteed specific rights.

Barry explained the different classifications in a jail--ranging from alcholic to the harder criminals and the juveniles and women--there are 16-18 classifications in all. Through the statistics that the group will accumulate, they will hope to arrive at what classifications are used most in our area, and what will be needed in the new jail facilities.

Wayne Hedman asked if there are other needs in the courthouse that should be met at the same time the jail is built. Bob Brown said that courtroom space is needed. Commissioner Tossberg said that this would have to be designed into the new building. A Judge's Chambers is needed and our present jury room is too small. John Robinson commented that these other needs, however, don't compare to what is needed in a jail. He said that the worst problems are the fresh air situation and the fact that there is no sunlight available.

John feels that a jail is very much needed and that Ravalli County is in a bad position to be sue if something is not done.

Barry said that a Speaker's Bureau will need to be formed and that the Board members should get their facts ready and go out to the public and let the public know exactly what is needed.

Bob Thoft commented that he has been involved on committees for the building of the Montana State Prison. He said that he would suggest that the Committee not get involved with dollar amounts at this time as that only brings about confusion.

Barry Rowe showed the Jail Advisory Board the layout of the new Choteau jail and explained the advantages in the planning.

Attendance at the above meeting was as follows: F. T. Williams, F. B. Tossberg, Marion H. Davis, John Robinson, Harold Hopwood, Bette Ford, Peggy Verburg, Dale Dye, Jay Printz, Bob Brown, Bob Thoft, Gary Jacobson, Jeff McDowell, Barry Rowe, Wayne Hedman, Chuck Shonkwiler, J. R. Iman, and Steve Fullerton. Marian Gebhardt did not attend this meeting, because of a previous commitment.

Application for Cancellation of Taxes #716 was approved in the amount of $31.07.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, May 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Tossberg explained that John Filz was in on behalf of Ravalli Services and Headstart wanting a school speed zone down by the fairgrounds. Commissioner Tossberg suggested that Jay contact John and work out something. Jay said that he was pleased to see that the [illegible]

counties on gas tax as opposed to contracting work to be done.

Jay said that he hopes to get his pothole patcher by the middle of June.

C. V. Fullmer was in to complain about the Bowman Road situation by his property.

Bern Burkhalter of Combined Insurance Co. was in to ask if the employees could be contacted to see if they were interested in his insurance--it is an accident insurance. Chairman Williams explained that we have too many requests for this kind of thing and can not accomodate any more under our bookkeeping system.

Proclamation was signed by all three commissioners proclaiming May 14, 1985 as Handicap Awareness Day.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Fred Hoffman from Blue Shield was in to discuss the County's medical policy. He gave some figures to the Commissioners to study and said he would propose the merit plus adjusted two-party figures. He will need a decision on this this month and the schedule is good until July 1st, 1986. He said that our rates are only up 3.3% since 7-1-82 and we have received an increase in benefits of about 16%. The Commissioners said that they would talk with the union and get back with Fred. Fred said that a dental program is also available for $6.00-single; $12.00 2-party; and $18.00-family, but everyone would have to participate.

Commissioner Davis moved and Commissioner Tossberg seconded that we approve Resolution #349, which provides for the publishing of Commissioners' Proceedings and claims in summary. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

Upon a motion by Commissioner Tossberg, seconded by Commissioner Davis, a contract between the Ravalli County Commissioners and Page-Werner & Partners-Jacobson & Associates, 300 4th Street North, Great Falls, Montana, for a Ravalli County Law Enforcement Facility, Hamilton, Montana, was accepted and Chairman Williams was authorized to sign the contract agreement.

Commissioner Davis moved and Commissioner Tossberg seconded that we call for bids for petroleum products for the Ravalli County Road Department, said bids to be opened at 10:00 a.m., May 28, 1985. Motion carried.

Les Moles from Darby was in concerning his landslide area. The Commissioners had previously received pictures from him of how the County road looks right now. Chairman Williams said that the County will have to open up the road one more time and then take it off of the road system--the cost is too much for just one family. Mr. Moles said that he feels the money should be prorated over the entire valley and that his end of the valley does not have good roads and does not get its share of the money. He said that the slide is showing signs of stabilizing and now the County wants out of the situation. Commissioner Tossberg stated that the last time it was cleaned was before Christmas. Mr. Moles said that he feels the road crew runs up the cost in the way they operate--they brought a culvert in in the winter and put it on top of the road and made a bump in the road and then when a couple of heavy trucks went over it in the spring, it got smashed flat and Mr. Moles had to replace it. He also said that the road crew does not put in 10 hours of work. Chairman Williams explained that our road crew operates on the lowest cost base in the state--he said that the reason they leave the site where they work a little earlier is that they have to fix up their equipment and prepare for the next day after they get back to the shop.

Mr. Moles said that he thinks he will get a good attorney and check this out to see what he can do. He said that there is a place to dump the mud at Bill Sweet's place--he has a gravel pit he wants to fill. Chairman Williams asked if the road department is aware of this. Mr. Moles said they have dumped there before. Mr. Moles said that the road crew has hauled in some boulders from the Conner area and they leave the old bare rocks sticking up and then Mr. Moles has to drive over them--he said that he is going back to using the good road around Emil Skroch--apparently the other road was put in to help the Skrochs with their dust situation.

Mr. Moles said that if the road crew would widen the road out a little when they remove the slide materials, this would give him more time--Mr. Moles said he could not see why the road department did not just spread the stuff out--he said that the base of the road was made from the same materials. Commissioner Tossberg commented that the slide material does not spread out well. Commissioner Tossberg said that it has been suggested that Mr. Moles obtain access to the South of his house and wondered why that had not been pursued. Mr. Moles said that he had talked with his neighbor and he said he was in no way willing to sell his property to provide a road for Mr. Moles.

Mr. Moles said he appreciates the fact that the County will clean the road out even one more time and hopes they do a good job this time. Chairman Williams said he would talk to the road department and ask them to widen the road and do a real good job.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

An agreement was signed by all three Commissioners between Ravalli County, Montana, and Warren S. Veien, doing business as Veien's Plumbing & Heating, in the amount of $1295, for plumbing to tap the use of the sump water in the courthouse basement for irrigating the courthouse lawn.

Stacey and Sheri Auch of Stock Addition were in to propose that they give land along the road across from the Corvallis Cemetery for parking purposes for the cemetery instead of cash for their subdivision. They would just decrease the size of the 2-acre plots by a total of 1.1 acres to do this. The Commissioners said that they would have to discuss this with the County Attorney and see if they could do this. They suggested that the Auchs contact the Corvallis Cemetery and see if they were willing to buy the lots and make their own parking lot and then the Auchs could use the money to pay cash-in-lieu of parks.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Commissioners Tossberg and Williams made a tour to visit the proposed Stock Addition on Cemetery Road and a parkland useage problem in Corvallis Estates.

Bud Flaton and Doug Murah were in to say that they bought the Stoner property of around 40 acres and want to divide off 10 acres and have talked to Tom Hanson on this and he said they should come up and talk with the Commissioners. Chairman Williams said they should visit with Don Mullin, our Planning manager.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, May 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners told of several areas that are real washboardy--Jay said that they need some rain so that the graders can do a good job. There was some discussion on Tiffin Tracts and Jay said that his crew does the grading up there.

Commissioner Davis said he had received a call from Wayne Herman, from Mt. Power Company and said Montana Power was willing to provide a truck, backhoe and help to fix up the bridge down by Stevensville as it is washing real bad on the upside. Chairman Williams said he had received a call from Peg Whitesitt on Friday and she is concerned too. Jay said he would check this out.

The Commissioners said that they have received word that the road work up on Riverview Orchards has been completed. Jay said that they still only have half cul-de-sacs, and he left word that this was not satisfactory and was told that the Commissioners had approved the plat this way and so this was how they would have to be. Commissioner Tossberg said he would check this out. Jay said he would go up there this morning and check the roads. Commissioner Davis said he talked with Rich Duxbury about a week ago and he feels that they did a good job on the roads and everyone up there is happy about it. Commissioner Davis said that they did not have all of the culverts in at that time. The developers are anxious to have the Commissioners release them from the contract.

Chairman Williams said he had told Mrs. Houston from up West Fork that the County could not remove snow any further up the road.

The Commissioners explained that Les Moles had been in and the Commissioners had told him the County would clean his road out one more time. Commissioner Tossberg said that Les had said that the slide was feathering out a little and Commissioner Tossberg had gone up and looked from the mill and said that he thinks Mr. Moles might be right. The Commissioners explained that they had told Mr. Moles that they would see if the road crew could widen out the road a little to give him a little more time before it slides in again.

Chairman Williams said he had received another complaint from Charles Fullmer on the Blodgett Creek seepage on the South side of Bowman Road. Jay said that this is a natural slip area so they have just been letting it go.

Commissioner Davis said he had received a compliment from the people up Bunk House on the work th road crew did removing the tree.

Commissioner Davis said he received a complaint on the culvert on Old Highway 93 and Jay said it would be the people's responsibility to clean the culvert, however, he will be replacing the culvert with a steel one after the irrigation season and will slope it differently so that it will be easier to clean.

At 8:00 p.m. a Road Negotiations meeting was held in the Commissioners' office with the following people in attendance: Warren Midyett, MPEA; Nick Evanoff, Willard Titus, Del Reynolds, and Phil Richards Road Dept.; and Bob Brown, County Attorney.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Mary Ann Peterson, Prudential; and Karen Miller, Independent Insurance Agent; met with the Commissioners to present a counter-proposal for the Blue Shield insurance that the County carries for the employees. The policy proposed is with Life Investors and is an A+ company. Mary Ann said that it is getting increasingly hard to get a company to bid on any city-county group because of the politics involved. Life Investors offers a $100 deductible, no loss/no gain policy. Chairman Williams explained what Blue Shield is offering and said that the Commissioners would study Mary Ann's proposal.

Bob Metcalf and Herb Kent from the Sula Fire Dept. met with the Commissioners on the Sula Fire Dept. budget. Herb Kent is the new Sec. - Treas. Bob explained that they have added a training amount to the budget as they would like to pay their people mileage for going to training sessions--they have always paid their own expenses in the past. In capital outlay, they will be making their last payment this year of around $2,000. They have budgeted to put duel tires on their fire truck and heaters in a couple of trucks, and are budgeting $2,500 to add to the $1,500 last year to build a new building for their trucks, and to have room in the building to dry their hoses. Commissioner Tossberg said he saw no provision for the $2,475 the County has allocated for communication equipment. Bob said that that amount has to be spent before July 1st to cover requirements for Title 4, so it will not affect the budget. Bob said they want this money transferred to the account right away. Reba Falk, Admin. Assistant, was brought in and arrangements were made for the Sula Fire Dept. to get their money by transferring from PILT. The Commissioners said they see no problem with the rest of the budget. Herb Kent said they are working toward a new designation as a Class 8 fire district so that they can get a break on their insurance.

Bob said that he wonders if they should insure their repeater for vandalism. Chairman Williams said he would recommend it--there was some discussion as to whether they could get it. Bob said they would call Fred Thomas and give it a try.

Jay Unrue, Bob Brown, County Attorney; and the Commissioners went to check out the damage done when the Soft Rock Ditch broke.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Everett Curdy from up by Nordheim Lane was in to ask if the County was going to repair the damage done by the ditch break on Nordheim Lane. Commissioner Tossberg said he understands it is not a county road, so the county would not plan to fix it. He said the ditch company will have to fix the road. Everett asked if Quast Lane and Holloran Lane will be fixed and the Commissioners said they would be. Everett said that he thinks it is unfair for the County not to fix Nordheim Lane too. Commissioner Tossberg said that the County will be billing the ditch company for the damage done to the county roads that they are fixing. Everett does not live on Nordheim Lane, but hauls on that lane and needs it to get to his property. Commissioner Davis said that maybe the Commissioners can talk with the ditch company. Commissioner Tossberg said that Jay may have already done that.

Chairman Williams signed a letter supporting the application of Bitterroot Conservation District for equipment for operation.

The Commissioners attended a Board of Health meeting which was held in the Commissioners' Office at 1:30 p.m. Minutes are in the Board of Health file.

Henry and Iva Furniss were in to say that in 1968 the Forest Service surveyed their land and were talking about putting a road across to Lake Como--then in 1978 the Furnisses got concerned about what was happening and came into the courthouse and checked out the records and nothing had been recorded and they told everyone that they did not want to give an easement across their property. Mrs. Furniss did not think she had signed anything at that time and felt it was taken care of. Just recently the Forest Service was out there and staked off a road through their property so they came and checked this out and found an easement had been recorded. Mrs. Furniss said that they did not understand what they were signing and had thought it was not going to happen as it had been ten years--apparently it was recorded right after the Furnisses came in to check it out and said they did not want it. Mrs.Furniss had understood that it was going to be an autogate, not a road. She is concerned and wants to do whatever she can to stop this road from going across their property. Their phone number is 821-3472.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Dept. Superintendent, presented to the Commissioners a written report on his evaluation of the roads, culverts and cul-de-sacs which have been completed in Riverview Orchard tracts.

Essentially the roads meet county specs, although the half cul-de-sacs which had previous approval and lack of culverts in the section south of Eight Mile Road were called to the attention of the Commissioners.

The Commissioners approved the road and culvert project and requested County Attorney, Bob Brown, to draft a letter of acceptance to Dennis Lind, Attorney for the Riverview Orchards subdivision.

The Commissioners reviewed the N½ Lot 16, Blk. 12, Hamilton Heights subdivision with Tom Hanson, PCI and Mike Gaudin, Realtor for R. P. Baxter. This is a minor subdivision creating two additional lots and the center lot is presently occupied. Upon motion by Commissioner Davis, seconded by Commissioner Tossberg, the Commissioners accepted a cash-in-lieu payment of $1,000, covering essentially the two remaining lots.

Jay Unrue reported that the Road Department had repaired Bitter Root Irrigation Ditch's flood damage on Nordheim Lane, a private road. This was done to assist Bitter Root Irrigation District in an emergency situation and the Road Dept. will be reimbursed for these costs.

The Commissioners discussed the Furniss easement with Jay Unrue--Jay said that he had not talked with the Furnisses in 1978, but had just discovered the unrecorded easement in his office, and had taken it and recorded it. Bob Brown said that he feels that the land was not worth much in 1968 and is worth more now, so this is affecting how the Furnisses feel about giving the easement--Mrs. Furniss had made the statement that it was only worth about $300 an acre back then, but was worth $3,000 an acre now. The easement was filed in April of 1978, so everything is legal. Bob Brown, County Attorney, said it would probably be best to go through the petition and Public Hearing process just to see that everything is clarified. Jay said that the whole thing is contingent upon the Forest Service obtaining the money to develop the road anyway. The Furnisses had stated that the Forest Service men had told them that they did not have the money to do this this year.

Fred Siphakis from the Pinesdale Fire Department met with the Commissioners in connection with the $900 they need for their radio. Chairman Williams explained that the County can not give funds directly to a municipality so have asked Carol Peterson from the Corvallis Fire Dept. to purchase two radios and rent one of them to Pinesdale for $1.00 per year. Carol said that they would do this and will get ahold of the Pinesdale people on this. Mr. Siphakis said that they will want to order a Motorola radio because they have a man who can work on Motorolas. He said that Corvallis buys the Wilson brand, which is a little cheaper. He feels that this radio will enable them to reach the fire departments all around them. Chairman Williams asked what the life of a radio like this is and Mr. Siphakis said that Tom Allsop has had a Regency radio for 10 years and it is still working good.

Application for Cancellation of Taxes #717 was approved in the amount of $23.05.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Chairman Williams, Commissioner Davis, and Bob Brown, County Attorney, went to check out the Salish Trail, the cul-de-sac situation on Riverview Orchards, and do miscellaneous road inspections. They also checked out the site of the proposed road easement on the Furniss property.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, May 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Bob Brown, County Attorney; and Jay Unrue, County Road Superintendent; met with the Commissioners for the weekly road update. Chairman Williams said the Commissioners had been out to check out Riverview Orchards. Commissioner Davis said he had received a call from Charles Cassidy on Hoblitt Lane and he has a mentally retarded child and needs some handicapped signs. Jay said that he can get a couple of "Pedestrian Traffic" signs and put one on each end of his property. There are some distances that have to be complied with, so Jay will take care of this. The Commissioners also discussed the Furniss easement situation with Jay.

Chairman Williams asked if Jay plans to put in a new bridge in Blodgett Creek. Jay said that thi bridge is not a weak one and they would not plan to do it this summer.

Chairman Williams said he had received a call from Don Whitmire on Sharrott Hill Loop about a dust problem. He said that a major subdivision is going in up there and this may justify some oiling. Jay suggested that Lyman Dust Control should be recommended and that if they hire them to put a dust suppressant down, then Mr. Whitmire should notify the road department so that they will not grade.

Chairman Williams expressed concern about the washing at Ft. Owen Picnic Area if high water takes out a big cottonwood that seems to be protecting a lot of ground. Jay said that he thinks there is a buffer protection pool that will help and that riprapping would cost around $20,000.

There was some discussion on Cormoret Loop--Commissioner Davis said he talked with Bob Krout, the bus driver, and he said he would not go down that road next year if the County is not maintaining it.

Chairman Williams said that Lower Mill Creek Road is real washboardy--Jay said that this is becoming a real problem all over the County and until they get some rain, they can't do much about it--they will be right on it as soon as they get some moisture.

Jay said that his crew is working on the Moles road, and they are dumping at Bill Sweet's property. Chairman Williams asked Jay to keep a figure on the costs involved as justification for the County to keep out of there. Jay said that he really hopes this is the last stand. Bob Brown said he felt there should be a petition to vacate that road as this would be the best way to help the County to get out of that road without obligations down the road.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

SE¼ Sec. 8, T4N, R21W; SE¼ Sec. 8, T4N, R21W - Larry Worth

Retrace. - NE¼ Sec. 2-5-21 - Ed Sparks

Jeany Tolchin, who lives up by Sheafman Creek, was in to complain about the washboardy condition of her roads--she said she is going to move if it does not improve. Chairman Williams explained that the road crew will be oiling Sheafman Creek from the Wildflower Road to Highway 93 this fall and probably doing the rest next year.

Karen Miller and Mary Ann Peterson were in to offer a self-insurance policy for the Commissioners to consider for the employees' health insurance. They gave figures to compare with Blue Shield and the other policy that they proposed.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

Chairman Williams attended a Council on Aging meeting in Polson, Montana.

Commissioner Tossberg and Commissioner Davis were out of the office for the day.

One-year extensions were given to Peaceful Pines Subdivision and Country Hills Subdivision and letters sent to the developers in both of these subdivisions so stating.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

Mrs. Spannring was in to tell Chairman Williams that the Mitchells and Spannrings have made an agreement for maintenance for the park in Corvallis Estates. See Park File for details.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

Chairman Williams was on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

Chairman Williams was on hand to attend to office management.

The Board adjourned to meet the following Tuesday at 10:00 a.m., because of the Memorial Day Holiday.

Hamilton, Montana, May 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

At 10:00 a.m., bid opening was held for the Pothole Patcher for the Road Department. Bids were received as follows, and were opened and read by Darlene E. Hughes, Clerk and Recorder. The following people were present for said meeting: Bob Martin and Bill Bowen, Tri-State Equip., Missoula; Charles Rogers, Northern Energies, Inc.; David Lynch, Koch Asphalt; and John Kaiser, Stevensville Distributing. Jay Unrue, County Road Superintendent, was also present for said bid opening:

1. Tri-State Equip.----------$ 36,127.50
2. All-West Tractor, Inc.---------- No bid

Following the bid opening for the pothole patcher, the bids were opened for asphalt, reg. gas, no-lead gas, and diesel and propane, as follows:

1. Cenex, Laurel, asphalt, SC-$201.34; MC-$216.34; and RC-$216.34
2. Farmers Exchange-Cenex, Stevi----see bid on file for gas, no-lead and diesel
3. Northern Energies, Inc.-----.666 per gallon-propane
4. B-1 Oil Co. -----.585 per gallon-propane
5. Koch Asphalt ----$253.20 ton (all asphalt)
6. Exxon, Davisons ---see bid on file for gas, no-lead and diesel

7. Stevensville Distribution ---- see bid on file for gas, no-lead and diesel

Chairman Williams took all bids under advisement, with the decision to be made within ten (10) days. All bids are on file in the office of the County Commissioners.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

Chairman Williams attended an all-day jail seminar which was held in the downstairs conference room and conducted by Dee Halley, David Bennett, and Stuart Readio of the National Institute of Corrections in Boulder, Colorado.

Les Keebler from Cenex of Laurel, Montana, was in in connection with the bid they had submitted which he had forgotten to sign. Chairman Williams explained that the man from Koch Asphalt had attended the meeting and had asked to see the bid from Laurel, and had noticed it was not signed, so said it was not a valid bid. Chairman Williams explained that he had called Laurel and talked with Darrel Smith to confirm the bid figures and Darrel had said that the figures were right. Les said that they knew what they were doing when they made up the bid, and the price quoted was correct. Bob Brown, County Attorney, discussed the rebidding procedure and the drawbacks now that the bids had been opened. He said that he had not had a chance to research this, but would have Les sign the bid and then would research the matter. Chairman Williams said that they would call Koch Asphalt and explain the situation.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Following review with Larry Fenster, Planning Office, Susan Vieth, Planning Office, presented the following Certificates of Survey for filing:

Retracement - W½E½NE¼NW¼ Sec. 21, T9N, R19W - Rita Underwood

Bdry. Adjust. - NW¼ Section 14, T3N, R21W - Demore-Shockley

Mtg. Rel. - NE¼ Section 12, T9N, R20W, P.M.M. - Cody Lunceford

Retrace. - SE¼ Sec. 24, E½ Sec. 25; NE¼ Section 36, T6N, R21W - Riverview Addition-City of Hamilt

and following review by Don Mullin, Planning Office, Susan Vieth, Planning Office, presented the following Certificate of Survey for filing:

Family Conveyance - SW¼ 17-9-21 - Robert Cunningham

Susan Vieth presented the New Farm Acres plat for filing. Commissioner Davis moved that we accept the New Farm Acres subdivision as presented. Chairman Williams seconded said motion. Motion carried. (Records indicate we have received $2100 cash-in-lieu monies which will be deposited to the Park Board Fund). Susan Vieth presented the Sunset Orchards #4, Lt. 10, Blk. 12, plat for filing. Commissioner Davis moved that we accept the Amended Plat of Lot 10, Blk. 12, Sunset Orchards #4 for Rick Robbins as presented. Chairman Williams seconded said motion. Motion carried.

Larry Johnson, Attorney; and Dr. Charles Reed brought in a proposed model for the Hamilton Library which the Bozeman architect students have constructed, along with drawings of same. They would like the Commissioners to contribute to this so that it can be a City-County Library. They are looking at a $250,000 project, but there are a lot of corners that can be cut to reduce the amount. Mark Young, a local architect, has been helping them. They are talking around $60-$68 a square foot. Larry and Dr. Reed plan to get public comment first and see if they are on the right track for what the general public wants in a library, and they will be engaging in a fund-raising effort from private individuals first. They would like to raise enough money for the construction without raising taxes, but would need a larger mill levy for upkeep and expanding the facilities. They plan to work for 7-8 months to see how much they can raise from private donations before checking into the bond issue. They want to encourage the outlying libraries to take advantage of their facilities.

Chairman Williams said that the operating costs could go up 100% on this building. Larry said that they hope they will not increase that much. They are looking into ways to make the whole library more energy efficient and are working on the design so that it can be manned with a minimum of personnel-- the labor costs are bound to go up, and they do hope to be able to buy more books.

Dr. Reed said that while they were making application for the grant, the comment he heard over and over again was that the City and County should support the library with a definite mill levy, and the people who were awarded the grants did have this support from their cities and counties.

Chairman Williams checked the comparison sheet with what Ravalli County donates to the libraries compared with other counties in Montana and said that we are right in the ball park with other counties our size.

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton

County Seat, on May 30, 1985, for the purpose of canvassing returns and declaring results of the Charlos Irrigation District special election held in the County of Ravalli, on the 25th day of May, 1985. Present: F. T. Williams, Marion H. Davis, Darlene E. Hughes, and Betty T. Lund. For official returns, see records in the Clerk and Recorder's office.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, May 31, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Harold I. Covey, from 335 Gold Creek Loop, 363-5089, gave the Commissioners a Petition to include lands in Upper Gold Creek, T5N, R21W, in the Hamilton Fire District.

William M. Durbin was in to ask that an agricultural exemption be lifted from his property up behind the West Fork Lodge. He purchased the property in 1979 and has drilled a well down 780 feet, which has cost $9,000, and then discovered this agricultural exemption. He has also put power on his property and has installed a septic system. Chairman Williams checked with the assessor and she said that Mr. Durbin is already being taxed for residential property. Chairman Williams called Bob Brown, County Attorney, and after checking the property out in the plat room discovered that the property was not under an agricultural exemption after all.

Stuart Readio, of NIC, Boulder Colorado, was in concerning some computerized data he is preparing on the projections for the jail facilities through the year 2025.

Commissioner Davis moved that we accept the amended plat #279 for N½ Lot 12, Blk. 16, Hamilton Heights, R. P. Baxter. Chairman Williams seconded said motion. Motion carried. (Plat was actually filed Tuesday, June 4, 1985.)

Pursuant to the opening of bids on May 28, 1985, petroleum products requirements of the Ravalli County Road Dept. for the fiscal period beginning July 1, 1985, were accepted as follows; by motion of Commissioner Davis, seconded by Chairman Williams:

	Transport	Bulk Del.
Davison Service Station:		
Exxon Reg. Gasoline	$ .96226	$ .99725

Farmers Exchange of Stevensville:		
#2 Diesel Fuel	.844	.874
V-1 Oil Co. - Missoula, Mt.		
Propane		.585

Motion carried.

All bids for approximately 250,000 total gallons of RC-MC-AC asphalt were rejected due to a bidding deficiency and an extremely high bid price.

A new call for bids on our asphalt requirements will be made June 5, 1985.

Pursuant to the opening of bids on May 28, 1985, covering one pothole patch machine for the Ravalli County Road Dept., the bid in the amount of $36,127.50 from Tri-State Equipment, Inc., 216 Commerce St., Box 7968, Missoula, Mt. 59807, was accepted by motion of Commissioner Davis, seconded by Chairman Williams. Motion carried.

Application for Cancellation of Taxes #718 was approved in the amount of $385.03

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. T. Williams, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. B. Tossberg, Member

----------0----------

Hamilton, Montana, June 3, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of April, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $9,439,586.47.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

COUNTY PAYROLL FUND

Commissioner Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams said he had received a call from John Kastner down by the Victor Crossing, and he said water was running over the road. Bob Brown, County Attorney, sat in on said meeting. He requested that Jay go with him to show Mr. Woodhouse where the fence should go on Sleeping Child Creek--they set up an appointment.

Jay said that his crew is done at the Mole's wash--it took five days with one and two trucks. Jay will be giving a report on expenses. Jay said that there is some evidence of slide activity behind the house.

Chairman Williams explained that the Commissioners have turned down the asphalt bids and will have to rebid. Bob Brown explained that it should come from Jay's office just as if nothing had been done before. They set June 20, 1985, at 9:00 a.m. as the bid opening date, with publishing dates being the 5th, 12th and 19th of June.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

In accordance with a letter from Mr. Dennis Lind dated May 16, 1985, requesting that the proposed Road Special Improvement District #101 be withdrawn, Commissioner Tossberg moved and Commissioner Davis seconded the motion that the petition to create Rural Special Improvement District #101 be denied. Motion passed unanimously.

It was noted that the road work has been completed.

Commissioner Davis moved that the County accept the Blue Shield proposal for the County Health Insurance. Commissioner Tossberg seconded. The motion passed unanimously. The rate schedule for the insurance was as follows:

Single - $55.50
Two per family - $97.78
Family - $112.95
Over 65 - $22.48
Two over 65 - $44.96

Commissioner Davis attended a Transportation Meeting with the County School Superintendents and the Superintendent of Schools, Greg Danelz, held in the Extension Conference Room during the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Reloc. of Common Bdry. - SW¼ Sec. 21, T2N, R20W - Beryl Cross

Occ. Sale - SW¼ Sec. 10, T3N, R21W - Fred Benefiel

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Sanitarian, the following certificates of survey were filed:

Occas. Sale and Rem. - NW¼ Sec. 26, T6N, R21W, P.M.M. - Gary Hall

Family Conveyance - SW¼ Sec. 17, T9N, R19W - Thomas Stinnett

The Commissioners visited with Tom Thompson of Stevensville on his proposed junk vehicle site. They also visited the Del Carter road sites and the Bass Lane - Harvey Road intersection.

The Public Defender, Gerald Schultz, was in to discuss the probable need for additional legal assistance in light of recent Supreme Court cases. Such help will be necessary due to recent criminal actions occurring in the County.

Chairman Williams signed an agreement with Blue Shield relative to the County health insurance

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Bob Brown, County Attorney; Don McKenna, Attorney for Del Carter; Del Carter, and the Commissioners met in connection with the Del Carter road problem. Don McKenna explained that Link Shonkwiler of the Ravalli County Bank is Del Carter's banker and is very concerned about Del's financial situation because settling the road matter is holding up his chance for selling lots. Don McKenna said that he would like to have the Commissioners give notice to the property owners to remove encroachments from the platted right of way. Del said that the Knight property has a lot of junk in the right of way. Del said that the East-West road right of way is like a no-man's land with nothing on it. There was some discussion on the risers that are in the right of way on the North-South road. Bob Brown said that permission was given to put the pipe down the right-of-way, but not the risers. Commissioner Tossberg commented that it is the height of stupidity to have two roads running parallel five feet apart. There was some discussion on the ownership of property and the people that will have to be dealt with to open up these roads. Commissioner Tossberg said that if they could negotiate on the East-West road, this will involve a lot less trouble and then they would only have a fight on the North-South road. Commissioner Tossberg told Del that if the County gets into road building, it will be a real burden on Del's back--Del commented that it is a real burden on his back not to be able to sell his lots. There was some discussion on how this could be tackled to get the encroachments moved off the North-South right of way. Del Carter commented that he understood that the court agreed that this was a public right of way and the Commissioners had confirmed that a year ago. Commissioner Tossberg commented that they had not been asked to do anything yet, and Don McKenna said that this was what they came for today--to ask that the Commissioners get the right of ways opened up. On the North-South right of way, there was discussion on what procedure to take. Bob Brown said that the Commissioners would have to acquire the new right of way and then abandon the old one.

Larry Johnson, Nancy Sabo, and Jim Haynes met with the Commissioners in connection with the appointing of Larry Johnson to act as Justice of the Peace while Jim and Nancy were out of the office. Nancy said that the codes provide that an attorney who has been a member of the bar for five years is qualified so Larry is qualified to do this. Larry needs to take the Oath of Office and will stop in at Darlene's office to do this before Nancy and Jim leave. The Commissioners signed the letter giving permission for Larry to act as Justice of the Peace in the absence of Jim and Nancy.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, June 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

The Commissioners attended the MACO convention in Lewistown, Montana.

Darlene E. Hughes, Clerk and Recorder, delivered the list of Registered Electors for jury selection to the Clerk of Court.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

All three County Commissioners attended the MACO convention in Lewistown, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

All three County Commissioners attended the MACO convention in Lewistown, Montana.

Larry Johnson took the Oath of Office as Acting Justice of the Peace, which was administered this day by Darlene E. Hughes, Clerk and Recorder.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

Jimmy Canton was in to talk with the Commissioners about removing the gates on County Road #22--no decision was made at this time.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Nick Evanoff, Del Reynolds, Willard Titus, Road Dept.; and Warren Midyett, MPEA Representative, met with Bob Brown, County Attorney, and the Commissioners for union negotiations. Minutes are on file in the office of the County Commissioners.

Jeff Langton met with the Commissioners representing Joe and Jim Canton on County Road #22. Commissioner Davis said that Jim Canton had mentioned a Letter of Agreement for the parties involved and asked if Jeff knew anything about it. Jeff said he does not. Commissioner Davis has been out to

look at the situation. Jeff said that Jim is concerned that there be something in writing stating that gates may be removed. Jeff said that the proper Public Hearing procedure was not followed when permission was given to put in the gates--three land owners agreed, so permission was given. These are barb-wire gates, so there is no real expense involved. Jeff said that he does not think that anyone will be asking the County to bring the road up to specs--the Cantons seem to have the materials and equipment to do this themselves. Commissioner Davis stated that he does not understand the reasoning for the place they want to build the road--it will be expensive.

Jeff showed the Commissioners the Montana Codes indicating that the correct procedure was not followed to put the gates across the road in the first place. He said that his clients need a letter from the Commissioners verifying that this is still a County road. Commissioner Tossberg stated that he does not have a problem with this as he does not think the proper procedure was followed. However, Mr. Ruffato might be upset. After some discussion, it was decided to invite all parties in on June 18th at 4:00 to discuss this matter. Commissioner Davis will contact Mr. Ruffato and Jeff Langton will contact the Cantons and Shears.

Rose Goss, representative for Town of Darby; Jim Whitlock, Mayor of Hamilton; Barbara Liss, representing tavern owners; Jeff McDowell, Ravalli Republic; Bob Brown, County Attorney; met with the Commissioners regarding the decision about the license fee for the poker machines. Commissioner Davis had previously been given authority to represent the City of Stevensville. Chairman Williams explained that John LaFaver had predicted that from 3,000 to 5,000 of these machines will be licensed in the State of Montana this year. The State has the responsibility for the legality of the machines--they will not be inspecting every one that is installed. They will check out the manufactor and if one machine qualified, the rest will automatically be okayed. The state will monitor the machines and will spot check the machines. The tapes will be available to the cities and counties upon request. Chairman Williams said that he foresees a tremendous amount of bookkeeping involved. The State is training two people right now about the machines. The cash box will be available at all times to the tavern owner. Jim Whitlock said that the City of Hamilton was considering charging from $200 to $500 for their license fee. Chairman Williams said that John LaFaver had cautioned the Commissioners to be careful about going over $500 per machine. Commissioner Tossberg said that the idea of this was to give the tavern owners a chance. Jim Whitlock commented that there are a couple of communities who don't want the machines and are putting a $1,000 fee on them. Commissioner Tossberg said that he understands that these machines can be very profitable--he said that he is willing to modify his original position of wanting $1,000 per machine and give them a year to see how the machines work out. He said that he would like to keep the fee the same in the cities and county. Any establishment that has a beer or wine license, plus the tavern owners, can have these machines. They have been licensed by the state, so the county has no choice as to whether to go along, they just have the right to set the fee up to the $1,000 maximum as provided by the state. Jim Whitlock said that his councilmen were leaning toward a $200 fee. Rose Goss said that Darby was leaning toward a minimum fee also. Chairman Williams commented that the fees would not be set in concrete and were subject to change next year.

Jim Whitlock said that he had done some figuring and said that the machines should pay for themselves if they were run for 2½ hours a day. Commissioner Tossberg commented that it only takes five and a half quarters a day to pay a $500 fee. Barbara Liss commented that the 80% payoff figure is critical on this machine.

Chairman Williams commented that they are playing with the idea of charging $500 per machine per year. Commissioner Davis said that the Stevensville Mayor said he would go along with whatever the County decided. There was some discussion as to the importance of keeping the figure uniform throughout the County. Commissioner Tossberg said that our Sheriff's force will be making spot checks on this, so there will be some expense involved.

Commissioner Tossberg moved that we establish an initial $500.00 annual license fee for poker machines in Ravalli County. Commissioner Davis seconded said motion. Motion carried unanimously.

It was stated that the fees will be prorated from the time they are installed.

Barbara Liss commented that she is not thrilled with a flat fee as some areas get less business than others.

There was some discussion on the possibility of fraud in the machines.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, June 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams said that he should be able to talk with Bob Lake this week about his tree that is in the right of way.

Commissioner Davis said that he had received a complaint on Tie Chute Lane from someone who wants to oil in front of their house. Jay said that they do not plan to put gravel down and will work with anyone who oils to help keep the dust down.

The Commissioners explained to Jay what had happened at the union negotiations.

Canton said that if he starts the project, he will keep right at it and thinks it should be completed in a week or ten days--several weeks at the most. Jim would not plan to do anything until he sees the need from a Buyer. His preference would be a Buyer that would want the road closed up just as it is.

Commissioner Davis commented that all owners in the area should be contacted when the construction begins as a courtesy so that they can keep track of cattle, etc. Mr. Ruffato commented that the gates can still be used even during the construction to protect the people.

Jeff said that when he contacted Mr. Schears, he was not happy with having the road opened up to public use.

Val Tibbitts commented that the financing from the FHA is contingent upon the land being adjacent to a County road.

Chairman Williams stated that he sees no reason not to give the assurance needed to the Cantons. Bob Brown said that it is just necessary for the Commissioners to advise that this action was not permanent when it was made, and they should be able to draft something acceptable to the parties concerned.

Jeff asked if maintenance would be continued by the County when the road was opened since it was stopped when they closed it off. Commissioner Tossberg said that he would personnally vote "No" on this as the County does not want any more roads to maintain--they are having a hard time taking care of what they have right now. Chairman Williams said that he agrees with Commissioner Tossberg's "No". The County has always required a percentage of occupancy--if this is subdivided, this might be a different matter. Commissioner Tossberg said that they do not encourage maintenance in subdivisions either.

Tom Ruffatto asked about liability as to accidents on the road after it is opened up. Bob Brown said that if the County gives permission to open the road, then the County is responsible, just like on all County roads.

Commissioner Davis commented that he has no objections to this--he just wonders about the feasibility of fixing up this road.

Commissioner Tossberg said that he felt the two attorneys present could come up with what is necessary to clear up this matter. It was decided that Bob Brown and Jeff Langton would do this and present the agreement to the parties involved.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Frank Klements and Bruce Amsden, USFS; and Cal Frobich and Ed Sprague, Federal Highway Administration; met with the Commissioners because they are doing a complete reconnaissance report on the Westfork Road--they want to get it on the program for 1992. They will be going over the whole road again on September 12th for a more complete report. The project will begin at Highway 93 and will run 29 miles on up to Alta. The first 15 miles are good so the highest priority will be paving around the dam. Mr. Frobich drove this yesterday afternoon and they will be working on it again today. He explained how the Forced Highway Program works--it is a Tri-Agency working together with the State and Local levels, the Forest Service, and the Federal Highway Administration. The projects have to be initiated by the County, State or Forest Service and the Commissioners will have an opportunity at the design stage to have input into the project. At the completion of the project, they will be asking the County to accept the project and will turn it over to the County for maintenance.

Chairman Williams asked if there will be any expense to the County on this project. Cal said the only expense would be purchase of right of way if this were necessary, but he does not feel it will be. Cal said that he needs the accident experience and Frank Klements said he had it documented up to 1982, but the reports are always a couple of years behind. Commissioner Tossberg said Cal could talk to the Sheriff's Dept. on this. Cal said that they are always careful to give special consideration to high-hazard locations. They will probably be designing this road for a 40-45 m.p.h. travel.

Beginning at 10:00 a.m., the following Preliminary Budget Hearings were held:

Clerk and Recorder - Record Administration, Accounting, Other Government -
Sandra Strong, Betty Lund, Darlene Hughes and Reba Falk

Elections - Sandra Strong, Betty Lund, Darlene Hughes and Reba Falk

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution No. 355 transferring funds in the amount of $25,000 to the Capital Improvement Fund. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Utility Siting - SW¼ Sec. 4, T3N, R21W - Don Jenkins

J. R. Iman met with the Commissioners to discuss cash-in-lieu of parks on Peaceful Pines subdivision. Letter from Ernie Wood, Reclassification, had valued this property at a range from $2200 - $3500. J. R. said that he would like the Commissioners to come up with a [illegible]

Commissioner Tossberg asked Jay if he had figures for the cost of moving the Moles' slide materials again. He wants to send figures to Mr. Moles to back up the County's position that they can not afford to continue to take care of this problem.

Chairman Williams asked if Jay is having trouble with the irrigators sprinkling the roads this year--Jay said that they are having less trouble than usual.

Jay said that his crew will be starting their asphalt application this week.

Ron Foltz, Jeff Langton, Bob Brown, and Reba Falk met with the Commissioners in connection with the cemeteries in Ravalli County. After much discussion, it was decided that we would continue with the County-wide levy for cemetery budgets.

Barry Rowe, Jay Printz, Dale Dye, Peggy Verburg, and John Robinson met with the Commissioners in connection with the jail situation. They visited the Lagerquist Fairgrounds property and the Bedford building while checking out possibilities for the new jail location.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Beginning at 10:00 a.m., Preliminary Budget Hearings were held with the following people in attendance:

Sheriff - Administration, Detention and Correction, County Coroner, Crime, Ambulance, and Animal Shelter - Ann Craft, Betty Cook, Reba Falk, Edna Mae Leonard, Dave Vandiver, Carlotta Grandstaff, Ravalli Republic; Ron Fisher, Jay Printz, Dale Dye, Joan Johnson, and Terry Tignor

District Court, Youth Court, and Justice Court - Ann Craft, Betty Cook, Edna Mae Leonard, Dave Vandiver, Carlotta Grandstaff, Margaret Stelling, Reba Falk, Darlene Hughes, and Nancy Sabo

Beginning at 1:00 p.m. - Treasurer - General, Accounting, and Vehicle Licensing - Ruth Cleveland, Mary Kay Browning, Darlene Hughes, Reba Falk, Nancy Coe, and Judy Williams

County Attorney - Bob Brown, Reba Falk, Nancy Coe, Judy Williams

Sanitarian, Planning and Junk Vehicle - Don Mullin, Reba Falk, Judy Williams, Nancy Coe

The Commissioners reviewed a contract covering the purchase of 100,000 cubic yards of gravel and rocks from Charles J. and Dorothy Christenson. The contract will be transmitted to the Owners for their approval and then returned to the Commissioners for final approval and sign acceptance.

Joe Canton, Jim Canton, George Ruffatto, Tom Ruffatto, Jeff Langton, Attorney; Val Tibbitts, FHA; Bob Brown, County Attorney; met with the Commissioners in connection with County Road #22. Jeff Langton, who represents the Cantons, said that he got in touch with Gene Schear in Florida today about this matter. The Cantons want a statement in writing from the Commissioners that they are not opposed to the removal of one or two gates. This road was petitioned to become a County road in 1895, was opened up and everything complied with--in 1971 Canton, Ruffato, and Schears agreed as a matter of convenience to shut off the road to public travel. Since all three were in agreement, and there was no public protest, the Commissioners at that time discontinued the road--it was not abandoned. The land owners had permission from the County to erect gates at either side of the stretch involved--since that point, it has been shut down to through traffic to the public. Now the Cantons, who own 80 acres, have decided it suits their needs to have the authority to remove the gates so that they can sell their property. Jeff said that it would seem that if any one or more of the property owners feel it does not suit their needs, or is inconvenient, that this is still a County road, and could be opened to public travel. However, after 14+ years of nonuse, there is a need to bring this road up to County specs. The Cantons are willing to do the road work at their expense--they have the equipment and the no-how to do this. They do not plan to do this work immediately, but would like the authority to do it if it is needed in order to make a sale of the property--the decision to open up the road would depend upon the needs of the Buyer.

Commissioner Davis asked if they planned to fix up the whole road and Jeff said that they did--it depends upon how much work is needed. Commissioner Davis said that he and Bob Brown had gone up and looked at the road with George Ruffato and it needs quite a bit of work and he wanted everyone to realize that this is a good sized job. He said that a culvert may be needed in one area as water is running across the road.

Jim Canton commented that they are aware that the County has road specs and they would work closely with the County Road Supervisor and are prepared to bring this up to specs. They would plan to erect signs to show the people that work is being done on the roads. Jim said that they really can not come to conclusions as to the sale value of the property without permission to open it up if necessary.

Commissioner Tossberg said that the Commissioners would be interested in hearing from the Ruffatt as to their views on this as their purpose was to offend the parties involved as little as possible. George said that it will make it harder to move the cows with the gates down, but they would not take the Cantons to court--they would, however, like the road completed right away and not drug out. They have had problems in the past with people getting stuck up there during hunting season. They would like the

Canton said that if he starts the project, he will keep right at it and thinks it should be completed in a week or ten days--several weeks at the most. Jim would not plan to do anything until he sees the need from a Buyer. His preference would be a Buyer that would want the road closed up just as it is.

Commissioner Davis commented that all owners in the area should be contacted when the construction begins as a courtesy so that they can keep track of cattle, etc. Mr. Ruffato commented that the gates can still be used even during the construction to protect the people.

Jeff said that when he contacted Mr. Schears, he was not happy with having the road opened up to public use.

Val Tibbitts commented that the financing from the FHA is contingent upon the land being adjacent to a County road.

Chairman Williams stated that he sees no reason not to give the assurance needed to the Cantons. Bob Brown said that it is just necessary for the Commissioners to advise that this action was not permanent when it was made, and they should be able to draft something acceptable to the parties concerned.

Jeff asked if maintenance would be continued by the County when the road was opened since it was stopped when they closed it off. Commissioner Tossberg said that he would personnally vote "No" on this as the County does not want any more roads to maintain--they are having a hard time taking care of what they have right now. Chairman Williams said that he agrees with Commissioner Tossberg's "No". The County has always required a percentage of occupancy--if this is subdivided, this might be a different matter. Commissioner Tossberg said that they do not encourage maintenance in subdivisions either.

Tom Ruffatto asked about liability as to accidents on the road after it is opened up. Bob Brown said that if the County gives permission to open the road, then the County is responsible, just like on all County roads.

Commissioner Davis commented that he has no objections to this--he just wonders about the feasibility of fixing up this road.

Commissioner Tossberg said that he felt the two attorneys present could come up with what is necessary to clear up this matter. It was decided that Bob Brown and Jeff Langton would do this and present the agreement to the parties involved.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Frank Klements and Bruce Amsden, USFS; and Cal Frobich and Ed Sprague, Federal Highway Administration; met with the Commissioners because they are doing a complete reconnaissance report on the Westfork Road--they want to get it on the program for 1992. They will be going over the whole road again on September 12th for a more complete report. The project will begin at Highway 93 and will run 29 miles on up to Alta. The first 15 miles are good so the highest priority will be paving around the dam. Mr. Frobich drove this yesterday afternoon and they will be working on it again today. He explained how the Forced Highway Program works--it is a Tri-Agency working together with the State and Local levels, the Forest Service, and the Federal Highway Administration. The projects have to be initiated by the County, State or Forest Service and the Commissioners will have an opportunity at the design stage to have input into the project. At the completion of the project, they will be asking the County to accept the project and will turn it over to the County for maintenance.

Chairman Williams asked if there will be any expense to the County on this project. Cal said the only expense would be purchase of right of way if this were necessary, but he does not feel it will be. Cal said that he needs the accident experience and Frank Klements said he had it documented up to 1982, but the reports are always a couple of years behind. Commissioner Tossberg said Cal could talk to the Sheriff's Dept. on this. Cal said that they are always careful to give special consideration to high-hazard locations. They will probably be designing this road for a 40-45 m.p.h. travel.

Beginning at 10:00 a.m., the following Preliminary Budget Hearings were held:

Clerk and Recorder - Record Administration, Accounting, Other Government -
Sandra Strong, Betty Lund, Darlene Hughes and Reba Falk

Elections - Sandra Strong, Betty Lund, Darlene Hughes and Reba Falk

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution No. 355 transferring funds in the amount of $25,000 to the Capital Improvement Fund. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Utility Siting - SW¼ Sec. 4, T3N, R21W - Don Jenkins

J. R. Iman met with the Commissioners to discuss cash-in-lieu of parks on Peaceful Pines subdivision. Letter from Ernie Wood, Reclassification, had valued this property at a range from $2200 - $2500. J. R. said that he would like the Commissioners to come up with a way that this could be paid

off as the lots were sold as the up-front costs for subdividing are tremendous and since the problem has been that people try to evade the subdivision laws, it would seem that the Commissioners should work to help those who are trying to do things the right way. Commissioner Tossberg said that they tried something like this in another situation and they did not like it--he would like to see a Note set up with annual payments for five years with a fair amount of interest charged, with the last lot held as collateral. After more discussion about possible alternatives to handle situations like this, Bob Brown, County Attorney, came in and suggested a mortgage with partial releases upon payment of 1/12th for each parcel--Bob said that he sees no problem with doing it this way, but will research to be sure. Both Commissioner Tossberg and Commissioner Davis said they would have no objections to this procedure in this case as the land is free and clear from mortgages and this would show up in a title report to warn the buyer.

The Commissioners arrived at a figure of $5500 for Cash in Lieu of Parks for Peaceful Pines subdivision.

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution #356 setting up a P.I.L.T. Fund. Motion carried.

The Commissioners accepted the resignation of Joe Reif as Civil Defense Director--said resignation to become effective on July 1, 1985.

Application for Cancellation of Taxes #719 was approved in the amount of $13.99.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

David Lynch from Koch Asphalt and Les Keebler from Cenex of Laurel, Montana; Jay Unrue, County Road Superintendent; Darlene E. Hughes, Clerk and Recorder; met with the Commissioners for the bid opening on asphalt for the Ravalli County Road Dept. Bids were opened as follows:

Koch Asphalt of Spokane - RC, MC, and SC - $251.80 ton--FOB Hamilton

Cenex of Laurel - SC - $199.52 Ton
MC - $214.52 Ton
RC - $214.52 Ton

David Lynch said that he realized that his bid was high, but if, at any time this year, Cenex of Laurel was unable to supply Ravalli County's needs, his company would be glad to supply the asphalt for Ravalli County at the prices quoted.

Commissioner Davis moved that we accept the bid from Cenex for asphalt. Commissioner Tossberg seconded said motion. Motion carried unanimously.

Tom Hanson, PCI; John Stybar, FAA; and Joe Reif, Ravalli County Airport Manager; met with the Commissioners in connection with the problems with frost heaves out at the airport. Tom explained that the FAA is in a position to spend some money to help with this problem and there is a chance of some of the 1985 funding, or even to get in on some 1986 funding. There was much discussion on the need for a drain to get the moisture out of the runway and engineering ways to get the frost problem taken care of. Tom said that his best explanation for what has happened is that they went deep enough to cover the structural construction, but not deep enough for the frost situation.

Tom said that he is making plans to correct the situation and they would definitely go with the hot mix asphalt another time. Joe commented that this is what he has always wanted and would not settle for anything else from now on. There was some discussion on the values of G. O. Textile. John explained its purposes and said he felt that it was a waste of money on projects like the runway.

Chairman Williams said that what he was interested in was the dollars involved for the County. Tom said that the total project would run $350,000, but the Commissioners need to give a lot of thought to what they want to do out there in the immediate future because the pre-application should go in the first week of July. The County could borrow the funds from the State for its 10% - $35,000; and the interest looks like it will be at 7.7%--this is cost plus 1% administrative fee. Joe said that he has been working on filling the ditch himself and wonders if all of the expenses are necessary. The main problem is the runway as there is a safety factor involved. Tom and John both said that this is the reason they have broken all of the jobs down so that the Commissioners can study this and decide what is necessary and whether or not to do anything on certain things. Commissioner Tossberg asked that Tom present this to the Commissioners in a way that they can determine what is most important and what is tied together to get the best services and value for the money spent. Commissioner Tossberg said that we currently have an uncompleted project out there and we need to finish that. Tom said that they are waiting for the cold-regions people to come in so that they can get advise on what to do.

John said that he would like the Commissioners to go ahead and advertise for an engineer so that they will be in a position to get their pre-ap in the first of July if they decide they need to get this money. The problem is that funding is running out and it may be that it will not be available a couple of years down the road and then the entire amount would fall on the County. They would like to be in a position to tie up this funding for Ravalli County while it is available, and the people getting the money are the ones that have selected their engineers and gotten their pre-aps in. Jim

Commissioner Tossberg asked if it might be wise to drill holes all the way down the runway to see what we have down there--Tom said he thought about that but has overcompensated for the needs in his proposals and feels it might be a real waste of money to run all of those tests.

To hire an engineer for a project like this, the Commissioners need to advertise in a major newspaper--in this case, it would be The Missoulian. This is a requirement for the loan. They have to obtain proposals from at least three engineering firms.

Chairman Williams said that it would appear that PCI would have an edge on the engineering bid as they have been working with it. John said that PCI is paid for the efforts they have made and their work has been documented so that other engineering firms can use the same data in their bids that PCI has.

John said that he will be gone the next couple of weeks but Jim Houghton and Susan Alexander have been well informed on this program and can take over on this if the Commissioners contact them.

Commissioner Tossberg said that if the Commissioners choose to do nothing on this, we would still have a commitment from FAA on the bleeding problem. John said that this is true but they can not spend more than 10% of the original cost in any amended program, so that is why they are proposing the extra loan so that the whole problem can be taken care of if the Commissioners so choose.

At 1:00 p.m., insurance bids for the comprehensive insurance for Ravalli County were opened with the following people in attendance: George and Bill Rummel, Bob Brown, County Attorney; Darlene E. Hughes, Clerk and Recorder; and Reba Falk, Administrative Assistant.

House of Insurance - Could give no total quote at this time as they could not get umbrella figures as Bob Thomas Agency had them tied up with Lloyds of London

Bob Thomas Agency - $120,149.67

Bob Brown, County Attorney, will have to run a comparison sheet to see how the bids run.

There was some discussion about what was tied together--George Rummel said that Sections 1, 2, and 11 have to be together, but the others can be selected separately.

George Rummel and Bill will be leaving Wednesday, June 26th, and will not be back until the 3rd of July.

Beginning at 2:30 p.m., Preliminary Budget Hearings were held as follows:

Extension - Bill Peterson, Rob Johnson, Charlotte Critchlow, Vivian Yang, and Reba Falk

Weed - Jerry Allen, Vivian Yang, and Reba Falk

Museum - Erma Owings, Lena Bell, Vic Vadheim, Vivian Yang, and Reba Falk

Leland Ross met with the Commissioners in connection with changing the boundary lines on his subdivision in Emma Johnson's Addition to Corvallis. The Commissioners said he would have to contact his surveyor to redo the lines.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Dennis Gordon was in to get the Commissioners' signatures on the Fire Council Mutual Aide Agreement. He has gotten signatures from all of the fire departments involved.

Carlotta Grandstaff, Ravalli Republic; Ruth Brandborg, League of Women Voters; Maxine Jones, interested in senior citizens; Stan McEntire, handicapped citizen; and Joan Marie Connor, handicapped citizen (transported to meeting by Senior Citizen bus), met with the Commissioners in connection with Revenue Sharing. (Commissioner Tossberg had previously left the office to attend an energy meeting in Missoula, Montana.) Chairman Williams explained the funding estimated to be received this year and said that the Commissioners normally put this money into the General Fund to help reduce taxes. Chairman Williams read a letter from Bernie Swift requesting that said funds be placed in the General Fund. Chairman Williams explained that Ravalli County, with the exception of the larger counties who have much more revenue, had the lowest cost per capita in the State of Montana, and the Commissioners are proud of this fact as they always work to keep the taxes down. Chairman Williams asked for comments from those present.

Stan McEntire commented that there is a real need for transportation for the handicapped and the elderly. He said that there are plenty of vehicles available but they should be better organized--he would like to see a coordination of the transportation facilities. Chairman Williams said that he has checked into this and has found it to be extremely costly. He said that the State does bear part of the costs for things like this and he will check into it. Joan Connor agreed with Stan in his request and said that she would be willing to pay part of the costs involved and feels that most of the people would be willing to pay part of the costs. She would like to see this need met and said that things like this keep being put off. Chairman Williams explained that they have looked into the possibility of coordinating the Senior Citizens and Ravalli Services buses and always run into the problem that the bus is tied up when someone needs it. Joan said that she and the other handicapped people would be glad to fit into the slack times whenever the schedule of either bus is not tied up.

Both Maxine Jones and Ruth Brandborg commented that they feel there is a real need for more involvement in the Senior Citizen program and would like to see this happen. Maxine said that maybe a paid coordinator is necessary to keep things active. Maxine said she would like to know why the Senior Citizen bus is so limited. She said that she is concerned that needs are not being met--Haven House is closing for lack of a place and will only be providing food baskets now. Ruth Brandborg said that she feels people are just reticent to get involved. Maxine said that she gets a lot of calls from volunteers who are willing to help others, but does not know where to refer them.

Stan McEntire said that he would like to see some automatic doors on the courthouse to help the handicapped. Joan Commented that she hopes the Commissioners will get the timed doors so that she will have time to get into the courthouse without the door closing on her.

Joan Connors asked why the Commissioners put all of the Revenue Sharing money in the General Fund. She asked if the Commissioners receive that many complaints on high taxes. Commissioner Davis commented that they do receive a good share of complaints. Chairman Williams commented that we could lose Revenue Sharing funds within the next couple of years and then all of the money will have to be paid by the taxpayers.

Reba Falk, Admin. Assistant, asked why the bus that the Council on Aging owns is not used to take care of more needs. Maxine said she did not know why, she just knows there is a rule that the bus can not be used to bring people into the Council on Aging facilities for lunch. Both Maxine and Joan said that they find it difficult to communicate with the people at the Council on Aging. Joan said that one reason she has been turned down is that she is too young--you have to be 60+ to ride that bus. Chairman Williams said that the funds spent for this bus provided that it was to be used for Senior Citizens who are 60+.

Carlotta Grandstaff asked if Ravalli Services has a bus with a lift for the handicapped. Stan said that they do and would be willing to turn this bus over to a centralized system if one could be set up. Chairman Williams said that this takes a lot of funding and the insurance is high, but the Commissioners will check into this and try to take care of the automatic doors on the courthouse.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, June 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Davis moved that we accept the bid of Bob Thomas Insurance, it being the only complete bid submitted. Commissioner Tossberg seconded said motion. Motion carried.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay said that his crew is working on the gravel build up on Sheafman Creek. There was some discussion on a tree that had blown over on Lower Mill Creek and a broken bridge down by Florence.

The Commissioners discussed a complaint about the dust on the parking lot at the courthouse. They said that they should probably pave it as soon as a decision is made about the jail situation and they have the money available. There was some discussion about the possibility of sprinkling the parking lot and the puddles that would result to cause more problems.

Preliminary Budget Hearings were held beginning at 9:00 a.m., as follows:

Road and Bridge - Edna Mae Leonard, Carlotta Grandstaff, Reba Falk and Ann Craft, and Jay Unrue

County Superintendent - Greg Danelz, Edna Mae Leonard, Carlotta Grandstaff, Ann Craft, and Reba F

County Surveyor - Edna Mae Leonard, Carlotta Grandstaff, Ann Craft and Reba Falk

County Nurse - Henrietta Brandon, Edna Mae Leonard, Carlotta Grandstaff, Ann Craft, and Reba Fal

Preliminary Budget Hearings were held beginning at 1:30 p.m., as follows:

County Fair - Ned Applebury, Juanita Hork, Mary Ethel Nousanen, LWV; and Reba Falk

County Buildings - Reba Falk and Mary Ethel Nousanen, LWV

County Commissioners - Reba Falk and Mary Ethel Nousanen

Civil Defense - Reba Falk and Mary Ethel Nousanen

WIC - Reba Falk and Mary Ethel Nousanen

Veterans Administration - Reba Falk and Mary Ethel Nousanen

Mental Health, CDC - Reba Falk and Mary Ethel Nousanen

The Chairman was authorized by motion of Commissioner Tossberg, seconded by Commissioner Davis, to approve the following documents for the fiscal period of 7-1-85 to 6-30-86:

Montana Department of SRS, Contract No. 86-075-12009-0 - Family Planning Contract

Montana Department of DHES, Maternal and Child Health Services Block Grant Agreement; DHES Report of Intended Expenditures and Statement of Assurance

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

David Carr and Steve Goheen met with the Commissioners regarding computer programming for the courthouse.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Marion Basacker was in to talk with the Commissioners in connection with the necessity for perc tests on his property down by Stevensville.

Dave Carr & Steve Goheen met with the Commissioners to discuss the computer programming situation.

Pat Shandorf requested that she be allowed to schedule a meeting room for June 18, 19, 20 and 21, 1986 for the Eagles' Convention. The Commissioners showed her the big meeting room downstairs.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retracement - W½ Sec. 23, T7N, R20W - Nathaniel Garrod

Retracement - SW¼ Sec. 30, T8N, R20W - James Babbit

Occ. Sale & Rem. - NE¼SE¼ Sec. 36, T6N, R21W, P.M.M. - Warren & Shirley Ash

Ag. Exempt. - Sec. 6, T7N, R20W - Deldy Yorgensen

Retrace. - SW¼ Sec. 26, T10N, R20W - Geo. English

Carole Graham from Human Services returned the key for their courthouse office and cleaned out the vault and returned the combination.

Road Negotiations were held at 5:00 p.m. with Del Reynolds, Nick Evanoff, Willard Titus, and Phil Richards representing the road department; Warren Midyett from MPEA; and Bob Brown, County Attorney; attending. For more information, see minutes in the Commissioners' office.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Beginning at 9:00 a.m., the following Preliminary Budget Hearings were held:

Capital Improvements - Judy Williams, LWV; Reba Falk

PILT - Judy Williams, LWV; Reba Falk

Comprehensive Insurance - Judy Williams, LWV; Reba Falk

Libraries - Dr. Reed, Judy Williams, LWV; and Reba Falk

Wayne and Karin Stanford were in to talk to the Commissioners about a request they have made of the Ravalli County Sheriff's Department for the Centennial Celebration down in Lone Rock July 4, 5, and 6th of this year. They would like a deputy down there to keep things under control as they expect from 3,000 to 5,000 people. Dale Dye told them to come talk with the Commissioners as he has a problem with manpower and would need to pay someone extra. Karin said that they are operating on a volunteer basis and would be unable to pay around $200 for a special deputy. They are discouraging the sale of beer in the area and are hoping for no problems in this area. The Commissioners said that they can ask the Highway Patrol to drive through the area to help keep things in line. Jay Printz, Sheriff's Office, came in and said he will plan to be out at the Lone Rock celebration and will not charge. Commissioner Tossberg said that the Commissioners would not expect Jay to work for nothing.

Beginning at 1:00 p.m., the following Preliminary Budget Hearings were held:

Fire Districts - Reba Falk, Jay Gasvoda, Walt Schear, Bob Krout, and Tony Martin

Cemeteries - Reba Falk

Soil Conservation - Reba Falk

Council on Aging - Reba Falk

Airport - Joe Reif and Reba Falk, and Jeff McDowell

Road Negotiations were held at 8:00 p.m., with the following people in attendance: Del Reynolds, Phil Richards, Nick Evanoff, Road Dept.; Warren Midyett, MPEA; Bob Brown, County Attorney. For minutes of said meeting, see file in Commissioners' Office.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, June 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting.

Reba Falk was appointed as Disaster and Emergency Services Coordinator for Ravalli County, Montana.

Commissioner Davis moved that Chairman Williams, as a sponsoring representative of Ravalli County, be authorized to execute an Agreement between the Ravalli County Head Start and the Montana DHES for the purpose of extending to First Party assistance available under the federal Child Care Food Program.

Commissioner Davis moved that we accept the Audit Proposal of Ronald Paul Foltz to provide auditing services to Ravalli County for the Fiscal Year ending 6-30-85, at an estimated audit fee of $10,675. A standard audit contract was signed by Chairman Williams after said motion carried.

Charles and Charlotte Cathy, Harold Covey, and Penn and Dorothy Holsapple attended the Public Hearing at 2:00 p.m. to include lands in Upper Gold Creek in the Hamilton Fire District. Chairman Williams read the Public Notice that had been made and then asked for proponents for the petition. Mr. Holsapple said that they feel very deeply about this and are very definitely for it. Chuck Cathey said that he was shocked to find they were not covered. Bob Brown explained how some strips had been left out. Mr. Holsapple said that everyone they had contacted had been for this petition.

There were no comments from opponents.

Chairman Williams said that the Commissioners would draw a Resolution to include these lands and mail copies to the landowners involved. He said he is sure there will be no problem including these lands.

There was some discussion on the fire taxes that would now be assessed to this property and the insurance values of having the property covered by the Hamilton Fire District.

Commissioner Davis moved that we adopt Resolution No. 357 including lands in Upper Gold Creek into the Hamilton Fire District. Motion carried. See Perm. File #7048.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. T. Williams, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. B. Tossberg, Member

----------0----------

Hamilton, Montana, July 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of May, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $10,579,876.51.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners told Jay that Dean Lagerstrom had been in to say that the West Fork Road needs work just before the West Fork Lodge, and by LaVerne Creek and Rombo. Jay was also told about a complaint from Mr. Harper on the washboard condition on Tin Cup Road, and the washboard condition on Eagle Watch Road by Mr. LeRoy Strong.

The Commissioners voted unanimously to reappoint Henry Grant to the Board of the Bitterroot Historical Society for a period of three years.

coverage is being re-written.

Following review with Don Mullin, Planning Office, the following Amended Plat was filed:

Riverview Lots 4, 5 and Part 6, Block 25 (inside City of Hamilton so mayor signs it)

Following review with Don Mullin, Planning Office, the following Certificates of Survey were signed:

Occas. Sale & Remainder - SW¼ Section 30, T7N, R20W,
NW¼ Section 31, T7N, R20W - Farmers State Bank

Occas. Sale, Family Conv. and Remainder for NE¼ Sec. 15-8-20 - Gary Browning

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 2, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Mr. James Kucera registered a complaint concerning speeding on N.E. Honeyhouse Road.

The Commissioners and the County Attorney met in Florence at 8:00 p.m. with Mr. Orville Warner and Steve Schertenlieb on the Florence Park. Mr. Warner's property abuts the park on the north and he disputes the legitimacy of the survey of the Florence Park Boundary. He is also concerned about plans to place a parking lot for the park along side his property.

There was considerable discussion of the problem without any resolution. It was left that the Commissioners would think the matter over and get back to Mr. Warner.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners worked on the budgets for the 1985-86 fiscal year.

The Commissioners wrote to Mr. Orville Warner concerning their meeting on July 2, 1985, and proposing a solution to the boundary dispute.

Because of the July 4th holiday, the Board adjourned to meet the following Friday at 10:00 a.m.

Hamilton, Montana, July 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Commissioners Williams and Tossberg were out of the office for the day.

Earl Flinders was in to say that they are having the worst conditions ever on Wilcox Lane as far as washboard conditions. Commissioner Davis said he would discuss this with Jay Unrue on Monday at the road meeting.

Commissioner Davis and Reba Falk, Disaster and Emergency Coordinator, discussed a letter received from George M. DeWolf, Administrator, Disaster & Emergency Services, in connection with the drought conditions in most counties and the need to declare a disaster. Elmer Severson was called as well as George Vogt and Floyd Colpitts. Floyd Colpitts from the ASC office has reported that his board will meet on July 9th to determine if it is necessary to declare a disaster on the county level, and will report to the Commissioners and Reba Falk upon their decision.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, July 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Tossberg asked what Jay's crew is doing on the Florence streets. Jay said that they are giving some streets a double shot penetration and filling and widening where needed. Commissioner Davis asked about Tie Chute Lane--Jay said it is on low maintenance so they just hit it a couple of times a year. Commissioner Davis said that there is not much gravel to hit and Jay said that this is true of miles of road all over the valley. There is not a good source of gravel in the area and they have limited traffic. Commissioner Davis said that there are more houses up there right now than there used to be. Jay said that they would put gravel on the road periodically as they can get some--the nearest source is in Stevensville. Chairman Williams asked about the pothole patcher and if Jay would be using it on the Westfork Road. Bob Brown, County Attorney, sat in on said meeting.

The Commissioners and Jay discussed a complaint received Friday from Earl Flinders on Wilcox Lane. Jay said that his crew is working on Pine Hollow Road and they are getting their shipments in from Laurel (asphalt) with no trouble.

There was some discussion on the asphalt bleeding out at the airport. Jay said that the new highway through Hamilton is doing some bleeding too--this seems to happen sometimes in spite of the best efforts. Jay asked if there have been any conclusions on the frost heaves at the airport and Commissioner Tossberg said that they are going to monitor a couple of test holes for a while.

Commissioner Davis said that Mr. Warner is not satisfied with the Commissioners' decision on the Florence Park, and has threatened to sue.

Jim Haynes, J.P., met with the Commissioners to say he has been asked to come back as a smoke jumper to help with the fire situation. He said that he compares this with being in the National Guard and wonders if this is a priority right now. The Commissioners said that this would depend upon whether Nancy Sabo can get along with the work load in the J.P. office and was agreeable to Jim taking a leave

of absence to fight fires.

Commissioner Davis moved and Commissioner Tossberg seconded the motion that we accept and adopt Resolution #358 in connection with County Road #22. Perm. File #7051. Motion carried.

Commissioner Tossberg moved and Commissioner Davis seconded that we grant conditional approval to Clarence Wines for Lot 72, Eagle Watch subdivision, subject to the conditions as set forth in the conditional approval letter. Motion carried unanimously.

Commissioner Davis moved and Commissioner Tossberg seconded that we adopt Resolution No. 359 regarding District Court expense, which allows Counties to borrow money to cover deficit spending in lieu of selling bonds. Motion carried unanimously.

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution No. 360 granting approval for expenditure purposes of $35,208 to enable Ravalli County to pay enrollment costs in the MACO Worker's Comp. trust fund to insure workmen's compensation. Motion carried unanimously.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file.

Commissioner Tossberg moved that we sign an agreement with Charles J. Christianson, et ux and Ravalli County for gravel and rock. Commissioner Davis seconded said motion. Motion carried. See Permanent File #7052.

Commissioner Tossberg moved that we adopt Resolution #361 authorizing the registering of warrants for District Court. Commissioner Davis seconded said motion. Motion carried.

Jim Turcotte from G. T. Murray was in to talk with the employees on deferred compensation.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - SW¼ Sec. 11, T3N, R21W - Nik M. Breitweiser

80 acre Retracement - SW¼ Sec. 34, T8N, R21W - Vincent Moorhouse

Retrace. - Lts. 25-30, Blk. 23, Victor, SW¼ Sec. 30-8-20 - Gary Milam

Retrace. - N½ Sec. 14, T3N, R21W - Town of Darby

Parcel Over 20 - NW¼ Sec. 20, T7N, R21W - Winfield J. Sisk

Remainder - SE¼ Sec. 36, T6N, R21W - Merese Bailey

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Upon a motion by Commissioner Davis, the Board approved the reappointment of Robert Thoft and Gene C. Vining to the Ravalli County Weed Board for a two-year term beginning July 1, 1985.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, July 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the work that is being done up Sheafman Creek. Jay said that they will be working on Burnt Fork this fall.

Commissioner Tossberg moved and Commissioner Davis seconded that Chairman Williams be authorized to sign a Maintenance Contract with Local Government Services for the BARS system. Motion carried and Chairman Williams signed said contract.

Vaden Scruggs and his wife came in to complain about the dust conditions on Foley Lane. They would like to see the road paved. The Commissioners indicated that nothing could be done this year, but they would have a traffic count made.

The Commissioners received bids as follows for the carpeting of the election room and employees' lounge in the basement:

Bitterroot Furniture, 28 oz. ----------$	2,576.00
Evans Furniture, 28 oz.----------	3,087.63
Carpet Corner, 28 oz.----------	2,512.55
Billy's Carpet Corner, 28 oz.----------	2,540.00
Big "O" Carpet, 28 oz.----------	3,335.00

Commissioner Davis moved and Commissioner Tossberg seconded that we accept the bid of Carpet Corner

in the amount of $2,512.55, it being the lowest bid received. Motion carried unanimously.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Sue Moore, of 363-4396, and Bob Brown, County Attorney, met with the Commissioners in connection with the stables down at the fairgrounds. Sue Moore said that she had signed a contract with Ned Applebury to pay to have the stalls cleaned before and after the Paint Show and had paid to have this done and went down there and it was dirty--had not been cleaned since last fairtime--so she and her club had cleaned all 101 stalls. She said that she had told Henry that her helpers needed to be paid for what they did and one girl did get paid, but a couple have not been paid yet. She said that the track is also in bad shape. Sue said that if the County would furnish paint, her club would be glad to paint the buildings. Sue said that no painting or repairing has been done down at the fairgrounds for a long time.

Chairman Williams said that the Commissioners will check into this as they have received another complaint. Sue said that the charge of $5.00 per day is real cheap--they pay a lot more other places. She said that they would be willing to pay more to have the services that they need. The race track is so uneven that she knows of four horses that have been injured in the last year--there is a lot of rock in the arena and she said that the County bought a rock picker, so it should not be too hard for them to get the rocks picked up. Sue said that she supposed an average fee would be $15.00--they pay $7.00 in Kalispell. They also charge $5.00 for hook-ups for electricity and gave the money to Henry for this.

Petition for Inclusion in the Hamilton Rural Fire District of lands in the Roaring Lion area was received this day from Kathleen Bailey.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Commissioner Tossberg and Chairman Williams were on hand to attend to office management.

Tom Hanson from Professional Consultants was in to discuss completion of the airport project.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners and Reba Falk, Disaster and Emergency Coordinator, attended a meeting at the ASCS office in connection with the drought situation in Ravalli County.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Reloc. of Common Bdry. - NW¼ Sec. 6, T5N, R20W - Gerine Lofftus

Occ. Sale - NE¼ Sec. 21, T9N, R20W - Charles Sterret

Parcel Over 20 Acres - NW¼ Section 20, T7N, R21W - Jack Atcheson & Sons, Inc.

Occ. Sale & Rem. - SW¼ Sec. 6, T8N, R20W - Loyd Oster

Mtg. Rel. - SE¼ Sec. 10, T4N, R21W - Tony Monzingo

Retrace. - NE¼NW¼ Sec. 31, T6N, R20W - Frank Holley

Upon a motion by Commissioner Davis, seconded by Commissioner Tossberg, the Board authorized Chairman Williams to execute a Memorandum of Understanding of a Special Cooperative Field Agreement between the U. S. Fish and Wildlife Service and the Montana Wool Growers Assn. in which Ravalli County agrees to allocate $500 for the protection of sheep from destructive animals. Motion carried.

Commissioner Davis moved and Commissioner Tossberg seconded that we adopt Resolution #362 declaring Ravalli County as a disaster area due to drought. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton Montana, July 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Chairman Williams and Commissioner Tossberg were out of the office for the day.

Commissioner Davis was on hand to attend to office management.

Arlo Ellison was in to discuss the barn situation at the Ravalli County Fairgrounds.

Bill Barrington and Nina Wofford were in to discuss the barn situation at the Ravalli County Fairgrounds.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, July 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis asked Jay to put a counter on Foley Lane and Fish Hatchery Road and Jay said that if they do not already have a recent count, he will do this.

The Commissioners explained that they have received a call from Everett Curdy asking about the insurance on the Soft Rock break--Everett said that he has talked with House of Insurance and they are reluctant to accept the responsibility for the claims as they say it was negligence on the part of the ditch company. Jay said that he talked with Bob Brown on this and Bob thinks they should talk with Tom Koch, the Attorney for the Big Ditch. Jay said that the road department has about $4,000 on this. Bob thinks this can be worked out.

Commissioner Davis said that he had run into Mel Finlay and he said the people up in Riverview Orchards are real happy with the road situation up there.

Chairman Williams gave Jay a packet of maps prepared by the State which reflect the sites of 1984 auto accidents on Ravalli County roads. Jay will keep the information down at his office.

Jay told the Commissioners he has been invited to tour China with 20 delegates from the United States as an international representation.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed: (Bob Brown, County Attorney, sat in on said meeting).

Mtg. Rel. - SE¼ Sec. 32, T9N, R20W - Mohlan Lear

Mtg. Rel. - SE¼ Sec. 27, T9N, R20W - John Stroud

Ruth Cleveland, Mary Kay Browning, Darlene Hughes, Daphne Lane, and Bob Brown, County Attorney, met with the Commissioners in connection with taking 11 properties for tax deed. Bob Brown said that proper notice has been given on all but one deed, and that one will have to be redone. Ruth said that the tax deed gets this property off her books, and people will have to go through the Commissioners now to repurchase their property. They need to give 30 days notice from the date of the ad. The people will be expected to pay the penalties, cost and taxes on these properties. The Commissioners said that the 10 deeds that had been properly noticed should be recorded today.

Darlene asked if she should give them each a call to warn them one more time and the Commissioners said she should do this in addition to the notice letter that she will be sending them.

Dick Weber, Attorney for Warner, who owns property next to the Florence Park, met with the Commissioners and Larry Higginbotham, County Surveyor. Dick said that he needs to know the background on the situation. Chairman Williams explained that the Park Board purchased this property and the stakes were set by Dick Bard and PCI. Warner has produced no evidence that he really owns the land in question--a 10 foot strip of land. Dick said that the question would be adverse possession. Commissioner Davis said that the park people have started to build the fence and have left three feet from the pins as a buffer. Larry said that the County has title insurance on the property they have purchased. Dick said that they need to determine if the line is legitimate--he thinks the entire chain of title should be checked through from the abstract. Dick asked if the Commissioners would be willing to sell those 10 feet to Warner--Commissioner Davis said he would be glad to get this thing settled. The land seems to be worth from $450 to $470. Commissioner Tossberg commented that when the County disposes of property, it is a horrendous job. Mr. Warner would also have to be willing to pay the surveyor to set the pins again. Larry said that this could be done under the Relocation of Common Boundary provisions, but Warner's property is not surveyed and this law requires that the property involved be surveyed. Dick said he would talk with his client and get back with the Commissioners. He said that his client might be inclined to sue the Commissioners on this. The Commissioners said that this had gone on long enough that if Mr. Warner wants to sue, he should go ahead and do so as they would like to see this settled.

The Commissioners signed a Management Agreement between the Ravalli County Fair Board, Ned Applebury, and Ravalli County. Said agreement was dated this day.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams attended a Council on Aging meeting in Polson, Montana.

Commissioner Tossberg, acting Chairman, signed an agreement for library services for Florence to be provided by the City-County Library of Missoula, and the Tamarack Library Federation.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved and Commissioner Davis seconded that we lift the Agricultural Restrictions on the SW¼ Sec. 17, T5N, R20W, PMM, Ravalli County, Montana, for W. A. Kimp and Eunice S. Kimp. Motion carried unanimously.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jack Beatty was in to fix the pay phone in the lobby.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Chairman Williams was out of the office for the day.

Commissioner Davis was on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, July 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Oliver Johnson, William E. and Carolyn Trone, and Dan and Clara Felton were present to complain about Orchard Drive Rd. They said that it is almost impassable and the gravel and sand that has been added to the road has just washed off. Chairman Williams explained that we have had more trouble this year with the roads because of the dryness of the year. Mr. Felton said that this road was bad last year too, but not as bad as this year. He said that the grader does not do any good when he goes over the road. Jay said that they have only had sparse showers and each grader operator has around 300 miles of road to cover when it does rain, so they have a hard time getting over it all when they get rain, and grading when the road is dry just causes more problems. It was suggested that the road department could water the road down and then grade it and the Commissioners and Jay said that they could not do this as it involved too much hauling. The Commissioners explained that they oil the roads according to the count of traffic on each road, and East-West roads have priority as they tie in with the main highway. Mrs. Trone said that she oils in front of her house herself and their group had brought a petition in in 1981, so she would like to see something done. Commissioner Tossberg explained that the County's limiting factor is funds--that we have been levying the maximum for three or four years.

Mr. Felton said that he feels their road is the worst in the County and he has traveled a lot of roads. Jay said that he would invite the group to go with him and he would show them other roads in the county that are just like theirs. Jay said that another problem is the quality of gravel in the area. He said that they have the Bailey Pit on the East side, so that is a better quality of gravel than the Dutch Hill pit, which they avoid like the plague. Jay said that they can not afford to haul gravel too far as the costs skyrocket.

There was some discussion on road count and Jay said that they had done a count last year and it was around 160 cars per day. Both Mr. Trone and Mr. Felton said they had never seen a counter on their road and Jay said that they try real hard to hide their counters, so they are not stolen as they cost around $1200 each. Mrs. Trone said maybe they should do the count this time of year and Jay said that if he remembers right, it was done this time of year last year.

Mr. Johnson asked why the County can't just oil a few miles like this. Jay explained how the cost of asphalt has risen and explained that they are about to their quota of what they can maintain with the money they have. Mr. Felton asked if the County could get a grant and Jay explained that he pursues every opportunity to get grants but most of them fall through.

Mrs. Trone said that she feels the County just wasted money putting the culvert in on their road and that they are wasting money each time they put a grader on the road as he does not accomplish anything. She said that she feels they could save money and use it more wisely. There were complaints expressed about the way the road is graded and the way the grader piles the sand on the sides of the road. Jay said that the grader had been criticized because the road washes into someone's yard and that is why he has made a buildup on the side of the road to prevent the washing.

Mrs. Felton said that she feels the County could make ditches and use the dirt they take out for ditches to help pack the roads better.

There was more discussion on road count and Jay was asked what kind of a count it would take to get the road oiled and Jay said up around 700 cars per day. There was also some discussion on petitions and the value of them. Jay explained that he and his crew sees the overall needs on the roads and does not feel that people who petition should get special preference just from a petition--he tries to do the work in the order needed. There was some discussion on other roads that are getting oiled and the Commissioners explained the reasons for these being done. After more discussion, the Commissioners said that they would be sure a recent count was made and check this out. Jay explained that they will get the hauling done as soon as they can, but will never get caught up as they always have roads that are needing more gravel or grading and will never have the funds in the road budget to keep ahead of them.

The Commissioners discussed Tin Cup Road and Ponderosa Drive with Jay.

Si Smith from Gold Creek Loop was in to say that he had put a pipe across from a spring on the westside out by the County barrow pit to water his cattle and the neighbor objected and he wants to know if he can be allowed to do this.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificate of Surveys were filed:

Occasional Sale & Gift - NE¼ Sec. 3, T7N, R20W - Daryl Ford

Mtg. Rel. - NE¼ Sec. 3, T9N, R19W - Celia Vernier

Occasional Sale - SW¼ Sec. 3, T8N, R19W - Reba Anderson

The Commissioners signed an agreement to hire Top-Down Computer Consultants for a period from July 1, 1985 to June 30, 1986 at $7,000 for 200 hours, and any additional hours to be paid at the rate of $35.00 per hour.

Dick Atkins, Administrator, Daly Hospital; met with Bob Brown, County Attorney; and Dale Dye, Sheriff; to discuss the ambulance situation.

Chairman Williams attended the annual meeting of the Financial Resource Committee of the Bitter Root RC&D. The meeting was held in Missoula and convened at 3:00 p.m.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, July 31, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of June 30, 1985:

Western Federal Savings and Loan----------	$ 2,102,999
First Federal Savings & Loan----------	1,666,968
Ravalli County Bank----------	1,600,000
Citizens State Bank----------	650,000
Farmers State Bank----------	1,295,000
First State Bank----------	817,654
	$ 8,132,621

The County Commissioners signed an agreement with Darby Spar, LTD, providing for the payment of past due taxes.

Chairman Williams signed a deed to Crystal Mountain Mining Co. covering certain mineral claims located in the Rye Creek Mining District of Ravalli County.

Chairman Williams attended a Council on Aging meeting in the Council on Aging conference room during the morning.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. T. Williams, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. B. Tossberg, Member

----------0----------

Hamilton, Montana, August 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of June, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $10,388,260.79.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Commissioner Tossberg moved and Commissioner Davis seconded that the Commissioners approve a Revocation of Agricultural Covenants for Donald Buelke in the NE¼ Sec. 35, T8N, R21W. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

NW¼ Sec. 20, T7N, R21W - Jack Atchison & Sons, Inc.

Agreement between Darby Spar, LTD., and Ravalli County, Montana, for payment of back taxes, dated July 23, 1985, was filed in Permanent File #7056.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 2, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Si Smith and his son from Gold Creek Loop were in to discuss the situation of getting water to their cattle.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, August 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners showed Jay a letter from Jim Chinn from the Sheriff's Department requesting a 35 mph speed limit on Wyatt Lane. Jay said that he would resist doing this--it is a wide road and is paved, and Jay feels this is just another problem to enforce a speed limit like this. Commissioner Davis asked if Jay was following through on the sign for Charles Cassidy and Jay said that he thinks it is in the shop, they just have been working hard to get the asphalt down and have not gotten to the signs yet.

John Houtchens and Bud James both called the Commissioners because yesterday a cattle truck high-centered trying to get onto the Eastside Highway from Dry Gulch Road. Jay said that he would go down and check this out.

There was some discussion on the storm and Jay said that he should get Alta Vista Loop, Bowman and Orchard Drive graded due to the moisture we have received.

Jay discussed the Si Smith and John Foss water squabble with the Commissioners and the Commissioners showed Jay a letter they had written stating that they feel that this is a personal problem, not a County problem. Jay said that he agrees with this approach.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - N½ Sec. 28, T8N, R20W - John C. Wallace

Mtg. Rel. - NW¼ Sec. 33, T9N, R20W - Niel Brinkerhoff

Sam Martin came in to discuss a mortgage exemption for a parcel of ground located off Honey House Road near the Corvallis Cemetery. The Commissioners said they would discuss the matter with Don Mullin, Planning Office Manager.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Larry Fulbright was in to ask the Commissioners to lift the Agricultural Restrictions on a parcel of land he owns. Commissioner Tossberg said he is concerned about the moisture in the soil out there and would like Larry to talk with Don Mullin, Sanitarian, on this before proceeding any further as it might be best to monitor the soil before going any further on this.

At 10:00 a.m., a Public Hearing was held to hear public comments on millage in excess of the certified levy; and on the final budget; and give opportunity for the taxpayers to appear for or against

any part of the budget. Clifford Friberg was in to look at the budgets in the morning and Bernie Swift was in to check them out in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Chairman Williams signed a letter to the Internal Revenue Service stating that Daly Ditches is a County Governmental Entity.

Commissioner Davis attended a weed control meeting on knapweed sponsored by the Extension Service and held in Stevensville. He also checked out the Salish Trail road problem.

The Commissioners granted an Extension to Ron Curdy on French's Mobile Villa, running from June 28, 1985 to June 28, 1986.

The Commissioners granted an Extension to John Anderson on Eagle Watch 53 running from August 28, 1985 to August 28, 1986.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day. Commissioner Tossberg moved and Commissioner seconded that we adopt Res. #366 providing for the registering of warrants for District Court--See Res.

Commissioners Tossberg and Davis went to Stevensville to check out the Ruffato problem.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, August 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis explained Dominic Ruffatto's problem with a 5-acre tract of land on Salish Lane. Th drain that Mr. Ruffatto is concerned with is a natural drain and only hits the corner of Mr. Ruffatto's ground. The Commissioners do not feel it is a real problem and told Mr. Ruffato that Jay would be down to look into this. Commissioner Tossberg commented that he feels the natural drain is really an asset to a building site rather than a detriment to it.

Commissioner Tossberg said he had received two calls on the Illinois Bench road. Jay said that a of the graders except the West Fork one are out today and the West Fork one will be out tomorrow, so they should get the grading done.

Chairman Williams said that they are in the process of signing the union contract. Jay said that he would like to set up a meeting for Wayne Burgess and T. J. Mason on them getting out of the union with the Commissioners in the near future so that they can talk this out. The Commissioners said they feel this would be a real good idea. Jay said he would make the arrangements.

Tommy Briscoe and Don Whitegar from Gold Creek Loop (South) were in to ask why the County would give permission for Si Smith to put a culvert across the road. They said that it is obvious that the reason it was put there is to water Smith's cattle, and Mr. Smith has made a nuisance of himself in th neighborhood by trying to obtain water for his cattle in several illegal manners. There was discussi on the methods that Mr. Smith has used. Commissioner Tossberg said that the Commissioners had sent a letter to Mr. Smith saying that they did not feel they should get involved in a neighborhood squabb he thinks the reason that Jay gave permission for the culvert to be placed across the County road was that it would save the County from replacing the existing culvert. The Commissioners said they would talk with the County Attorney on this matter. Don Whitegar said that Jay had commented that the new culvert would help to prevent the erosion problem and this was a false statement as no erosion has resulted from the other culvert--in fact, he feels that Smith made the culvert appear to be plugged a a basis for getting permission to replace it. Tommy will call the Commissioners at the end of the we to see what they have decided. Don commented that he had heard that the road was scheduled for pavin and the Fosses had asked that it would not be paved as they like to run equipment with tracks on it o the road. Chairman Williams said that he did not know if this was true, but would check into this.

After learning that the State reimbursement will not cover the overdrawal in the District Court Fund, the Commissioners made the decision to increase the General Fund to the full 25 mills as provi by Statute.

Commissioner Tossberg moved and Commissioner Davis seconded to adopt Resolution No. 363 approvi and adopting the budget for Fiscal Year 1985-86, said budget to be entered at length in the official minutes. Motion carried.

Commissioner Tossberg moved and Commissioner Davis seconded that Resolution #364 be adopted inc the certified levies as set forth in said Resolution. Motion carried.

Commissioner Tossberg moved that we adopt Resolution No. 365 setting levies for fiscal year 198 for county funds and different school districts to raise the amount approved in the budget heretofor filed with the Clerk and Recorder. Commissioner Davis seconded said motion. Motion carried. (Copy Attached).

feel this would be a real good idea. Jay said he would make the arrangements.

Tommy Briscoe and Don Whitegar from Gold Creek Loop (South) were in to ask why the County would give permission for Si Smith to put a culvert across the road. They said that it is obvious that the reason it was put there is to water Smith's cattle, and Mr. Smith has made a nuisance of himself in the neighborhood by trying to obtain water for his cattle in several illegal manners. There was discussion on the methods that Mr. Smith has used. Tommy will call the Commissioners at the end of the week to see what they have decided. Don commented that he had heard that the road was scheduled for paving and the Fosses had asked that it would not be paved as they like to run equipment with tracks on it down the road. Chairman Williams said that he did not know if this was true, but would check into this.

After learning that the State reimbursement will not cover the overdrawal in the District Court Fund, the Commissioners made the decision to increase the General Fund to the full 25 mills as provided by Statute.

Commissioner Tossberg moved and Commissioner Davis seconded to adopt Resolution No. 363 approving and adopting the budget for Fiscal Year 1985-86, said budget to be entered at length in the official minutes. Motion carried.

Commissioner Tossberg moved and Commissioner Davis seconded that Resolution #364 be adopted increasi the certified levies as set forth in said Resolution. Motion carried.

Commissioner Tossberg moved that we adopt Resolution No. 365 setting levies for fiscal year 1985-86 for county funds and different school districts to raise the amount approved in the budget heretofore filed with the Clerk and Recorder. Commissioner Davis seconded said motion. Motion carried. (Copy Attached).

RESOLUTION NO. 365

It is hereby resolved by the Board of County Commissioners, Ravalli County, Montana, that the following levies were set for Fiscal Year 1985-86 for county funds and different school districts to raise the amount approved in the budget heretofore filed with the Clerk and Recorder:

Chairman Williams attended an evening meeting of the Corvallis Chamber of Commerce. Postmistress Sharon Ellis discussed the need for a larger Post Office and the relocation of the facility. She stressed that public comment or questions on a new Post Office should be directed to David Bakke, District Manager, Western Slope District Office, P. O. Box 27117, Salt Lake City, Utah 84127.

John Filz, Bitter Root Development Corp.; Dan Kemmis of RC&D; explained the concept and operation of the Montana Certified Cities Program. Art Howard of the Corvallis Chamber of Commerce commented on the need of the Corvallis community to support the Hamilton MCCP activity.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Rose Peterson from Missoula County was in to say they are considering moving to Ravalli County and would like to open a Bingo Hall, but there is a six-month residency provision in our laws for anyone getting a license for bingo. Rose asked if the Commissioners would be willing to waive this provision. Commissioner Tossberg said they would have to talk with the County Attorney to see if they are allowed to do this; but would suggest that Rose put her request in writing and give it to the Commissioners. The Commissioners said that they would contact Rose in a few days. Robert and Rose Peterson, 248 Stone, Missoula, Montana 59801 728-4165.

Electra Poll of 309 1st Avenue, Corvallis, was in about the dust problem on her street. Chairman Williams told her that Jay thinks he might have enough oil left over to do her street, and is trying to work this into his schedule.

Larry Heggen, Administrator for the City of Hamilton; and Jim Whitlock, Mayor; met with the Commissioners to discuss the excercise room downstairs.

Upon a motion by Commissioner Tossberg, seconded by Commissioner Davis, the board approved "to accept an Agreement made between Ravalli County and the Environmental Sciences (DHES) of Helena, Montana, for the purpose of providing local sanitary review of minor subdivisions".

The agreement was signed by Chairman Williams and forwarded to Robert L. Soloman, Contracts Officer - DHES for further handling.

Chairman Williams signed the 1985-86 school budgets.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Ag. Exempt. - NE¼NW¼ Sec. 3, T5N, R20W - Charles & Millie Rogers

Gifts to Family - NE¼ Sec. 10, T10N, R20W - Round

Crt. Order - NW¼ Sec. 27, T2N, R21W - Helen Bibler

Occ. Sale - SW¼ Sec. 27, T2N, R18W - Ellison Cattle Co.

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file.

The Commissioners attended the Jail Advisory Committee meeting in the J.P. Courtroom at 3:00 in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Chairman Williams and Commissioner Davis were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occas. Sale - Gift to Family - NW¼ Sec. 14, T6N, R21W - Ralph Waldo

Correction Survey - SW¼ Sec. 6, T8N, R20W - Lloyd Oster

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, August 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Mr. William Vogel had a request that the County take over an unnamed road just South of Darby. Jay will view and report back.

The Commissioners approved a one-year extension of the conditional approval of Horseman Heights subdivision.

At 2:00 p.m., the hearing was held for the annexation of lands in the Roaring Lion area to be annexed to and included in the Hamilton Fire District as requested by petition submitted by Gregory F. and Kathleen Bailey, et al. Howard Thomas, Junin Thomas and Colleen Thomas were present for said hearing, all appearing in favor of said petition. No person appeared against said petition.

Commissioner Tossberg moved and Commissioner Davis seconded that Resolution No. 367, Perm. File #7060 be adopted annexing said land into the Hamilton Fire District. Motion carried.

Following review by Don Mullin, Planning Office, the following Certificate of Survey was filed:

Parcel over 20 acres - Sections 4, 5, 8, and 9, T7N, R20W - Double Fork Land Co.

The Commissioners signed the Agreement by and between MPEA Association and Ravalli County, mailed to Warren Midyett. Original is filed in Perm. File #7063.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Commissioner Tossberg left the office at 9:00 a.m. to attend the Montana Local Energy Meeting in Missoula.

Chairman Williams was on hand to attend to office management.

Mortgage Release - SW¼ 5-10-20 - Gary McChesney

Commissioner Davis moved and Commissioner Tossberg seconded that we approve the Amended subdivision plat of Lots 4 & 5 of Mill Creek Ranch Estates, a boundary relocation. Motion carried.

Petition was received from George Brown regarding a request for paving of Wilcox Lane.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

The Commissioners agreed to sign an Agreement by and between Burt Kilbourne and RCHD to provide computer programming/consultation services.

Perry Smith met with the Commissioners to discuss the condition of Honey Lane. He presented a lette signed by residents of the area requesting paving on Honey Lane.

Chairman Williams attended a meeting of the RC&D Financial Resource Committee in Missoula.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Chairman Williams was out of the office for the day.

Commissioner Tossberg attended a Board of Investments meeting in Whitefish, Montana.

Commissioner Davis was on hand to attend to office management.

Marion Gebhart was in to talk about using the Fairgrounds for the Good Sam convention.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, August 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on a petition received from Perry Smith, et al, on Honey Lane. There was also discussion on a request that Meridian Road be paved and signed for speed limits. Jay said that this is a straight road and he sees no need for speed limits. There was also discussion on a request from George Brown and a petition to pave Wilcox Lane. Jay said that this is a dead-end road and runs North and South, so they would not plan to pave it.

The Commissioners explained that they had received a complaint from Robert Wolf that the grader man had left rocks in his driveway.

Commissioner Davis explained that he had received a request for the County to provide lean-tos for children to stand under to wait for the bus. Commissioner Davis said that he had explained that this would not be a County responsibility, that the individuals should put up their own lean-tos if they want them. Commissioner Davis said that he had received another complaint about the County maintaining Cormoret Loop and had explained to the school board that the County had made a proposal to the people on that Loop as to what it would cost them to pave that road and they had done nothing on this.

Bob Brown, County Attorney, came in. The Del Carter road matter was discussed, including a

complaint from Mrs. Knight about water on the road.

Chairman Williams explained that Jerry Williams has offered to give some land to the County to alleviate the problems on McKillop Hill where the kids use that area to jump their cars.

Jay said that they are in the process of oiling Bonanza Lands right now and will do Eagle Watch next and then wind up the oiling for this year.

Jay gave the Commissioners a Call for Bid on a crusher which they signed. Bid opening will be September 16, 1985, at 8:30 a.m.

There was some discussion on the turn-off at Glen's Cafe in Florence and the reasons why there are so many accidents in this spot.

Chairman Williams signed the Final Budget for the 1985-86 Fiscal Year.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - SW¼ T8N, R20W - Jeff Langton, Mick Gaudin, and James & Mickey Craig
Over 20 acres - NE¼ Sec. 14, T9N, R20W - Torry & Burk
Occas. Sale - NW¼ Sec. 27, T8N, R20W - Rose Pfau
Agricultural - SW¼ Sec. 5, T8N, R20W - Love and Warren

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Larry Charlton and Dean Stensland met with the Commissioners to discuss the telephone needs for the courthouse. They are representatives from AT&T. The Commissioners explained that they would like to buy a system and own the equipment, and would like to reduce the trunklines that are coming into the building. They would like a recommendation as to whether they should go to a centralized switchboard system, or keep the system as it is with everyone answering their own phones.

The men went through the departments in the courthouse to see which ones would be involved. The Commissioners said they felt the Sheriff should be left separate as well as the other offices that are not in the courthouse, but they will probably need a comm line hooked into the Sheriff's system. The Commissioners need to check into the Assessor and Appraiser situation a little further, and also with the Headstart office to see if they will be included in the system. The men explained that they will be able to produce printouts of all calls coming and going from the courthouse so that the Commissioners can have a better handle on things. The men recommend the Horizon and Merlin systems. There are a lot of programmable features and the system is able to handle half as many comm lines as there are phones in the building. The Commissioners explained the need for night services for election time and when offices work at night and the men explained the options available.

The men said that if the Commissioners decide to go with a centralized system, this is not a full-time job for an employee--she would be able to do other things too, but this is a critical function and what makes the system work, so should be given priority as to the manning of the station.

If the County should buy a system, there is a one-year maintenance provision and the option to sign up for a maintenance system which you lock into for 12 months at a time.

Petition was received from Virginia Forbes to create a Fire District in the West Fork area.

Commissioner Tossberg moved and Commissioner Davis seconded that they adopt Resolution No. 368 which allows borrowing by the County under the Montana Cash Anticipation Financing Program which was established by the 1985 Legislature in Senate Bill 481. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Peggy Klouda, R. N., and Janet Iverson, R. N. were hired by the Public Health Department to fill the vacancies in that department.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, August 29, 1985

The Commissioners road in the Fair Parade and were on hand to attend to office management the rest of the day.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes

Chairman Williams was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Tossberg explained a request from Mr. Madsen that a portion of road, approximately 3/4ths of a mile, on South Sunset Bench, be considered for limited maintenance if brought up to County specs. Jay said he would check this out.

Commissioner Tossberg explained that he had received a complaint from Marvin Alzes on the Sunnyside Cemetery Road because of washboardy conditions, and asked Jay to check this out.

Commissioner Tossberg asked if Jay had ever received any money from the Soft Rock Ditch people for the work they did for them at the time of the break in their ditch. Jay said that Bob is taking care of this. Jay is to also talk with Bob Brown in connection with making a sign for his office.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SE¼ Sec. 6, T5N, R20W - Harris

Ag. Parcel - SE¼SW¼ Sec. 27, T7N, R21W - Lyle Goodrich

Agri. - SE¼ Sec. 36, T8N, R21W - Glen Smith

A jail inspection was held with Greg Verstrate, ACLU; Dale Dye, Sheriff; and Peggy Verburg and John W. Robinson, Co-Chairman of the Ravalli County Jail Advisory Committee.

Donna Bowler and Mrs. Lueders from the Tin Cup Road, Chief Joseph Heights subdivision, met with the Commissioners to say that the road up there was not put on dedicated right of way and the dedicated right of way is not being used for anything and they wondered if there is a way to acquire the road right of way and fence it in as their property. Commissioner Tossberg explained the procedure for abandoning a road and said he would check into this for them.

Commissioner Davis attended the Summit Meeting at the Ravalli County Human Services Building.

Al Haynal from the Hayes Creek Road was in to complain about the roughness of the road. Commissioner Tossberg checked with the road department and found that this road is on limited maintenance and therefor graded only two or three times a year.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day.

Commissioner Davis moved and Commissioner Tossberg seconded that we grant conditional approval to Lot 88, Eagle Watch, subject to the conditions as set forth in the letter from the Planning Board (Frank & Vanelle Nurse, developers). Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Boundary relocation - SE¼ Sec. 11, T5N, R21W - Miller & Drake

Wally Scott, Shelley Oertli, First Montana Title; and Don Mullin, Planning Office, met with the Commissioners in connection with mortgage releases on property down by the Corvallis Cemetery that they are trying to subdivide with the help of Sam Martin. Larry Higginbotham is doing the survey and they will be presenting a plat soon.

George Brown and Earl Flinders met with the Commissioners in connection with the petition they had presented on Wilcox Lane. They said that the lateral from the Big Ditch is sluffing away the road and making a dangerous situation. Commissioner Tossberg explained that the chances of getting the road oiled are slim as the County just can not afford to pave these North-South roads, but the chances of getting something done to correct the dangerous situation are good and the Commissioners and Jay will be out to look into the situation within the next week or so.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day.

Commissioner Tossberg held an Auction for sale of County Tax-Deed Land in the main lobby of the courthouse at 10:00 a.m for the sale of the following described land: (Southside of Lobby by Front Door)

NE¼SE¼SE¼NW¼ Section 19, T9, R19 - Index 27 Parcel #321600

Rosemary Danker, Ernie Wood, Ruth Cleveland, Darlene Hughes, and Marion Davis attended said auction. Commissioner Tossberg stated that the appraised value for the land is $19,285.00, and that the fair market value is $27,000.00. He said that any acceptable bid should be $27,000.00 or more and asked for bids in this amount. None were received. He then stated that the land would now belong to Ravalli County, Montana.

It was stated that all other parcels of land advertised to be auctioned off for County Tax-Deed had been taken care of by the parties involved.

Commissioner Tossberg and Commissioner Davis checked out the road problem on Wilcox Lane.

John Filz, Dan Kemmis and David Sulton met with the Commissioners to discuss the Bitterroot Valley Development Corporation.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Virginia L. Forbes was in to sign an Affidavit to correct the description on the Petition for Creation of West Fork Fire District which was submitted to the Commissioners by Mrs. Forbes on August 27, 1985.

Dan Hatton and Zelene Hatton, his wife, and their son were in to find out what is necessary to vacate an alley in Florence by the Postoffice. The Commissioners said they would check with Bob Brown, County Attorney, on the proper procedure. Their address is Box 446, Florence, Mt. 59833--phone 273-6466.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, September 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg present.

Chairman Williams was out of the office for the day.

Commissioner Davis was out of the office for the day.

Stan Cavill was in to talk with Commissioner Tossberg in connection with his hangar at the Ravalli County Airport and a new hangar being built by Don Hall.

Richard Jones and Marilyn Erkhart were in to complain about the roughness of the Mtn. View Drive road. They said that the view is obstructed by a clump of trees on the corner of Leese Lane and Sunnyside Cemetery Road. Commissioner Tossberg said that theywill be taking a trip to check out the roads within the next week or so and will check into this.

Steve Powell was in to talk with Commissioner Tossberg about a Certificate of Survey he is working on.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

Don Hall was in to talk with the Commissioners about a hangar he is building at the Ravalli County Airport.

Tom Hanson of Professional Consultants was in to submit the request to the FAA for the final payment on the Airport project.

Dean Stensland was in regarding a bid on the courthouse phone system. He said that there are 57 phones needed for sure and more may be added. He encouraged the Commissioners to get a big enough system to provide for growth and discussed alternatives in the programming of the system.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - NE¼ 36-9-20 - Robert Reed

Retrace. - SW¼ Sec. 1, T9N, R20W - Stephen Anderson

Retrace. - NW¼ Sec. 31, T6N, R20W - Michael Gaudin

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton, the County Seat, on the 11th day of September, 1985, for the purpose of canvassing the returns and declaring the results of the City Primary Election held in the City of Hamilton on the 10th day of September, 1985. Present: Ruth Cleveland, Treasurer (appointed to take the place of Chairman F. T. Williams); Commissioner F. B. Tossberg, Commissioner Marion H. Davis, Betty T. Lund, Election Administrato and Larry Heggen, City Administrator. Everything was found to be in order. For the official returns, see records in the Clerk and Recorder's Office.

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

Commissioner Tossberg left in the afternoon to attend a MACO meeting in Helena, Montana.

Commissioner Davis attended a Jail Advisory Committee meeting at 3:00 in the afternoon in the Extension Conference Room.

The Public Health Nurse hired Jean Thompson to fill in as a part-time home-health aide; and Carolyn Liss as a secretary.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Commissioner Tossberg attended a MACO meeting in Helena, Montana.

Chairman Williams was out of the office for the day.

Mike Kleese from First American Title was in to say that the tax statement had been done improperly on some property he had insured and when they changed the tax statement, it made some delinquent taxes due--he has paid them but feels he should be reimbursed by the County as it was their mistake. Commissioner Davis said that he would check with the County Attorney and the other Commissioners to see if they can pay Mike the $66.00, and will get back with Mike on Monday.

Jeff Erhart was in to complain about the condition of Mountain View Drive road.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Davis present.

Chairman Williams was out of the office for the day.

Commissioner Tossberg attended a MACO meeting in Helena, Montana.

Mark Annin, Connie LaSalle, and Russ Fenster met with Commissioner Davis to discuss the parking on the South side of the courthouse. They said they feel some trees should be removed on the North side of the street and this would allow from 9-12 more parking spaces if they could park diagonally. Commissioner Davis said that he would talk this over with the other commissioners and get back with Larry Heggen on this.

Donna Bowler, 821-4559, was in to see what the Commissioners have decided as to the road that is not on the right of way on Chief Joseph Heights. Commissioner Davis said that the Commissioners would talk with Bob Brown, County Attorney, on this, and get back with her.

Perry Smith from Honey Lane was in to say that he thought the Commissioners should be working

what part is Burlington Northern land and what the City is going to do on this.
Application for Cancellation of Taxes #720 was approved in the amount of $3088.67.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, September 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis discussed the various complaints he had received last week. He told Jay that Perry Smith had been in and had said that Commissioner Tossberg had promised that a counter would be put on Honey Lane, but this had not been done. The Commissioners said they would check into this.

At 8:30 a.m., the bid opening for a crusher for the road department was held. Duane Daubenberger from Hall-Perry Machinery attended said bid opening. Darlene Hughes, Clerk and Recorder, opened said bids. A letter from Rowand Machinery Co. said that they had not submitted a bid; and a letter from Ed Weaver, Huson, Montana, said he had not submitted a bid. Bid from Hall-Perry Machinery was submitted as follows:

One Cone type crusher complete as per attached machine specifications----------	$112,800.00
Trade-in of Pioneer Portable Duplex plant as per attached conditions----------	33,219.00
Net Bid Price----------	$ 79,581.00

Commissioner Davis moved and Commissioner Tossberg seconded that we accept the bid of Hall-Perry Machinery in the amount of $79,581.00 for a cone-type crusher. Motion carried.

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution #369 appointing Marc F. Raciot, Assistant Attorney General, as a special deputy County Attorney to assist in the investigation and prosecution matters as designated by the County Attorney. Motion carried.

Lloyd Russell from Indian Prairie Loop was in to ask if their road could be graded and to say that irrigation water has been washing the road up by the old Curlew School. Jay explained that the graders are out and this should be taken care of shortly, and said he would check into the irrigation situation.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams attended a Council on Aging meeting in Polson, Montana.

Sue Jones and Marshall Holmberg met with the Commissioners to discuss the Corvallis Post Office. Marshall brought in more letters stating that the people in Corvallis want to keep the Post Office within the Town of Corvallis. Marshall said that he feels sufficient property is available in the area to put the building in a convenient place in the town. Commissioner Tossberg commented that it sounds like one person builds the building and then the Post Office leases it from that person. Marshall said that the people of Corvallis would like an opportunity to talk with the people in charge of this project. Commissioner Tossberg suggested that they just write and make this request.

There was some discussion on the way the Post Office was handled in Sula and in Florence. Marshall said that the Post Office is paying about $100 a month in rent now in Corvallis, and it will probably jump to around $1,000 a month. Commissioner Davis said that he would find out how this was handled in Florence, and the amount of ground that was required.

Commissioner Tossberg said that the Commissioners will do their best not to cross the citizens of Corvallis. He said that the Corvallis people should probably keep all of their petitions together to show the Post Office officials when they come. Sue Jones said they would leave copies with the Commissioners since they had been instructed to handle this through the Commissioners. Marshall said that there are about 40 people who walk to the Post Office every day if the weather is good and moving the Post Office out of town would be a real inconvenience to them.

Commissioner Tossberg and Commissioner Davis took the tax notices to the printer up at Conner during the afternoon. In route, they looked at the Raymond Shelton house being built west of the Como Bridge in apparent violation of sanitary regulations.

The Commissioners gave Joan Johnson permission to increase the rates for ambulance as follows:

Initial rate goes from $55 to $70
Mileage goes from $1.75 to $1.85 (loaded after five miles)
Hourly rate stays at $12.00

Notice of this change will be published in the paper.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - NW¼, NE¼ & SE¼ Sec. 22, T6N, R21W - James Brown

Occasional Sale - SW¼ 4-421, SE¼ 5-4-21, NW¼ 9-4-21 - Smith
Occ. Sale - SE¼ 34-6-20 - Wrobel
Ag. Exempt. - NE¼ 28-8-20 - Wallace
Occ. Sale - NE¼ Sec. 15, T2S, R22W - Overwhich Venture
Don Mullin, Planning Office, presented Eagle Watch, Lt. 88, for filing.
Commissioner Tossberg moved that we approve the amended plat of Eagle Watch, Lt. 88, for Frank Nurse. Motion carried.

The Commissioners attended a Board of Health meeting which was held at 1:30 p.m. in the Extension Conference Room. Minutes are in the Board of Health file.

Fred Thomas and Doug McLaren met with Reba Falk and the Commissioners in connection with the County's insurance policy. They had previously submitted a bid for the liability and property coverage in the amount of $43,000 and had felt at that time that they would be able to lower this amount. They have been dealing with INA for a couple of months and seem to have come to a standstill at $100,000. The company is mailing the policy and the County has 10 days to decide whether they will accept it. Fred has pursued every route he knows to get a better bid and has not come up with one. He thought he had a bid with AIU-PRIM, but this has fallen through. Doug McLaren has also tried every angle to get a lower bid. The men expressed much regret that the premium has gone so high and admitted that it is much higher than it should be. Commissioner Tossberg asked if there would be a problem getting property insurance without the liability and Fred said he did not think there would be--the liability seems to be the problem. Fred said that he has applied with a Texas firm--he submitted a very complex application a couple of weeks ago and it may be two or three weeks before he hears from them. He will continue to pursue this, but feels the County needs to be covered during the iterim. They can cancel the INA policy and prorate the premium if another policy becomes available.

Commissioner Tossberg said that we could insure the property and not take the liability.

There is a claim with the company at present that needs to be handled.

Commissioner Tossberg said that the Commissioners will talk this over and get back with Fred and Doug. (The premium is over $100,000, but Fred and Doug have agreed to keep it at an even $100,000).

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Donna Bowler and her friend from Chief Joseph Heights up Tin Cup Road met with the Commissioners again to discuss the road that is not on County right of way and to ask if they can fence in the County right of way that was not used for a road. The Commissioners gave Donna permission to fence in the dedicated right of way, but explained that they do not have jurisdiction over any private land and can not give permission other than on the County right of way. They did this with the understanding that if the County needs the right of way, the fence will be removed upon request by the County. To handle this situation like this prevents the survey expenses and the need for abandonment of road procedures.

Commissioner Tossberg moved and Commissioner Davis seconded that the Birch Creek Acres #2 Subdivision, Sally Gasvoda, be granted another one-year extension running from October 28, 1985 to October 28, 1986. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Chairman Williams attended a Council on Aging meeting in the morning.

The Commissioners were on hand to attend to office management.

The County Attorney, Clerk and Recorder, Representative Bob Thoft, Pat Zeiler and Commissioners Davis and Williams met to discuss the ramifications and responsibilities of HB 791 which will become effective October 1, 1985. This group made a conference phone call to Rich Weddle, Attorney, Montana Dept. of Commerce, to obtain clarification on the intent of the bill. No decision was made and a further discussion will be held with the Ravalli County Legislators on September 25th.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, September 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Lawrence Haas met with the Commissioners in Jay Unrue's place for the weekly road update. Jay Unrue is in the hospital. The Commissioners discussed a complaint by Phil Iglitz on Nordheim Lane--he said a load of gravel might be needed. The Commissioners explained a complaint from Tom Holmes on Orchard Drive Road. Tom said that the Commissioners had promised a counter on the road and they had not seen one. Commissioner Tossberg said that he thought Jay had done a count and Lawrence said he would check this out. Lawrence said that they had received a request for a Dead-End sign on White Lane. The Commissioners gave Lawrence a letter to read on the Sleeping Child road from Mark Boesch. Commissioner Tossberg explained that he and Commissioner Davis had [illegible]

on that road and had found it kind of rough. Lawrence said that this road has been graded in the last few days.

There was discussion on the Wilcox Lane problem with irrigation water running on the road and Mr. Flinders who complains about the road but is not willing to give right of way so that something can be done about the problems.

The Commissioners showed Lawrence a letter from the Summerdale Water Dist. Co., Inc. and Lawrence said it is okay with the road department for them to bury the lines as long as they bury the lines 30 inches or deeper. The Commissioners said that they would check with Bob Brown, County Attorney, on this.

The Commissioners discussed some of the frost-heave situations in the valley with Lawrence Haas.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Relocation of Common Boundary - SE¼ 2-10-20 - Dunn

Mtg. Rel. - NW¼ 36-9-20

Occ. Sale - SW¼ Sec. 17, T1N, R21W - John Brennan

At 2:00 p.m. a Public Hearing was held to hear the Petition of the West Fork residents to create a Fire District. Elgin Forbes, Wayne Kilpatrick, Betty D'Almeida, Nancy Tomlinson, Ray Higgins, John Herbert, Mike and Lois Morris, Jane Johanson, Willie L. George, Luisita Loven'dge and Charly Mabbott attended representing the West Fork residents. Chairman Williams went through the procedures that have been followed by the Commissioners in getting notices out to the land owners and setting the hearing date. He then asked for comments from Proponents. John Herbert stated that they had had some bad fires up the West Fork in the past and the Darby Fire Department can not send their trucks up the West Fork legally without the West Fork residents forming a fire district. They want to be in a position where they can request help from the Darby Fire Dept.

Nancy Tomlinson stated that her house burned down last winter and they could not get the fire departments out so had to watch it burn, so she is very anxious to have some form of protection. She has relocated on Christianson Creek and is in a position where her insurance rates may be too high for her to afford when her present policy expires.

Elgin Forbes explained that their house caught fire two years ago at Christmas time and this is what got his wife and him to try to establish a fire district. Darby did respond to his fire, but they said that after his fire they could not go to any more--they did save his house--the roof was burned off, but his insurance rates have doubled. He is checking with another company and it would affect the rates on his insurance substantially if they can establish another fire district.

The men are considering a volunteer fire district in their area with a mutual aide agreement with the other fire departments so they can get help with their fires. Darby has indicated that they will help with the training--mostly the people in the area are looking for peace of mind and lower insurance rates.

Ray Higgins said that on the 29th day of June of this year they had a big fire and Darby could not come, and there would not have been the damage if they could have gotten a fire department there within 15 or 20 minutes.

Bob Metcalf said that he agrees that if West Fork had some back up with a Mutual Aide Agreement, it would help the situation. He asked if the people plan to set up their own fire department or contract with Darby.

Mr. Kilpatrick stated that right now they do not know what route to take but would plan to form a committee to check out which route is the best. There was some question as to whether it could be joined together with the Job Corps and Forest Service and the men said that they have talked with the Forest Service before and they are not equipped to handle building fires.

Commissioner Tossberg explained that the Commissioners have to appoint five trustees, and that they would be interested in nominations for that appointment.

Mike Morris asked if they become a district is there any county funds that will help set this up. Commissioner Tossberg explained that the funds are provided by levying mills on the people within the fire district to come up with the funds needed. The fire district tells the Commissioners the amount of money they need and the Assessor assesses for that amount of money. Ray Higgins asked if there is surplus equipment available and how much assistance they can get in obtaining this equipment. Commissioner Tossberg explained that the Commissioners will help all they can but the other fire districts are more knowledgeable on the procedures to obtain this equipment and the West Fork people should check with them.

Commissioner Tossberg moved that we grant the petition of the West Fork people to create a new Fire District as stated in said petition. Commissioner Davis seconded said motion. Motion carried.

A Resolution will be drawn and mailed to all property owners involved.

Chairman Williams then stated that the Commissioners were open for nominations for Trustees for the West Fork Fire District.

Willie George nominated Gary Smith

Elgin Forbes nominated John Herbert and Wayne Kilpatrick

Willie George nominated Ray Higgins

Elgin Forbes nominated Jim Harmison and Mike Morris

Wayne Kilpatrick nominated Pete D'Almeida

Ms. Tomlinson asked what process will be used in selecting the Trustees. Chairman Williams said that they will do some investigating. Commissioner Tossberg said that they would be trying to get people who are willing to do the job. Elgin Forbes asked what kind of time is involved in this kind of a job. Commissioner Tossberg commented that he feels that particularly in the beginning stages, this will involve a good deal of time. Bob Metcalf, Sula Fire Chief, stated that he has put a lot of time and a lot of running into the Sula Fire Department and feels this is the only way to go. Commissione Tossberg said that it seems like rural fire districts have a lot of pride in their departments.

Mr. Herbert asked if adjoining people could join the fire district. Commissioner Tossberg explained the annexation process.

Willie George expressed a concern as to whether the equipment from any of the fire districts is equipped to reach the off-road houses that they have in the West Fork area. Chairman Williams explaine that the County is not permitted to use their county equipment for any roads that are not on the County's maintenance system. Bob Metcalf explained that some fire districts do have 4-wheel drive vehicles to get into these remote places. Commissioner Davis explained that the Florence Fire District has some homes in remote places. After some discussion, Chairman Williams said that it is really the responsibili of the owner to keep the road cleaned out so that vehicles can get into the house in case of emergency.

Willie George asked how long it will take to get this district set up. Commissioner Tossberg commented that we can not respond, but that the Commissioners will be acting as swiftly as possible so that nothing is held up on this. It should be done in much less than 90 days.

Mr. Forbes asked if the Mutual Aide Agreement could be signed now that they have been accepted as a district. Bob Metcalf explained that he thinks they will probably have to organize their own unit first, but the County Attorney will have to make the determination as to when they can join the Mutual Aide Agreement.

Commissioner Davis moved and Commissioner Tossberg seconded a motion to approve the Right of Way Agreement for the Summerdale Water Distribution Co., Inc., with the provision that the pipeline be buried not less than 30 inches deep. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

All three Commissioners went with Ron Fisher, Sheriff's Office and members of the Jail Advisory Committee to Helena to visit the Lewis and Clark County Jail.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Fred Thomas, Bernie Swift and Bob Thoft, Representatives; Don Mullin, Sanitarian; Darlene Hughes, Clerk and Recorder; and Bob Brown, County Attorney; met with the Commissioners in connection with HB 791. Chairman Williams explained that he is concerned with the legal liabilities. Commissioner Tossberg explained that they are trying to promote a friendly suit to test this. He said that they have asked Don Mullin to come up with something as a means of trying to comply with the new law.

Don said that he has written an amendment to the subdivision regulations on the assumption that all we want to do is set apart a piece of land that is feasible to build a road on--he said that the way the law is written, if you make a parcel of land, you have to provide access. Commissioner Tossberg commented that the proposal Don has made would work for a Certificate of Survey, but Darlene might have a problem when they present her with a deed over her counter with no provision for access. Don said the access should show up on the Certificate AND the deed. Darlene said that this involves stopping her process in taking in a deed and checking it out in the plat room before accepting the deed. If this is a new split, it will go to Don Mullin who will be asking them to mark the access on an aerial map and on the geological survey, and then submitting it to him to check out. If the seller does not want to do this, he has the option to allow the document to be stamped "unsuitable". Commissioner Tossberg suggested that maybe they should require a statement from a registered engineer as to access. Bob Brown said that the Commissioners do have the right to make this requirement. Bob Thoft expressed concern as to the affect the "unsuitable" stamp will have on real estate sales.

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution No. 370 approving the creation of the West Fork Rural Fire District. See Permanent File #7067. Motion carried.

Russ Lawrence from Bitterroot News visited with the Commissioners in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, September 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Commissioner Davis was out of the office for the day.

Chairman Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, September 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Lawrence Haas met with the Commissioners for the weekly road update in place of Jay Unrue, County Road Superintendent, who is in the hospital. Chairman Williams said that he had received a request from Ray Sween for a new sign on Tripp Lane and Three-Mile Road as their sign has been knocked down and dragged away. Chairman Williams explained that the Golf Club has 9000 feet of drip irrigation pipe that needs to be blown out and they need to borrow a compressor. Lawrence said they could use theirs, and if they need a bigger one, the ditch company has one.

Bob Brown, County Attorney, came in.

There was some discussion on a request that the speed limit on Roaring Lion Road be reduced. Commissioner Tossberg said they would check with Dale Dye, Sheriff, on this and see how he feels. Lawrence said he feels it is a waste to spend the money to put up a sign that the people will not abide by.

Chairman Williams asked if they could change the speed limit on the Golf Course Road from 35 mph up to 45 mph. Lawrence said that they would just need a Resolution from the Commissioners to do this. Chairman Williams said they would prepare that resolution.

There was some discussion on the condition of the Sleeping Child Road. Lawrence said they are short of materials to blade with. Commissioner Tossberg suggested that a counter should be put on the road. Lawrence said that it would be nice to give that road a two-coat penetration and have it taken care of--he said he would get a counter on it.

Lawrence commented that in regard to Commissioner Davis's request for a counter on Orchard Drive, the counters were placed on Dutch Hill and Bowman Lane and they had a count of 233 on the South end and 539 on the North end. Lawrence said that they had recently hauled in some crushed rock so the road should be in better condition.

Phillip Belangie was in from Turner Engineering, Inc., asking for a letter of support for a loan--they are hoping to employ an additional thirty people.

Don Boche was in to say that he feels some stripping is needed on the Grantsdale Road and the Golf Course Road to take care of some real hazardous situations. Commissioner Tossberg explained that if the State is through stripping, we will have to wait on this until next year.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes

The Commissioners were on hand to audit the monthly claims and attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 2, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Chairman Williams signed the Agreement with the Department of Health to provide for testing drinking water for Don Mullin, Sanitarian.

Chairman Williams signed an Assurance of Compliance with the Department of Defense for the Civil Rights Act of 1964, for Reba Falk, Coordinator, Disaster and Emergency Services.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams attended a Financial Resource meeting for RC&D in Missoula, Montana.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Family Conveyance - SW¼ 31-6-20 - Carl Hopkin

Retrace. - W½ 32-6-20 - Clifford

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Chairman Williams and Commissioner Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, October 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Tossberg asked Jay about McKillop Hill. Jay said they could probably take about 12 feet off the hill and bring it down where it was safer.

Commissioner Davis explained a complaint on Salish Lane from Mr. Roth and said Jeff Langton is working on it with an engineer and then they will get back with the Commissioners.

The Commissioners discussed the Roaring Lion petition and the request for a 35 mph speed limit. Jay said that he is opposed to this as it costs a lot for the signs and there is no way to enforce the speed limit. The Commissioners said maybe they should talk to some of the people up there.

Chairman Williams asked Jay to bring in the suggestions he made last spring on changing speed limits. Jay said that he bases his requests upon what is happening around the nation, and 85% of the people are trying to post speed limits according to the traffic flow.

Chairman Williams explained that there is a bump on the Golf Course Road just on top of the hill where a power line went across. Jay said he would take care of it. Jay said that he will also see that Highway 93 is striped down by Florence as Commissioner Davis requested.

The Commissioners said they would talk with Jay on the Wayne Edens matter as soon as they had time to brief Commissioner Tossberg, who was absent for the discussion.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW¼ Sec. 2-8-20 - Kyle Brinkerhoff

Occ. Sale - SE¼ Sec. 10-10-20 - G. J. Roush

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occas. Sale & Remainder - NW¼ 7-5-20 - Pattie Krasovich

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of October 8, 1985:

Citizens State Bank----------	$ 650,000
Ravalli County Bank----------	1,600,000
First Federal Savings & Loan----------	1,666.969
Farmers State Bank----------	1,370,000
First State Bank----------	1,017,054
Western Federal Savings ----------	2,102,999
	$ 8,407,022

Bill Brooks came in to inquire about how he might get School District #3 to provide bus service all the way up Roaring Lion Road. A problem appears to exist in securing adequate space for a turnaround.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Commissioner Tossberg moved that we grant conditional approval to Lot 11, Block 6, Ravalli Farms for Shelley A. Oertli, subject to the conditions as set forth in the letter. Chairman Williams seconded said motion. Motion carried. At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved and Commissioner Davis seconded that we adopt Resolution No. 371 delegating responsibilities of the Disaster and Emergency Coordinator. Motion carried.

Fred Thomas and Doug McLaren, insurance agents; and Carlotta Grandstaff, Ravalli Republic; met with the Commissioners in connection with the County's insurance coverage. Doug McLaren explained that the bid he had received from CIGNA had been tentative, and he had planned to get it reduced, but as things developed, they ended up with a premium of $101,000. Doug said that the fact remains that he did not make it clear to the Commissioners that the bid was tentative and for the last two weeks have been under very intensive talks with the company at all levels, and everything considered, the CIGNA company has agreed to issue the policy at the agreed price of $43,578. Doug said that he wanted to make it very clear that his intentions were always good and he is very appreciative to the Commissioners on how this was handled as they gave him time to talk with the company. He said that this decision is a very good reflection on the CIGNA corporation as policies like this are tough to write.

Doug asked that the Commissioners give their cooperation as to any recommendations the company might have to improve the overall risks of Ravalli County. He said inspections will be made, but they will not alter the premium. Commissioner Tossberg said he understands that the purpose of this would be to make constructive suggestions as to cost control and the Commissioners would have no problem with that.

Commissioner Tossberg asked what should be done to alert the other agent involved and after some discussion, it was decided that Chairman Williams would call him. Fred said he probably has put some time into this, but he doubts if any money has been spent. The Agent of Record letter that has been issued will serve no purpose at this time. PRIM had said that they would not reopen Ravalli County's file, so it would have taken a special action to reconsider this.

Bob Brown, County Attorney, came in for part of the meeting. There was some discussion on a claim that has been made. Fred said that they do not have the nurses liability part resolved, but should hear soon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day.

Cory Pospahala who works for Mike Enterprise was in to ask the Commissioners if they knew whether his rights were violated when the Sheriff's deputy came into his home and gave him a citation on Monday night. He admitted he had been drinking but that he did not know if someone could enter his house and look for the alcohol without a warrant. He said two of the people who were at his house were 19, the rest were not, and he is 18. He was cited for improper possession. He lives on Highway 93 south of town. Commissioner Tossberg explained that George Corn is the local representative for the civil rights union and he could talk with him. The Commissioners explained that Cory should go back to the JP office and check to see when he is to appear before the Judge.

Sol Miller from Honey Lane was in to say that his neighbor complains that his fence line is on his property. Commissioner Tossberg explained that Sol will probably need to hire a surveyor, but they would help him as much as they could by checking the plats in the plat room. They took him into the plat room to check into this.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - NE¼ 25-6-21 - Ausum Enterprise
Occ. Sale - NE¼ 6-6-20 - Johnson
Occ. Sale - NE¼ 3-9-19 - Vernier
Occ. Sale - SW¼ 17-5-20 - W. A. Kimp
Occ. Sale - SE¼ 27-5-21 - Morse

Stan McEntire, Andy Winnegar and Linda Rohwein were in representing Summit concerning a proposal they have to provide transportation for the handicapped. They want to use their own vehicles and hire drivers to drive them. The people owning the vehicles will carry their own liability. Commissioner Tossberg said that this seems to be a good method to avoid an insurance problem. Commissione Davis asked if there will be a waiver signed to relieve the individuals of liability if something happens.

Commissioner Tossberg asked if this system is used any other place in the State. Andy said that various organizations have set up systems like this. Com missioner Tossberg asked what the market is and Stan said he thinks there are about 100 people who would like to use this service. Stan is doing a needs assessment on this. Summit would like to have the County supply gas money for this. They would provide services for anyone 18 years and older throughout the County. Commissioner Davis said that he thought they should advertise in the Missoulian as well as the Ravalli Republic and on the

Commissioner Tossberg asked if the County could pay on a monthly basis up to a total of $2,000--that way they could see what was happening as the program progresses. Stan said this would work out for them. Andy said they could go ahead and pay and get reimbursed from the County.

Commissioner Tossberg said he would be willing to try this out for a period of time and see how it works out on a monthly basis, but they would need to discuss this with Chairman Williams before any decisions are made. Commissioner Davis said that he is very willing to help also, but would not want to give the impression that they could give money on a permanent basis as the County is not in real good shape financially.

Stan said he thinks they can get enough volunteers to loan vehicles and they will encourage the riders to pay their own way as much as they can. The next Summit meeting will be the 29th of October at 3:00 p.m.

Jim and Rita Watts met with the Commissioners and Bob Brown, County Attorney, to represent a group of people who have formed a City-County Civic Center Association and would like to use the Jefferson School Building for the Civic Center. Civic Centers are controlled by county governments and they feel the County could have control and their organization can come up with the money to remodel the school building. Commissioner Tossberg explained that he would be supportive of a Civic building, but explained that they have received negative reports on the Jefferson School Building from reliable sources. Jim Watts said that the request from the Lab to use the building should be no conflict as the building would be used for large meetings and would be open to all organizations in the County. Commissioner Tossberg suggested that the Watts contact Dave Schechten, Architect, as to his opinion on cost to rehabilitate the building. The Commissioners set up a meeting with the Civic Group for Wednesday, October 16, 1985, at 9:30 a.m.

The Board adjourned to meet the following Tuesday at 10:00 a.m. because of the Columbus Day holiday.

Hamilton, Montana, October 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. The Commissioners and Jay set Thursday, at 10:00 a.m., as road tour day. Commissioner Tossberg said they had received a call from Jeff Langton and they would like the gravel to be put on the Kootenai Trail road now. Jay said he would check into this.

There was some discussion on the Roaring Lion turnaround for a schoolbus. Commissioner Tossberg suggested that the Centers property had room for a turnaround. Jay said he would talk with Frank Bedey on this.

Jay asked Bob Brown about the Woodhouse fence and Bob said he would talk with them today.

Bob Brown asked about the Moise Bridge abutment. After some discussion, the Commissioners said that they had decided to leave it as it is.

The Commissioners attended a meeting at the Council on Aging with William Tietz, MSU President.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jim and Rita Watts and Fred Parker, representing the Civic Center Group, met with the Commissioners to present a proposal for the Jefferson school building. The School Board will not be taking any action on this until their November 11th meeting, but the proposals need to be turned in now.

Commissioner Tossberg asked if they had talked with Dave Schlecton and Jim said he had not, but they have checked out the building and it needs a new roof, but otherwise is in real good shape, and they feel it would be a real waste of a good building not to use it. They would eventually use all of the floors of the building. The basement and first floor would be used first. They would have to ramp them, but feel this is no real problem. Jim said he would donate the ramps. Chairman Williams said they may need an elevator. Gary Wiens, Ravalli Republic, sat in on said meeting.

Jim said they would like to have the County appoint a committee to study the feasibility of the building.

Commissioner Tossberg asked if they are primarily interested in just the building, or if they want the acreage too. Jim said they would like to have both, but that the building would be available to anyone in the County.

Chairman Williams said that they would want to rely on the expertise of an architect--why spend money on an old building when you could build a new building with the same money and get a lot more.

Fred Parker said the North side of the building was originally a gym and they have added partitions, but they can be removed. The room is able to accomodate 500 people and has a stage.

Jim said that he could see where it would be more expensive to fix this building for an

old folks' home as they would have to lower ceilings, but for a Civic Center, they want the 12 foot ceilings and all that is needed is for the walls to be painted.

Chairman Williams explained that he is not opposed to the idea--there is a real need for a Civic Center.

Rita Watts said she was surprised at the gorgeous floors all through the building--she said it is really a beautiful building.

Jim said that the roofer checked the building out real carefully and found no dry rot. He said that the courthouse building where they came from was twice as old as the Jefferson Building and they had installed an elevator and it was real nice.

Commissioner Tossberg explained that the Commissioners have been asked by the Senior Citizens to support them, by the Lab people to support them, and now by the Civic Center group to support them. He said they would like to find a reasonable solution so there are no conflicts and they are all on the same team. He said he feels the Senior Citizens have come to the conclusion that this building would not serve their interests, but they still have some interest in the land. The Lab wants the building itself with a sufficient amount of parking space, and the Civic Center has the same needs. Commissioner Tossberg suggested that the Civic Group sit down with the Lab group and come up with a combined interest proposal.

Chairman Williams asked if this has been discussed with the local businessmen. Jim said they have not had time, but would be doing this.

Jim said that he feels $82,000, plus the cost of an elevator, would bring this building up to a place where it would be serviceable. Chairman Williams asked if they had discussed operating costs and Jim said they have not yet, but his personal feeling is that this building should not be wasted.

The Commissioners said they would go take a look at the building.

Jim said that the old boiler in the building could be repaired, but they have proposed a new heating system as it is more efficient. He said that they could storm the windows on the inside to save heat.

There was some discussion on what the Senior Citizens are asking for. Chairman Williams is attending a meeting with the Retirement Homes Committee this afternoon and will talk with them on this.

Commissioner Tossberg said that although there is some question as to the value of the building, the land is very valuable. Jim said that he thinks they can raise the $82,000 from individual donations.

The Commissioners can get a key from Glenn Wise at the school to get into the building.

The Commissioners attended a Board of Health meeting which was held at 1:30 p.m. in the Extension Conference Room. Minutes are in the Board of Health file.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 17, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - N½ Sec. 15, T2S, R22W - Tom Dunbar

Boundary Reloc. - SW¼ Sec. 10, T1N, R19W - John Monroe

and the following amended plats were filed:

Sunnyside Orchards #1, Lot 15, Block 1 - Stephen J. Anderson

Sunnyside Orchards #1, Lots 13 and 14, Block 1, Stephen J. Anderson

Commissioner Davis moved and Commissioner Tossberg seconded that we approve the plats of Sunnyside Orchards #1, Lot 15 and Lots 13 and 14, Block 1, for filing. Motion carried.

The Commissioners and Jay Unrue, County Road Superintendent, went on a road tour and inspected problem areas around the County.

A Subdivision Meeting regarding HB 791 was held at 7:30 p.m. in the Council on Aging meeting room. See minutes in Commissioners' files.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioner Tossberg attended a Mental Health meeting in Thompson Falls, Montana.

Commissioner Davis was out of the office for the day.

Chairman Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, October 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis discussed the striping down by Florence and Jay said he has been promised that they will do it when they do the weighing station. Commissioner Davis said that the culvert is still leaking down by his place, he thinks when the lady hit it, it caused some damage--Jay said he would check on it.

Chairman Williams said they had a complaint on Higgins and Treece Gulch Road from Vern Bielinger 777-2854. Jay said he would call him.

Bob Brown, County Attorney, came in for the meeting.

Commissioner Davis asked how long Jay usually leaves a counter out and Jay said usually from 3 to 5 days. Commissioner Davis asked that when he counts the Old Highway down by Florence that he would run it a full week to pick up weekend traffic. Jay said he would but he is a little reluctant to do this because of the risk of having it stolen.

The Commissioners discussed a letter received from a 10 year old girl on Cormoret Loop.

Shirley Bridges and Robert Deerdohl were in to complain about the washboardy conditions on Iroquois Trail, Sweathouse and White's Road. They said from the sand hill on up is real bad and by Harold White's gate is real bad. The men just paid their taxes so stopped by to complain. Commissioner Tossberg said that the County has a constant program to improve roads and they could look into this.

Charles Swanson and Carl Swanson, 961-3426, were in to say that they bought 4.4 acres of land from the PCA and this had been in the hunter grazing association and was an isolated piece that had not been sold and they bought it for $500 because it would be easier to fence, but the property is not worth much, it just adjoins their land, and it has been classified "suburban". He said that the Assessor said they notified him this spring but he must not have paid any attention. The taxes on the piece are $96.00, which is just not a fair tax; it is a separate Certificate of Survey. Commissioner Tossberg said he is probably stuck with this this year as the protest time has passed, and they can fix it next year. The men have talked with Ernie Wood and can put this in green belt next year, but feel this year's taxes are wrong. Commissioner Tossberg said they would check with Bob Brown, County Attorney, as the Commissioners have to follow the state law and the evaluations were made by State employees. The Commissioners will get back with the Swansons after checking with Bob.

Commissioner Davis moved and Commissioner Tossberg seconded that we adopt Resolution No. 372 amending Ravalli County's subdivision laws to provide for HB 791. Motion carried unanimously.

At 2:00 p.m. the ambulance bid opening was held with Joan Johnson, Ambulance Coordinator; Norm Dewell, McPeck Motor Co.; Hugh Hopwood, Darby Ambulance present. Darlene Hughes, Clerk and Recorder; and Reba Falk, Administrative Assistant, opened the bids. Joan explained that Starline Enterprises had called and said they had bid on a modular unit and would be sending a bid for a van, but it has not come in. Darlene said this had come up before and we could not accept them if they did not arrive by 2:00 on the date set. She said that Joan should put the date and time on the bid when it comes and give it to her. Bids were opened as follows:

1.	C.R.S. Coach, unit price----------	$ 24,375.00
	plus tax and license if applicable	
	F.O.B. McAlester, Oklahoma	
	Delivery-15 to 20 working days

Trade-In 1976 Ford	-1,500.00
FOB Kansas City	25,795.00
FOB Hamilton, Montana	26,545.00

Darlene explained that the Commissioners would take this under advisement. Joan asked that the Commissioners take it under advisement for a 10 day period until November 1, 1985, when Dale Dye will be back.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners attended a Jail Advisory Committee meeting in the Extension Conference Room at 10:00 a.m.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following amended plat was filed:

Sunnyside Orchards #1, E½ of Lts. 7 & 8, Blk. 8 - Richard Everson

and the following Certificate of Survey was filed:

Occasional Sale - SE¼ 6-5-20 - Vandan Scruggs

Mr. and Mrs. Martin, who were sent by Denis Applebury, Surveyor, met with the Commissioners to discuss a 5 acre parcel of land that they own and want to sell two acres off to their son-in-law and daughter. Their children have applied for "Montana" money to build a house. The Commissioners explained that Mr. and Mrs. Martin should check with the Sanitarian first. Mrs. Martin said that the restrictive covenants allow one split, and this is their only split. The restrictions also provide for no mobile homes and the house the children want to build meets the requirements. The Commissioners said that they did not see any problems with this and sent them down to Don Mullin to make sure the sanitation problems were in order.

The Commissioners signed a request for permission for the Clerk of District Court to issue a warrant to Kendra K. Ingraham pursuant to 7-7-2104 MCA.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners gave a designation of "unsuitable access" for Bk 173-663, Johnson to Miller, HB 791 - #2.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Chairman Williams and Commissioner Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, October 28, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioner Tossberg and Commissioner Davis present.

Chairman Williams was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Davis talked with Jay on a telephone call he had received from the Department of Highways in connection with the numbers of miles of road in Ravalli County. Jay said he will contact Don Falling on this.

There was some discussion on the specs required in subdivisions and the Commissioners said they would need to give this some more thought to come up with guidelines. Jay asked if he could tell Homer Martin that a 30 foot road bed and a 24 foot road would be okay on his subdivision. The Commissioners said that this would be okay.

Commissioner Davis said that he had received calls from people on Curlew and Sweathouse saying thank you for the grading of their roads.

Mrs. Hallock from the Chief Joseph Ranch, Tin Cup Subdivision, was in to ask what the County would require to bring the roads into the County system in the Tin Cup Subdivision. Commissioner Tossberg said that he understands they already have a 60 foot right of way, but said that the rest of the road would have to be brought up to the County Standards that Mrs. Hallock can obtain from Jay Unrue before the road could even be considered, and then there is no guarantee that it will be accepted into the system. Mrs. Hallock said that Luke Wise does work on the road but just needs to know what else is required. Commissioner Tossberg said he would have Jay Unrue check into this and see what is required.

Commissioner Tossberg moved and Commissioner Davis seconded that we grant conditional approval to Lots 2 & 3, Block 47, Calumet Addition, for Joe & Sylvia Osterbauer. Motion carried.

Commissioner Davis moved and Commissioner Tossberg seconded that we grant conditional approval to Lot 1A, Big Creek Meadows for Hallmark Properties, Inc.; motion carried.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - NW¼ Sec. 10, T6N, R21W - Wm. Piatt

The Commissioners gave a determination of "suitability" to the above Certificate of Survey, See CS #3769, HB 791 File #3.

Relocation - NW¼NE¼ 23-3-21 - Lon Brown

Shelley Oertli visited with the Commissioners in connection with an access problem on Weber Estates.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Debbie Plomaritis and her mother from Cormoret Loop, 273-0348, were in to ask why they have been asked to pay $12,000 to bring their road up to standards and into the system when the County is paving other roads around the County. Chairman Williams explained that the Commissioners do not take roads in subdivisions into the system unless they are brought up to specs. Debbie said that Bob Krout had said that this road was on limited maintenance, but it was never graded last year. Debbie said a lot of people do not want it paved as they do not have children in school or live along the county road and have no need to have the loop paved. Debbie said that there are 12 children who catch the bus. Commissioner Davis said that the easement will need to be deeded to the county. Chairman Williams explained that this is a private road and the law provides that the County vehicles can not go on a private road, so they would be out of line to try to do something right now.

Debbie's mother inquired about getting a road sign for her land--Wildwood Lane. Commissioner Tossberg explained the procedure in getting a sign for a private road from the County Road Dept.

Rich Michalski was in to talk with Chairman Williams about the Ravalli County Creamery file.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Reloc. over 20 - SE¼ Sec. 16-9-20 - Robert Thomas

Boundary Location - NW 7-1-18 and NE 12-1-19 - Isreal & Tushak

Retrac. - NE¼ Sec. 26-3-21 - H. A. Whitney

It was moved by Commissioner Tossberg and seconded by Commissioner Davis that we accept the bid of CRS Coach for a 1986 Ford E-350 Supervan Hightop Type II ambulance in the amount of $25,075. Breakdown as follows:

$24,375.00	
1,500.00	FOB Hamilton
$25,875.00	
1,500.00	- less trade-in
$24,375.00	
700.00	additional for 1986 model
$25,075.00	

Motion carried. All Commissioners voted "aye".

The Commissioners, County Attorney, Robert Brown; Road Dept. Supervisor, Jay Unrue; Lawrence Haas and Bud Dye participated in a telephone hearing conducted by Mr. Michael Furlough, State of Montana, Employment Security Division, Appeals Section, P. O. Box 1728, Helena, Mt. 59601, in the matter of: Case No. AT-1027-85, Donald W. Edens, Box 203, Victor, Mt. 59875.

Hamilton, Montana, October 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management and audit the monthly claims.

Twenty-five members of the Victor High School Junior and Senior classes accompanied by their faculty member made a tour of the Ravalli County courthouse facility.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, October 31, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to audit the monthly claims and attend to office management.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes

Hamilton, Montana, November 1, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of September, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $8,226,018.63.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Family Conveyance - SW¼ 31-6-20 - Carl Hopkins

Occasional Sale - NW¼ 6-5-20 - James Oury

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was discussion on the new paving project for the employee parking lot and the Commissioners complimented Jay and his crew for the professional job done.

Chairman Williams explained that they had received an Agreement to be signed on off-system bridge signing. Jay said that the weight limits keep changing so that new signs are needed.

Jay said that he would not be able to take advantage of his China trip because of health problems. He will be spending a couple of days in the hospital this week.

Fred Parker and Jim Watts visited with the Commissioners in connection with a Civic Center for Ravalli County. Jim asked if the Commissioners had checked the inside of the Jefferson Building and the Commissioners said they had not. Chairman Williams said that the recent comment he has heard is that people would like to see the building torn down and have them start over. Jim said that he would agree with these comments if it were to be used for Senior Citizens, but feels that it would be very adequate for a Civic Center. Chairman Williams said that he personally feels that the cost estimates that Jim gave for the Jefferson Building are low. Commissioner Davis asked if the Civic Center group had gotten a fire rating on the Jefferson Building. They said they hadn't and Commissioner Davis said he thought they should. Jim said that the estimates provide for a complete new wiring job, new heating system, new roof, and painting. The blueprints show that this building was constructed in 1909 and 1914. Chairman Williams said that they are doing a survey for the elderly and will hopefully be able to use the voter registration list to send out questionnaires to see what the needs really are.

Jim said that he could put up a log building which would accomodate about 200 in a banquet setting and 400 in an assembly setting for around $100,000 plus some kitchen and bathroom facilities. They would make their own furniture and do it as economically as possible. He would make an elongated "Grubstake" type of building.

Commissioner Tossberg said that he had done some checking of the law and found that the Commissioners do have the authority to buy, erect, furnish and maintain a building for civic center purposes and could levy two mills for this purpose, all this would be contingent upon a bond issue.

They can also create a commission to manage said building. However, if the County took over,

County takes over. They would also have to be careful about fire conditions. Commissioner Tossberg said he could visualize this building as a meeting room set up, but not so much as a civic center. He said that he felt the people involved would eventually have to ask for the two mills to operate the building and he personally would not be in favor of this at the moment to maintain that particular facility. The men again expressed their desire to keep this building. Chairman Williams said that he feels the building could be much better utilized if it were on the ground floor.

There was some discussion on funding and Commissioner Tossberg asked if this could be operated on a break-even basis and Jim said he thought it could. He said that most organizations are willing to pay a minimal usage fee.

Chairman Williams explained the building at the fairgrounds in Lewistown, Montana, that is used for this purpose and said he felt that this would be a good situation as they could have old-car shows, etc., that would need more ground space. Chairman Williams said that he would call the Commissioners in that County and get more information. Jeff McDowell, Ravalli Republic, sat in on the meeting.

The Civic Committee has already submitted their proposal for the Jefferson School to the School Board.

Commissioner Tossberg said that he would not want the Civic Center to leave this meeting without being totally informed, so asked Chairman Williams to explain what the Senior Citizens are presently doing about the Jefferson Building. Chairman Williams read a letter that the Commissioners support in helping the Senior Citizens to develop the Jefferson site. Commissioner Tossberg said that the Commissioners are supportive of the Senior Citizens getting that site, if they can do it on 5 of the 7 acres and leave 2 acres for the civic center, then that would be great. The lab has backed out on their proposal, so there is not a problem there.

Commissioner Tossberg explained that the Commissioners are kind of preoccupied with the jail problems right now and are putting that problem ahead of these others.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Mtg. Rel. & Ag. Parcel - NW¼ Sec. 12-2-21 - Gary Christopherson

Occ. Sale & Ag. Cov. - SE¼ 32-6-20 - Kratofil

Occ. Sale - SW¼ 18-6-20 - Ronald Simkins

Kim French, Gordon Howard, and Roberta Prouty visited with the Commissioners in connection with the Stevensville Ambulance and problems that have come up. They said they would like to determine if they are full-time, part-time, or volunteer employees. They would also like to know what insurance coverage they have, if they have Workman's Comp., if they are entitled to personal injury, and if they are covered in the case of a law suit. They said that they have been told that they can buy their own malpractice insurance, but can not afford that as premiums range from $98-$120 per person. They would like the County to get a group rate for them and pay for this for them. They also want to know if there is a term life insurance that they can benefit from.

Commissioner Davis explained that Fred Thomas is our agent for the County and will answer most of those questions for them. Whatever they don't find out from him, they can come back and talk over with the Commissioners.

Another issue of concern was the new policy booklet. Commissioner Davis explained that the County Attorney, Bob Brown, is going over this and has not gotten back with the Commissioners. He said that there are some things in there that the Commissioners do not agree with. He also explained that the Commissioners have talked with Dale Dye on this also. Roberta said they have tried to talk with Joan on this but have not gotten anywhere. Joan has stated that the ambulance attendants can not have a copy of the policy as she is afraid it will cause dissension in the community and among the workers.

Commissioner Davis explained that the Commissioners have received other complaints on this and said he was glad that these people came to see the Commissioners as they do not know what is happening if they don't come and tell them.

Gordon said that Joan uses the phrase "Dale and I" very freely and they never know if he is really behind everything--they never get anything in writing. He said that Joan says she argues with Dale on things, but he says that this is how it has to be. Roberta said that they did not fight before Joan took over and now they are fighting all the time and no one has any confidence in her ability as an administrator--the whole thing is tearing them apart. Six people have left because of Joan--they said that Joan says she has a hard time finding people to work, but there are 8 people out there that are trained and willing to work if Joan would allow it.

The representatives from the ambulance crew said that Joan uses the insurance company as a weapon to get them to sign.

Roberta said that another issue she would like checked out is that they have a couple of doctors

that they carry some equipment for their use--it is locked up and used only by them. Joan wants it removed.

Commissioner Davis said that there may be a law that prevents this, it could be that this makes the liability higher--he will check into this.

Kim explained that they have a hard time getting repairs made--she said she feels it takes a lot more time to get things fixed than necessary. Kim said that her main complaint is that Joan disagrees with the need for Kim to have gone on one of the runs she made and does not plan to pay her for that run--a couple of times in the past, she has done this and just changed the claim form and deducted the run from Kim's check. Now she says that she can not change the claim form until it has been gone over with Kim and is holding Kim's check up that she should get today until December. She has set a meeting for Thursday with Kim. Commissioner Davis said he would check into this. Kim said she also has a hard time getting copies of her claims--Joan will not give any copies of claims after they have been paid. Kim has never seen the two claims Joan changed and would like to see them. The Commissioners explained that she can get copies from Polly.

Kim said that she had a minor accident a while back--scrapped some paint on a dumpster, and reported the accident to Roberta, and Roberta reported to Joan. Kim then got a call from Joan chewing her out for not reporting the accident, so the rules keep changing, but they are not informed.

Commissioner Davis explained that the Commissioners really don't get too involved with these things and can not make a good judgment on this without doing some checking.

Roberta stated that she just felt that the ambulance personnel should be allowed to use their own judgment on some of these circumstances.

Commissioner Davis explained that there is always the chance that someone will take advantage of a situation--from the management side, they have to be careful.

Gordon explained that they had just gotten new tires on the ambulance and someone had warned them that these tires (purchased from Hoblitt--Goodyear Wranglers) would not stand up under high speeds. They are afraid that Joan does not understand these things and would like to know if the tires are safe. They said that a tire dealer in Stevensville said he could have given them those tires for less money than Joan paid Hoblitt, but he bid a better tire because of the safety involved.

Commissioner Davis said that the only way this could be checked out adequately was to check with the manufacturer of the tires to see what they will do.

The ambulance personnel also said that they feel that Joan's policy of pulling the ambulance out of Stevensville and taking it to Hamilton for servicing is wrong as it ties up the ambulances and they think Stevensville business should be kept in Stevensville and would like this checked out.

The people explained an incident last year when $200 or $300 worth of gas was charged to the ambulance by someone and Joan pulled the key and for around six months the ambulance drivers could not get gas at night--they now can get it at Oles in Hamilton or Missoula. They felt a better policy would have been to change the lock on the barn and reissue keys to the present drivers as they feel this might have been done by old drivers who still had keys.

Commissioner Davis explained that a situation like this does take corrective action, but maybe a lock change would be a better situation if there are old keys floating around.

Gordon said that they had been told that the ambulance budget does not have a lot of money. Commissioner Tossberg said that there is a statutory limit on what the ambulance can have.

Kim asked if Joan has the right to enforce the policies in the manual before it is signed. Commissioner Davis said not until it is approved. Kim said that she is already enforcing it as on her paycheck problem, she has been told to meet with Joan on a 1 to 1 basis and can not have a witness present--she said that she would like a witness present at the meeting Thursday evening. Commissioner Tossberg stated that he could not see why there could not be a witness. Commissioner Tossberg reinforced Commissioner Davis's statement that the Commissioners have a real problem getting all the evidence as they are not actively involved in this--they try to stay out of it and Joan is the Coordinator and Dale Dye, Sheriff, has the final word, so when they come to see the Commissioners, it is difficult for them to make a judgment--they wind up being in the middle and it is difficult to make a rational decision. Commissioner Tossberg said he thought they should call Dale Dye and then go ahead on the meeting. Commissioner Tossberg said that he has his private reaction, and it would seem to him that the meeting should be open--the Commissioners always open their meetings to the public. Commissioner Tossberg asked what would happen if a member of the press attended and the personnel present said that Joan just will not say anything unless it is on a 1 to 1 basis. Commissioner Tossberg said the ambulance gets County money and the rules would be the same as the county. However, he said they should realize that personnel matters are handled privately. Kim said that she feels that the individual involved should have some choice whether the meeting is open to the public or not.

Kim said that the ambulance crew members are welcome to other meetings around the county with fire districts, etc. , so this is not the way other organizations handle this. Commissioner Tossberg asked if this 1 to 1 thing has always been the case and those present said it only started when Joan

a mandatory provision that you have to attend or you will lose your job. Commissioner Tossberg asked if there was a policy manual prior to Joan and those present said they had only gone by the State code, which they feel is necessary and important. They said that they did have an abbreviated policy which they had to initial about a year ago, but not like this one. Roberta said they had no problem with that one. This one interferes with their private lives off-duty and says they have to maintain a certain code of conduct to set a standard for their job, and Kim said it is being enforced even though it is not in effect.

Kim stated that she would plan to take someone with her to the meeting.

Commissioner Davis asked if those present would like the Commissioners to call Dale to come up and Kim said that many of the other members of ambulance crews object too and they would like to talk with them and send a representative representing all of their views, but wanted to come to see the Commissioners first to see what the proper procedure was that they should follow. Those present said that 85% of the Ravalli County ambulance crew is ready to quit--they have all been active in the community and feel they have a service that not everyone can provide and are proud of this, but feel it is not worth it with the conflicts and hassle since Joan started. Kim stated that 25% of the crew has quit because of Joan.

Chairman Williams asked if Joan's training is good. Kim said she did until she started going to some state meetings and now feels that Joan is kindergarten material compared to what is offered elsewhere. Roberta said that she does not think there is anything wrong with Joan's training, there are better trainers, but she does okay and the main problem is her administrative ability.

Commissioner Tossberg asked if it is because she is so abrasive.

Robert said she is kind of dictatorial. Kim said she has to run everything.

Kim said that she has talked with the Board of Personnel Appeals and has been told that they have the right to form a union and to strike.

Gordon said that when they go on a run, they only get paid from the time the ambulance person gets into the ambulance until they call dispatch when the run ends. After that they always have fifteen minutes of work to do and they spend time coming and going to the run, and yet they are constantly getting calls from Joan asking about a few minutes conflict in time--she always docks them. He said that no one is trying to take advantage of their pay and the patient gets charged for the extra hour if they go into another hour--it seems like Joan is being too nitpicky. He said that they don't even have access to the sheets to check out what Joan is complaining about. Joan picks up the time sheets twice a month. The ambulance crew said that they did not have problems like this before. Gordon said that they are to the point that everyone would like to "lynch" Joan--she has gone overboard. She advertises for help and requires too much and gives the volunteers the "third degree" until no one wants to do this.

Kim said that Joan has assigned herself nine 12-hour shifts and another crew member in Hamilton only got 1 and would like more. She feels Joan is just trying to get rid of this person. Yet, Joan complains all the time about how much she has to do. Joan assigns the shifts in Hamilton but in Stevensville they work out their shifts according to their schedules and they vary to accomodate everyone. Joan has complained about this because she says it is too confusing. They have the same schedule during the week, week after week, and then they alternate on the week-ends to give everyone some time off, but their schedules are permanent. Roberta said she has worked for 8 years and has found that during that time everything went smooth until Joan took over, so they don't think it is everyone else--it started when Joan came. They have tried to follow the chain of command and have gone to Joan and Dale and have not gotten anywhere. Kim said that one person is absolutely paranoid about coming in because she is afraid she will get fired.

Bob Brown, County Attorney, came in on the meeting.

The personnel involved said that two previous ambulance personnel have said they will come in and talk with the Commissioners.

Kim explained her problem about talking with Joan on her check to Bob Brown, County Attorney. Bob asked if there is a crew chief in Stevensville and Roberta said they do not have one--they have a town chief, but this person does not have any authority.

Kim explained that she does not have a problem with not getting paid for the run--she knows she won't--she never has when Joan has questioned it, she just needs her check before December.

On the run situation, Kim said that the policy has always been that three people go in the case of an accident or heartattack--apparently the policy has been changed, but the personnel has not been notified. The policy manual says that the dispatch makes the decision on this--Kim said that they are not qualified to make this decision.

Bob Brown asked if they have a chance to go to another person on the crew if they are not satisfied with Joan's decision, and Kim said that they are never allowed to have a witness and the policy manual provides that they are not to talk with anyone on this--they are all afraid of reprisal.

Commissioner Tossberg said that if Joan takes reprisals against them, come back in to see the Commissioners.

Commissioner Tossberg stated that they have had incidents in the past that lead them to believe

that people have taken advantage in the past, so the double checking on Joan's part is a good business principal--however, she may be carrying it too far--he agrees that an extra 15 minutes is not going to make so much difference.

Chairman Williams asked if the State Protocol Book specifies whether the dispatcher makes the decisions. Kim said that it does not and the last training session she attended stressed that the ambulance personnel are the only ones qualified to make this decision. Their opinion was that dispatchers are not qualified to make that decision.

Gordon said that you do have the right to call dispatch for more help if you find it is going to be needed.

Commissioner Tossberg asked if historically they have always taken 3 people for accidents and heartattacks and the personnel present said that this has been the policy for 15 years. They said that occasionally three are not needed, but it has been policy.

Commissioner Davis asked Bob Brown about the Workman's Comp. and Bob said that he is almost sure that they have industrial accident and unemployment benefits. Kim said that she understands that notice of this is to be posted and they do have a barn where it could be. Commissioner Tossberg said he will find out about this. Kim said she would also like to know if they are covered from their homes to the ambulance barn when they go for a run.

Commissioner Davis cautioned them that red flashing lights on their vehicles do not give them the right of way. They said they were aware of that but had been given permission to go 5 miles per hour over the speed limit.

Kim said that she is concerned about Joan's use of "on duty" and "on call" in the new policy and would like that checked out.

Carlotta Grandstaff, Ravalli Republic, came into the meeting at this point. Previously, Commissioner Tossberg had noticed that Joan Johnson was at the window in the lobby and informed the personnel present of this fact.

Commissioner Tossberg explained that the Commissioners would be discussing this problem with Dale Dye and Bob will evaluate the policy.

Mrs. Earl Mansfield was in to ask if it would be possible to get classified in a lower tax bracket for fire protection as they live too far from a phone to get any help. Her taxes for fire were only $4.02 per year and when Commissioner Davis explained this, she said she would leave it as it is.

Ronnie Pasolich and Mildred Miller were in to discuss the Corvallis dog problem with the Commissioners. Greg Lakes, Missoulian, sat in on said meeting. The ladies explained that they have started a petition and wanted to make sure that it will cover what they want to cover before proceeding further. They just want this to cover the Corvallis community. Chairman Williams asked what the limits would be and they said probably about the same as the Corvallis Sewer District. They said that the farmers would not want to be included in this as they have dogs and should not have to confine them. Chairman Williams said that he has checked with a number of people on this and they all concur with these ladies. Mildred asked if the petitioners have to live in the area involved. Chairman Williams explained that the people outside the district would not be charged for the enforcement, so should not be included.

Ronnie said that the Pit Bulls are still running loose. Apparently those dogs are able to get the gate loose themselves and Ronnie said they are able to jump the wire mesh fence that encloses the front of the house where they are kept. This is a continuing situation and the school children are afraid to walk by this house. Commissioner Tossberg asked Ronnie what she is doing to assist with the injuries she received when she was attacked by the Pit Bulls. Ronnie said she has hired an attorney and they are trying to get some help with the medical and physical therapy bills. Mrs. Miller said that Corvallis has had a dog problem for twenty years, and sometimes these dogs have been vicous--most of them are owned by people who live in town. Chairman Williams asked if the dogs bother the school children. Mrs. Miller told of an incident where she had been trapped in her home by dogs. She had called the owner of one of the dogs and said she would shoot the dog if he did not keep him chained and he has kept that dog chained since then.

Commissioner Tossberg asked what the Corvallis people basically want and explained that the Commissioners do have the right to establish an ordinance in a given area without doing it throughout the County. Mrs. Miller said they would like the right to have someone appointed who could go to the owner of the dog and 1. warn them to keep them under control, 2. fine them if they do not keep them under control, and 3. if they continue to cause a hazard, take the dog to the humane shelter to be disposed of. Commissioner Tossberg asked if the ladies want a leash law and Mrs. Miller said that if the animals are verbally or physically controlled, they are considered contained.

Ronnie said that on the Pit Bull situation, Betty Cook from the Humane Shelter had gone to visit with the Hazens and did not get anywhere. Ronnie said that the female is going to have pups and they plan to sell those.

Commissioner Tossberg suggested that the ladies carefully map the area that they want the dog

ordinance to cover so that it is easier for us to get a population count for the area. Commissioner Tossberg said that he does not see a specific requirement in the law, but the general requirement is that 60% of the registered property owners sign a petition. He also suggested that the people involved be made aware that this is going to cost them something. He said that the ladies might want to get a copy of the dog ordinance from Hamilton to follow. There is a procedure to follow and the Commissioners will have to go through the steps of the law, but there should be no problem. Chairman Williams asked if the ladies want to include cats and they said they do not, their main concern is dogs, and especially these dogs that are situated between the two schools.

Ronnie asked if the Sheriff's Dept. can do something about these particular dogs. Chairman Williams said they would check into this and keep in touch.

Rob Johnson, Oscar Ekstrom, Herb Stoenner, Dan Kemmis, and Lynn McKee met with the Commissioners to discuss a Retirement Center proposal for the Jefferson School site. Herb Stoenner went through the form they propose to send out to the people over 60 in Ravalli County to determine feasibility. They will use a computer printout from the voter registration to get names. There was some discussion on the Missoula Retirement Center and the costs involved for apartments and meals. Missoula charges $426 a month for the apartment, $135.00 for one meal, and $35.00 a month for a second meal, per person. The group are hoping to get some help on the funding from HUD for low-income people.

Jim Corrigan from Human Resources in Missoula visited with the Commissioners in connection with the plans they have made to administer the funds they receive from the CSBG (Community Services Block Grant) for Ravalli County. The Commissioners signed a letter granting them permission to administer the funds for the 1986 Fiscal Year.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton, the County Seat, on the 6th day of November, 1985, for the purpose of canvassing the returns and declaring the results of the City Elections as held in the Cities of Hamilton, Stevensville, Pinesdale and Darby, County of Ravalli, on the 5th day of November, 1985. Present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, Darlene E. Hughes, Clerk and Recorder; Betty Lund, Election Administrator. Everything was found to be in order. For the official returns, see records in the Clerk and Recorder's Office.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Line Agreement - SW¼ 13-9-20 - Supply Ditch Co.

Russ Lawrence, Bitterroot News, met with the Commissioners to discuss the proposed Civic Center.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 7, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present.

The Commissioners attended a MACO meeting in Polson, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 8, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Bob Brown, County Attorney, sat in on the following meeting. Ray Bean, who owns R & R Mobile Homes jointly with his brother, came in to explain what has happened with the property he bought in 1980 on Shoshone Loop. He purchased this property from Dahindens and was doing occasional sales, making one sale per year. He said that he had the land monitored in 1981 and the Sanitarian said it was okay. He said that he had received complaints about the sewer problems and he and Don Mullin had gone out and walked the ground and they agree about what is needed and do not see any problems with this. Ray said that he had Mike Craig helping him to pay for a piece of land in 1980 and he put in an illegal system and they are in the process of correcting this. He said that he has made commitments to sell off parcels and now is not allowed to make any more occasional sales because of the new laws, and it puts him in a bind because he can not transfer property to a friend of his, Kelly Schilke, and it is causing a problem in their friendship.

Commissioner Tossberg explained that what Ray has done is create a subdivision and has never gone through review, and this is not what the law intended for occasional sales to do. Commissioner Tossberg explained that it looks like an attempt to evade the subdivision laws, and what Ray will have to do now is go through the subdivision process and create a minor subdivision--Commissioner Tossberg explained that this is not an onerous process, but will cost some money. Ray said that frankly, the cost bothered him as he does not have a lot of money. Commissioner Tossberg explained that there will be some cash-in-lieu of parks money required, and these monies have to be paid up front. Commissioner

Tossberg explained that Ray's brother could have a minor subdivision also. Commissioner Tossberg suggested that Ray get together with Don and work out how this could be done and then he would be in a better position to get it through the Planning Board.

Ray said that he had a lawyer draw up an agreement that he had used for these sales. Bob Brown commented that any lawyer drawing up an agreement would be at fault because even the subdivision laws before 1980 would have prevented this type of agreement. Chairman Williams explained that they would work with Ray and were not trying to make things too hard for him but these laws were passed to protect the Buyer and the Commissioners are just trying to follow the rules.

Commissioner Tossberg said that the Commissioners could not respond to what the Planning Board would do on this, and could make no promise as to whether it would be passed, but felt that Ray has no problems that can not be resolved if he works with Don Mullin and approaches this in the right way.

The Board adjourned to meet the following Tuesday at 10:00 a.m., because of the Veteran's Day holiday.

Hamilton, Montana, November 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

Don McKenna, Attorney, was in to check on the road situation for Edith Larson, a client of his. She has purchased land from Homer Martin and wonders why the road running along her property has to be brought up to specs. She doesn't really want gravel hauled in there. The Commissioners explained that they like to keep a certain standard on the roads because they want the fire trucks, ambulances, etc., to be able to get in if the need arises.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

The Commissioners attended a Jail Advisory Committee meeting in the election room at 3:00 in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 14, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present

Ron Anderson from the Montana Power Company was in to discuss the lighting situation in Victor and Corvallis with the Commissioners. They are going to change to a high pressure sodium vapor light and will change all the lights in the County over a 7-year period. This is a big job and will take a while--they hope to get the cities and towns done within a five year period. General Electric has made a special proposal to provide the fixtures. The new fixtures will reduce the energy consumption by at least one-half, and will provide more light. Ron came to the Commissioners because they are under contract with the Commissioners because Victor and Corvallis are part of the County. He showed the Commissioners what the changes in the contracts will be. After they complete the cities and towns, they will be changing their lease lights on farms, etc. Commissioner Tossberg asked if this involves a cost to the County and Ron said it would not--there will just be a billing change. Chairman Williams asked Ron to go ahead and make the required changes and mail the contract down for the Commissioners to sign.

Commissioner Tossberg said they may receive some public comment as some people do not like the new lights. Ron said to feel free to refer people to the Montana Power Co. for explanation as it is their obligation to explain as they provide the service.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SE¼ 13-5-21 - Floyd Reimers

Occ. Sale - SW¼ 30; NW¼ 31, T8N, R20W - Walter Smith

Occ. Sale - NE¼ Sec. 35-8-21 - Buelke

Retrace. - NW¼ Sec. 35, T1S, R22W - Shelley Oertli

Line Location - NW¼ Sec. 17-4-21 - Graham Jacobson

Commissioner Davis attended a meeting at the Presbyterian Church in connection with a retirement center for the elderly.

Commissioner Tossberg left for a meeting in Libby for Mental Health and CDC.

Chairman Williams attended a meeting in Missoula relative to the 5-Valley Development Corporation

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 15, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg went to Libby, Montana, for a Mental Health and CDC meeting.

Commissioner Davis and Chairman Williams were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, November 18, 1985

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis explained a complaint he had received from Melody Raphburn up Tin Cup Road. Commissioner Davis also told of a call to the Highway man in Missoula to report the count for traffic down by Florence. Commissioner Tossberg commented that the speed limit sign for 55 mph is in the wrong place and moving it about 300 yards might help the problem. Commissioner Davis said that Bob Krout had made this suggestion to the Highway men and they had said it would be no problem, but have not done it.

Bob Brown, County Attorney, came in. There was discussion on accidents at the road department and Jay said that they have so few accidents that it is really not a problem, but they do talk about safety around four times a year so people are aware.

Chairman Williams said that the Imans are having a problem with ice backing up in a culvert by the East Mill Creek Bridge on Dutch Hill Road and Jay said that his crew is on top of it and had been up there last week.

Chairman Williams explained a complaint he had received on Mt. Meadow Lane from Mr. Fletcher, who says he has maintained this road for years and the school bus uses it. Chairman Williams showed the road to Jay on the map in the plat room and Jay said he would take care of it.

Jay said that on the Fred Hartcorn problem with the fence being on County right of way, he feels a letter is needed to ask them to put the fence back with the other fencing in the area--the other fence gives 50 feet of right of way and they can live with the 50 feet, but need it at least that far back as it is interfering with the grading. The Commissioners said Jay should write the letter. (This is the old West Side Road.)

Chairman Williams said that he had received a call from Rose Goss that the 35 mph speed limit sign limits vision down in Conner by Smut's Store.

Ned Applebury was in to give a resume on the financial operation of the fair and fairgrounds.

The Commissioners visited the new Humane Shelter which will officially open tomorrow.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 19, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Mtg. Rel. - SE¼SW¼ 18-9-19 - Greg Sangster

Mtg. Rel. - SW¼ 2-8-20 - Roger Brinkerhoff

Ag. Parcel - SW¼ 2-4-21 - Gouse

Road Easement - NESW 3-5-20 - Duus

Occ. Sale - NE¼ 29-9-20 - R. P. Baxter

Over 20 acres - SE¼ 22; E½ 27, T2S, R20W - John T. Brennan
(The Commissioners gave a determination of unsuitable access - See HB 791 #4)

Amended Plat:

Part of Pine Grove Townsite, NE¼ 36-6-21 - Howard Bates

Commissioner Davis moved and Commissioner Tossberg seconded that we sign the contract to amend the existing street light agreements with Montana Power Company for Corvallis and Victor. Motion carried. See Perm File #_____.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Tossberg moved and Commissioner Davis seconded that we execute the necessary documents to effect the Relocation of Common Boundary between the Stevensville Airport road gravel pit and the Albert and Patty Spang property, pursuant to Certificate of Survey #3770. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 21, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occasional Sale - SW¼ 11-3-21 - Breitwerser/Evers

Joan Johnson, Ambulance Coordinator, visited with the Commissioners in connection with ambulance services.

Representative Bob Thoft visited with the Commissioners regarding various legislative matters and activities of the Jail Advisory Committee.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 22, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, November 25, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Williams explained that they had received a complaint from Mrs. Brezar up North Burnt Fork that they don't get any road maintenance. Jay said that this road is on very limited maintenance.

Jay said that his men will be working on a trailer for the crusher and getting it set up the next couple of months. He has found a screen that will work out well for them.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to audit the monthly claims and attend to office management.

The Commissioners attended an energy conservation meeting in Corvallis at the Ravalli County Electric.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, November 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Reloc. - NW¼ 30-8-20 - Tabish

Family Conveyance - SW¼ Sec. 16, T9N, R20W - Alex Johnson

Relocation - SW¼ 16-5-20 - Skiles

Larry Johnson and Mark Young met with the Commissioners to go over sketches Mark has made for adding to the Hamilton Library. He has made the sketches to comply with the requirements for the handicapped. They are planning for 45,000 volumes--they have 19,000 now. Mark thinks the remodeling and adding on will cost around a quarter of a million dollars. Larry said that they would appreciate any suggestions the Commissioners may have on the plans so that they can get all of the changes into the new sketches and have them finalized in time to apply for the grants when they become available. They hope to get around $60,000 in grant funds from that available at the State level. Larry said that they need to demonstrate the ability to build the whole project in order to get these Title II Funds. He said that they plan to make a real effort to get funds from the community over a two month period and raise the money all at once. They have about $5,000 now that t hey have collected and are working on plans to raise the rest of the money.

The Board adjourned to meet the following Friday at 10:00 a.m. because of the Thanksgiving holiday.

Hamilton, Montana, November 29, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams present.

Commissioners Tossberg and Davis were out of the office for the day.

Chairman Williams was on hand to attend to office management.

Chairman Williams signed deed for Ravalli County issuing deeds back to delinquent property owners as follows:

Hellickson, Pt. of Lt. 5 Block 3 Daly Acres

Woffords, In NESW and NWSE 18 6 20

Lauders, E½E½NWNE 29 7 21

Ingalls, Circle Square Homesites, Lot 18

Ingalls, Circle Square Homesites, Lot 20

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. T. Williams, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. B. Tossberg, Member

Hamilton, Montana, December 2, 1985

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. T. Williams, Commissioner F. B. Tossberg, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of October, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $8,749,116.42.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay said that he had driven the roads yesterday in a 2-wheel drive and was able to get around to all the roads.

Chairman Williams asked if Jay would be paving the Sunset Bench road this next season and Jay said he would check into it. He said that the 2-coat penetration is saving the road department in time and maintenance so he would want to keep doing it as much as he can.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - SE¼ 19-9-20 - Sharriot Creek Owners

Over 20 acres - S½ 15-3-21 - Community Gas & Oil Co., See Suitable Access HB #791 #6

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 3, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Steve Powell, Surveyor; Gary Hill, Marilyn Hoblitt, Jay Unrue, County Road Supt.; Bob Brown, County Attorney; and Cliff Trexler met with the Commissioners to request permission to relocate a county road on the Everett Pierce property out north of North Birch Creek Road. Bob Brown said that this could be done with an amended subdivision plat and Steve Powell said that this is what they would propose to do. Bob said that the other alternative is to abandon the existing road and then grant an easement in a different place. Jay Unrue said he had been out to look at the site and the proposed spot for the new road is essentially the same as the old road. There was some discussion on whether this would go through plat committee review and Steve Powell said that they have not been taking relocations through review. Commissioner Tossberg expressed concern about a way to require that the road be built if the plat does not have to go through review. After some discussion, it was decided that the Commissioners would go with Cliff Trexler this afternoon at 3:30 to look at the property before any decisions were made. Marilyn said that what is needed is a letter telling the proposed buyers that they would be allowed to relocate the road should they choose--her sale is contingent upon this provision

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 4, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Eric Johnson from CIGNA, Inc. was in to check out the County buildings. Slim Warren showed him through the courthouse. Ned Applebury showed him through the fair buildings and Jay Unrue showed him though the road department buildings. He also checked out the sewer systems at Victor and Corvallis.

Commissioner Davis moved and Commissioner Tossberg seconded that we grant conditional approval to Lot 5, Bitterroot Mountain View Estates Subdivision. Motion carried.

Commissioner Davis moved and Commissioner Tossberg seconded that we grant conditional approval to Lot 66B Bonanza Lands #2. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m

Hamilton, Montana, December 5, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management and audit the monthly claims.

Eric Johnson of CIGNA Loss Control Services, Inc., Spokane, Washington, concluded insurance safety inspection of the Ravalli County Courthouse, Fair Grounds, and Road Dept. facilities. Also inspected were the community sanitary system serving Victor and Corvallis.

He will submit a written report of his findings which are to be handled by the county. Generally he was pleased with the safety conditions being maintained at the County buildings.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 6, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Commissioners checked out a complaint on the road conditions in the Hillcrest Subdivision.

Joseph R. Reif, Ravalli County Airport Manager, verbally informed Chairman Williams that he was moving out of state and would resign his position as of December 31, 1985.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, December 9, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners told Jay that they had checked out a complaint in the Hillcrest Subdivision on Friday. Jay explained that the road department has been lowkeying Hillcrest because for the last couple of years they have had complaints on the plowing--first they complained that it was plowed into their driveways and then the department plowed the snow into the middle of the road for them and received complaints about that. Jay said that he would like a decision on how to plow these roads. Commissioner Davis said he thinks they should be plowed to the outside. Commissioner Tossberg said maybe the best thing is not to plow. It was decided that the next time it snows, Jay will have his crew plow to the outside and see if they complain again.

Chairman Williams explained a complaint he had received from Ed Morlock on Mt. View Orchard Drive about a mailbox that had been knocked down by a grader. Jay said that this has been taken care of.

The Commissioners asked if the Supply Ditch break situation had been settled and Jay said it has not because the local insurance company refuses to pay and Bob Brown intends to sue.

Commissioner Davis said that he thinks the "Danger" signs can be picked up down by his place at Florence so that they will not be stolen.

Commissioner Tossberg commented that the Commissioners have had amazingly few complaints during these bad road conditions. Jay said that he has five snowplows and five graders out and five sanding outfits, so they are covering the roads real well. Commissioner Tossberg asked what kind of a set-up they have arranged for the week-ends and Jay said he watches out for the conditions on Friday and Sunday and Lawrence Haas checks the conditions on Saturday and they send men out when needed, but are careful as they are trying to keep the overtime to a minimum.

Ruth Spence from Massachusetts Mutual met with the Commissioners to explain a couple of new plans she has available that might be helpful to the Ravalli County employees. They are briefly described as follows:

Flexible Compensation:

Section 125 IRS Code provides for this and would allow the employee to deduct certain expenses such as day care, dental, vitamins, etc., before taxes are figured. This would help the employer too as they get the savings on the matching of Social Security.

Pro-Health:

This is like self-insurance in that you set up your own health program and set up a specific stop-loss figure.

Ruth's phone number is 363-5207 and she would like the Commissioners to study these programs and tell her if they are interested and then, if they are, she will have Dave come down from Missoula and explain them in more depth.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW¼ 32-7-20 - Loretta Menager

3 Gifts and One Occas. Sale - SW¼ 8-5-20 - Ray Bergman

Relocation - SE¼ 26-7-21 - Covert/Johnson

Correction - W½ 32-6-20 - Rudy Kratofil

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 10, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jim Rudolph met with the Commissioners and Bob Brown, County Attorney, in regard to the airport management. Chairman Williams asked him how much time he feels is necessary in maintaining the airport, and if it would be practical to just go to an hourly wage. Jim said that the Commissioners have invested a lot of money in the airport and it is worth a lot of money, so he feels the investment should be protected, and the best way would be to have a salaried manager. If this is not possible, certain jobs could be contracted. He said that the fix-base operator out there could do some of the jobs like reading the gas meter. The possibility of a conflict of interest was discussed. Bob Brown said that the Commissioners could hire someone to fill Joe's unexpired term up until July 1st without advertising. Jim suggested that the Commissioners should talk with Bob Kline and Bill Tubbs to get a better idea of what happens out at the airport and what is needed. Chairman Williams asked Jim if he would be available to help with the airport and Jim said he could not because of his wife's health, but

he would assist in any way he could.

Chairman Williams asked Jim if he thinks the airstrip needs lengthened and Jim said he does not think this is necessary. He said that a couple of planes that land out there are stretching it to land, but they are aware of the conditions and it is their responsibility. Chairman Williams asked Jim if he was aware of any problems out at the airport and Jim said that he was not.

Commissioner Tossberg commented that the lease costs are low and that he would like to see the airport become self-supporting.

Chairman Williams asked Jim if he feels that the County needs to provide any more services out at the airport and Jim said he did not feel that anything else is needed, but when Joe leaves he said the County will have to watch the runway and make sure someone reports the conditions into Missoula so that the pilots are aware of the runway conditions.

Chairman Williams asked Jim if he feels the ditch on the South end of the airport needs filled. Jim said that this would be a good idea--he said that he would have to check with the Federal Aviation people to see if they view the ditch as a real hazard.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW¼ 5-8-20 - Dehler

Mtg. Rel. - SE¼ 7-7-20 - Ron Lane

Jerry Judson and Jay Chamberlain from the Bitterroot Irrigation Company met with the Commissione to discuss the ownership of Leese Lane as they need to get an easement for the ditch company. Chairman Williams said that they would need to consult with Bob Brown, County Attorney, but he felt that the Commissioners do not have much to say about the right of way.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 11, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Reba Falk, Administrative Assistant, discussed the Sula Fire District Budget with Herb Kent, Treasurer of said department.

The Commissioners attended the Jail Advisory Committee meeting at 3:00 p.m. and showed them the latest plans for the jail, which had been prepared by the architect.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 12, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

Joe Reif and David Rosecrans, Hamilton Aviation, met with the Commissioners in regard to the manager job at the airport. The Commissioners gave Dave an application for the job and said that they are taking applications from all interested parties. Chairman Williams and Commissioner Davis asked Joe to work up a job description so that they would be aware of what is needed to be done out there.

Dave said that his only problem was that some people might feel he has a conflict of interest because of the Hamilton Aviation job, but he has a real interest in the airport and knew what is needed out there.

Chairman Williams asked Joe to bring in the files he keeps on the airport and Joe said he would. Joe said he thinks this should be a salaried job, paid by the job and not by the hour because the manager has to be on call for emergencies.

Chairman Williams asked Dave if he feels he has the time to do a good job on this and Dave said he felt he had plenty of time.

Joe commented that the work fare program is very beneficial at the airport and would like to see the County keep using these people out there.

Dave asked how much the manager reports to the Commissioners and after some discussion, it was decided it should be weekly, and Commissioner Davis suggested that this be written into the job description. Chairman Williams asked how many people Dave employs and Dave said he has three full-time positions and a kid who works on the weekends. He puts more people on in the summer usually.

Chairman Williams asked if the Forest Service pays any lease fees and Joe said that when you accept grant monies from the government, it is a provision that the Forest Service and all other government agencies can not be charged.

Chairman Williams explained that Jack Vallance had been in to check the rules on building hangars. Joe said they have to conform to the construction and layout of the airport and the 1970 rules are still in tact. He revised the rules in 1980 and will bring in some copies of the revision for the Commissioners.

Carol Graham from Human Services was in to keep the Commissioners posted on what is happening

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 13, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Davis present.

Commissioner Tossberg was out of the office for the day.

George Gernett, who is interested in the airport, was in to visit with the Commissioners. He is an aircraft salesman and his operation is in Austin, Texas. He is also an instructor pilot. He said that two or three people out at the airport who have expressed an interest are his friends. He said he would like to see someone have the job who will be around for a good deal of the time. He said that fix-base operators have a tendency to come and go. Chairman Williams asked George whether he thinks the runway is long enough and George said that no matter how big your operation is, there is always some talk about the need to enlarge, but in George's opinion, it is not necessary and the cost factor is prohibitive. He feels that overall, Hamilton has a very nice airport.

Don Mullin and Mike Gaudin met with the Commissioners to negotiate cash-in-lieu of parks on Big Creek Meadow subdivision. Commissioners Williams and Davis decided upon a figure of $715.00 and Mike Gaudin made payment of said amount.

It was moved by Commissioner Davis that the Commissioners accept cash-in-lieu of parks in the amount of $715.00 on Big Creek Meadow subdivision, and that the Amended Plat of Lot 1, Big Creek Meadows, be filed. Motion carried. (Hallmark Properties)

Mike and Ronnie Pasalich, Carol Walters, Mildred Miller, Joyce Kunschke, Penny Hitchcock, Nina Portis, Lance Foster, and Betty Cook met with the Commissioners in connection with a dog ordinance for Ravalli County. Lance Foster spoke for the group and said that their main concern is the lack of legal control of vicous animals. They do not want a complete dog ordinance, just enough to allow people to protect themselves. He gave the Commissioners an outline of what the group would like to see done. He said that this might not be compatible with Montana Law, and they would want the final decision left in the hands of the court. The kind of ordinance suggested would not cost the County any funds as the Sheriff's office handles this anyway. Lance also presented petitions signed by people in the County. Lance said that the Grange has given this ordinance their support. Lance Foster said that he would volunteer to assist the County Attorney on this as he worked with it in Utah.

Chairman Williams explained that the Commissioners are concerned and have been checking into the possibility of a leash law but Gallatin County enacted a law like this and it became so expensive that they had to discontinue it, so the Commissioners are cautious about what they adopt. Chairman Williams said that the Commissioners would be acting upon the petitions they have received. The petitions will call for two public hearings to get public input. Chairman Williams said that he has been down to Corvallis several times to check out the pit bull situation and has never seen the dogs and Mr. Pasalich said that the owners are keeping them inside. Chairman Williams said that he could see that the fence was not adequate to hold the dogs. Mr. Pasalich said that the female has had 7 pups, so there is a real danger there. Chairman Williams assured the people present that the Commissioners will follow through on this matter, but they need to get together with the County Attorney and follow the proper procedures. He said that they should have some information by the 15th of January, 1986 and will advise those present at that time. He wants to be sure that what they adopt is workable.

Penny Hitchcock explained that one of the problems is determining the truth in a situation like this--she said that it is always very hard because the dog can not talk and emotions are high, etc.

Mr. Pasalich expressed frustration at having to go to court as he feels no one benefits from this--he feels preventative measures should be taken. Commissioner Davis explained that the owners of the dogs don't understand their responsibility and if it is not taken to court then they are not forced to take the responsibility they should take.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, December 16, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Jay said that his equipment is getting run down and he feels that the practice he has followed for several years of keeping capital expenditures the same in spite of inflation is working against him as prices are going up and his equipment is wearing out. His trucks have 300,000 miles on them and they need to replace three small trucks this next year. Their graders and loaders are also wearing out. Jay said that February is really the best time of year to buy equipment. There was some discussion on the proposed Forest Reserve monies.

Shelley Oertli met with the Commissioners on the Loretta L. Martin property, being part of Lot 24, Blk. 2, Corvallis Tract.

Commissioner Tossberg moved and Commissioner Davis seconded that we approve the amended plat or part of Lot 24, Blk. 2, Corvallis Tract, for Loretta Martin. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners signed the Ravalli County Chemical Dependency Services, Inc. plans for Ravalli County FY 1987 and read Goal Achievement Report for 4th Quarter, 1985.

Nick Kramis, Mrs. Jim Black, Mr. and Mrs. Roy L. Cooper, Pat and Rod Beard, and George G. Brown met with the Commissioners with concerns about Zoning District 6. None of the present Commissioners were on the Board when this Zone was formed. Nick Kramis filled the Commissioners in on the background of the zoning district. Those present are concerned about the foreclosure that is taking place on the Kearns property as a mortgage release has divided the property so that there is a one acre parcel and then a 3.+ acre parcel and the zoning provisions were intended to provide that no home could be built on less than five acres of land. They are concerned about density and felt that Morris Gardner's 37 acres were all together. The Commissioners pointed out that this 4.+ acre parcel had been separated out by separate survey before the zoning ever took place. Commissioner Tossberg said what we don't know is if the mortgage company could foreclose on the entire piece to keep it from being separated. Mr. Brown said that Morris Gardner was one of the most concerned parties when the zoning was done because a trailer court was proposed right next to his place, so he should not be allowing this to happen to the rest of the people. Nick Kramis said that they are not happy with the way their zoning restrictions were set up and need to modify them.

Another alternative that was suggested was that Morris Gardner could take the piece that is 3.+ back and then change his boundary location and add some acreage to the parcel and make it five acres and then it could be used as a building site.

There was discussion on whose responsibility it is to fight the problem--the property owners or the Commission. After some discussion, Commissioner Tossberg said he would be willing to ask the County Attorney if he would be willing to write a letter to the mortgage company and suggest that they take this parcel back all in one piece, and would get back with the parties involved promptly. Commissioner Tossberg said that if the Commission ends up fighting to enforce these zones, they may have to take the alternative of levying a tax on the property owners involved to pay for this.

The Commissioners conducted a telephone conference call with the Helena labor office on the Donald Wayne Edens matter. Bob Brown, County Attorney; Bud Dye, Lawrence Haas, and Jay Unrue, County Road Supt.; participated in said call.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 18, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Commissioners received a Summons and Complaint and Demand for Jury Trial for Cause No. DV-85-494 Karen Ridenour vs. Ravalli County, Montana.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 19, 1985

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 20, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Williams and Commissioner Tossberg present.

Commissioner Davis was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW¼ 28-9-20 - Derrick

Ag. Cov. & Occ. Sale - NW¼SE¼ 14-3-20 - Lee Parmenter

Reloc. - SE¼ 16-9-20 - Bob Thomas

Amended Plat:

Lot 5, Bitterroot Mtn. View Est. - Edward & Patricia Martin

Commissioner Tossberg moved that we approve the amended plat of Lot 5, Bitterroot Mtn. View Est. for Edward & Patricia Martin. Motion carried.

Russ Lawrence from the Bitterroot News was in to visit with the Commissioners about news items.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, December 23, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SE¼ 10-4-21 - Evelyn Cooper

Occ. Sale - NE¼ 14-6-21 - Keen

Lawrence Haas was in for the weekly road report as Jay Unrue, County Road Superintendent, is

Chairman Williams was out of the office for the day.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 24, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

Commissioners Tossberg and Davis were on hand to audit the monthly claims and attend to office management.

Because of the Christmas Day Holiday, the Board adjourned to meet the following Thursday at 10:00 a.m.

Hamilton, Montana, December 26, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

Following research done by Don Mullin, Planning Office; Susan Vieth, Secretary for Don Mullin, presented the following Certificate of Survey for filing:

Reloc. - SE¼ 16-9-20 - Shirley Biddinger

Jim Watts met with the Commissioners in connection with the proposed Civic Center. He said that the Board would like to have the Commissioners appoint a committee to study possible sites for said Center. They are especially interested in county owned property and Jim said that Ned Applebury has expressed a willingness to help with this. They would want a building that would accomodate 500 people with a kitchen. The consensus of the Board is that they want the County to own and control this building. They feel that it will be self-supporting once they get the building up and feel they can raise the money for the building through dues and donations. They will be called "City-County Civic Center Association". The Commissioners asked that Jim send a letter putting his request in writing.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 27, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Davis present.

Chairman Williams was out of the office for the day.

Jim Schwehr and Al Shodar visited with the Commissioners about a break-in at their place on August 15, 1985 --- they feel the Sheriff is not handling the investigation right -- they said that they have a suspect and the Sheriff's office fooled around and let him skip town. The Commissioners explained that this is under the Sheriff's jurisdiction and they have nothing to say about it, but would ask Dale about it. The men said they had not talked with Dale but would go down and talk with him, they had always talked with Scott Leete in the past. Their phone number is 363-2088.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, December 30, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Lawrence Haas, representing the road department for Jay Unrue, County Road Superintendent, who is on vacation, met with the Commissioners for the weekly road update.

Jack Valance came in to discuss and recommend changes in the current Ravalli County Airport policies and procedures and rules and regulations.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, December 31, 1985

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The County Commissioners appointed Tom Biner as trustee for the West Fork Fire District to take the place of Wayne Kilpatrick, who has resigned.

The following Ravalli County Board positions were approved upon motion by Commissioner Tossberg, seconded by Commissioner Davis. All positions to begin January 2, 1986:

Veterans Board - 1-year term - Truman Smith and W. D. Stephani were reappointed.

Planning Board - 2-year term - School District #3 - Mary Sexton
School District #13 - Michael Kleese

No decision was made on the remaining Planning Board vacancies.

Fair Board 2-year term - Harold Hopwood, Cliff Trexler and Juanita Hork were reappointed.

Tax Appeals Board - 3-year term - Alvin Cote was reappointed

Upon motion, the Board adjourned.
