Hamilton, Montana, January 2, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of November, 1985, were audited and found to be in balance with cash on hand in all funds in the sum of $10,589,751.55.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

During action to reorganize the Board, Clerk and Recorder, Darlene E. Hughes, occupied the chair and invited nominations for Chairman of the Board of Commissioners.

Commissioner Davis nominated F. B. Tossberg as Chairman of the Board of Ravalli County Commissioners for 1986. Commissioner Williams seconded said motion. Motion carried unanimously.

Darlene E. Hughes then stepped down as acting chairperson and Chairman Tossberg accepted the chair.

Following review with Susan Vieth, Planning Office, the following Certificate of Survey was filed:

Occ. Sale - SW¼ Section 2, T4N, R21W P.M.M. - Frank & Lucy Gouse

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 3, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Louise Oertli was in in connection with Churn Creek on North Blodgett Creek, up McKillop Road. She said that she had been talking to Mary Kay Browning and she mentioned that the Commissioners are considering widening the road and doing away with the ditch. She said that she has filed water rights on this ditch and so has the cemetery and they use this water--this is the only source of water for the cemetery and she feels that it can not be legally taken away. She said that Jay knows where this is. She is on the Cemetery Board and would appreciate hearing if anything comes up on this. The Commissioners said they would discuss this with Jay.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 6, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis explained that the road in Florence between the store and the school is real slick. Commissioner Davis also explained that Louise Oertli had been in objecting to the road department eliminating the Churn Creek ditch that they use for irrigating the cemetery. Jay said that he would thoroughly check this out before proceeding.

Commissioner Williams moved that Patricia Zeiler be appointed to fill the unexpired term of David Jones on the Health Board, said term to run until December 31, 1986. Commissioner Davis seconded said motion. Motion carried.

Commissioner Davis moved that Mike Wilson be appointed to represent the Florence District #15 on the Planning Board for a term running from December 31, 1985 to December 31, 1987. Commissioner Williams seconded said motion. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Ag. Exemption & Rem. N½NWSW 12-2-21 - Don Perry, Trustee

Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution No. 373 authorizing the disposal of records by the Board of County Commissioners with the approval of the Department of Commerce. Commissioner Davis seconded said motion. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 7, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we appoint J. R. Iman to another term on the Ravalli County Planning Board to represent School District #1 - Corvallis. Motion carried.

Commissioner Davis moved and Commissioner Williams seconded that we appoint Carl Baldwin to another term on the Ravalli County Planning Board to represent School District #2 - Stevensville. Motion carried.

The Commissioners attended the Forest Service meeting on wilderness areas in the election conference room during the afternoon.

Hamilton, Montana, January 8, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

At 10:00 a.m. a Park Board meeting was held. Minutes are in the Park Board file.

The Commissioners attended a Jail Advisory Committee meeting in the extension conference room at 3:00 in the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 9, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Tossberg and Williams present.

Commissioner Davis was out of the office for the day.

Chairman Tossberg and Commissioner Williams attended a Historical Society meeting in the Bedford Building during the afternoon.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 10, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - NW¼ 8-6-20 - Stan Logerstedt

Mtg. Rel. - SW¼ 14-5-21 - Brooks

Mtg. Rel. - W½ 1-8-20 - Robert Popham

and the following Amended Plats were filed:

Lots 7 & 8, Blk. 18 Riverview (Hamilton) - Joel Olingham

Lots 13 & 14, Blk. 1, Edgemont Addition (Reloc.) - Louise Enochs and Robert Gerloff

Commissioner Williams moved that we accept and file the Amended Plats of Lots 7 & 8, Blk. 18, Riverview and Lots 13 & 14, Blk. 1, Edgemont Addition. Commissioner Davis seconded said motion. Motion carried.

Commissioner Williams moved that we adopt Resolution No. 374 initiating the process of consolidation of the County Treasurer and County Assessor offices. Commissioner Davis seconded said motion. Motion carried unanimously.

Shelley Oertli and Wally Scott from First Montana Title came in to discuss some requirements for their minor subdivision, Lt. 11, Blk. 6, Ravalli Farms.

The Commissioners informed them that a bank letter of credit or other suitable security would be necessary to guarantee the installation of the road and utilities. Cash-in-lieu of parks was negotiated at $1765.

T. J. Mason met with the County Commissioners concerning the Labor Contract with the labor union. He reminded the Commissioners that, prior to the last union negotiations, he and another employee had given notice of their objections to the Commissioners' contracting to force them to continue to pay union dues after they had withdrawn. The Commissioners showed Mason the minutes of the negotiation meetings where this was pointed out to the union team and that this year there was no extension of the contract so that these two members of the road crew could act to protect their position without interference by the county. The Commissioners had advised the negotiating committee that they considered the old contract to expire on June 30, 1985, and the new agreement to commence July 1, 1985.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 13, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on a flashing light requested by the Lone Rock School and Jay said it would cost about $900. He said he would paint the crosswalk and put the signs but if they want the flashing light they will have to pay for it and maintain it as the road department can not afford to do this.

Commissioner Tossberg said he had received several calls Friday on the road conditions and Jay explained how his crews are handling the road conditions.

Bob Brown, County Attorney, came in and there was some discussion on the problem the men are having getting out of the union.

Sharon Duckett from EDA was in to discuss the economic situation in Ravalli County. She feels EDA will be discontinued and they will not be providing any more funding, but they still have some money set aside for certain projects. She is working with Missoula, Mineral and Ravalli counties and wants a list of the apparent needs in Ravalli County. J. R. Iman came in and discussed farming problems and development in Ravalli County. There was also discussion on the senior citizen housing.

Gene Magini was in to talk about the county's investments.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

COS Parcel A, 130 acres - 17, 18, 19 and 20-6-19, 862.46 acre remainder, Unsuitable Access HB #791 - # 7 - Brien M. Weber

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 14, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Leonard Kent and Roger Loysen from the Victor Rural Fire District requested an appropriation and loan from the County's P.I.L.T. funds under MCA 7-6-2218 to purchase a used truck and rebuild it or for a second tanker truck for the District. Mr. Kent stated that with a second tanker truck, the District could get its fire rating changed and be able to lower fire insurance costs for District residents. The District would be able to repay the loan no later than July, 1986. Ron Foltz, Auditor; and Reba Falk, Administrative Assistant, sat in on said meeting.

Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution No. 375 allowing Ravalli County to loan unbudgeted PILT monies to the Victor Fire Department. Motion carried.

Ron Bruce and Arlyn F. Lemer from Big Sky Security & Communication Systems met with the Commissioners and Ned Applebury and Ron Fisher to give a demonstration on security systems.

Dave Fullerton from the Hamilton Job Service met with the Commissioners in connection with his 2-year plan that he is preparing.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of January 2, 1986.

Citizens State Bank----------	$ 650,000
Ravalli County Bank----------	1,600,000
Farmers State Bank----------	1,370,000
First State Bank----------	1,098,654
First Federal Savings & Loan----------	1,666,969
Western Federal Savings & Loan----------	1,028,513
	$ 7,414,136

Fred Parker and Bill Barnes were in in connection with the proposed Civic Center and their request that the Commissioners appoint a committee to select a location for the center. Chairman Williams said that he feels that the group should be tying in their work with what motels are available. The men said that Jim Watts and Ned Applebury both want to work on this committee.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution #376 providing that the Energy Grant funds received be used to develop an Operations Maintenance Manual for the Ravalli County courthouse. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 15, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we appoint Ned Applebury and Jim Watts for a study committee to review possible sites for a Civic Center. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - NW¼ Sec. 8, T5N, R20W - Richard Martinson

Over 20 acres - SE¼ 16-2-17 - Carl Tiefenthaler

Unsuitable Access Determination, HB #791, #8

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 16, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 17, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a Board of Investments meeting in Helena, Montana.

Commissioner Williams and Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 20, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the work being done on the Dutch Hill Road and Lower Mill Creek. Jay said that he had checked out the business in Victor that is being flooded and it was agreed that this is not a county responsibility. Chairman Tossberg said that there is a stop sign down at the corner of Kurtz Lane and the Eastside Highway. Jay said that he would pick it up. Jay said that they have a lot of washes they are dealing with.

Glen Scanland was in on North Nordheim Lane and requested that the County would do one grading job per year for him.

The Commissioners hosted a luncheon for 18 members of the Hamilton Rotary Club. The Rotarians visited the present county jail and they received information on the necessity for the construction of

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 21, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members presen

The Commissioners hosted a luncheon for 41 members of the Hamilton Lion's Club. The Lions visited the present county jail and they received information on the necessity for the construction of a new and larger incarceration facility.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occ. Sale 4-1-21 - John Ward

and the following Amended Plat was filed:

Lots 1-6, Blk. 1, Emma Johnson Addition -First Bank Southside

Commissioner Davis moved and Commissioner Tossberg seconded that we accept the amended plat of Lots 1-6, Blk. 1, Emma Johnson Addition. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 22, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members presen

Harry Deeths met with the Commissioners in connection with a proposed subdivision up Blodgett Camp Road called Canyon Ranch Estates. Harry presented this to the Planning Board in August and got a good reception. Harry said that his client, Jim Brown, needs a feeling on whether the county will take over the maintenance of the roads when the subdivision is completed. Both Chairman Tossberg and Commissioner Williams stated that the County could make no commitment as to the road maintenance. Commissioner Tossberg said that even if they have 40% occupancy, there is no guarantee as to whether the county will maintain.

An Agreement was signed this day between Ravalli County and William C. Stewart providing for the operation of the Ravalli County Airport through and including June 30, 1986. Said original agreement is in the Airport File in the Commissioners' office and copy has been sent to William C. Stewart.

Resolution #377 was adopted by motion of Commissioner Williams, seconded by Commissioner Davis relative to declaring Ravalli County a disaster area due to early freezing conditions and excessive rainfall. Motion carried.

Resolution #378 was adopted by motion of Commissioner Williams, seconded by Commissioner Davis relative to transferring Five Valley Development Corporation assets to the Economic Development Administration. Motion carried.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 23, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with no members present

Chairman Tossberg stopped by the office briefly before going to a liability insurance meeting in Missoula at the Sheraton Hotel. Commissioners Williams and Davis also attended said meeting.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 24, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members preser

The Commissioners gave Henrietta Brandon, Public Health Nurse, the go ahead on a grant for Child Abuse and Neglect Prevention and Treatment Programs. She will try to get the available $850.00 for this purpose.

Shirley Kochis and Peggy Munoz met with the Commissioners to talk about the proposed addition to the Hamilton Library. They brought in the architect's drawings. They wanted to be sure that the $50,000 that the County promised them is still available. Peggy asked if they will be needing to get this money spent before the end of this fiscal year. Commissioner Tossberg said he feels this should be their goal as it may be hard to rebudget this money. There was some discussion on what was appropriated at the Federal level and what might be available in the form of grants for the library. The Library Friends plan to have a kick-off for a fund drive on February 9th at the library. They will then launch a well-planned fund drive to obtain the necessary funding to start their project. They will need $150,000 to get started and another $100,000 to finish the project. They plan to mail letters to alumni of Hamilton High School and other people who might support the project. Rolly Peterson will be the Treasurer for the fund drive. Peggy asked the Commissioners to read the letter she proposes to send out during the drive and they stated that they felt it was a good letter. The Commissioners asked if the Library people have received any commitment from the City for what they will donate. Peggy said the city has donated the land and will probably feel that this is their contribution. They are working to straighten out the ditch situation.

By motion of Commissioner Williams, seconded by Commissioner Davis, the following Council on Aging appointments were made: Motion carried.

American Association of Retired Persons, Chapter 250---Vesta Arnold
Oscar E. Ekstrom

Bitterroot Valley Railroad Veterans and Retirees Club--Stanley Pancake

Stevensville Senior Citizens and St. Mary's
Chapter of Mt. Senior Citizens----------Etta Polette

Stevensville Town Council----------Chris Wilson

Victor Senior Citizens----------Ruth O'Rell
Ethelyn Little

The Board adjourned to meet the following Monday at 10:00 a.m.

Hamilton, Montana, January 27, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis said that on the ice problem down by his house, the flag has been moved. Commissioner Tossberg said that the Lone Rock School had called and Jay said he would talk with them today. There was some discussion on the water problem in the Corvallis street. Chairman Tossberg explained that the Gramm-Rudman Act will reduce the Forest Reserve monies too.

At 10:00 a.m. the Public Hearing on the Combination of the County Assessor and County Treasurer offices was held with the following people in attendance: Ruth Cleveland, Treasurer; Mary Kay Browning; Darlene E. Hughes, Clerk and Recorder; Bob Brown, County Attorney; Ernie Woods, Reclassification; Cheryl Richards, Assessor; Peg Wilson, Greg Danelz, Jo Vogt, George Vogt, Ann Craft, Greg Lakes, Missoulian; Pauline Garnella, Georgia Humphrey, Betty Swift, Natalie Drake, Bernie A. Swift, Carleton M. Clifford, John W. Robinson, William Couture, Carol Bancroft, Marjorie C. Prowse, Oris Olsen, Carlotta Grandstaff, Ravalli Republic; Pauline Burbank, Naomi Powell, Terry Nobles, Carolyn Davis, Edmund Bogert, John W. Robinson, and Beverly Steiner.

Chairman Tossberg began said hearing by reading from the Resolution of Intention which the Commissioners adopted. He explained some background for the action being taken and said that the Legislature did not appropriate enough money to pay the County Assessor's salary. They have picked up 2/3rds of it this year and the County is to pick up the other one-third. Chairman Tossberg explained that the motivation for the consolidation is strictly financial on the part of the Commissioners as they are looking forward to a hard budget season and having to eliminate costs in all departments, so they feel they can take this step as it has been done in some of the other counties. He then asked for comments from the citizens. Natalie Drake asked how much the County contributes to the Assessor at this point in dollars. Commissioner Tossberg explained that the County has not contributed much up to this point except office space and lights and they have been reimbursed for that. They share the computer and the State has paid its portion on that. He explained that the initial cost to the County would be about $6,000, but he suspects that the County will be paying the entire salary before too long.

George Vogt explained that he is concerned about the Department of Revenue and would not want the County to be at its mercy. He would hate to see an elected position eliminated and that control released to this department.

Bernie Swift said that he was in full support of George Vogt's statements. If you give up an elected position, you loose the vote. The people in Ravalli County voted to have this an elected position and the people objected when the Commissioners opted to let the state take over the welfare. He said that in less than three or four months, the welfare built a new building and the courthouse lost the rent they were getting from the State, and this is the same type of action. Bernie said he was concerned that this move would cost two or three million more dollars. He feels that the County is being a party to centralizing the government.

Oris Olson from Pinesdale said that he represents 250 voters and is in agreement with Bernie Swift.

Carlton Clifford asked who appoints the Tax Appeals Board--would the State then make those appointments?

Commissioner Tossberg said "No", the County makes those appointments.

Carlton Clifford commented that it would be a bad thing if they lost the right to appeal and Chairman Tossberg agreed that it would be a bad thing.

Betty Swift commented that she agrees with the other comments. Can not see where the saving of $6,000 warrants eliminating an elected official's position.

Natalie Drake commented that this was false economy, that they are not really saving $6,000--

in 1974 when a vote was taken, the people said they were satisfied with how the government is in our County. She said that the Commissioners have a lot of good will built up at this point and the timing is bad to anger the voters--this might reflect on a major issue when this is such a minor one. The problem is accountability--we should maintain as much control locally as we can. Where will it end, how many offices will be removed from local control. She said that the Commissioners receive a certain satisfaction from being an elected position and having the support of the voters--why would they want to remove this satisfaction from another elected official?

Jo Vogt--said she was concerned about the same thing--the democracy is being chiseled away. The elected position of the Assessor is an independence--we must not let our controls seep away. When the State comes in, they bring people from other places--we don't know how many jobs have been taken from the county people. There has been talk of taking the Sheriff's Dept. and officials away from the Counties, of appointing Judges instead of electing them--where are we going to stop. With regard to the welfare, did this increase the budgeting privileges?

Commissioner Tossberg--when the transfer was made, it was at a fixed amount--12 mills--we are not paying more than what we used to--I would agree with what Mr. Swift said in regards to the entire State, but not the County. Of course they could twist our arm for more, they always have that right through legislation.

Jo Vogt asked if this was included in the 25 mills for General and Chairman Tossberg explained that this was a separate fund.

Oris Olson told of a man in their Pinesdale community who came from Germany and saw the powers slipping away there just as they are here and they ended up in Communist rule. Another complaint Oris had was that they would like to have these meetings in the evenings so that more people who work could attend.

Naomi Powell asked why this issue could not be put before the people for a vote.

Carol Bancroft said she thought that the Commissioners had the power to just say "No" to this issue, wasn't this right----

Chairman Tossberg: "Wrong".

Mrs. Bancroft then insisted that the local County Commissioners do have the power and said that she could show them where it says so.

Ann Croft asked if this issue is to be decided by the Commissioners and Chairman Tossberg said that this is correct--they have been following the procedure that they have been given to follow. They have done this Resolution of Intent and after the Public Hearing are required to make a decision within 5 days.

Carolyn Davis commented that the Commissioners should remember when they are making the decision that they were voted in and can be voted out.

Naomi Powell--said that before on the subdivision regulation changes they obtained 2700 signatures but the Commissioners had already made up their minds and did what they wanted, and she wonders if they could get signatures on this and if that would make a difference.

Chairman Tossberg said that they will follow the procedure as set forth in the Montana law.

Ruth Cleveland, County Treasurer--If you have a draft agreement with the State, could you explain it?

Chairman Tossberg--we have no draft agreement, we did seek assurance that Cheryl Richard's job would be secure--Cheryl is an excellent public employee-----

Bernie Swift--even though you would like to retain Cheryl's service, is there any assurance that this is binding?

Chairman Tossberg--I guess we feel we can deal with State officials in good faith.

Carlton Clifford--Who is promoting this?

Chairman Tossberg--The Commissioners initiated this action.

Bernie Swift--I would like to know where the three of you stand on this issue----

Commissioner Williams--I signed the Intention to do this--at this time I favor it, but I am listening to the people--we are going to be faced with a difficult decision---

Edmund Bogert--could you give the reasoning for doing this---

Chairman Tossberg--sole reason is materialistic--to save money--$6,000 is just the beginning, eventually the county would be paying the entire salary--if we are going to pay the Assessor, she should be working for the County, and not for the State---there is still a procedure left to the taxpayers, this does not mean you still don't have any rights--you have the right to appeal to the Tax Appeal Board, then to the State and finally, to the District Court, so there is a procedure you can follow--I don't share your feelings that I am giving up my rights--I can see why you feel the way you do as you are not involved in government. Cheryl conducts her business without the County's help--the State renders the advise to her--mostly we just go to her and to Ernie Woods to get the information we need.

George Vogt--stated that his experience with the Dept. of Rev. in his work of 20 years with

Commissioner Tossberg explained that this comes from the legislature and the Assessor has very little to do with this---

John Robinson said that it appears that the maximum savings is the Assessor's salary--what we are talking about is political philosophy--the elected's responsibility to its electors. Appointed officials have different attitudes--when we appoint, we dilute--this is diluted even further when the appointment is made by the state--we do lose some political control.

William Couture--do we lose the people we have now?

Chairman Tossberg--to the best of my knowledge, no-one will be replaced or transferred.

Willie--we are happy with what we have now----

Carolyn Davis--this faith agreement--what will happen if the state elected officials change and we have a Republican Governor instead of a Democrat--are we still going to keep Cheryl?

Chairman Tossberg--I would hope that we can rely on good faith of both the Republicans and the Democrats.

Chairman Tossberg asked for any different comments from what has been said---

Oris Olson--I can't figure out why there would be anything different from what we are talking about--the people voted against pumping all that water from the courthouse and it is being done--are the Commissioners going to do what they are asked to do?

Chairman Tossberg--I trust we will act in the best interests of all of the citizens--this is the purpose of the hearing, to get the public's opinion---

Ann Craft--would like to hear from Commissioner Davis---

Commissioner Davis--we try to run the County as conservative as we can--this is something we have to work out--I have made a lot of notes and will go through all of them before making my vote--I like some of the comments you have made, a few I would not agree with, you are never going to get 30 people to agree on everything--I will look over this thing carefully and talk with the other Commissioners--we have to run the County and save as much money as possible, whether this would outweigh the other issue---if we did consolidate, I don't think this would happen until another term has run, another 4 years---I will talk with Cheryl and see what she wants, and that will affect my decision---

Bernie--what if Cheryl does file, can she get her money back?

Chairman Tossberg--this is why we are advising them not to file until this issue is settled---

Commissioner Davis--some of you are saying we spend money, what do you mean?

Mrs. Bancroft--we mean the $55,000 for the voting machine and $11,000 for the lounge--we want it stopped--

Naomi Powell--we want the people to decide--you are talking about money instead of the freedom of the people--find out what the people think---

Commissioner Williams--we are listening to the people--the Commissioners do not make the State and Federal laws, we obey the laws--we are the lowest per capita county in the State of Montana, we are not throwing your money away--we are doing a good job and are not going to waste your money--

The meeting was adjourned.

Commissioner Davis left for Great Falls to attend meetings on MACO Workmen's Comp.

Chairman Tossberg and Commissioner Williams attended the Build Montana program with Governor Schwinden, who visited the Bitterroot Valley for this day.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 28, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Tossberg present.

Commissioner Davis attended a workshop in Great Falls, Montana, on MACO Workman's Compensation.

Commissioner Williams attended a Council on Aging meeting in Polson, Montana.

Chairman Tossberg was on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 29, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis attended the MACO Workmen's Comp meeting in Great Falls, Montana.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 - NW¼ 1-2-21 Valenzano/Jackson-Suitable Access HB 791 #9

Eminent Domain -Ravalli Co. - NW¼ 1-6-21

Kim Nelson, Dr. Alan Goodman, Lucile Gordan, Charlotte Hennessey, and Rob Johnson met with the Commissioners to discuss the Kellogg Grant that Montana State University is receiving to help Hamilton Library and Libby to set up programs in their libraries to work with the University to obtain college courses for the local residents.

The County Commissioners waived the right to hold a public hearing in Ravalli County on Western Equities Group's request for $5,000,000 in Industrial Revenue Bonds to be issued by the Montana

Economic Development Board. That Board will conduct a hearing in Helena on the request.

The County Commissioners approved the following temporary policy in order to assist the County Treasurer:

1. Mobile homes needing motor vehicle moving permits as provided by MCA 15-24-202 must pay all taxes assessed including full year 1986.
2. As yet, the County Assessor does not have the 1986 tax rate percentage so must use the 1985 rate of 8.55%, which has the effect of doubling the 1985 tax.
3. In order to expedite accounting and subsequent refund of the overassessment until a permanent new rate is available, the County Treasurer's Office will hold the entire tax received in the Treasurer's Trust Account.
4. When the rate problem is resolved and the over assessment is known, the Treasurer will refund the excess assessment and the correct amount of tax will be entered into general distribution.
5. No provision will be made for any payment of interest of affected taxpayers.

The Board adjourned to meet the following day at 10:00 a.m.

Hamilton, Montana, January 30, 1986

The Board met pursuant to adjournment on the above date at 10:00 a.m., with all members present. The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 10:00 a.m.

TOTAL MISCELLANEOUS FUND $1,568.64

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners asked Jay if the new screens for the crusher should be charged to his capital expenditures and Jay said they should. Commissioner Davis said he had received a complaint about the condition of the 8-Mile road and Jay said they will do their best to get some gravel on it and will leave a pile of gravel up there for the people to use.

The Commissioners showed Jay the Secondary Route Inspection Report they had received and Jay said that this is routine for every two years.

Commissioner Davis asked Jay if he had heard there would be another workshop on the Garcia decision and Jay said it will be put down or ratified in April and they will have until August to work it out. Jay said it would help to set up the work week starting on Tuesday night at midnight so that he could regulate the overtime better. Bob Brown, County Attorney, came in and Jay explained this request to him.

The Commissioners gave Jay the book on Public Road Law put out by Jean Wilcox to study. Jay said he would bring a book on the Garcia decision by for the Commissioners to study.

Commissioner Davis moved that we reject the Resolution of Intent #374 proposing to combine the offices of County Treasurer and County Assessor. Commissioner Williams seconded said motion. Chairman Tossberg asked for further discussion. There was none. Commissioner Davis voted "Aye"; Commissioner Williams voted "Aye", and Chairman Tossberg voted "Aye". Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Retrace. - W½ 18 NW 19 T2N, R20W, E½ 24, T2N, R21W - Dee Shook

Application for Cancellation of Taxes #721 was approved in the amount of $161.73.

Fred Thomas, Bill Farrell, Bob Thoft, Bernie Swift, Elmer Severson, Bob Brown and the

Commissioners met to discuss the District Court problems and the possible loss of Revenue Sharing and

PILT funds.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

The Commissioners attended a noon luncheon for 24 members of the Hamilton Kiwanis Club. The Kiwanis visited the present county jail and received information on the necessity for the construction of a new and larger incarceration facility.

Steve Wilson, CPA for Dobbins, DeQuire and Tucker; and Don Anderson and Dennis Crum from Western Equities met with the Commissioners on their beaver project.

The Commissioners attended a Jail Advisory Committee meeting in the downstairs conference room during the afternoon.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Shirley Abel from Head Start visited with the Commissioners about the Head Start program.

Eddie Buresh from Johnson Controls met with the Commissioners.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SE¼ 33-8-21 - Greg Danelz

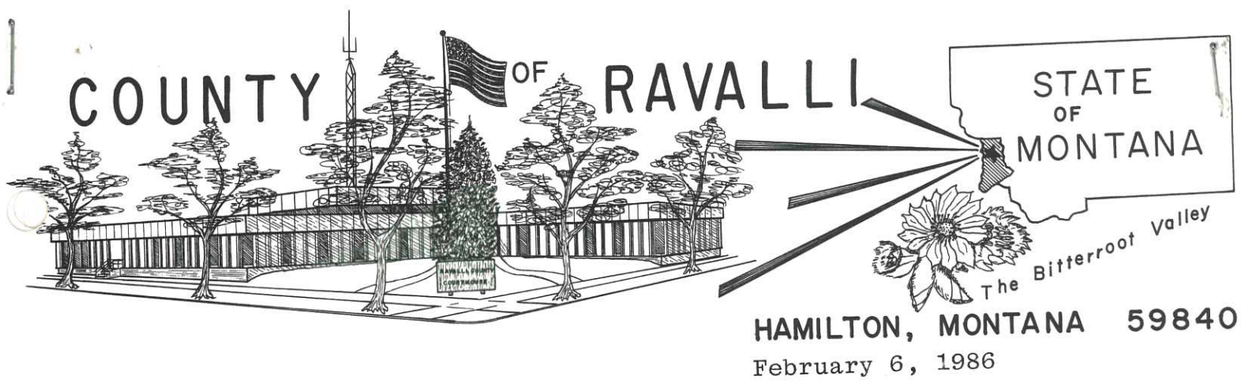
Occ. Sale - SE¼ 7-7-20 - Ron Lane

Over 20 acres, Occas. Sale - SE¼ 10-8-20 - Borks

Reloc. - SW¼ 13-9-20 - Dan Moe

Occ. Sale - 6-8-20 - Sitton & Peterson

Commissioner Williams moved that in accordance with MCA 15-16-701, the attached list of unpaid personal property taxes for the year 1976 be ordered cancelled. Commissioner Davis seconded said motion. Motion carried.



HAMILTON, MONTANA 59840

February 6, 1986

Board of Commissioners
Ravalli County
Hamilton, Montana 59840

Gentlemen:

Attached find a list of unpaid personal property taxes for the year 1976 which are not a lien on real estate. These taxes have now been delinquent for ten years.

These taxes are hereby submitted for cancellation per MCA 15-16-701.

Sincerely,

Ruth G. Cleveland

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, February 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Davis asked Jay when the County took Carlton Drive into the maintenance system. Jay said this happened about 1971 and is a good example of why not to put 2-shot penetration on a low-use road. Commissioner Davis said that this road needs some grading and Jay explained the background for this road. Commissioner Davis asked Jay to figure out how much it would cost to bring Pistol Lane up to County standards as Ray Hunter has requested this information.

Jay said that Montana Power has changed the lights in Corvallis. The Commissioners explained that they gave the Montana Power guy permission to move the power line to the other side down by the Stevensville bridge. Commissioner Williams asked if Jay will be putting boulders in to stop the wash down there and after some discussion, Jay said he would be watching it and won't let the road be taken out.

The Commissioners showed Jay the letter they had received from Mrs. Dyszynski requesting that the bridge that will be taken out on the West Fork/East Fork river be used up by her place. The Commissioners said they would write her explaining that the bridge will need to be cut in three places and has been designated to replace some of the bridges across the big ditch that the county is committed to care for.

Sue Thelen, Katie Gerhard, Charlyn Wilson, Jeniece Howerton, Debra Blair, Henrietta Brandon, and Charlotte Hennessey, Policy Council Members for Head Start; and Shirley Abel, Director of Head Start; met with the Commissioners to present their proposed budget cuts as required by the Federal Government. Sue Thelen, the representative from the Stevensville Center, explained that it was the Policy Council's function to make major changes in the budget and that the budget had been cut 1.4% and they discussed this cut among the members of the council and voted that this cut should be made from the director's salary and fringe benefits in an amount of $1643.00, and in the handicapped fund in the amount of $113. They feel this is the beginning of a series of cuts and are trying to maintain the staff's salaries and anything that might affect the children. They said that they are forced to cut a budget that is already tight, and can not afford to jeopardize the program. They would like the Commissioners to approve their budget cuts--this would result in Shirley taking the month of July off. For further comments and discussion on this meeting, see the Head Start file in the office of the County Commissioners.

Commissioner Davis moved that we adopt Resolution No. 379 providing for a bond issue for the county for a 2.5 million dollar law enforcement facility. Commissioner Williams seconded said motion. Motion carried with a roll call vote as follows: Commissioner Davis "Aye"; Commissioner Williams "Aye"; and Chairman Tossberg "Aye".

Layton Jones and Johnnie Mae Leonard interviewed Commissioner Williams on the senior citizen housing problem.

Following review with Don Mullin, Planning Office, the following Amended Plat was presented for filing:

Lot 66B - Bonanza Lands - Marvin Mendenhall

Commissioner Davis moved and Commissioner Williams seconded that we accept the above described amended plat for filing. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Mike McKee & Collette Maxwell of First Federal Savings & Loan came in to discuss with the Commissioners and the County Treasurer the current status of the county investment program. At this time first mortgage loans are held as collateral for county funds. The mortgage loans are held by the Federal Home Loan Bank of Seattle.

The County Commissioners wrote a letter to Debra Blair, Chairperson of the Headstart Policy Council, with their decision on budget cuts.

Dan Kemmis came in to discuss Western Equities and the proposed beaver farm.

Because of the Lincoln Birthday holiday, the Board adjourned to meet the following Thursday at 8:00 a.m.

Hamilton, Montana, February 13, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Gift to Family Member - SW 30-8-20 - George Roberts

Reloc./Occ. Sale - SE 11-10-19 - Hamilton/Phillips

Mtg. Rel. - NW 29-10-19 - Wm. Campbell

Occ. Sale - SE 16-5-20 - Jack Stover

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg was out of the office for the day.

The Commissioners and Reba Falk, Administrative Assistant, prepared Public Entity Application for Survey Form for Ravalli County, Montana, to take to the MACO Convention at Fairmont Hotsprings.

Obert Tulberg was in to inquire about the plowing of Marion Park Way.

Because of the MACO convention at Fairmont Hot Springs the following week, the Board adjourned to meet the following Friday at 8:00 a.m.

Hamilton, Montana, February 17, 1986

County holiday, courthouse closed for Presidents' Day.

Hamilton, Montana, February 18, 1986

Chairman Tossberg was out of the office for the day.

Commissioner Williams attended the MACO Convention at Fairmont Hotsprings.

Commissioner Davis was on hand to attend to office management in the morning and then left to attend the MACO Convention at Fairmont Hotsprings.

Hamilton, Montana, February 19, 1986

Chairman Tossberg was out of the office for the day.

Commissioners Williams and Davis attended the MACO Convention at Fairmont Hotsprings.

Florence Pagenkopf presented a Petition for Annexing lands into the West Fork Fire District.

Hamilton, Montana, February 20, 1986

Chairman Tossberg was out of the office for the day.

Commissioners Williams and Davis attended the MACO Convention at Fairmont Hotsprings.

Hamilton, Montana, February 21, 1986

The Board met pursuant to adjournment on February 14, 1986 at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg was out of the office for the day.

Commissioner Davis was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Ag. Parcel - SW¼ 18-6-20 - Ron Simkins

Joan Johnson was in to visit with Commissioner Williams on the ambulance situation.

Denis Applebury was in to say that on Clarence Wines'property, it is within the Eagle Watch Subdivision and Cash-in-Lieu of parks was paid on that whole subdivision back around 1973, so it should not be required from Mr. Wines. Commissioner Williams said that he would check this out and get back with Denis.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, February 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Williams explained about a phone call he had received from Chris Gerber regarding the Grantsdale Road. Jay said they have a lot of worse problems than that--they have 56 or 57 washes they are working on and conditions are real bad everywhere because of the fast run-off of all of the snow.

There was some discussion on the Corvallis problem--Jay said that all of the consultants are baffled with the problem and he had checked with all of them on both the State and National level before proceeding with the engineering of the street, and they made no changes. He said that he is embarrassed at the frost heaves in the street as they took out at least four feet the length and width of the street and filled it with gravel and the experts are baffled at this problem too--evidently they should have put in more fill as they are still getting frost heaves. He said that they did test holes on this last summer. He explained that several people have put in culverts without permits that are adding to the water buildup and he would probably be knocking on doors next summer telling them that their culverts are illegal, and then pulling them out and getting the ditch opened up again. He said that this is an old creek bottom and this creates different problems and the flatness of the area

the river, but this would cost around $200,000.

Commissioner Williams explained a call he had received from Mrs. Geering up the East Fork and said that their official contact up there is Bob Metcalf and they can rely on him to call them if there is a real problem. Commissioner Williams explained that there will be a group visiting to protest the 4-day, 10 hour per day week that the road crew works, so Jay should get some data together on this.

Commissioner Williams explained that at the MACO meeting he discovered that some of the counties have capped the longevity at 10 years and this would be a good thing for them to look into for the road crew. Jay said he would also like to see the work week begin on midnight Tuesdays.

Commissioner Williams explained that Rose Goss had asked if the road crew could do some work on the Darby streets and the Town of Darby would reimburse them. Jay said that he had been asked this and was not sure his crew could spare the time away from their regular work, but that he would make a decision on this soon.

Recent increases in temperatures and unusual amounts of rain has occasioned an unusually heavy and rapid spring run-off. The Road Dept. is swamped with requests and complaints for immediate service to badly deteriorated roads.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Dale R. Pugh, Great Falls; and Bob Ehleris, Denver; from Dain Bosworth Inter-Regional Financial Group, met with Commissioner Davis in regard to their interest in submitting a proposal to Ravalli County to be their financial consultants for the jail project. They take care of the sale of the bonds. In a lot of cases, they start their work before the election, and they work for a fee and if the bond issue does not pass, they do not get paid. Commissioner Davis said that the men should make an appointment for the middle of March and come back when all three Commissioners were in.

Commissioner Williams went to Missoula for an RC&D meeting in the afternoon.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioners Williams and Davis were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Amended Plat was filed:

Minor Subdivision - Dutch Hill Ridge - Walt Stewart, Tom Stewart, and Daryl Osborn

Commissioner Davis moved that we approve the minor subdivision of Dutch Hill Ridge for filing. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, February 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioner Davis moved that we adopt Resolution No. 380 providing for the spending of unbudgeted MCH Block Grant Funds in the amount of $3,896.00. Motion carried.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes
Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg
F. B. TOSSBERG, Chairman

APPROVED: Marion H. Davis
MARION H. DAVIS, Member

APPROVED: F. T. Williams
F. T. WILLIAMS, Member

Hamilton, Montana, March 3, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of January, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $9,300,601.21.

drawn in payment of same:

Commissioner Williams attended a Jail Convention in Billings, Montana.

Chairman Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis said he had received a call about the Tin Cup Road and Jay said his crew would be getting to that road tomorrow. He said he had also received a call from Ray Hunter on Pistol Lane. There was some discussion on a letter from John Robinson in regards to a bridge in Pinesdale. Bob Brown, County Attorney, who was present for the meeting, said that the Town of Pinesdale would have to build up the approaches before the County would do anything. Bob said that the City is responsible to fix it to a point that the road department should only have to lay the culvert. Jay said that he is concerned about his upcoming budget as he has to have three new trucks and will not have much money for these extra projects.

Jim Watts brought in a proposal for a new Civic Center.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Bill Stewart, Airport Manager, was in to discuss the airport accounts. Commissioner Davis said that the Commissioners would like to see a record of the accounts so that they would be aware of what has been paid, etc.

Bill said his biggest concern is the transit tie-down fee. He would like to see it changed or completely deleted.

Commissioner Williams attended a Jail Convention in Billings, Montana.

Chairman Tossberg was out of the office for the day.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioner Williams attended a Jail Conference in Billings, Montana.

Commissioner Davis was on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioner Williams attended a Jail Convention in Billings, Montana.

Commissioner Davis attended a League of Women Voters meeting at 1:15 p.m. in the Extension Conference Room with twenty (20) members of the League present. The League visited the present county jail and received information on the necessity for the construction of a new and larger incarceration facility.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioner Williams was out of the office for the day.

Commissioner Davis talked with Ray Lyons who was in to talk about a flooding problem he has on Illinois Bench, between Three-Mile and Ambrose, where he gets flooded because the culverts are too small.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, March 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the conditions of the roads and what the road department is doing to correct the problems. Commissioner Davis said that Rose Goss had called again on the Darby street problem and wanted to know how much it is going to cost for the oiling the road department does up there. Jay said that there is so much road damage this year that he would rather not commit his crews to any more work until they get their regular roads taken care of. Commissioner Davis also explained Ray Lyon's complaint on Illinois Bench about the culvert being too small.

Commissioner Williams said he had talked with Marshall Holmberg on the water problems down in Corvallis and Marshall was aware that the culverts that have been put in illegally have been a major contributor to the problems. He said that they seem to be worked out now and the street is better.

Jay said that on the estimate for Pistol Lane, for the most part, they have sufficient right of way--in some places the road is two or three feet narrower than county specs. He said that they would need 400 yards of pit run and 1800 yards of grading gravel to bring this up to specs, and then would need to satisfy the width requirements. He feels the cost would be around $12,000.

Commissioner Williams explained that he had received a call from Larry Blackburn on the Tin Cup Road. Jay said they have fixed the washes and will be grading it as soon as they can. Jay explained that his crew is trying to stay off the soft roads with the heavy trucks full of gravel as they do more damage hauling on them than they do good. He also explained that the grading is not working in some areas as they are rubbery and muddy with boils and when you grade, you just get more mud.

Commissioner Williams moved and Commissioner Davis seconded that we appoint Precinct Registrars for both the Republican and Democrat parties as set forth in the list presented to the Commissioners by Betty T. Lund, Election Administrator. Said list is on file in the office of the Election Administrator.

It was moved by Commissioner Williams and seconded by Commissioner Davis that we sign an agreement with the Board of Trustees of the Florence Community Library. Motion passed. Copy of said Agreement is on file in Permanent File #7078.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were

Family Transfers, Occasional Sale & Remainder - NW¼NW¼
Section 17, T5N, R20W, PMM - Joel Olinghouse
Retracement - NE 27-9-20 - Irene Henderson
Retracement - NE 17-5-20 - C.W. Thomas
Retracement - SW 30-8-20 - M. Marie Morton
Occ. Sale - SE 3-10-20 - Kay Blotzke
Reloc. & Family Transfer - SW 32-7-20 - Tom Menager

The following minor subdivision and amended plat were presented to the Commissioners by Don Mullin, Planning Office, and approved by the following motions:

Commissioner Williams moved and Commissioner Davis seconded that we approve the minor subdivision of Ideal Acres for Charles Johnson for filing. Motion carried.

Commissioner Davis moved and Commissioner Williams seconded that we approve the amended plat of Lots 11 & 12, Weber Estates for Marc & Mary Bielenburg, a relocation, for filing. Motion carried.

The Commissioners retained the County Surveyor to survey the proposed site at the Fairgrounds for the new jail and also a site survey at a price of $1,827.00.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Dean Stensland from AT&T was in to discuss the phone systems that would work for the Ravalli County Courthouse with the Commissioners.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 12, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Erin Houtchens was in to discuss the Lone Rock Park and Arena that they are working on. She wants to know the extent of their liability for insurance. A lot of the park use is from volunteers who receive no pay and work in the arena for 4-H purposes, etc. Erin is not particularly concerned about the professional people who come into their park and have an entry fee for a performance of some type, as they carry their own liability--the main concern is the person who goes in and uses the facilities without any coverage. She wonders if they would be better off locking the arena. Commissioner Tossberg said he thinks the County covers this as long as there is no profit being made--he said the Commissioners would talk this over with Bob Brown, County Attorney, and the insurance agent and get back with Erin.

Rae Moudy was in to explain a culvert problem she is having on Maki Lane that results in her property becoming flooded during the summer and winter.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 13, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners attended a Stevensville Civic Club meeting at noon in the downstairs conferenc room with 18 members of the club present. The group visited the present county jail and received information on the necessity for the construction of a new and larger incarceration facility.

Members of NARFE made a tour of the County Jail with Commissioner Williams.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Carol Graham was in to discuss the Human Services situation with the Commissioners.

Dean Stensland was in to discuss the Merlin system with the Commissioners.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Bdry. Reloc. - NE¼ 6-6-20 - Ron Conklin

Family Conv. & Occ. Sale - NE¼ 20-9-19 - Charles Barnett

Occ. Sale - SE¼ 21-10-20 - Don Mullin

The Commissioners made a road tour of the South end of the valley.

Dirk C. Visser was in to discuss a health self-insurance plan for Ravalli County with the Commissioners.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, March 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. There was some discussion on the culvert down by the Victor Crossing road and the Commissioners asked Jay to talk with the Highway men to see if something can be done to correct this situation as the culvert seems to be plugged that drains east and west.

Commissioner Tossberg explained that the stop sign on the Hamilton Heights/Eastside Highway road is on the ground.

The Commissioners explained that Bob Krout was in and gave them a place in Missoula where you ca get road signs for $9.60 apiece. Jay said he would check into this. Bob was also wondering why the

Commissioners explained that the County does not have the money to contract for work over and above what they have agreed to pay the road crew.

Jay said that he will have to have three new 6-wheel diesel dump trucks this year as his are so worn out. There was some discussion on what they will be used for.

Commissioner Davis explained that the Granite Creek people are real happy with the work that the road crew did for them.

The Commissioners explained that Bob Brown has written a letter to John Robinson on the Pinesdale matter and will be bringing a copy of that letter to the Commissioners so that Jay can see it.

Bob Brown asked Jay if anything had happened on the Woodhouse matter and Jay said it has not been done--the fences have not been moved. Bob said that he thinks this will come up in court soon.

Commissioner Williams asked Jay if the road department will be able to supply some asphalt mix for the Darby people to use to do their own repairs and Jay said that he can supply this as he always has in the past.

Jay said that he will be calling for bids on asphalt real soon. He is concerned about the conditions of the roads but they are still too rubbery to work on.

Nick Kramis was in to discuss the jail issue. He said that he thinks it would be worthwhile to build on the ground where the present courthouse is and that a two-story building should be considered. Commissioner Williams and Chairman Tossberg explained that this was the first option that was considered in the jail-building process and that the estimates were $100,000 above what it would cost to build somewhere else, and for that they could afford to buy parking property.

Penny Hitchcock was in to discuss the proposed vicous dog ordinance with the Commissioners. She said that she agrees with the need for the law, but is concerned about some of the wording in the proposal. She went through the proposed ordinance and explained her concerns. Chairman Tossberg said that he agreed that she had some legitimate concerns, but that the Commissioners were not involved in the preparing of this document--it was prepared by Lance Foster, Bob Brown, and Dale Dye. He said he would discuss this with Bob Brown.

Penny expressed a concern she has for the way the Humane Shelter is being managed. She said that there has been some conflict among the board members and feels that the shelter is being run with a "bleeding heart" attitude instead of a practical, business-like attitude. She said that she feels she may resign from the board and just wanted the Commissioners to be aware of what is happening. Chairman Tossberg explained that the County has contributed to this shelter, but has no say in the operation of said shelter--their only choice would be to not contribute anymore if they saw that the shelter was unable to serve the needs of the county. He urged Penny to hang-in and see if she could wait out the conflict and continue to help in the operation of the shelter. Penny said that she feels the conflict between board members has been beneficial in the past and has resulted in a balancing of ideas.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Ivan Howard and Al Sampson from River Park Commercial Village down by Stevensville were in about their road. When they built their subdivision in the 1970s they dedicated the land by the river for a park for the County and paid Jay to put asphalt on their road. They said that Jay now says this is not a county road and the county does not maintain it. They had assumed when they paid for the asphalt that Jay would then maintain the road. Chairman Tossberg said the Commissioners would talk with Jay on this.

Vickie Behling was in to complain about the condition of Tin Cup Road.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution #381 to establish a 35 mph speed zone on Baldwin Road between Pine Hollow Road and Middle Burnt Fork Road. Motion carried.

The Commissioners signed an order for equipment in the amount of $9,676.10 with AT&T Information Systems for telephone equipment.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 19, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Mtg. Rel. - NW¼ 34-10-17 - Robinson

Mtg. Rel. - NW¼ 8-5-20 - Alan Ponton

Reloc. - SW¼ 1-6-20 - Ronald Ahlgren

Ag. Parcel & Reloc. - NE¼ 19-9-20 - Wm. Worf, Unsuitable Access #12 HB #791

Correction - NW¼ 17-4-21 - Charles Gravely

Since Mr. Gravely did not institute this correction survey, and since Larry Higginbotham is

delinquent taxes, and made the following motion to so state:

Commissioner Williams moved and Commissioner Davis seconded that we approve the Correction Plat for Charles Gravely in spite of delinquent taxes at the request of the surveyor to protect the surveyor's professional ethics, as the request was made by the surveyor and not Mr. Gravely. Motion carried.

The Commissioners attended a Jail Advisory Committee meeting at 3:00 p.m. in the Extension Conference Room.

The Board adjourned to meet the following Friday at 8:00 a.m. because of the MACO meeting in Polson tomorrow.

Hamilton, Montana, March 20, 1986

All three Commissioners attended a MACO meeting in Polson, Montana.

Hamilton, Montana, March 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Loretta Martin visited with the Commissioners in connection with access to the lots in her subdivision. Bob Brown, County Attorney, and Don Mullin, Planning Office, sat in on said meeting. She said that they are using the road that runs through the county park next to her subdivision for access right now, and wondered if they could just use that. Chairman Tossberg said that the County will not grant an easement through a county park as this would establish a practice that they do not want in the county. Loretta said that she could grant a 30 foot easement on the side of the lot to get to the other lot, and the Commissioners agreed that this would satisfy her requirement. Loretta asked if she has to build the road. Commissioner Tossberg said it would have to be built when the lot was sold. Loretta asked about the cash-in-lieu figure and Chairman Tossberg said they would need to think this over. This is on Block 2, Corvallis Tracts.

Ron Fisher, Undersheriff, served Summons and Complaints on the Commissioners in case DV86-115, David Larry Pease vs. County Commissioners.

Jim Carpita was in to request an extension on Heaps Addition and the Commissioners granted said extension by the following motion: Commissioner Davis moved and Commissioner Williams seconded that we grant a one-year extension to Lynn & Judith Heaps on the Heaps Addition subdivision. Motion carried.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, March 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Tossberg explained that the Commissioners drove the bench roads on Friday and if nothing else, he would like to have Jay put a grader through those roads. They looked at North Illinois Bench, Pine Hollow, and Bugli Lane and Pine Hollow was the worst. Jay said that the roads are still rubbery and when you take the crust off, the vehicles will sink. Chairman Tossberg said that he would still ask the road department to do this and will tell Mrs. Bugli that they are doing this against the professional advise of the road department. The Commissioners said they had also driven Granite Creek and were surprised at how deep the washes were. Jay said that they still had more work to do in there. Jay said that they are real pleased with the Anderson pit and the quality of rock that they are getting out of it is the best he has ever had.

Commissioner Williams asked Jay if they hold regular regimented safety meetings and Jay said the don't. Commissioner Davis said that it looks like they may have to start doing this. He asked if Jay was aware that there is a computer specialist available to them for the road department and Jay said that they will be taking advantage of this down at the road department.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners wrote a letter to Loretta Martin on her minor subdivision in Lot 25, Block 2, Corvallis Tracts, setting the cash-in-lieu of parks figure at $3,769.50.

The Commissioners held the public hearing on the annexation of lands in the West Fork Rural Fire District at 2:00 p.m. as had been advertised in the Ravalli Republic. Chairman Tossberg first made introductions of the board and then explained the purpose of the meeting. The following people were in attendance: Lucille and Edward Braach, Dean H. Lagerstrom, Tom Biner, Ross and Maxine Smith, Thelma and Rusty Lossing, Charlene C. House, and Richmond H. Grant. Chairman Tossberg explained that the Commissioners had received a letter from the West Fork Rural Fire District Board of Trustees stating their approval of the proposed annexation. He then read the notice that had been published in the paper on March 4 and 11, 1986. Comments from proponents were as follows:

Richmond Grant spoke in favor of said annexation and said that Darby can not come to their fires and this has been scary--they need a way to protect lifetime investments.

Edward Braach spoke in favor of the annexation and then said he has some concerns about the costs involved, also what kind of a truck will be needed, where will the truck be stored, will there be a heated garage, will there be a mill levy? He said he had had some experience in Sheridan with a rural fire department and knew this had to be resolved. Chairman Tossberg explained that those questions

really do not have these responsibilities--they do approve the budgets of the rural fire districts and collect taxes and distribute them, but in terms of what equipment they have, the Commissioners do not get involved. Chairman Tossberg explained that the people should realize that this district is quite new--they have no equipment, except some willing souls to do the work. This is a process that will take some time. The other districts have evidenced a willingness to cooperate, and there is a good spirit of cooperation, so the district is fortunate.

Tom Biner explained that the existing district is volunteer--they have no equipment, just some eager volunteers. They have had a site donated and have cleared it off and the Job Corps plans to build the building for them--they are getting equipment and materials on a donation basis, and do have some funds, but possibly not enough.

They have a good plan for rural electrics to insulate the fire building and save money on electricity. The volunteers will be on a call basis, and some have taken training from the Corvallis Fire Department. The site is at the West Fork Lodge.

Ross Smith asked who will buy the equipment--will it be purchased by West Fork, or by federal or county funds? Chairman Tossberg explained that the county has very little in the way of outside funds. The Commissioners have received a request for $15,000 that they probably will not comply with, but they will help in other ways--it will be tough to get this going. A mill in that area as it now exists is worth around $100, so that will not go too far. Chairman Tossberg said he did not know how much this annexation will add to the value of the mill. Sometimes a truck can be obtained through the Surplus Property Bureau. Ross Smith commented on his concern about what insurance will be required. Chairman Tossberg said that they can obtain answers for some of these questions by talking with the other districts. He said that the original intent was to get a pumper truck for the district and then contract with the Darby Fire Dept. to come and assist them when needed. Commissioner Williams explained that the fire departments in the valley all seem to have nice equipment but they work together and build up their vehicles, so the new district should be patient as it all takes time and money.

Chairman Tossberg asked for comments from opponents and there were none.

Commissioner Williams moved that we approve the petitions to annex the lands as described in the petitions on file in Perm. File #7067, into the West Fork Rural Fire District. Commissioner Davis seconded said motion. Motion carried.

Chairman Tossberg asked those in attendance at said hearing if they would like a tour of the jail and it was agreed that 9 of those in attendance would be shown through said jail.

Commissioner Williams moved and Commissioner Davis seconded that we appoint Wayne Wilcox to a 2-year term as a Trustee on the Board for the West Fork Rural Fire District. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution #382 annexing lands into the West Fork Rural Fire District. Motion carried. See Permanent File #7067.

Fred Wright talked with the Commissioners in connection with a letter from the Army Corp. of Engineers.

Following review with Don Mullin, the following Amended Plat was filed:

Ideal Acres #5 - Charles & Lillian Johnson

Commissioner Davis moved that we accept the amended plat of Ideal Acres #5 for filing. Motion carried.

Chairman Tossberg left in the afternoon to attend a Board of Investments meeting in Helena, Montana.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a Board of Investments meeting in Helena, Montana.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Mtg. Rel. - W½ 15-7-21 - Tom Simpson

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, March 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we give conditional approval to the Shoshone Loop Subdivision for Ray Bean, subject to the conditions as set forth in the letter from the Planning Board. Motion carried.

Commissioner Williams moved and Commissioner Davis seconded that we give conditional approval to the amended Plat of Lot 25, Block 2, Corvallis Tract, for Homer and Loretta Martin, subject to the conditions as set forth in the letter from the Planning Board. Motion carried.

The Commissioners received a Petition with 35 signatures from people living up Bunk House Road requesting that the Road Dept. fix up their road.

Received a Petition to Vacate County Road in Charlos Heights Orchards No. 2 with 10 signatures, stating that the reason it should be vacated is that all property is owned by the United States Forest Service and the construction of the roads would be extremely difficult and certainly not practical, and that there is access to all parcels of private property right now through existing roads.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, March 31, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Harry Deeths, Jack Kelly and John Chamberlain met with the Commissioners to request improvement on Coal Pits Road. Harry Deeths presented a petition representing 85% of the land owners and 95% of the properties. Chairman Tossberg said he would not want the people in the area to hold out too much hope that they will get their road paved this summer. The road department is working on East-West roads, so this is to their advantage. However, Chairman Tossberg explained that the road damage was so bad this spring that the road department may have to spend their time and money patching the existing roads instea of oiling any more. Harry Deeths said their problem is bad subgrade, and springs that make the road mush and they would sure like to see the bad spots get fixed this year. Commissioner Williams said that the road department could do a count and if the traffic is up to 500 per day, this might make a difference. The men commented that they did not have that much traffic. Harry Deeths said that they have a problem with run-off water--it runs down the road as they do not have drainage on the sides of the roads.

Lawrence Haas was in to represent Jay Unrue, County Road Superintendent, for the weekly road update, as Jay was out of town for the day.

Marshall Holmberg, Harry Deeths, Jack Kelly, John Chamberlain, Dale Brady and Marshall McCloud met with the Commissioners to discuss some problems they are having in Corvallis. Marshall Holmberg spoke for the group and explained that Corvallis has been having problems for the last couple of years with teenage vandalism. He feels the Sheriff's office could be a real help to them if they ran a patrol through Corvallis, particularly between 10:00 p.m. and 2:00 a.m.--he said that since the Sheriff's office has had to cut down on their officers, the problem has increased and they have no constable of their own, so have to depend upon the County. The worst problems seem to come during Christmas break when the kids have time on their hands.

Another problem they are concerned with is the Main Street water problem. Marshall said he knows the County does not have the money to rebuild the street, but he would like some "band-aide" principles done to prevent this happening as bad another year.

Marshall explained that back in 1965 Vance Bay put a pipe through the culvert with caps at both ends so that when it froze up, they would have a way to drain the streets--this is a method that did work. He said that Dr. Horton's culverts might be a place where this could be tried. Marshall would like a section of the street tested beginning down by the Post Office to determine the stability of the soil, etc. Commissioner Williams explained that Jay feels it would cost around $200,000 to redo the street the way it needs to be done. He also explained that the State did approve the plan when the present street was redone.

Harry Deeths commented that cutting the road down in the center probably did increase the freezing as it was done on an old creek bottom and this brought the road down closer to the creek bed. Commissioner Williams commented that the raise in the middle of the street created flooding problems into the stores and this was the reason for removing it and Harry said he was aware of this and would not be for building up the center again. The flatness of the area is the real problem as they do not have a way to drain the water away. Marshall explained that the french drains that were put in in 1973 worked for three or four years, but the silt plugged them up so they are not working now. Harry said that getting rid of the water is a real serious problem because when you start diverting water to the river, you affect the existing wells and sewers and the State will not allow any tampering with the ground water levels. Marshall said that they probably need to check the elevations of the street--maybe they do have enough elevation to drain. Chairman Tossberg asked if a pumping station could be set up. Harry said that this spring they asked the fire department if they could pump up some water into their trucks and the fire department did not want to risk messing up their pumps. They would need a pump that would be set up with a screen so that they could pump up the water and haul it off. Marshall Holmberg said that Arlie Peterson has a drain ditch on his property that might be used for drainage. Commissioner Williams suggested that the water could be run onto the town park during the times the problems arise. Chairman Tossberg said that the Commissioners would look into the possibility of a pump and that Marshall should look into the possibility of a place to dump the water. Chairman Tossberg said it appears that this might be the best route to go and just remove the water when it becomes a problem as this would certainly be less expensive than redoing the street.

Steve Fullerton, KLYQ, came in for part of the Corvallis meeting.

The Commissioners appointed Chairman Tossberg and Larry Higginbotham, County Surveyor, as viewers on the Charlos Heights Orchards No. 2 petition to vacate roads.

Upon Motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. T. Williams, Member

Hamilton, Montana, April 1, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of February, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $8,933,549.01.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

The Commissioners were on hand to attend to office management and audit the monthly claims.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 2, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bill Stewart, Airport Manager, met with the Commissioners in connection with his management of the airport. Chairman Tossberg asked how the frost boils are and Bill said they look real good. He had just talked with Tom Hanson and was surprised that they do not go any deeper than they do--they are only down about 24 inches. He said that it seems like the heaves get worse every year, they now cover about one-half of the runway. Bill thinks the problem is more from ground moisture than from traffic. There was some discussion on what to do about the runway problem and Bill said he understands that if they do not borrow this year, it may be years down the road before money becomes available again. Chairman Tossberg explained that we are still paying on the 10% of the other loan, and would not want to make payments on still another loan. Chairman Tossberg asked how the part they just did looks and Bill said part of it is real good, but some of it had really bad humps this spring. Bill said he would like a couple of pickups full of blacktop material and Chairman Tossberg said that he would talk with Jay and Jay and Bill could get together and work this out. Bill said that the side roads to the hangars used to be in good shape, but the big trucks that hauled loads over them during this last project broke up the asphalt and it needs repair. Chairman Tossberg said that Jay has a new pothole patcher and may be able to help some with that. He said that it may be that the airport will have to reimburse the road departmen for this.

In connection with the tie-down fees, Bill said he has a problem with collecting for the short-term tie downs as this is a psychological annoyance. The three businesses out there would like to come up with a figure for the amount collected per year on these and then compensate the County for this amount and then forget the collections. He feels that a figure of $300 would be just about right, $100 per business. He would then still collect for monthly rates, six-month rates, etc. The Commissioners said that they had no problem with Bill doing this--to go ahead and try it until the end of the year and see how it goes.

Bill said that he is behind on collecting the fuel fees and will get on this and get it done this week.

Commissioner Williams asked if Bill still has top soil out there to get rid of and Bill said he does and gives it to anyone who will come and get it and haul it away. Commissioner Williams said he is real pleased with the park that has been set up out at the airport, but thinks it needs a couple of trees. Chairman Tossberg asked if there would be water available to water some trees and Bill said there would be.

Bill said that there will be a need for a tractor out at the airport soon as the one they have is in real bad shape. Commissioner Davis said he thinks he should go ahead and run it until it breaks dow and then they will replace it. Chairman Tossberg said to start looking for a good tractor so that it will be available when needed.

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton, the County Seat, on April 2, 1985, for the purpose of canvassing returns and declaring results of the Rural Fire Districts, Sewer Districts, and Irrigation District elections held in the County of Ravalli, on the 1st day of April, 1986. Present: F. B. Tossberg, F. T. Williams, Marion H. Davis, and Betty T. Lund. For official returns, see records in the Clerk and Recorder's Office.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 3, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Tim Miller was in to complain about Tin up Road.

Tim Townsend was in to talk with the Commissioners on a right of way for cable TV on the Old Darby Road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis went to Fort Benton to look at their jail facilities.

Commissioner Williams went to Darby to talk with 36 members of the Silvertops about the need for a new Ravalli County Jail.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, April 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unmuo, County Road Superintendent, met with the Commissioners for his weekly road update

Chairman Tossberg explained that Bill Stewart at the airport needs some help to repair the asphalt and asked Jay to get with him and work out what needs to be done. The Commissioners explained that they have received complaints on Tin Cup Road from Mrs. Behling and her father, Tim Miller. Commissioner Davis asked Jay if he would let him know when the requirements made by the CIGNA insurance company had been met. Chairman Tossberg confirmed that the Commissioners needed to know when this was completed so they could report to the insurance company.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution No. 383 appropriating unappropriated P.I.L.T. funds to the West Fork Rural Fire District in the amount of $1,000 to be used for communication and other equipment. Motion carried.

Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution No. 384 appropriating unappropriated P.I.L.T. funds to be used to purchase a vehicle for fire protection, in the amount of $8,000. Motion carried.

It was moved by Commissioner Williams and seconded by Commissioner Davis that the Chairman of the Board of County Commissioners be authorized to sign a lease between the County and the City of Hamilton relative to space for the City Police in the County Courthouse. The base was retroactive to July 1, 1985. All Commissioners voted "AYE". See Permanent File #6950.

Commissioner Williams moved and Commissioner Davis seconded that we grant an Extension of one year to Stock Addition for Mr. and Mrs. Stacy Auch. Motion carried.

The Commissioners signed a Rescission Agreement between Ravalli County and A. J. Pardew to rescind a Lease Agreement dated October 24, 1979, recorded in Book 153 Deeds, page 516, said Recission Agreement was given at the request of Mr. Pardew.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution No. 385 setting salaries for Fiscal Year 1986-87 for the elected officials of Ravalli County. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jerry Allen, Manager of the Weed Board, was in to discuss the spraying situation for the up-coming year and as a result of the discussion, the Commissioners wrote a letter to Jerry and to members of the Weed Board setting out the procedures they would like followed for this year's spraying in Ravalli County. See Commissioners' file for copy of said letter.

The Commissioners signed a Proclamation setting April 19, 1986 as Environment Day for Ravalli County, at which time the Scouts in Ravalli County will conduct a clean-up project along Highway 93. The ceremony was attended by several boy scouts and their den leaders.

Retired Lieutenant Colonel Ray Roberts presented a flag to the county and a flag raising ceremony was held.

Peggy Munoz and Shirley Kochis met with the Commissioners to say that the Friends of the Library have raised over $50,000 and would like to know if the County would be willing to give them the $50,000 they have pledged to match. They feel that in order to apply for the grant, they should have the money in their hands to show that they have this money behind their project. The grant application will be mailed on Friday. They will need a letter from the Commissioners saying that they will transfer the money. They have set up an account with the City and Larry Johnson, the Mayor and the Admin. Assistant are allowed to sign on the account. Right now the State Librarian is in Washington D.C. picking up the money alloted to Montana and Peggy feels that they have a good chance of receiving grant monies--from $92,000 to $96,000, since they are getting the Kellogg grant. The total price of the library addition will be $307,000 and they feel that it will probably be started in the spring of 1987. Chairman Tossberg asked that Larry Johnson write the Commissioners a letter stating that they have collected the $50,000, so that they will have it on file, and then sign a claim form for the county. Peggy asked the Commissioners for a letter stating that they will continue to support the library with a portion of a mill levy.

The Commissioners approved a Call for Bids for Jay Unrue, County Road Superintendent, for gas, diesel, and asphalt, said bids to be opened May 5, 1986, at 8:30 a.m.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

Bill Neuman was in to inquire about the building of a new jail. He is interested in the design and installation of the electronic jail systems.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a MACO meeting in Helena in connection with Revenue Enhancement.

Hamilton, Montana, April 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Retracement - NW¼ 28-9-20 - Schott

Jeff Langton, Attorney, was appointed as Acting Justice of the Peace in the absence of Nancy Sabo and Jim Haynes. Chairman Tossberg administered the oath of office to Jeff.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, April 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis asked if the County maintains Lower Woodchuck Road over to where the Schroeders live. Jay said that they do and Commissioner Davis said the road is washed clear out up there. He also said there is quite a wash-out on Florence-Carlton and One-Horse Rd. Jay said he would get on these and get them taken care of.

Commissioner Williams said that there was a wash-out on Red Crow Road on Friday where the dam broke and the road was washed badly.

Commissioner Davis said that Mrs. Pierson had complained about Granite Creek Rd. and he had explained that the road crew are not through with it. Jay said he would like to wait to finish this until the phone company gets their lines put in.

Chairman Tossberg explained that Nick Kauffman will be in tomorrow at 10:00 to talk with the Commissioners about Long Acres up by Salish and SharrotsLoop. Nick wants to make a deal in terms of improving the road as it goes along the West side of the development, and they would like Jay to attend. Commissioner Tossberg also explained that they have a problem with the Darby Refuse Area and would like Jay to take a look at it and give his opinion.

Jay said that he will be attending the Road Superintendent's convention in Bozeman April 23-25, 1986.

There was some discussion about underground tanks and Jay said that he is looking into this and complying with the designated regulations. He said that his men have nearly completed the Miller Hill Ditch bridge, at little expense to the County.

Ruth Spence and Mike Young of Health Incentives in Missoula, presented their program on ProHea

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Don Mullin, Planning Office; and Nick Kauffman, Sorenson & Co.; met with the Commissioners in connection with preliminary approval for Long Acres. Nick explained the subdivision and the irrigatio system that is being set up to sprinkle instead of flood irrigate. There was a discussion on how many animals could be allowed on each 5-acre tract of land. Chairman Tossberg and Commissioner Davis both said they feel it is easier to count animals then to determine if the property is being overgrazed. Chairman Tossberg said they would talk with Rob Johnson on this to get his opinion as he would like to set an animal limitation. It was felt that 4 adult animals and their seasonal offspring would be reasonable unless approval was received from the Architectural Control Committee for more.

There was some discussion on providing for no future splits. Nick said he would not like to see this put on the plat because it can never be changed. There was some discussion about providing for this in the covenants, and having it come up for review every five years. Don suggested that the area could be zoned since it is 120 acres. Chairman Tossberg expressed some concern about the landowner having the biggest interest and said maybe a provision could be made so that each landowner would have the same vote with the homeowner's association. Chairman Tossberg said he felt there would be water problems if they allow splits under five acres. The Commissioners said they would check into these problems and make decisions on them soon.

Steve Powell was in to discuss a Certificate of Survey with the Commissioners.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - NW¼ 2-6-20 - Bruce Chesebro
Occas. Sale - NW¼ 36-8-21 - Dennis Hagerty
Occas. Sale - NW¼ 23-6-21 - Wittrock

A meeting was held in the downstairs conference room at 7:30 p.m. to discuss the proposed Dog Ordinance. For more information, see the file on Dog Ordinance in the office of the County Commissio

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 16, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

years ago the Marshall Cable TV came onto their property and put in a cable and said the Commissioners gave them permission, but the Elharts were never reimbursed. Now they have another party that is saying they are going to put in an irrigation line and the Elharts want to know if they have the right. The Commissioners said that they did not give permission to Marshall Cable TV and could never give permission for anyone to go on private property.

Upon motion made by Commissioner Williams and seconded by Commissioner Davis, the Commissioners granted a one-year extension to Richard Martin for Mountain View Meadows. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Motion was made by Commissioner Davis, seconded by Commissioner Williams, that we give the Blodgett Creek Heights Subdivision an extension of one year for the Blodgett Creek Partnership. Motion carried.

Don McKenna met with the Commissioners in connection with his client, Edith Larson, who has loaned money to Mrs. Kolb, who is having problems with where to put her fence on the Martin subdivision. There was some discussion on the fence line. Commissioner Tossberg said that the Commissioners are not authorized to grant permission on a private piece of property but they have asked for a 30' easement, which is their standard procedure. He said that if Mrs. Kolb were to build the fence on the 20 foot line, Mrs. Martin could probably go to court and have the fence removed.

Commissioner Williams, as a member of the Voting Accessibility Advisory Committee, participated in the evaluation of eighteen Ravalli County polling places for Handicapped Accessibility.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a Mental Health meeting in Polson, Montana.

Mel Crowe was in from the Montana Power Company Real Estate Department to request a right of way easement at the Stevensville Crossing through the County Park.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, April 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis said that Robert Wolf had called and said that the rocks were interfering with his mowing because the road department graded the rocks up onto the side.

There was some discussion on all the garbage the Girl and Boy Scouts picked up along Highway 93. The Commissioners were pleased with the work that the children did.

The Commissioners explained a request from Mel Crowe for an easement in the County Park down by Stevensville. The Commissioners and Jay discussed the washing down by the Stevensville Crossing. Jay said there is quite a lot of work and expense involved in stopping the washing and he does not think the road will be destroyed for some time. He said that this would require riprapping around 350 feet at a cost of between $6,000 and $7,000. The Commissioners felt that the run-off this year should not be severe enough to cause damage so they probably won't have to do anything this year.

At 10:00 a.m. a Public Hearing was held on the Petition to Abandon Roads in Charlos Heights #2. Chairman Tossberg called the meeting to order and explained the procedure that has been followed up to this point. He then read the Viewer's Report written by W. L. Higginbotham and signed by Mr. Higginbotham and Chairman Tossberg. The Viewer's Report states a need for a cul-de-sac in the road. Chairman Tossberg asked for comments from the Proponents. Ken Andrews said he did not feel there would be any problem with the cul-de-sac but would want to wait until there was a need for it, whenever the County would bring the rest of the road up to standards. They feel that it will be some time before this takes place. Chairman Tossberg said that there seems to be a need for a turnaround right now. Ken said that right now there are no plans to gate the road, but if they did, they would provide a standard turnaround (about 24 feet) ahead of the gate, but they would not plan to make it as big as the required cul-de-sac (100 feet). Chairman Tossberg asked if they plan to kelly-hump the road and Ken said they do not--Frank Klements commented that they would probably leave the road as it is. Ken said that if they ever put a gate in, they would pick a place in the road that had a good turnaround spot and place the gate in a place where people could not go around the gate. Frank said that the cul-de-sac would require a USDA easement and it takes a lot of paper work to get one.

Commissioner Williams asked if the Forest Service would be willing to give a statement to the effect that they would give a USDA easement at whatever time the County would be in a position to require it for this road. Frank said he would not want to pinpoint the area for the cul-de-sac as it might be better to put it in 200 feet further up the road. Commissioner Davis said that they could just make a statement that whenever it becomes necessary, a cul-de-sac will be placed in a reasonable place on the road. Frank said he would want it to say "when and if" it becomes necessary, they will cooperate with

the County on this. Chairman Tossberg said they would want a statement that they would more than cooperate, that they would put it in. Frank said that they are limited to what they can commit to for the future. Commissioner Williams said it would still be good to have a written document of intent. Ken said that they try to stay away from obtaining USDA easements unless they are sure they will be needed--they are glad to do this if they feel there is a real need involved but don't want an easement sitting around that will never be used. Commissioner Williams asked if they would be putting up a sign warning large vehicles that there is no turnaround. Ken said that he feels they could not go far up this road without realizing that they were going to be in trouble if they kept going. He said that if the Forest Service ever logged this area, they would come in from above on the Camas Creek road. Right now you can drive through this road and come out on the Camas Creek road, but it is pretty primitive.

Chairman Tossberg said that in looking at Larry's last paragraph in the Viewer's Report, maybe what needs to be done is leave it as Larry has it and then the Forest Service can provide some sort of an agreement that they will do this if and when the County provides maintenance on this road.

There were no opponents to the petition at the meeting. (Ken Andrews and Frank Klements from th Forest Service were the only ones attending--both being proponents.)

Chairman Tossberg suggested that the Commissioners take this petition under advisement until they receive a letter from Frank in connection with the cul-de-sac problem. At that time they will probably be prepared to vacate the roads. Meeting adjourned..

The Commissioners granted a one-year extension to Peaceful Pines Subdivision for J. R. Iman.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 22, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occas. Sale - SWNW 22-6-21 - James Pease

3 Ag. Parcel - NW 35-6-21 - Milligan

Bdry. Reloc. - SW¼ 13-9-26 - Dan Moe

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Betty T. Lund, Election Administrator; and Darlene E. Hughes, Clerk and Recorder; met with the Commissioners for the appointment of the election judges. Said election judges were appointed by the Commissioners. For further information, see list on file in the office of the Election Administrator.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we appoint Gerry Pliley to fill the vacancy created by Roger H. Looysen on the Victor Rural Fire Department. Motion carried.

The Commissioners attended a Chamber of Commerce meeting at noon in the Council on Aging meeting room with 30 members of the club present. The group visited the present county jail and received information on the necessity for the construction of a new and larger incarceration facility.

Chairman Tossberg left for Helena to attend a MACO meeting.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Commissioner Tossberg attended a Board of Investments meeting in Helena, Montana.

Commissioners Williams and Davis were on hand to attend to office management.

Commissioner Williams attended a Council on Aging meeting.

Commissioner Davis attended a Headstart meeting.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, April 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Chairman Tossberg attended a budget estimation committee at the Governor's Conference Room in Helena, Montana.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Davis asked Jay for a progress report on the insurance report from CIGNA. Jay said he would get it to him.

There was some discussion on the grant for bridges for the one on the Big Ditch and the Wetzsteon bridge--Jay said that this keeps the road department from using their own crew and ends up

with the new rules in insurance, when someone in the road department gets a DUI or three citations, their job is automatically terminated because their job requires that they be able to drive a vehicle and they would be unable to carry out their job. Commissioner Davis said that the men should be notified of this policy and Jay said they are being notified today. Bob Brown, County Attorney, said that the union should be notified on this also.

There was some discussion on people who have their fences over on County right of way. The State has threatened to take care of the situations on the Secondary Road Right of Ways and then bill the County, and this could be very expensive, so Jay would like to go ahead with this and get it taken care of. He said that the State and Federal Governments are also after him to set the speed zones in accordance with their manual of Uniform Traffic Control. Several states, including Montana, are working at lifting the 55 mph speed zones as they feel the normal rate of traffic is about ten mph higher.

Chairman Williams said he had received a call from Mr. Buker down at Bell Crossing who said the west borrowpit is full of water.

Commissioner Davis moved and Commissioner Williams seconded that we give a one-year extension to Steve Nye for Lake Como Orchards No. 2, Lot 8-A, Blk. 7. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we sign an agreement between Ravalli County and the City of Hamilton, Montana, on the Hamilton City-County agreeing to continue support of said library. Motion carried. See Permanent File #7083.

Commissioner Williams moved and Commissioner Davis seconded that we approve Resolution #386 giving William G. Downing tax benefits because of the fire that destroyed his building on Main Street. Chairman Tossberg was also authorized to sign the Application for Tax Benefits for the Remodeling, Reconstruction or Expansion of Existing Building Structures. Motion carried.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Mtg. Rel. - NE 10-10-20 - Harris

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, April 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Toby Beazell, Nick Kauffman, and Don Mullin met with the Commissioners in connection with the Long Acres Subdivision. Nick said he had stopped to talk with Denis Applebury and has talked with Mr. Long on the Road situation. Chairman Tossberg explained that the Commissioners had been up and looked at the subdivision and the road situation and had talked with Mr. McKinley and a couple of the other people up there and they are not very enthusiastic about spending any money to fix up that road. Nick said that there will only be about 22 homes up that road, so the population will not be too dense. Chairman Tossberg explained that the County would probably do something on this road when it was necessary, but it was a matter of priorities and they would not be doing anything until the need was great enough to make it a priority in the County.

Chairman Tossberg read the proposed letter granting conditional approval for the subdivision. He said that he would like Nick to notify the Stevensville Post Office as to the road names in the subdivision. Nick said that in Missoula they put the Post Office information on the final plat. Chairman Tossberg said to discuss this possibility with the Post Office also, as this would be helpful.

On the cash-in-lieu of parks provision, Nick commented that he feels the figures are high, but will present this to the developer. Nick also said he would like to know exactly what is required on the road before the final plat is filed and Chairman Tossberg said that they will need to get together with Jay and negotiate as to what needs to be done--Jay may decide to build the road up some, or they may decide to just leave it as is.

Chairman Tossberg said he has some concern about water in that area. Nick said they had monitored around 30 holes while they were flood irrigating all around them and did not have a water problem in the building sites. Chairman Tossberg said it is mostly the wells he is concerned with. Nick said that they will use cable tools and do a well on the first lot sold before spending any money. He feels they may have to go 200 feet, but will get water. The water has a high iron content and will need to be filtered. Chairman Tossberg commented that Jim McKinley did lose his well and had to drill again and got water at 200 feet.

Don Mullin commented that Mrs. Keith had called because the 30 foot easement is on her side--Nick said this was a mix-up that his draftsman had made and they will take it off.

Chairman Tossberg gave Nick a copy of the Conditional Approval letter. Commissioner Davis moved and Commissioner Williams seconded that we grant conditional approval to Long Acres Subdivision, subject to the conditions as set forth in said letter. Motion carried.

Commissioner Williams moved and Commissioner Davis seconded that we appoint John Austin, Al Olson, and Kermit Lange for another term on the Ravalli County Park Board. Motion carried.

Mark Semmons and Craig Jones and D. A. Davidson met with the Commissioners with a proposal to sell bonds for the proposed jail building. They are a Montana firm and have eight offices in the state. They would work on the basis that if the bond issue does not pass, the County would not owe them anything.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder — APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member — APPROVED: F. T. Williams, Member

---

Hamilton, Montana, May 1, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of March, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $10,896,394.13.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Darlene Samson from the Rural Employment Opportunities, Inc., met with the Commissioners. They work with Missoula, Mineral and Ravalli Counties to help migrant workers find jobs. They offer schooling at the Vo-Tech and take advantage of any training services they can, i.e. telephone and cable TV training, floral design, or whatever is available. The worker can collect money while attending school and they provide clothes for them if they need them. The person has to be willing to relocate to find a job, but some of them end up with real good wages. Chairman Tossberg asked how people find the agency and Darlene said they work closely with the local Job Service and Human Resources and advertise in the Missoulian and Ravalli Republic. They also post posters around the county. Chairman Tossberg suggested that Darlene contact the local Granges for applicants for this program and gave her names to contact. Chairman Tossberg said he does not feel that Ravalli County has too many immigrant workers but we probably do have local people who only work seasonally. Darlene said they even get calls from local farmers who need help, so can sometimes place people who only want seasonal employment. They are now applying for a Displaced Homemakers Grant and would then work with a different kind of population. Darlene's goal is to get her staff to come down at least one time a month to the job service and work with them.

Commissioner Davis asked if the Federal cuts are affecting this program and Darlene said it will be cut some, but they have had some people quit, so will probably just not refill those positions. They have a staff of 22 in the State, with three in the Missoula office. The central office is in Helena. They also provide scholarship assistance for farm and ranch kids.

Peggy Kegge met with the Commissioners from AT&T on the proposed Merlin System for the courthouse.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 2, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Steve Yanish of Piper, Jaffray and Hopwood called to decline our invitation to interview for bon consultant to theCounty on the proposed jail bond issue.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW¼ 16-9-20 - Bruce Reissing

Reloc. - SW 18-9-19 - Virginia Anderson

Rights of Way Survey - SE 8-6-20 and SW 9-6-20 - L.M. Powell

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of May 1, 1986.

Farmers State Bank	1,070,000
Citizens State Bank	970,000
Ravalli County Bank	1,600,000
First Federal Savings & Loan	1,621,109
First State Bank	1,110,907
	$7,400,529

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, May 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Pursuant to Call for Bids for gasoline, unleaded gasoline, diesel and asphalt advertised in the Ravalli Republic on April 18, 25, and May 2, 1986, bids were opened in the office of the County Commissioners at 8:30 a.m. with the following people present: Darrell Smith, Cenex of Laurel, Montana; Kyle Panting, Stevensville Distributing; Jay Unrue, County Road Superintendent; Bob Brown, County Attorney; and Darlene E. Hughes, Clerk and Recorder. Darlene Hughes opened bids as follows:

1. Koch Asphalt Company ----------$ 213.60 a ton
2. Stevensville Distributing Co.
   - Item 1.---------- .626 per gallon, minimum loads 8,000 gallons
   - Item 2.---------- .626 per gallon, " "
   - Item 3.---------- .469 " " "
3. Davison's EXXON Service:
   - Item 1.---------- .62582
   - Item 2.---------- .62582
   - Item 3.---------- .46480, small lots +3¢
4. JGL Distributing
   - Item 1.---------- .6396 transport pmt in 10 days
   - Item 2.---------- .6396 " "
   - Item 3.---------- .4626, small lots +6¢
5. Cenex of Laurel, Montana
   - Item 4. RC-800, MC-800, SC-800---------- 133.50 per ton, quote for all of 1986 construction season
6. Montana Refining Company, Great Falls:
   - 25 ton loads---------- 150.94 per ton
   - 32.5 ton loads---------- 147.98 per ton
7. Idaho Asphalt Supply---------- 199.00 per ton

Commissioner Williams moved and Commissioner Davis seconded that we take these bids under advisement for a couple of days. Motion carried.

Jay turned in his Road Department budget for the 1986-87 fiscal year.

Jay Unrue, County Road Superintendent, then met with the Commissioners for his weekly road update. Commissioner Davis explained that on the conditional approval letter for Long Acres Subdivison the Commissioners requested that Nick Kaufman and the developer negotiate with Jay as to what should be done with the roads. Jay said that he would be willing to fix up the road if they are going to make the easement wider, but he would want to do it in his own time frame, with two or three years to complete it--it would then pay off for the road department in the long run. Commissioner Williams said that maybe they should provide for the fences to be moved right now so that Jay could go ahead on this as he gets time.

Jay explained that he had been up to the Darby Disposal and talked with Kenneth Greenup about his equipment problem. He wants tracks on his equipment instead of rubber tires because he wants to be able to drive over the junk and smash it down without worrying about tires. Jay said he would continue to look for some equipment that is priced right. Kenneth said he would be willing to have the county take $1,000 a month out of his salary to make payments on it.

The Commissioners approved an increase from the $1827 estimate to $2249 for the survey and topography study done by the County Surveyor of the land purchased in 1974 as additional parking space for the fair. (See revised estimate and letter in Ravalli County Fairgrounds files.)

The Board adjourned to meet the following day at 8:00 a.m.

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bill Stewart met with the Commissioners to discuss the Ravalli County Airport and his problems as manager. Bob Brown, County Attorney, sat in on said meeting.

Commissioner Williams moved and Commissioner Davis seconded that we accept the bid of Davison's Exxon for #1-gasoline, #2-unleaded gasoline, and #3-diesel, and that we accept the bid of Cenex of Laurel for #4-Asphalt. Motion carried. (See bid file in Commissioners' Office for explanation on diesel bid of Davison's Exxon being chosen over diesel bid of JGL because of the difference in small lot loads.)

Jay Greene, Victor Postmaster; Bruce Watters, Beaverhead County Postmaster; Marilyn Gayer, Hamilton Postmaster; and Don Ellis, Stevensville Postmaster; met with the Commissioners to say that they need the County to assume the job of numbering the roads in the county and giving out addresses. Marilyn said that if the County does not take on this job, it will not be done as they have decided that they will not do this anymore. They do not have the knowledge to continue with this job, and Marilyn feels she is messing up the system that Mr. McCurdy started. Chairman Tossberg said that this problem has been batted back and forth for three or four years now and the last time it came up, it seemed to be real expensive. Bruce said that a lot has been done on this and the Commissioners would pretty much be in the position of just maintaining the system. Don Ellis said that Stevensville and Florence are pretty much done. Bruce said that the County should be able to maintain a system like this on the computer with no problems. All of the Postmasters in attendance felt that they have taken a "bum rap" with this project as they are not equipped to do it and have been forced to and then have received a lot of criticism. They feel that it is the responsibility of the County. Commissioner Williams asked if the system would require revamping and Bruce said that he would advise the Commissioners to leave it as it is and work from this point. There may be some areas that will need to be changed but the postoffices are aware of them and are working with these people already. The Postmasters and Bruce said that they would work closely with the Commissioners to get this set up. Chairman Tossberg commented that he has seen nothing in the law books that would indicate that this is the responsibility of the County, but realizes that it might be under the rules about public safety.

Bruce explained that the County can hope to get a large sum from the telephone company as they pay $5.00 a connection towards doing this project. He urged them to take advantage of this as it should be around $20,000 to $25,000. This would require updating maps, establishing a control directory, and perhaps naming some undedicated roads and lanes. The Commissioners may have to pass a Resolution naming new roads. Chairman Tossberg asked if there are counties that have this on their computers. Bruce said that Gallatin County would probably be the best model.

Chairman Tossberg explained that the Reclassification office is the one with the best maps and that they have a numbering system for each house and wondered if this could be used to help with this project. Marilyn said they had a meeting with the County Planner a while back and he felt that this would easily tie into their computer system. Bruce said that this system can be as simple or as complex as the Commissioners choose. The book of maps that would be necessary would probably be around 114 pages. Marilyn said that the Commissioners have the right to choose not to go with the phone company if they think that the requirements the phone company makes are too hard. Don Ellis explained that right now the Florence system ties in with Hamilton and Corvallis--it is set up on a modified GRID system. The main problems seem to be in the Victor area where the old Postmaster went from the river instead of the highway; however, Bruce said that he would not recommend changing this. There are problems in the Darby and Sula area but the numbering system has been at least partially set up there.

As far as work load, Marilyn said that they get 5 or 6 people a week asking for this service and Stevensville gets 2 or 3 and so does Victor.

Bruce said that the phone company will require an alpha listing, a phone number listing and a listing by street or road. Chairman Tossberg said that in order to obtain an alpha listing, we would have to know who lives where. Bruce said that we would the first time, but after that, they are more concerned with the parcel of ground than about who lives on it.

Marilyn said that she has talked with Betty Lund and Betty would like to see the County take over this project as she does not like how the Postoffice is handling it and Marilyn said that she is not embarrassed to say that she knows it is not being handled right--they are set up for delivering mail, not giving out addresses.

It was agreed that the Commissioners would mull this over and give the Postmasters a decision on May 27, 1986. Chairman Tossberg asked when this project would be started and the Postmasters agreed that they would get on it immediately if the Commissioners decided to take it over, and Marilyn said she could have her part done in about a month.

Bruce said that he would want a copy of Jay's 3/4 inch map to work on if they start this project.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Ken Andrews and Frank Klements from the US Forest Service met with the Commissioners and gave

letter was requested by the Commissioners at the Public Hearing on April 21, 1986.

Chairman Tossberg said he would entertain a motion to abandon the road. Commissioner Williams moved that we abandon those roads requested to be abandoned in the Charlos Heights Orchards #2 area. Commissioner Davis seconded said motion. Motion was passed unanimously with all three Commissioners voting "Aye".

Ken Andrews said that they would like the County to take over the Nez Perce Road as a County road--the County is already maintaining it. The portion involved is the road that has private lands on the sides and goes to the bridge where the Forest Service lands begin. The Commissioners said they would consult with Jay on this. It is a mail and school bus route.

Bob Ehlers and Dale R. Pugh from Dain Bosworth met with the Commissioners to talk about financing the jail building project.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Max Blodgett and Fred Hoffman met with the Commissioners about the County's Blue Shield health insurance program.

Olive Robison and Fred Huskey met with the Commissioners in connection with Ravalli County's part in the Hands Across America effort to hold hands to highlight the issue of feeding the hungry people in America. They would like the Commissioners to sign a Proclamation endorsing their project. Olive said they are particularly interested in helping people in Ravalli County and have not signed up to join the national effort because they would have to send in money and they want to keep the money donated in this county. Chairman Tossberg said that the Commissioners are always interested in these efforts and would be glad to cooperate. He said that if they would type up their proposal, the Commissioners would sign it.

There was some discussion on what Haven House is now doing. They received a sizable grant and gave out 148 food boxes in March and 128 in April, but are not equipped to house anyone in their new location. They do pay for people to stay at Deffy's Motel sometimes.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we approve Resolution #387 providing for the abandonment of Charlos Heights Orchards #2 roads as requested in petition of U.S. Forest Service, upon which public hearing was held April 21, 1986. Motion carried unanimously. (Copies of Order on said matter were sent to adjoining land owners and Forest Service this day--See Perm. File #7084.)

Ferris Holmes and Herb Cleveland of Prudential Insurance met with the Commissioners to present a Health Insurance program for Ravalli County employees.

A temporary employment agreement was signed by the Commissioners with Mr. Christopher C. Behan. He will be working with Mr. Mullin in the Planning Office.

Commissioner Davis moved that we sign a letter of agreement with D. A. Davidson & Co. employing them as our financial consultant for the jail bond financing. Commissioner Williams seconded the motion. All Commissioners voted "Aye". For its services, D. A. Davidson will receive $7500, none of which will be owing unless the proposed bond issue is passed. (See Letter of Agreement in file.)

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, May 12, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis attended a Jail Training Session in Boulder, Colorado.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Williams showed Jay the new rates for health insurance and the claim sheets that caused the increases. Commissioner Williams explained that Warren Midgett has set up negotiations for the road dept. for June 10, 1986.

Commissioner Williams showed Jay the request from the Forest Service that the County take over 3.7 miles on the Nez Perce road. Jay said he would be more willing to do this if there is a trade-off. Commissioner Williams asked Jay to get together with the Forest Service and work out something on this.

Commissioner Williams explained a complaint the Commissioners received from Mr. Woodard on Willoughby Road. Jay said that it would cost around $35,000 to resurface this road as it is about a mile of road.

Commissioner Williams said that the Commissioners and Jay should set up a road tour when the other two Commissioners get back.

There was some discussion on Pinesdale and their sanitary problems.

The Board adjourned to meet the following day at 8:00 a.m.

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis attended a Jail training seminar in Boulder, Colorado.

Susan Vieth, Planning Office, presented the following Certificate of Survey for filing:

Retrace. - SW 13-5-21 - Joe Osterbauer

Commissioner Williams attended a Council on Aging meeting.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis attended a Jail Training Seminar in Boulder, Colorado.

Ruth Cleveland, County Treasurer, gave a Cash and Investment Report on the Investment Program for the County, with total interest earned as follows:

Treasurer's Investment Program Earned:	$679,683.93
Earned for General Fund:	204,233.74 (30%)

See the Commissioners' files for more information on this report.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis attended a Jail Seminar in Boulder, Colorado.

Commissioner Williams was on hand to attend to office management.

As a part of National Law Enforcement Week, approximately 50 Ravalli County employees visited the county jail. Commendation service awards were made to Sheriff Dye and former Hamilton Chief of Police James Sculley.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 16, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis attended a jail seminar in Boulder, Colorado.

Commissioner Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, May 19, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Ag. Parcel - NE 4-5-20 - Wilbur Long

Retrace. - SW 30-8-20 - Greenlee-Johnson/Gaudin

Retrace. - SW 30-8-20 - Jackson/Chamley/Gaudin

Occ. Sale - NW 24-8-21 - Margaret Wicart

Retracement - SE 26-1-21 - Nolard

Retracement - SW 1-6-20 - Bitterroot Valley Irrig. Dist.

Chairman Tossberg attended a budget estimation committee at the Governor's Conference Room in Helena, Montana.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 20, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the Forest Service's request that the road department take over the first 3+ miles of the Nez Perce Road. Jay said that he and Frank Klements would work out an agreement.

Commissioner Davis explained the complaint on Willoughby Road--he said he had driven the road and did not think it was too bad.

There was some discussion on the request for intersection lights on Highway 93 through Hamilton and Jay said he did not think the State planned to do this.

Jay said that the State is pushing toward the standardized speed zones and may force the County to do this and withhold funding if it is not done.

Commissioner Davis asked if there is any money available for bike paths as he had a request down by Florence on this. Jay said that he did not know of any.

Commissioner Williams asked when Jay will be doing the Dutch Hill bridge and Jay said that he is waiting until after high water.

Mrs. Donald Keffeler was in wondering if something could be done about her high taxes. The

Commissioners explained that most of her taxes were school taxes.

Chairman Tossberg attended a budget estimation committee at the Governor's Conference Room in Helena, Montana.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 22, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Reloc. & Ag. Parcel - Hanna & Bachner
W½ 23-6-21

The Commissioners signed a joint agreement between the Forest Service and the Sheriff's Office for campground surveillance in Ravalli County during the summer months.

Dick Babcock was in to discuss a possible subdivision.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Tossberg and Williams present.

Commissioner Davis attended a Mental Health meeting in Thompson Falls, Montana.

It was moved by Commissioner Williams and seconded by Chairman Tossberg that the tax assessment on Parcel No. 64700 be declared invalid in accordance with memo to the County Commissioners from the County Attorney dated May 13, 1986, and that Parcel No. 64700 be retired from the assessment roles. Motion passed. (Memo from Robert Brown, County Attorney, Permanent File No. 7086.)

Because of the Memorial Day holiday, the board adjourned to meet the following Tuesday at 8:00 a.m.

Hamilton, Montana, May 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Tossberg and Davis present.

Commissioner Williams attended a Council on Aging meeting in Polson, Montana.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay said they are having some high-water flooding problems on Sweathouse Road, Baker Creek and Rock Creek.

Commissioner Tossberg said the Commissioners would like to watch the pothole patcher work sometime when Jay has it set up.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Ag. Parcel - NE 22-5-20 - Edith Watley and Donna Eggers

Occ. Sale - SE¼ 14-5-21 - Jim Mildenberger

Mtg. Release - NE 27-7-21 - Robert & Anthony Van Marle

Reloc. - SW¼ 22-2-20 - Ellingham

Retracement - W½ 10-8-19 - Sam Strand

and the following Amended Plats were filed:

Ravalli Farms, Lot 11, Blk. 6 - Shelley Oertli

Commissioner Williams moved that we accept Ravalli Farms, Lot 11, Blk. 6, for Shelley Oertli for filing. Motion carried. (The Commissioners accepted $1700 as cash-in-lieu of parks for this subdivision.)

Relocation of Common Boundary, Amended Plat, Lots A & C, at AP #411 - Alan Neil

The Commissioners approved the authorization of three new lights in the Corvallis Lighting District, See PF #1171.

The Commissioners went to check out flooding conditions due to high-water at the Stevensville Crossing, Victor Crossing, and Woodside Crossing. Jay Unrue, County Road Superintendent, accompanied them on said trip.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners held an employee meeting in the Council on Aging meeting room at 8:30 a.m. to explain the Commissioners' decision to make improvements in the employee health insurance plan in

Tom Kerr was in to talk to the Commissioners about getting his Agriculture Exemption lifted.

The Commissioners approved the signing of the Maintenance Contract with the Local Government Services, Dept. of Commerce, in the amount of $1750 for the 1986-87 Fiscal Year.

Commissioner Williams moved and Commissioner Davis seconded that we grant a one-year extension to Odmark Company for Country Hills Major Subdivision. Motion carried.

Mary Ann Peterson of Prudential Insurance talked with the Commissioners about a proposal she has for health insurance for the county.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, May 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a Board of Investments meeting in Helena, Montana.

Commissioners Williams and Davis were on hand to attend to office management and audit the monthly claims.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. T. Williams, Member

Hamilton, Montana, June 2, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of April, 1986, were audited and found to be in balance with cash on hand in all funds in the sum $10,299,848.16.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on a couple of people who have asked for small portions of sand--Ed Buck and Donna Kolb.

Commissioner Williams explained that we have received calls on the washout conditions of two culverts--one on Sweathouse Road and one on Burnt Fork. Jay said that his department is aware of these conditions.

Commissioner Williams said that the Lions have closed Blodgett Park because of the wash conditions.

Pete Clarkson from the Sheriff's Department presented a problem with a gate in the French Basin area--up Shiney Mountain. Grace Boyer, who owns property up there and says the gate is impairing her access to her property, has asked that the gate be removed. Chairman Tossberg said that they would talk to Bob Brown, County Attorney, on this and get back with Mr. Clarkson on this.

Beginning at 9:00 a.m., Preliminary Budget Hearings were held with the following people in attendance:

Road and Bridge - Jay Unrue, County Road Supt.; Reba Falk, Carlotta Grandstaff, Ravalli Republic; and Judy Williams, LWV

District Court - Margaret Stelling, Clerk of Court; Judy Williams, LWV; Reba Falk, Carlotta Grandstaff, Ravalli Republic

Museum - Vic Vadheim, Erma Owings and Henry Grant, Board Members; Reba Falk and Carlotta Grandstaff, Judy Williams, LWV

Justice of Peace - Nancy Sabo, Jim Haynes, Justices of Peace; Judy Williams, LWV; and Carlotta Grandstaff and Reba Falk

Extension - Rob Johnson and Charlotte Hennessy, County Extension Agents; Bill Peterson, Supervisor from State; Judy Williams, LWV; Carlotta Grandstaff, Reba Falk and Jerry Allen

Weed Board - Jerry Allen, Manager; Judy Williams, LWV; Carlotta Grandstaff, and Reba Falk

Beginning at 1:00 p.m. - Treasurer - General, Accounting, and Vehicle licensing - Ruth Cleveland, Treasurer; Mary Kay Browning, Deputy; Reba Falk, Carlotta Grandstaff, Nancy Coe-LWV

County Attorney - Bob Brown, County Attorney; Nancy Coe-LWV; Reba Falk and Carlotta Grandstaff

Sanitarian, Planning and Junk Vehicle - Don Mullin, Sanitarian, Planning; Nancy Coe, LWV; Carlotta Grandstaff and Reba Falk

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 3, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that the doors be closed for a personnel matter in the Road Department, in which the right to personal privacy clearly exceeded the public right to know. Motion carried.

Beginning at 9:00 a.m., Preliminary Budget Hearings were held with the following people in attendance:

Sheriff - Sandra Strong, LWV; Ron Garlick; Carlotta Grandstaff, Ravalli Republic; Dale Dye, Sheriff; Jay Printz, Deputy; Betty Cook, Humane Shelter; and Ruth Brandborg, LWV; Reba Falk

County Supt. - Greg Danelz, Acting Supt. of Schools; Reba Falk; Carlotta Grandstaff, Ravalli Republic; Sandra Strong, LWV; and Ruth Brandborg, LWV

County Surveyor - Reba Falk, Administrative Assistant; Ruth Brandborg and Sandra Strong, LWV; Carlotta Grandstaff

Youth Court - Dick Vandiver, Court Operations Officer; Ruth Brandborg and Sandra Strong, LWV; Reba Falk, Carlotta Grandstaff and Dave Demmons, Probation Officer

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Ag. Parcel - NE¼ 35-4-21 - Simmons

Mtg. Rel. - SW¼ 9-7-20 - Zacha (Mike Kleese sat in on the filing of this plat.)

Beginning at 1:00 p.m., the following preliminary budget hearings were held:

County Nurse - General, Family Planning, Home Nursing, MCHS - Henrietta Brandon, Public Health Nurse; Johnnie Mae Leonard, LWV; and Reba Falk

Fair - Ned Applebury, Johnnie Mae Leonard and Reba Falk

County Commissioners - Reba Falk and Johnnie Mae Leonard and Carlotta Grandstaff

Disaster and Emergency Services - Reba Falk, Johnnie Mae Leonard, and Carlotta Grandstaff

WIC - Reba Falk, Johnnie Mae Leonard, and Carlotta Grandstaff

Veterans Administration - Reba Falk, Johnnie Mae Leonard and Carlotta Grandstaff

Mental Health and CDC - Reba Falk, Johnnie Mae Leonard and Carlotta Grandstaff

Reba Falk, Administrative Assistant, talked with Bill Stewart, Airport Manager, on the need to get the fuel taxes collected at the airport.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Board of County Commissioners of Ravalli County, Montana, met, according to law, as a Board of County Canvassers in the Commissioners' Office at the County Courthouse in the City of Hamilton, the County Seat, on the 4th day of June, 1986, for the purpose of canvassing returns and declaring results of the Primary election held in the County of Ravalli on the 3rd day of June, 1986. Present: F. B. Tossberg, F.T. Williams, Marion H. Davis, Betty T. Lund and Darlene E. Hughes. For official returns, see records in the Clerk and Recorder's office.

Jim Whitlock, Mayor; Larry Johnson, Library Board Member; Terry Osburn, Administrative Assistant, City of Hamilton; and Don Fullerton, City Council Member; met with the Commissioners in connection with the Hamilton City budgets for the library and cemetery. Chairman Tossberg explained that the Commissioners are trying to hold the budget at a zero increase. Jim said that their main problem last year was that they thought the County was giving them $5,000 more than they got and the misunderstanding

really made them have to scrape hard to come up with $4,000. Chairman Tossberg said he would take the position that the Commissioners had never had any intention of increasing the allowance they made for the library--it has been at $9,000 for at least the last three years. Jim said that the County is forcing the City to support the library which is the same position the state is taking for the counties by passing their responsibilities down to the smaller organizations, and they do not think this is fair as the County uses the library at least 2/3rds, so this funding is not appropriate considering who uses the library. Larry Johnson said that he thinks the solution is probably to get districts set up and charge the ones who actually use the library, but they need the money this year. He said that the City is a lot closer to their maximum taxing abilities on the library than the County is.

Commissioner Davis said that they had received a couple of complaints from the Stevensville area and they are disturbed that a larger portion of their tax dollars are going to Hamilton for the Hamilton library, and feel that this should be equalized.

The library has set up a budget for $40,000 this year and there is some room for reducing this--the copy machine can be charged to the grant fund. Chairman Tossberg asked if the library could charge a "user's fee" for its services and Larry said that statute prohibits this. Chairman Tossberg said that he personally would not mind giving the library another $5,000 this year with the understanding that this is a one-shot thing, and that everyone involved would actively pursue getting districts created and charging the people in the Hamilton area for their library services. Larry said that when a district is created, it is voted on between the City and County and then the people can protest if they choose.

Larry said that they will really have to scrape to keep their budget in order even if they receive the $14,000 from the County instead of the $9,000 they have previously received. The Commissioners said they would talk this over and get back with the City.

Those present said that they are also having a problem financing the City Cemetery, mainly because many people are going to cremation and the fees are not so high on this, plus the people do not have to buy plots as they use a corner of their other plots. Chairman Tossberg suggested that the fees could be raised and Jim said they had just raised them. He said their pump is going out and they need to do a lot of road work up there, plus the Sexton's shack needs work. Don Fullerton said he had given a lot of time in reorganizing up there and they plan to make some changes. The sexton has been being paid to set stones and they want to just pay him $2,000 more a year on this and have the fees paid into the City instead of to him. They want to raise the sexton's salary from $12,000 to $16,000, but have not made a definite decision on this yet. Chairman Tossberg commented that this increase is bigger than any the county is giving, and the salaries should be equalized.

The men said that they have had a request from the sexton that they put a light up by the gate, and they feel something has to be done as there is a lot of vandalism going on.

Commissioner Williams asked how many hours the sexton puts in on the job. Jim Whitlock said he is supposed to put in a 40 hour week, but he can pick his hours and sometimes works on weekends instead of putting all of his hours in during the week. Terry Osburn commented that there is work that should probably be getting completed in the winter that is not, and maybe the City needs to add to the scope of work that the sexton is required to do. The cemetery total budget last year was $36,750, and they feel they need $39,385 for this year. Last year the County supplied $18,885.34 of this. The Commissioners agreed to raise this to $19,400.00, about a 3% increase.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Beginning at 9:00 a.m., Preliminary Budget Hearings were held with the following people in attendance:

Clerk and Recorder - Vivian Yang, Betty Lund, Darlene Hughes, Reba Falk, and Carlotta Grandstaff

Election - Vivian Yang, Betty Lund, Darlene Hughes, Reba Falk, and Carlotta Grandstaff

Jim Rudolph was in regarding the Gun Club Lease. Chairman Tossberg explained that a new lease was signed in 1979, and the Commissioners have the privilege of renegotiating every three years and raising the fees by 10%. Jim explained that they used to have 19 to 20 people out shooting, but this has dropped to 11 or 12, so they are having to generate money in other ways because it costs around $60 a week to keep the place alive. Jim thinks this has happened because shells and lead have become more expensive. Most people load their own, but primers and powder have gone up so high. Dale Patterson has a fire arms license out there so that he can sell new shells to the shooters.

Commissioner Williams suggested that we waive a request for an increase at this time. Commissioner Tossberg said that Jim can come in and talk to the Commissioners on this again in July of 1987.

Don Harris was in to talk to the Commissioners about the Airport Manager job.

Robert W. Switzer was in to talk to the Commissioners about the Airport Manager job.

Ruth Spence was in to talk to the Commissioners about her insurance program.

Mary Ann Peterson was in to talk with the Commissioners about a health insurance program.

Robert E. Graves was appointed to fill the position on the Tax Appeals Board vacated by Alvin Cote.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg attended a MACO meeting in Helena, Montana.

Commissioners Williams and Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, June 9, 1985

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Williams asked Jay to take a look at the Blodgett Park as the water is down now. There was some discussion on the water from Baker Creek going onto the West Fork Road--Chairman Tossberg said he had been up there this weekend and it was still coming down the side of the road but not as bad as it was. Jay said that they will be doing some work above the dam--the Federal project in 1990 is designed to redo this road, but Jay's crew is keeping at it until that time. Bob Brown, County Attorney, came in on the meeting. There was some discussion on the obstruction of the road up Shiney Mountain and Bob Brown said they will need to get permission from the owner on this matter.

Commissioner Williams moved that we grant conditional approval to the following subdivisions:

1. Lot 62 - Eagle Watch - Robert James Eckhardt & Margaret J. Eckhardt
2. Tract 24, Block 14, Sunnyside Orchards #4 - Dave Colvin c/o Gregory S. Martinsen
3. Lot A-Hamilton Heights Estates - Ernest Cool
4. Tract 14, Block 7, Sunnyside Orchards - Kevin R. & Tracy L. Rouse

Commissioner Davis seconded said motion. Motion carried.

Cornelius H. Visser from Intermountain Administrators and Dirk Visser, his son, visited with the Commissioners about a partially self-funded group health insurance plan for Ravalli County.

Jay Printz, Sheriff's Dept., served a Subpoena on Frederick B. Tossberg to appear in court on June 11, 1986 in the case of State of Montana vs. David Larry Pease, Cr-85-41.

Commissioner Williams moved and Commissioner Davis seconded that the fee for all beverage liquor licenses in Ravalli County be raised from $100 to $150. Motion passed unanimously. It was noted that the license fee had not been raised since 1943.

Commissioner Davis moved and Commissioner Williams seconded that approval be given for F. B. Tossberg, as Chairman of the Board of County Commissioners, to sign a deed relinquishing all of Ravalli County's interest in Parcel L. of Certificate of Survey 3820 consisting of a road easement, the same having been relocated (Dutch Hill Road). Motion carried.

Following review by Don Mullin, Planning Office, the following Certificates of Survey were filed:

Correction Plat - SE 14-3-21- Ream

Occasional Sale - NE 20-10-19 - Ailport

Ray Bean, Shoshone Loop #1 Subdivision, was in to negotiate Cash-in-lieu of Parks with the Commissioners. After some discussion, it was decided that due to extra expense caused Mr. Bean in 1980 because the records were not straight showing Shoshone Loop as a County Road, and because adjoining Certificate of Survey #2841 and #2576 were sold for $4,000 per acre, that $4,000 would be used for the valuation of the acreage in this subdivision. The negotiated figure was $3,300 and letter was written to Mr. Bean this day confirming this figure. (Mr. Bean said that this subdivision was on hill property and the land was not as valuable as the land across the road that was selling for more.)

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Ruth Spence was in to talk to the Commissioners about a health insurance program.

At 6:00 p.m. union negotiations were held with the road department with the following people present: Bob Brown, County Attorney; Nick Evanoff, Road Department; and Warren Midyett, MPEA. For further information on said meeting, see minutes in MPEA file in Commissioners' office.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Don Olson was in to talk with the Commissioners about the Airport Manager job.

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

Jay Unrue was in to talk with the Commissioners about the riprapping being done at the Stevensville Bridge.

Petition was received from 39 petitioners asking for the paving of Tie Chute Lane.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 12, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 13, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Tossberg signed an Application for Tax Benefits for Harold G. and Dorothy M. Fagerstrom and Richard and Joyce Johnson. Resolution #387 was drawn granting tax benefits for the above mentioned people. Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution #387 granting tax benefits in accordance with the provisions of MCA 15-24-1501. Motion carried.

Lonnie Roberts came in to make some suggestions concerning improvements for the operation of the Airport. He also discussed his arrearages on the fuel flow tax and indicated he hoped to be caught up by August.

Bill Stewart came in for his interview for Airport Manager.

It was moved by Commissioner Williams and seconded by Commissioner Davis that Ravalli County adopt a self-insurance plan to cover employee medical costs with Intermountain Administrators, Inc. as Third Party Administrator and with stop-loss insurance provided by Safeco Insurance Co. Motion passed unanimously.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Mtg. Rel. - NE 4-7-27 - Bradford

Retrace. - NW 30-6-20 - Ravalli County

Occ. Sale & Family Conv. - N½ 20-9-19 - Pat McNulty

The Board adjourned to meet on Friday, June 20, 1986, because of the MACO Convention in Red Lodge, Montana.

Hamilton, Montana, June 16, 1986

Chairman Tossberg and Commissioner Davis attended the MACO convention in Red Lodge, Montana.

Commissioner Williams was out of the office for the day.

Hamilton, Montana, June 17, 1986

Chairman Tossberg and Commissioner Davis attended the MACO Convention in Red Lodge, Montana.

Commissioner Williams was out of the office for the day.

Hamilton, Montana, June 18, 1986

Chairman Tossberg and Commissioner Davis attended a MACO convention in Red Lodge, Montana.

Commissioner Williams stopped by the office to sign a Firework permit for the Hamilton Jaycees and to check out a problem with the Airport.

Hamilton, Montana, June 19, 1986

Chairman Tossberg and Commissioner Davis attended a MACO Convention in Red Lodge, Montana.

Commissioner Williams was out of the office for the day.

Hamilton, Montana, June 20, 1986

The Board met pursuant to adjournment on June 13, 1986 at 8:00 a.m., with Chairman Tossberg present.

Commissioner Williams stopped by the office.

Commissioner Davis was out of the office for the day.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, June 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution No. 388 providing for the County Treasurer to invest in registered warrants of the District Court Fund by use of General Fund Cash in an amount not to exceed $150,000, principal and interest. Motion carried.

Commissioner Davis moved and Commissioner Williams seconded that we adopt Resolution No. 389 providing that Ravalli County loan the sum of $25,000 for the initial funding for the employees medical plan. Motion carried.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners asked Jay about a complaint they have received on Chapman Lane. Jay said that in 1981 he was told by the Commissioners to fix up the road, and the road department put around $3800 into the road at that time, but that was a one-time shot. He said that the grader man who worked up there for over twenty years said that this had never been a county road.

The Commissioners showed Jay a Secondary Road Priority Request for the road from Corvallis, North, a 6.9 mile project. The Commissioners signed the request and gave Jay a copy.

Chairman Tossberg said he had received a complaint on Cartwright Way Road from Tony Morehead. Jay said he would check this out.

Commissioner Davis said he had received a complaint on Orchard Drive, Pony Palace, and Mill Creek Roads and asked where Jay had placed the counter on these roads. Jay said the counters were at both ends.

Commissioner Davis said that he had talked with Tom Round on Tie Chute Lane.

Chairman Tossberg said he had received a call from Mrs. Mills on Hayes Creek Road and she says it is real rough. Jay said his men are grading out there and this will probably be done by tonight.

There was some discussion on the Stan Boone-Bob Boyer gate situation in the French Basin

The Commissioners asked how much it would cost the owners to put in a cattle guard and Jay said around $300-$400.

Jay said that he would like to take vacation from July 11, 1986 through August 3, 1986. Chairman Tossberg commented that this is the height of the paving season, and would the crew be okay. Jay said that the men will proceed as planned. The Commissioners suggested that Willard Titus meet with the Commissioners on Monday mornings to keep them posted, and Jay said they could arrange this. There was some discussion on the need for a Monday morning meeting and the Commissioners said that they thought it was good as it gives them a chance to tell Jay about the complaints they have received throughout the week.

Ruth Dewey and Regina Chapman met with the Commissioners in connection with Chapman Lane. They said that they are not asking the Commissioners to rebuild or maintain the road--they just want to determine if it is a County road. Ruth said she is trying to buy property on this road and if it is not a county road, but is a private road, they have to form a Private Road Maintenance Association or the Veterans Administration will not approve her loan. Also, if it is not a County road, some other people could have their loan in default because their contract reads that this has to be a county road for their type of loan.

She says the culverts that the county installed are coming apart and they have packed them with gravel and sod over and over and Mr. Thoft keeps letting his waste water run down and wash the gravel out. She said that Mr. Thoft has a ditcher and could clean out the ditch so that it would carry this water. Chairman Tossberg asked how long this road is and Ruth said about one-half a mile. He asked how many people live on this road and Ruth said two parties right now, but two other people own some property in there.

Chairman Tossberg asked if there is a provision in Montana law that even if the road is not a County road, if they are being flooded, they can take the people involved to court. Ruth said she has talked to the County Attorney on this and he advised her to go talk to Mr. Thoft, and she has done this, but does not get anywhere. Commissioner Davis said he has always understood that it is the person's responsibility to take care of their own water.

The Commissioners said that they will check this out to see if it is a County road. They explained that Jay does not think it is.

Ruth said that they are prepared to maintain the road, but just need the culverts fixed and a permit to haul gravel to fix up the road, and they need the flooding stopped or all the work will do them no good.

Mrs. Chapman has lived up there for 32 years and Ruth has been up there for two. Mrs. Chapman said that Bob Thoft used to be more considerate than he has been the last few years. The Commissioners said that they would talk with the County Attorney and try to get back to the ladies by next Monday. Ruth Dewey - 777-5378 and Regina Chapman - 777-3055.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - SW 19-8-20 - Alice Berg
Mtg. Rel. - SE 17-9-20 - Bradford
Occ. Sale - NW 36-9-20 - Severson
Reloc. - SE 21-9-20 - Herman

The Commissioners made a trip to inspect Chapman Lane and Mtn. View Drive.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Neil Visser from Intermountain Administrators, Inc. was in to explain the self-insurance program for Ravalli County to the bookkeeping department.

At 10:00 a.m. a Revenue Sharing hearing was held as had been advertised in the Ravalli Republic. Carlotta Grandstaff, Ravalli Republic; Vivian Yang, LWV; and Reba Falk, Administrative Assistant attended said meeting. Chairman Tossberg explained that Revenue Sharing had been affected by the Graham-Rudman cuts and it would appear that the County can anticipate about $148,000 in funding for the 1986-87 Fiscal Year. It would appear that these are the only payments we will receive--this will be the end of Revenue Sharing. The Board of Commissioners are proposing that all of these funds be used in the General Fund to help keep down the mill levy in the General Fund. If by some miracle these funds would be reappropriated, another public hearing would have to be set before it could be spent. However, it appears that this $148,000 figure is the absolute maximum we can expect to receive--it could be less. Chairman Tossberg explained that the President has asked that the next payment be eliminated but Congress is saying no because they have a prior commitment.

Carlotta Grandstaff asked what Revenue Sharing monies are based on and why the figures vary so much. Reba Falk explained that there are a lot of factors that affect Revenue Sharing--population, increases in taxes--she said that she would give Carlotta a copy of the report that has to be completed to determine Revenue Sharing. Carlotta then asked what the General Fund covers and the Commissioners

explained. Carlotta asked what will happen if this is cut--Chairman Tossberg said it means that the "noose is starting to tighten". Carlotta asked how this will affect the mill levy and Chairman Tossberg explained that it can not be changed--no more than 25 mills can be levied in the General Fund. Carlotta asked if this will mean lay-offs and Chairman Tossberg said that he thinks they can find a way around lay-offs--maybe shorten the hours worked--this is really a last resort--they will look into all the options before this. He said that Revenue Sharing is about 8.2% of the estimated budget in the General Fund this year--last year it was 19.6%, so this is a significant decline.

There was some discussion on how long Revenue Sharing has been available, and it was decided that it had been around since around 1972. At first it was used for capital improvements--the first monies were used to help the fire districts get equipment. This was changed when the general public decided they wanted the monies to be put in the general fund to reduce taxes around 1978-79.

Vivian Yang commented that it would appear from hind-site that it would have been better if the money had never been put into the General Fund in the first place. Reba Falk agreed, saying that she was opposed to this when it happened, but the general public wanted it this way. Chairman Tossberg commented that if they had kept it for capital improvements, they would have had the money to build the jail.

The Revenue Sharing hearing was adjourned.

Application for Cancellation of Taxes #722 was approved in the amount of $237.25.

Chairman Tossberg signed an Application for Bond with Western Surety Company for Bob Thomas Insurance.

George Corn and John Bell, Attorneys, were in to discuss their bid for the Public Defender position with Ravalli County.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Beginning at 9:00 a.m., Preliminary Budget Hearings were held with the following people in attendance:

Capital Improvements - Reba Falk, Admin. Assistant
P.I.L.T. - Reba Falk, Admin. Assistant
Comprehensive Insurance - Reba Falk, Admin. Assistant
Libraries - Mark Annin, Larry Johnson, John Robinson, Sr.; and Peggy Munoz and Reba Falk

Beginning at 1:00 p.m., Preliminary Budget Hearings were held with the following people in attendance:

Fire Districts - Jan and Bill Perrin; Jay Gasvoda; Mary Nousanen, LWV; Walt Sherr, Dave and Babe Brandon; Bob Krout, and Reba Falk

Cemeteries - Reba Falk, Bill Stewart and Mary Nousanen

Council on Aging - Reba Falk, Bill Stewart, Mary Nousanen, Evelyn Locke

Airport - Reba Falk and Bill Stewart and Mary Nousanen

Auditing - Reba Falk and Mary Nousanen

Jim Carver, Auditor from the Department of Commerce, met with the Commissioners to discuss the District Court Reimbursement audit.

Walt Tucker and his wife were in to complain about a piece of road 300 feet long in front of Jack Wimple's place on Pleasant View Drive that did not get oiled. Upon checking with the road department, it was discovered that they ran out of time and will be back up there this fall to complete this road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retrace. - N½ 25-6-21 - Fullerton

Occ. Sale - NE 22-5-20 - Don Eggers

Court Order - 20-9-20 - Madsen/Roth

and the following amended plat was filed:

Lts. 14 & 15, Blk. 1, Hamilton - Franklin Davis and Virgil Cook

George Chilcott and Don Mullin met with the Commissioners in connection with a proposed Occasional Sale in the City of Stevensville. Don explained that this should go through the subdivision process and really is under the jurisdiction of the City of Stevensville. The Commissioners recommended that George take this to the City of Stevensville and let them help him with it.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, June 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Cheryl Richards, Assessor, Ernie Woods, Reclassification; Cliff Trexler, Marilyn Hoblitt, Pat McNulty, Robert Bartholomew and Kathy Erickson met with the Commissioners to discuss the new reappraisal in the County. Marilyn suggested that they go through the questionnaire as there are many

questions they need answers for from their clients.

Cheryl Richards explained the new assessment sheets. She said that they are now unified throughout the state and the market value tripled in many cases, but the taxable values have not increased so much because the percentage was reduced. Another reason for changes is that the Greenbelt Law has just undergone some severe changes. Ernie Woods explained the changes in the Greenbelt laws. He said that the land now has to produce $1500 to qualify.

Another problem that Chairman Tossberg explained has been occurring is that a lot of subdivision lots had been being charged on the agricultural rate. Ernie explained that the land has to produce 40 animal units a year in order to qualify for Greenbelt. He said that some people have that many animals on their land, but haul in hay to feed them--these parcels are being denied under the Greenbelt.

Robert Bartholomew expressed concern because the values are so high on property. Chairman Tossber said that in some areas, people were only paying around $5.00 for a five-acre parcel of property--they are now valued at $15,000 - $18,000, which is more in line.

Ernie explained that commercial operations do not qualify under the Greenbelt. If the land is not actually producing the income, they are disqualified.

The realtors wanted to know how much time was spent in the reappraisal and Ernie said they had a goal of ten places a day, but sometimes went as high as 30 a day, depending upon where they were appraising. He said that they only go inside one house in ten but get quite expert in looking in windows and deciding what they have.

Ernie said that he has two people who go out and do residential property. The realtors asked if his people are qualified appraisers and Ernie explained that they have had classes in timber and residential certification. They spend two to three weeks a year in seminars. No one on his staff right now is not certified. He said that they have six months after being hired to get certified or they go down the road.

Pat McNulty asked what figures they use as a comparison. Ernie said that most of the figures come from verified sales in the area. Ernie charts the maps in his office and uses the current sales data to keep on top of the values in each area. Marilyn said that there is some concern that the values are based on 1982 figures. Ernie said that the Administrative rules required that they use a January 1, 1982 value, and they are all geared to that date. This keeps everything even so that everyone is charged the same. Bill Bartholomew stated that there has been a real drop in prices since 1982. Ernie said he is aware of this, but at this point, it is important that everyone is taxed at the same rate, so they have to set a time frame to get the cost base. Ernie said that they do use a depreciation factor on the homes that are not kept up. Pat McNulty said that it would appear that they are encouraging people not to keep their places up. Ernie said they can not help that because places that are kept up are worth more than those that aren't.

Cliff said he has run into many people who would gladly sell their property for the new appraised figure. Robert Bartholomew stated that he has a client from Washington who has tried to drill a couple of wells and can not even get water on his property, can not sell it, and is stuck just paying taxes. Ernie said that when a person has a problem like this, he should come talk to him--he can not tell by looking at the land that they can not get water--he is very willing to talk with these people. He said that the problem has been that people get mad and go to the tax appeal board first and this does not allow him to adjust the property. As soon as they appeal, it is in the hands of the Tax Appeal Board.

Chairman Tossberg explained that for the State as a whole, this will not change the receipts on taxes on real property. However, the effects of the reappraisal are uneven. Ernie explained that when Missoula and Flathead did their last appraisal, they got the values nearer to sale value--Ravalli County did not. This is the reason there is so much change in Ravalli County.

Kathy Erickson explained that they are having a problem with the Sellers because when they give appraisals for property, the Seller shows them his reappraisal and thinks his property should be worth as much as it is appraised for, but values have dropped considerably since the 1982 figures.

Bob Bartholomew stated that his timber lands had been reappraised unfairly. He asked who does the timber appraisals and Ernie said he is qualified, but someone comes from Helena and does them as he does not have time. He said that if there is a problem, Bill should ask for a physical review of his timber lands.

Pat McNulty commented that the worst problem is from people not understanding the assessment sheets--could they put in dollar signs to help make it clear. Ernie said that the law prevents them from putting in dollar signs. Chairman Tossberg said they do this to protect the Commissioners--they are the ones that set the levies that translate this into the dollar amounts.

Ernie explained that on the Commercial properties, he did all of the appraisals himself and personally inspected all of the premises. He said that he feels real comfortable with his appraisals. Every sale that he used, he carefully verified. (He cited examples.)

Chairman Tossberg explained that property taxes are used about 95% by local government, not much of that goes to the State, except through the University Mill levy and the 12 mills that are levied to

until around the 14th of July, when Cheryl will get it to them. Cheryl is in the process of totaling all of the values right now so she can give the Commissioners this value. He explained that the Commissioners are less sure of funds this year because of the cuts in Revenue Sharing, and possibly PILT funds.

Cheryl said that Helena has told them that the increase will be around 7%, based on the re-appraisal figures.

Ernie explained that the appeal process may be extended to August 15, 1986, according to the paper this morning. Ernie said that their office is willing to fix problems right up to tax time, people just need to come in and talk with them. He said if there is a legitimate problem, he listens, but if they are just hollering about values, with nothing to back this up, he does not listen to that.

Marilyn suggested that this be put in the paper so people know what recourse they have. Marilyn asked when the next appraisal will be and Ernie said it is set for 1991, but the last one was put off for another two years because the legislature has that right.

Ernie also explained that he has made extra provisions for those who are out of state. He allows around 10 extra days for the mail to and from, so these people have extra time. He also gives them 15 days to make a formal appeal after he answers their requests.

Ernie said that he feels real comfortable about his appraisals. Out of 131 appeals, he has lost only 8 or 10, and these were from people who went straight to the tax appeals board without talking to him first, and he would have readjusted if they had come to him.

There was some discussion on the changes in the rates that used to be given for Senior Citizens. The Legislature has now set it up so that there is no age involved--they qualify according to income. However, Cheryl said they overlooked the fact that they have a cap of $35,000 on this, so the people are paying 100% on whatever they have over that amount. She said that the legislators admitted that this was an oversight, and it should be changed in the next legislature.

The Realtors asked what will happen if the mill value is increased. Chairman Tossberg said they should not look for a decrease in taxes as they are losing the Revenue Sharing Funds, etc., and may not have enough to finance the General Fund.

Commissioner Davis moved and Commissioner Williams seconded that we give conditional approval to the following parcels of ground:

Lot 6, Blk. 10, Sunnyside Orchards #3 - Cody Lunceford

Lot 4, Block 10, Sunnyside Orchards No. 3 - Cody Lunceford

Lot 1, Block 12, Sunnyside Orchards No. 3 - Arnold and Mary Landon

Said conditional approvals are subject to the provisions as set forth in the letter from the Planning Board. Motion carried.

Commissioner Williams moved and Commissioner Davis seconded that we approve Resolution No. 390 allowing the Montana Economic Development Board to purchase notes from qualified local government units in connection with the District Court fund. Motion carried.

Commissioner Davis moved and Commissioner Williams seconded that we approve Resolution No. 391 stating that the Commissioners support the concept that all of its citizens be treated equally and fairly without regard to race, color,or religious conviction. Motion carried unanimously. This was done for the Kootenai County Task Force on Human Relations.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, June 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. He discussed the county road situations with the Commissioners.

Tom Hanson, Surveyor for Professional Consultants; Mike Gaudin and his sister, Cheryl Smith, met with the Board to appeal a decision from Don Mullin, Planning Department, to deny a request for a Certificate of Survey on some property now owned by Mrs. Smith. Following much discussion, the Commissioners agreed to make a decision on this in a few days.

Mr. Hanson, on behalf of Mr. R. P. Baxter, appealed another denial on a Certificate of Survey.

Commissioner Williams moved, and Commissioner Davis seconded, that elected officials salaries be frozen for Fiscal Year 1986-87 as provided for in House Bill 11.

The Commissioners met with elected officials to inform them of the above action. The freeze was accepted in good spirit by those affected.

The Board of Commissioners signed an employment agreement by and between Ravalli County and William C. Stewart, as Airport Manager. Copy of said agreement is on file in the office of the County Commissionrs--said Agreement is effective July 1, 1986.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg

F. B. Tossberg, Chairman

APPROVED: Marion M. Davis

APPROVED: T. Williams

Hamilton, Montana, July 1, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of May, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $11,010,325.77.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Commissioner Williams moved and Commissioner Davis seconded the adoption of Resolution #392 approving an application for Tax Benefits for remodeling in the City of Hamilton, Lots 11, 12 & 13, Block 15 of the Town of Hamilton (Gamble Building). Motion passed with all Commissioners voting "Aye".

The Commissioners agreed to accept the offer of Bell, Corn, & Bell, P.C., to serve as Public Defenders for Ravalli County, beginning July 1, 1986. (See letter of June 30, 1986). It was understood that Mr. Schultz would continue to defend those cases which he already had in progress for which he would be compensated at the rate of $45.00 for court time and $35.00 for preparation time.

Commissioner Davis moved and Commissioner Williams seconded the adoption of revised Resolution #385 setting elected officials and deputy salaries for Fiscal Year 1986-87. All Commissioners voted "Aye".

The Chairman of the Board of Commissioners, F. B. Tossberg, signed Forest Highway Agreement. Said agreement is on file in Perm. File #7095.

Virginia Smyth, Secretary for Corvallis Sewer District, talked with the Commissioners about liability insurance. This insurance can no longer be obtained on the County policy. She said that FHA requires that the district carry a certain amount of liability insurance and to date didn't know where and if they could get insurance. Mrs. Smyth said the Chairman of the Board of Directors was really concerned as he was in business and didn't want to continue to sign checks without insurance and they need two signatures. Bob Brown suggested that they authorize another trustee to sign checks. Mrs. Smyth said she would continue her position on the district and would seek to obtain insurance.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 2, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution No. 393 providing for the payment of $150 per aircraft per year for commercial aircraft to the Ravalli County Airport. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 3, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to audit the monthly claims and attend to office management.

Because of the Fourth of July Holiday, the Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, July 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Willard Titus came with Jay as he will be doing the road meeting during Jay's vacation. Bob Brown, County Attorney, sat in on said meeting. Commissioner Davis said he has received a complaint on Granite Creek and had explained that Jay's crew would be back to work on this some more as soon as they got their summer work done. He also received a complaint on Martin Lane that they would like Jay to check out as Mr. Greyhaus has built a pond and plugged up a ditch and there is water on the road.

Commissioner Williams said that Cherry Orchard Loop is washboardy but he had driven it at

20-25 mph and feels it is no worse than a lot of roads. He asked if Bowman Road would eventually be oiled from Dutch Hill road on South. Jay said that they have not considered doing this as they have a real slide problem up there where the road has slipped 20 feet, so is real unstable. Commissioner Williams asked if the ditch people should be involved in this and Jay said that the neighbors have been working to line the ditch with clay.

Chairman Tossberg explained that the Commissioners have set up a meeting at 10:00 this morning with the Boyers, Stan Boone, and the owner of the Shiney Mountain Ranch, and they would like Jay to attend. Chairman Tossberg said he is looking into the cattle guard regulations and this seems to be the only solution. "Buck" Titus said he used to run the grader up there and there was a cattleguard with wagon wheels on the sides, so they could not get their equipment through. Two or three years ago they put a lock across there, and now it gets graded about twice a year. There was some discussion on the lock and who has keys for it. The Commissioners explained that they had gone up last week and the first gate was unlocked, but the second gate had a lock on it. Chairman Tossberg asked how wide the cattlegua would have to be to let their equipment through and Buck said probably at least 10 feet. There was some discussion on the 1969 resolution about cattleguards and Chairman Tossberg asked Bob Brown if resolution become obsolete. Bob said, not necessarily, but things can change because of circumstances. Chairman Tossberg said that he feels a 24 foot cattleguard in this location is redundant--it would seem that the traffic on the road and the lack of maintenance would merit a smaller cattleguard.

Commissioner Davis said that he had received a complaint on Red Crowe Road from Dr. Goicoechea house down to Bourne Lane. Buck said that this road is not as bad as the Cherry Orchard Loop Road.

On the Boyer-Boone situation, Chairman Tossberg asked Bob Brown what would happen if they just abandoned that road. Bob said that they would probably fight pretty hard to avoid this. Bob said he would have to recheck this.

At 10:00 a.m. a meeting was held with the following people in attendance: Ralph Shoberg, Stan Boone, Bob and Grace Boyer, Bob Brown, County Attorney; and Jay Unrue, County Road Supt. Chairman Tossberg explained that the purpose of this meeting is to arrive at an understanding about what we should or should not do about the French Basin road. The Boyers said that they would like easy access to their property, while Stan Boone and Ralph Shoberg want to be certain their cattle are kept in. They have a lock on the second gate. Grace Boyer said the road does not end at the second gate, that it continues up to the old Cameron Mine. Bob Boyer said that there is a legal description of the road in the Journals in the courthouse. He said that it ends at Sec. 22. He has never contested the gate, but does not agree that they have a right to be where they are--he said that the gate is even on the Boyer property--this is no inconvenience, but is illegal. They are probably infringing on the Boyer property around 20 feet, which makes the Boyers liable, and are in theory blocking a county road--the road runs on up about another half mile. Chairman Tossberg asked how far the County maintains and Jay said they maintain to the first gate. Grace Boyer said that they never used to stop at the first gate, they always graded clear up until the road was blocked when the people from the Shiney Mountain Ranch put big wheels on the sides of the cattle guard and a big sign over the top, and at that time, the Road Dept. told her they could not get their equipment through.

Bob Boyer said that he would like to know if this is a county road or not. Chairman Tossberg said that they believe it is a county road. Bob Boyer then asked what right the public has and Chairman Tossberg said they have the right to access. Grace Boyer said that she does not believe they should be able to put signs on a public road such as "Western Justice will Prevail" and signs over the road indicating that all land beyond that point is their land, when the Boyers' land is up that road. Bob Boyer asked why they were even here defending their right to use a public road. Chairman Tossberg explained that they are trying to find a solution to this problem. Ralph Shoberg explained that he had not been a part of this problem until two or three weeks ago and does not have a problem with any solution they may have as long as he can keep his cows in and people off his property. He said that he has talked with Steve Vogt and others in the area and understands a lot has happened. He said that he can not state definitely what has happened but would like to state what he thinks are the facts, and would like correction if he is wrong. Apparently there has been a problem for at least 12 years, but he understands there used to be a cattleguard in the road for years, but the cattleguard became unuseful and Stan put up a wire gate. Grace Boyer said that he has put up a steel gate now.

Mr. Shoberg said that he understands that the county purchased the road right of way some years ago for $1.00 with the understanding that it would revert to the ranch. He said that he had suggested to the Boyers that he would be glad to buy or sell property to solve this problem. Mr. Boyer explained that the exchange of $1.00 is a simple land exchange between the Forest Service and Harry and Phyllis Twogood--this is a very standard procedure that is used in most government agencies--a very common procedure.

Mr. Shoeberg said that in most states there is a procedure that if the road is not maintained, it is automatically abandoned. Bob Brown said that this is not true in the State of Montana.

Grace explained that the cattleguard would be no problem as long as they did not put the wheels in it and the sign up over it. In 1981 they were in to talk with the Commissioners on this and it was

decided that they could have a cattleguard at that time--everything was done illegally. Nothing has ever been done to enforce the decisions made in 1981. Grace said again that she does not want her property designated as Shiney Mountain Ranch property.

Chairman Tossberg said he understands there was some problem in getting the grading equipment through. Stan said that this is not true, there was enough room to get through, they asked Jay what the problem was and Jay said it was part of two things, the locked gate, and not being able to get equipment through. Jay said that if the cattleguard is wide enough, there will be no problem. Stan said that for several years they turned around past the cattleguard. Jay said that is against their policy to get off the grader and unlock a gate to continue grading.

Grace Boyer explained that she had owned this property since 1920 and there had been regular road maintenance up there all the time.

Chairman Tossberg asked Mr. Shoberg if he would have any objections to putting in a 14 foot cattleguard. Mr. Shoberg said he would have no objection to one going in, but did not feel it was his obligation to install it. Bob Brown explained that ordinarily a county road has to be left open but the law has allowed an individual to put in a cattleguard across the county road to have the affect of fencing the roadway instead of fencing around the boundaries along the road. The other alternative is that the gate has to come out and then you don't have anything to stop the cattle from going through. Bob said that each time this has come up, he has thought it was settled because he did not hear anything more on it--at one time, he had understood they were going to put wings on the cattleguard and take off the overhead structure, and put the gate on the side of the roadway so that the cattleguard would still be there.

Stan Boone said that he was certain that the Twogoods never intended for the area to be opened for the cattle to be able to go back and forth.

Grace Boyer said that the area never was closed off until Stan Boone came--it was always open. Bob Boyer commented that whether it was the intent of the Twogoods or not, it is an illegal act and does not become legal because of someone's intent--as far as the maintenance is concerned, maintenance is not for the people living there as much as to keep the road from deteriorating--Bob said that he would assume the County would blade this as needed--every ten years or so. Chairman Tossberg said that was about what was being done. Chairman Tossberg said that the County does not consider the cattleguards for the convenience of the person with the cattle. Chairman Tossberg asked if the county maintains cattleguards and Jay said that the Resolution in 1969 provides that the owner has to maintain the cattleguards--some examples are the Rennakers' cattleguards on the Old Darby Road and the Rye Creek cattleguards. Jay said that the Rennakers maintain their cattleguards real well but the people in the Rye Creek area need to be talked to as the dirt has filled up their cattleguards--they need to be maintained or removed.

Bob Boyer said that he had checked on prices and a 14 foot cattleguard costs around $1095. Stan said that with the cement footings and installation costs, he was quite sure it would run at least $3500.

Bob Boyer said they would be satisfied with not having anything--Mr. Shoberg said that this was not an option for him--he asked if an unlocked gate would be satisfactory. Grace Boyer said "Absolutely not--that is illegal and we are not entering into anything illegal."

Bob Boyer suggested that maybe the upper gate would be adequate for their purposes. Mr. Shoberg said they have 80 acres in between gates, but it would involve 2000 acres that would be unusable. There was some discussion on the possibility of fencing but Stan Boone said that the Boyer property is not fenced, so it would need fencing also. He said the cattle could get onto the Boyer property. Bob Boyer explained that that had never been an issue, they had solved that a long time ago.

Lee Foss, Real Estate Agent, came in for the meeting.

Bob Boyer said that it would seem that the cattleguard would be the best solution.

Mr. Shoberg stated that when talking with Steve Vogt, he said that there was a U.S. Government survey that had moved the lines about 30 feet--could this account for the gate being on the Boyer property. It was determined that this had no connection. Stan Boone said that they have another problem as they lease 80 acres from the Forest Service and would have to get permission to fence that. Commissioner Williams asked where the Forest Service line is and Stan said around 200-300 feet inside the gate. Stan said there is no way the Forest Service is going to build any fence. Bob Boyer said they don't want a fence anyway.

There was some discussion on the extent of maintenance required for a cattleguard and it was determined that it depended upon the water flow and grader operator and factors of this sort. Commissioner Davis said that he had had one on his property for seven years and had only cleaned it once. Mr. Boyer said that he would either accept a cattle guard or nothing in the road.

Mr. Shoberg asked Mr. Boyer if he would be willing to trade some land. Mr. Boyer stated that they had no intention of buying or selling land. Mr. Shoberg stated that they are planning to sell, so what difference did it make--Mr. Boyer said that Grace's father homesteaded the land, so it had sentimental value, and that they are in the process of selling it. Grace said that Lee Foss was their

said he was not interested, even if he threw in the whole Shiney Mountain Ranch.

Commissioner Williams said that he had just remembered a cattleguard that the Forest Service had pulled out that was not being used and could check into that. Mr. Shoberg said he would like to have him check into this and if nothing works out, he will put in a cattleguard. Chairman Tossberg said that they would like a time frame on this.

Mr. Shoberg said he realizes that the Boyers have been patient, but he wants to check to see that this is all done legally and if the Commissioners could check out the old Forest Service cattleguard, Stan will keep in touch. It was decided that Jay would check with Chuck Olson from the Forest Service to see if this is still available.

Stan said that if they choose to move the second gate so that it is not on Boyer property, it will still be on a County Road. Chairman Tossberg asked Bob Brown if an agreement could be made, with an "out" in it, so they could have this locked gate. Chairman Tossberg asked if Mr. Shoberg owns all the land beyond the second gate. After some discussion, it was determined that he owned all lands accessible by the County Road. Grace Boyer said she has 40 acres that border State land, but the access is through her other property.

Bob Brown suggested that maybe they could arrange to petition to have this road closed--the abandonment of this road could be used to handle this problem.

Commissioner Davis asked if they really did plan to move the gate the 20 or 30 feet necessary to get it off the Boyer property. Chairman Tossberg asked if a recent survey had been made so that it would not be difficult to determine the section corners. Mr. Boyer said that the pins are very prominent. There was a recent survey by the Forest Service to prepare for the land swap and there is a section corner marker and a quarter corner marker, so there should be no problem establishing boundaries. Chairman Tossberg said they would like the lines so there will be no arguments in the future, and everyone will kno where their lines are.

Chairman Tossberg said that he would contact Mr. Boone by letter as soon as they know anything, and will send copies of all correspondence to the Boyers. He said that Mr. Unrue will be available to help them get the cattleguard set up according to the requirements of the road department. Stan asked if he could get the county backhoe to help install it and Jay said that with the requirements they live with, this would not be allowed.

Grace asked if the Shiney Mountain signs will come down from over the gate. Chairman Tossberg said that he would assume that when the cattleguard goes in, the sign will disappear.

Mr. Shoberg said he did not care--he would put a big sign on the side of the road.

Mr. Boyer asked if the County will maintain the road and Jay explained that he felt the end of their maintenance had always been the cattleguard. Grace said that until 1979, the grader went clear up to their property. Jay said that he understands that when Ray Lord was the grader operator, he did these extra things. Grace said that Bill Bourne used to go up there too. Jay explained that they can not do these things now as they have too many and if they do it for one, then everyone else wants theirs done too-----he said that it has to be clear-cut, so they just follow what is on their maintenance list. Mr. Boyer said that he is concerned that the road could be abandoned because of no maintenance and the Commissioners assured him this could not be done.

Mr. Ivan Howard was in to ask what we were going to do about the road in his subdivision - River Park Commercial Village. He was informed that it was not a County road and that we did not intend to do anything.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to audit the monthly claims and attend to office management.

The Commissioners, Reba Falk, and Bob Brown met with Dr. Vandiver at his office in Missoula, at 3:30 p.m. to discuss district court operations.

The Commissioners approved a Contract agreeing to hire Top-Down Computer Consultants, Inc., for the period July 1, 1986 to June 30, 1987, for $7,000. For this sum, Ravalli County is to receive 200 hours of consulting services. If the hours provided by Top-Down Consultants exceed 200, Ravalli County will compensate Top-Down at the rate of $35.00 per hour.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Tom Hanson, PCI, and Brian Langton met with the Commissioners and Don Mullin in connection with the Mittower Meadows Subdivision. He said they had received their health approval so are ready to file the final plat and just want to go through the conditions with the Commissioners. They have named their road "Grace Lane" and it will come off of Highway 93.

On Provision 2 in the Conditional Approval letter, there is a provision that all building plans for all structures be approved by the Homeowner's Association prior to start of construction. Tom explained that Brian does not want to meddle to the extent of that statement. There was some discussion

on this subject and Mr. Langton explained that there could be three frame houses in the area and a fourth person could want a log home and be denied this right by the other owners because they did not want a log home in the neighborhood. After further discussion, the Commissioners said that they felt that there were adequate architectural safeguards in the covenants and relieved the applicant from fulfilling Item #2.

On Provision 3 concerning further division of the lots, Tom said he had put a covenant about this on the face of the plat.

Tom said that he understands that when you create five five-acre tracts, the regulations allow the developer to ask for a waiver from the park requirement. Chairman Tossberg said "No". The reason for this is that "we have not been giving them". He said that the Commissioners feel the impact is enough that these parks are needed. He said that the last person to ask for a waiver was Bill Piatt and they did not grant it, and this was about four years ago, so this has been a consistent policy for some time. Tom said that the park requirement is more than adequately met in the common area.

Tom explained that he had made provision for the 21 shares of Big Creek Lake water and read the provision that had been made to the Commissioners.

On Provision 5, Tom said that he feels that this is already covered in the laws on floodplains and does not see the need to impose extra restrictions on this subdivision. Don explained that these restrictions were placed on the Long Acres subdivision that had some swampy areas. After some discussion, it was decided that the Commissioners would like this provision left in and Tom said he would provide for it in the papers to be filed.

On Provision 6, Tom said that they felt they had provided for the maintenance of the Common area, so would not want to have it state specifically that it has to be mowed. After some discussion, it was decided that it would state "to be kept grazed, mowed, or otherwise kept relatively free of weeds."

On Provision 7, Tom said he did not quite understand as there is just one entrance to Highway 93--he said maybe he should provide a 1 foot access strip and this would clarify it. There was some discussion as to whether a permit would be required onto Highway 93 since the road has always been there. Don said that he would check into this and get back to Tom. Tom said that he would put the 1-foot access strip onto the plat.

Mark Bergdolt was in to request a Consent to Revocation of Agricultural Covenant from the Commissioners on Certificate of Survey No. 2449, on lands up by Fred Burr Creek. The Commissioners granted said consent.

Permission was granted to the Hamilton Jaycees to shoot and display fireworks on July 11th, at 9:30 p.m. at the Westview Ball Park. This display was originally scheduled for July 4th.

At 10:00 a.m., a Park Board meeting was held. Minutes are in the Park Board file.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bill Stewart, Airport Manager, was in to update the Commissioners on what is happening at the Ravalli County Airport.

Eddie Buresh from Johnson Control was in to talk with the Commissioners.

In the afternoon, the Commissioners viewed roads in the Darby, Hamilton, Victor and Corvallis areas.

Fred Thomas and Doug McLaren were in to visit with the Commissioners about their comprehensive insurance. Doug stated that the insurance would be prorated on a daily basis, with no penalties if cancelled.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Vicki Behling was in to talk to the Commissioners about Tin Cup Road.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, July 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Buck Titus, Road Department, met with the Commissioners for the weekly road update. He said that they are having some trouble on the right of way up Tin Cup where they straightened out a sharp corner--the owner, Mr. Keenan, is saying that the road is not on the right of way. Buck said that Rem Kohrt instigated this road and arranged the right of ways so he will talk with him.

Commissioner Davis asked about the equipment going North this morning and Buck said they are moving the equipment to start oiling down by Florence. Commissioner Davis said he had received a call from Ruth Dewey on Chapman Lane. Commissioner Davis asked when the road department will get to Sand Hill. Buck thinks it will be oiled within the next week or two. They are trying to get the crusher ready right now as they are almost out of crushed gravel, and hope to have this done this week. They will probably oil up to the intersection of White Lane.

Commissioner Davis asked Buck if the road department took down the wire fence down at the Stevensville Crossing. Buck said that they did not as it was out in the river. Chairman Tossberg explained that Bob Brown, County Attorney, feels that we should put the fence back up as he is concerned about the County's liability. Buck said he would go take a look at this. Commissioner Davis said that he feels that this fence should be put back up whenever the road department gets time.

Chairman Tossberg explained that Vicki Behling was in and said they are doing a lot of logging up Tin Cup and wonders if the road department should just hold off on the oiling until it is done as the big trucks will just tear up the road. Buck said that they are running their heavy trucks up there and if the road supports them, the logging trucks should be okay. He feels that this logging is going to take several years to complete, so they might as well go ahead and get this done.

Chairman Tossberg commented that it seems like there are a lot of drain ditches around the County that need to be cleaned and this would help with the road situation a great deal. Buck said that this is a problem and Jay and Buck have talked about this and would like to buy a windrow-picker someday to work on this problem.

Commissioner Davis asked if they had graded Meridian Road and Buck said it was done last Thursday. Commissioner Davis also asked about Martin Lane. Buck said he talked with Dick Martin and he said he had not heard anything and then Jay went to talk with Mr. Greyhaus.

Commissioner Williams asked if the road department will be doing any oiling on the Golf Course Road and Buck said he did not think so.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occ. Sale - NE 13-9-20 - Wm. McNulty

and the following amended plat was filed:

Lots 11 & 12, Bdry. Reloc. - Charles Rainy

Commissioner Davis moved and Commissioner Williams seconded that we grant final approval to the plat on Peaceful Pines subdivision for J. R. Iman. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Williams and Commissioner Davis present.

Chairman Tossberg attended a Board of Investments meeting in Butte, Montana.

Following review with Don Mullin, Planning Office, the following Minor Subdivision Plat was filed:

Lot 53, Eagle Watch - John Anderson

Commissioner Williams moved and Commissioner Davis seconded that we approve the final plat of Lot 53, Eagle Watch for filing. Motion carried.

Ronnie and Mike Pasolich and their son and daughter met with the Commissioners about the recent attack of Pam Ioder by a Pit Bull pup at the Corvallis laundromat. Commissioner Williams explained that the Sheriff's Dept. has been reluctant for the Commissioners to adopt the dog ordinance because it requires more work from them, with no more pay, but the Commissioners have not had time to talk with them since this incident occurred. Ronnie gave Commissioner Williams a copy of laws in Washington that discriminate against "Pit Bull" dogs and set up rules for their owners to abide by. The Commissioners said that they would be checking into this matter.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 16, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jim Rudolph and Rene Patterson met with the Commissioners regarding the Hamilton Gun Club's tax statement. He said it has jumped from $18.19 last year to $214.82 this year. He said it would be very easy for the gun club to be forced out of business with this kind of increases--they are just not covering their present expenses with the present activity out there and he thought the Commissioners should be aware of this. Chairman Tossberg asked what they have in the way of personal property. Jim said they have a building, a trap house and five traps and then the birds--they run from 150-750, depending upon when they get their new supplies. Chairman Tossberg explained that they have nothing to do with the appraisals--they can listen to complaints and pass them on, but that is about all. Jim said that he just feels this is too large a jump and wanted to inform them. Commissioner Williams asked how often they have social functions out there and Jim said usually twice a year.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Utility Siting - SW 19-7-20 - Hurni

Milo Huggans and her mother, Mrs. Sam Foss, were in to talk to the Commissioners about the sign on their road. They said they hired the road department to put the sign up on Tuesday and paid $100 for it. Darrell Daw from the State Highway went with the County's road crew and helped decide where to put the sign, and Dale Dye gave his approval of the sign. However, by 9:30 last night the sign had been shot and taken down and is laying there. Milo said she hired someone to watch the sign and discovered who had taken it down and then Milo went to visit her and asked what she was going to do about it. The woman admitted taking it down, but ignored Milo about replacing it. Milo would like the Commissioners' approval of her placing of the sign so that she has grounds to press charges. The Commissioners said that since it was placed on State Highway property, it was not under their jurisdiction. Milo said they had gotten permission from the State, but this would eventually be a county road. She went into the plat room to check into this.

Ron Garlick was appointed to fill the vacancy created when Harold Hopwood said he did not want to be a part of the Jail Advisory Committee.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, July 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Buck Titus, Ravalli County Road Department, met with the Commissioners for the weekly road update. Bob Brown, County Attorney, sat in on said meeting. Commissioner Williams asked why the road department employees were headed North this morning. Buck said that they are finishing up the work down on Martin Lane and will be done with the Florence area tomorrow morning. He said that the State Highway Department will be putting a 3 inch overlay on the highway from Florence to Victor within the next few weeks.

Buck said that the County is opening up a new pit up by Clarence Popham's house and they are waiting for Montana Power to hook up the electricity so they can get their gravel crushed. They will then be finishing up their sealing projects.

Milo Huggans and Mrs. Foss met with the Commissioners in connection with Zoning District #7. Milo said that there is a person in their district, Winifred Miller, who has put up a trailer house and is violating the zoning restrictions. Milo has talked with Mrs. Centers and others in the district who feel they should take steps to stop the violations. Therefore, Milo would like to make a formal objection. Chairman Tossberg said that although he is not an attorney, it would appear to him that the County assumed the responsibility to cover this violation and will proceed with the proper steps.

Mr. Elmer Grey and Mr. Richard Shoup came in to visit with the Commissioners and to solicit the Commissioners to appoint an ad hoc member to the Board upon which they presently serve. They were appointed by the City of Missoula. The purpose of the Board is to investigate possible future uses or alternatives to the Bitterroot Burlington rail line. The Commissioners said they would consider the request.

Ravalli County is a member of the Five Valleys Development Corporation. The membership of the corporation had previously agreed there was no need to continue the organization.

Therefore, the membership of FVDC participated in a telephone conference meeting to take final action to dissolve the corporation.

The final action of the Board was to unanimously approve a Statement of Intent to Dissolve Five Valley Corporation and a Final Resolution of notice to the Secretary of the State.

Chairman Richard Sipes and Sec. Rose Goss then signed both of the above documents.

County Attorney, Robert Brown, will handle the filing of our action with the Secretary of State.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 22,1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

J. R. Iman met with the Commissioners in connection with Peaceful Pines Subdivision at the request of the Commissioners. Chairman Tossberg explained that he had asked J. R. to come in because they have discovered that the County's mortgage on Peaceful Pines is a second mortgage--that the first mortgage is to Citizens State Bank. Chairman Tossberg said that when they discovered this, they felt like they had been knifed in the back. J. R. said that this was a mistake, they refinanced their loan through Citizens State Bank because they could get a better interest rate than they were getting from the Federal Land Bank. The Federal Land Bank had excepted this land from the description, but Citizens picked up the whole description, including the subdivision. J. R. said that he is surprised that the Commissioners have a problem with this as there is plenty of collateral to cover a $5,000 mortgage. Commissioner Tossberg said that the Commissioners had been told that this property was free and clear of all liens, and that is not true. J. R. Iman said that he thought they could get it clear in the next

three or four days--he said that he thought Bob's mortgage (the one on the subdivision) covered the ranch. Bob Brown, who was present for the meeting, said that it only covered the subdivision--the 10 lots in Peaceful Pines. Commissioner Tossberg said that Mike Kleese from the title company is up in the air over this and it is not fair to hold him up.

J. R. said that he would never have gone through the subdivision process if he had this to do over. He said that people all over the valley are using the occasional sale process to sell off their land. Chairman Tossberg said that if he had chosen this route, he would have found that it would not have worked as they have tightened up on people and are not allowing this anymore.

Chairman Tossberg said he would like J. R. to go talk with Bob Talbot and get a subrogation agreement of some kind that states that the County's mortgage is to be paid first. There is $4675 still due the County. Chairman Tossberg said he would call Mike Kleese and work things out with him.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retracement - NW 11-10-20 - Reynolds

Utility Siting - SW 10-1-19 - G & G Housing

Jim Watts, Civic Center Organization, met with the Commissioners to bring them up to date on what is happening with the building of a Civic Center. Jim brought in preliminary blueprints to show the Commissioners. He said that he plans for a sit-down capacity of 400+. The proposed building would be 11,000 square feet--60x100. The dimensions are standard for a steel building, and several companies make these same dimensions. Chairman Tossberg asked if the committee has picked a spot at the Fairgrounds Jim said that they had considered several locations on the grounds and parking lot, and even wonder if the County will acquire the 40 acres north of the fairgrounds from the Daly estate. He said that the committee is consistent in feeling that this should be on fairgrounds property as people in the community have a bond with the fairgrounds and feel it is a part theirs. Commissioner Williams commented that this is a good point.

They are planning for a 12 x 12 door and a concrete floor, so could have RV shows inside. With the plumbing roughed in, six-inch insulation, the concrete floor and doors, it should run around $10.00 a foot, or $110,000. They would plan on hot air, natural gas heating, and with the fixtures and heating, Jim thinks the total project will run around $150,000. Chairman Tossberg asked where they hope to get funding. Jim said that they have kept a low profile lately because of the library building project, but they intend to get a more nearly complete blueprint by fairtime and start the fund drive then. Bill Groff has said that he thinks they should go to Helena and see if they can get some coal-tax money. On the 40 acres, Ned has talked with the heirs and has been told that if and when it is sold, he will be notified so that the County will get first chance at buying the property.

Chairman Tossberg asked if there is anything Jim needs from the Commissioners and Jim said he would like a letter of endorsement saying that the Commissioners agree with the committee's basic thoughts and directions and that they agree that the building should be placed on fairground property.

Chairman Tossberg said that the Commissioners would draft a letter for the Civic Center committee.

At 3:00 p.m. the Commissioners attended a Jail Advisory Committee meeting in the Extension conference room.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Commissioner Williams and County Attorney Brown made an inspection trip to the North Gold Creek road area in connection with the Foss vs. neighbors problem.

The Commissioners checked the effectiveness of flail mowing on the East Side Highway. They also checked various roads on the east side of the middle commissioner district.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, July 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Buck Titus, Road Department, met with the Commissioners for the weekly road update. Commissio Davis asked where the crane was headed this morning and Buck said it is going to tear out the Dutch Hill bridge between Cherry Orchard Drive and Lower Mill Creek.

Commissioner Williams said he had received a complaint on Sweathouse and Iroquis Roads, that they were washboardy.

Chairman Tossberg said Mr. Cummings called and said that going South on Meridian Lane, there is a culvert with a hole in it by Jim Pierce's place, and another culvert further down the road with a hole that someone has a stick marking the hole, so he would like Buck to check this out.

Commissioner Davis said that Ruth Fifield had called and said there is a ditch along A Street and 6th Street in Victor with a culvert with holes in it right in front of her place.

There was some discussion on Highway 93 and the resurfacing project going on between Victor and Florence--also some discussion on the mowing along side the eastside highway and the effectiveness of said mowing.

Commissioner Williams explained that Dick Fichter had called in connection with Granite Creek Road and said it is real tough.

Buck said that they will be redoing these roads around mid-September. Right now they only have enough gravel for one more day and Montana Power has still not hooked up the power down at their gravel pit on Popham Lane. If they can get it hooked up soon, they should be able to keep pretty much on schedule. They still need to oil Robinson Grade, Tin Cup, and the Golf Course Roads.

Commissioner Davis asked if they ever got the fence moved that was in the roadway up on Hoblitt Lane and Buck said that Jay has written a letter and if they don't move it by August 1st, the road department will move it for them.

Commissioner Williams told Buck that the Commissioners had been out to check out the problems on Sam Foss Road. They have also received a call from Bob Leonardi saying that 55 mph on the Golf Course from Antigone on East is fine with him, and his neighbors.

Commissioner Williams asked Buck if there is enough traffic on South Sunset Bench road to have it upgraded. Buck said that this will all be upgraded this fall--it will be their major winter project. The Commissioners asked who is complaining on this and Buck said it was mostly Mrs. Bugli and Mrs. McFadgen. Commissioner Davis asked if this will be a problem working with frozen ground in the winter and Buck said it wouldn't.

Commissioner Williams said that he had been talking with Vance Bay down in Corvallis and he wonders if the French Drain needs to be cleaned. He said that Tom Hanson was in and wonders if there is a logical way to get rid of all this water. There was some discussion about creating a one-way street where the buses unload to the west of the new gym and the Commissioners thought this might be a good idea.

Mr.Cordes was in to complain about the Stevensville Airport Road and to say that he would like to see it paved. Chairman Tossberg said they would pave all of the roads in the County if they could afford it, but they are taxing at the maximum levies right now on roads.

Pat Zeiler, Jim Mildenberger, and Larry Higginbotham were in to discuss the proposed Skyridge Subdivision. Chairman Tossberg explained that the next step would be a conditional approval letter from the Commissioners. However, the Commissioners are a little concerned about ownership, and would like a consent from Dee Shook. Jim said that he would get a consent letter from Mr.Shook. Chairman Tossberg said that Harold seemed a little disturbed about this subdivisionand they just want to be sure of the ownership. Jim said that this piece of property is free and clear at this time, and he is the owner. Chairman Tossberg said that other than ownership, the conditions for conditional approval will be standard--they will want to be sure the road name is cleared; they will want the road up to county standards (Jim said they plan to pave it.); they will want a sign provided for the road; they will want to negotiate cash-in-lieu of parks; they will want the taxes paid. Chairman Tossberg said that he will be seeking the advise of the County Attorney to be sure that the ownership is as it should be.

Fred Thomas, Insurance Agent, was in to discuss the county's comprehensive insurance with the Commissioners.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bob Brown, County Attorney; Jeff Langton, Attorney; and Larry Higginbotham, Surveyor; met with the Commissioners to discuss the position of County Surveyor. Larry said he had submitted twenty pages of opinion on this matter and would like questions or comments from the Commissioners. He would like to define the duties of the County Surveyor as opposed to the duties of the Commissioners. Chairman Tossberg said it would seem to him from the first brochure that there is a number of things Larry thought should be done, including full-time employment, having a vehicle and a crew, and be given the project of surveying all of the existing county roads, which really looks like a rather major undertaking. He said what is most disturbing to the Commissioners is the impact on county funds to do this--that is the major problem--it would take a very substantial amount of county funds if this program were run at full bore. Larry said that he feels he has indicated that all of this is negotiable.

Larry said that the law shows this as being part of his job and if we don't do our jobs, there is some liability involved. He said that if he is not doing his job now, it is because he is not being allowed to. He said that the first step to straightening this out is to understand what his job is.

Chairman Tossberg said we probably are having a fundamental conflict on this right now.

Commissioner Williams said that he feels while we may not be within the scope of the law, he thinks the road department is doing a pretty fair job--they are recognized throughout the state--not that we should not try to improve, but of all times, this is when we are so short financially--now is not the time to set this up. He asked Larry if he feels that the road department is not operating properly.

Larry said he did not want to discuss the road department--he said he had some opinions, but does not think they are germane to the issue. He said he is the elected County Surveyor and thinks the law says he should do certain things that he is not doing. He said he has been complaining for some time about the lack of records for the roads in Ravalli County and does not feel he is doing his job. He said he does not think anyone is at fault, this is an inherited problem that keeps growing--we are no in compliance with the statutes.

He said that he does not think there would ever be a "convenient" time to make this change.

Commissioner Williams said that he would hate to see a full-fledged, 40-hour work week at this time. He asked Bob Brown what would happen if they don't do this.

Bob said that the basic thing is that the County is to be providing certain things. He said that he thinks Larry is right on the books to keep information but does not think he has an obligation to go back to pick up what other surveyors have not done--we have the evidence for surveys of roads--whenever there is a survey that Larry makes for the County it should be entered in the books and copies of the surveys kept. He has the alternative to charge the County for his equipment or the County can pay rental on Larry's equipment.

Chairman Tossberg stated that as nearly as he can recall, whenever we have asked Larry to do surveying, we have paid him. He asked if Larry had been paid at the standard rate. Larry said that he had pretty much charged for the standard rate which includes equipment and office space.

Larry said he does not agree with Bob when he says he is not responsible for going back over the old roads--it says "every public highway"--- Chairman Tossberg said "I don't think we are going to do this---".

Larry said that any time a road is improved, it should be surveyed or engineered---at the present time we are doing nothing---.

Chairman Tossberg said that he feels we have a fundamental disagreement as to interpretation of this law---

Bob Brown said that the history on that is that the portion pertaining to the surveyor being the head of the road crew was always a part of the old laws that were repealed in 1965, and they adopted a new state and county control in place of that that did make a provision for a supervisor of County Roads--two years later they reinacted the one with the surveyor being the head of the road crew and at the same time provided that if there was no surveyor, this could be a separate supervisor--this has created quite a bit of confusion.

Jeff explained that Larry came to him and said he wanted an opinion, and in looking at the code sections all together, there is a pattern that indicates that the surveyor is to keep the books--I think this is what the law says--the county surveyor has certain duties to perform--- He said that surveying is not a part of the supervisor's job. Bob said that he agrees that any time you change a road, it should be surveyed. Jeff said he thinks the County Surveyor should keep records for all of the county roads. He said it is a real problem to track down the roads with the lack of records-without knowing where the road is, the county road crew does not know where to put the road--the title companies can not guarantee the roads. He said that this problem is handled in different fashions in the various counties--he thinks this problem needs to be handled in some fashion. If it is not done now, the problem will compound and become worse. Jeff said that his conclusion was that you can have a road supervisor, but if surveys are needed, it has to be farmed out to a registered engineer--if the statutes are not followed, there is some liability.

Chairman Tossberg said that there is still the fundamental disagreement--if we have a new road established, we would certainly have the county surveyor survey it--we have asked Larry to do this on Grizzly Way and on Dutch Hill. Larry said that the Commissioners only called the County Surveyor in when the property owner complained that the road on Dutch Hill was going on his property---

Chairman Tossberg said he does not think we have too much of a controversy with new roads, but we do have a controversy about going back over all of the old roads.

Larry said that when records are destroyed, you have to replace them.

Chairman Tossberg said that the law gives the Commissioners the power to control these situations and they are exercising that control.

Larry asked if the Commissioners would put this in writing----

Chairman Tossberg said we were going to continue as they were doing---

Larry said to Jeff "Can you believe what they are saying?"

Bob Brown said that he was dictating his opinion on this and would have it prepared by the end of the next week---

to resurvey every road in the county. As far as new roads and records are concerned, I think we agree with Larry's point.

Jeff said he disagrees with Bob because the statutes (7-4-2811) call for the surveyor to establish the grade of the road.

Larry said he does not think we can afford to do every road but he thinks we can begin to do this--he said if he has a crew working 40 hours a week they could keep at it, doing the most important ones first, until they were all done. Larry said that the County just did major improvements on Tin Cup Road and it is not even in the right of way. Chairman Tossberg said that it is a prescriptive road that has been there for years. He said a surveying crew is a luxury we just can not afford. Larry said it is not a luxury, it is a necessity that is mandated. Chairman Tossberg explained that Rem Kohrt got involved and worked with the neighbors and got everyone to agree on this. Larry said that this is not the proper way to handle this--when you want to make an improvement, you get a deed--you don't tell them that if you don't like what we do, we won't fix your road.

Jeff said that the system we have now was okay for pioneer times, but we are getting into suburban times, and titles are important. It is real frustrating to establish limits with no records.

Commissioner Williams said he agrees that maybe Tin Cup was not handled properly, but how many times is it necessary to survey a section of road--can we justify having a crew on the payroll? How many things require engineering?

Larry said that considering the position he finds himself in, he is going to be nitpicky enough to say that not even a culvert should go in without some engineering--the road supervisor should be a time keeper only--all of the other duties belong to the County Surveyor. He quoted Section 7-4-2811

Bob said that everywhere he has studied, maintenance and construction are tied together--he does not understand Larry's separation between maintenance and construction.

Chairman Tossberg said that a good way to handle this might be to have Jeff and Bob get together and find out what narrow range of agreements they have and the areas of disagreement, and then have another discussion later. He said he thinks there are some areas the Commissioners are inclined to agree on, and thinks these should be nailed down. ---the main area of contention is that the records on roads need to be totally reconstructed.

Bob Brown said that this is not a matter of statutory requirement--it is an area that gives the Commissioners wide discretion. He said he thinks the court recognizes that the burden is on the Commissioners to provide the information needed, unless they have a means, then under the law they are obligated to have the County Surveyor survey and keep the records. The Commissioners should probably be trying to get straightened out, but they don't have a liability.

Jeff said he would have a problem with Bob's statement.

Bob said that the County Surveyors in the past have taken their records with them when they went--the Commissioners at that time should have been aware of what was happening, but this does not make these Commissioners responsible.

Jeff said that in his mind it says the surveyor shall maintain records in his office for public inspection--to his mind, this says if there are no records, he has to get them---

Commissioner Davis said he can not see where Larry could be held responsible for anything back from when he was not in office--this could not be a big issue.

Larry said he would not be so critical if the records were shown in deeds--the problem is that it is not possible to know who owns what without these records--they don't appear anywhere else.

Chairman Tossberg said we need to know what Larry means by an office and records--does this mean the records can not be kept in the plat room? Jeff said the code is fuzzy--at one point the County Surveyor has the records and at another the Clerk and Recorder does--as long as one source is accessible, it would be satisfactory.

Larry said that he does not think the plat room would be large enough for the kinds of records he needs to keep--it involves a lot of construction-type drawings. Chairman Tossberg asked Larry if he considers the office he is currently in as inadequate and Larry said the desk only has three legs--he said with the amount of money being spent on roads, we need to be doing more documentation--we can not continue to ignore this, we will get in trouble.

Chairman Tossberg commented that they get used to getting in trouble---

Larry said he does not believe it is possible to spend the money we are spending and do the limited amount of surveying that is being done and make effective use of the money--concerning the space involved, it would take a room from one-half up to as large as the Commissioners' office--it takes room for drawing tables, etc.

Chairman Tossberg commented that with the new jail, we would have some space downstairs. He asked Larry about the instruments--he said we have been hiring Larry to do the survey work and paying him for his time and equipment, was that working okay?

Larry said that this is a very expensive way to do things--Larry said that he has a conflict of interest being a County Surveyor one day a week and then running his own business the rest of the

his own surveys, someone else examines them.

Chairman Tossberg asked Larry if he would be willing to give up his private practice and becom a full-time elected official at the $19,600 salary--the law says the County Surveyor would be paid like other elected officials.

Larry said "No" he could not afford to do this. Jeff said that the codes show a full-time surveyor. Larry said that Missoula County has 58 people on the County Surveyor's staff.

Larry said that if the roads were done right in the first place and properly engineered, it would not be necessary to have to go back and redo them.

Commissioner Williams said he did not agree with this--the road department has done a good job.

Larry said that on the discussion on salaries, it seems strange that the Commissioners limit this to elected officials' salaries and then allow others to make more. Larry said he would be willing to take whatever salary the Commissioners would come up with provided they do a comparison with Forest Service surveyors and other people who do the same work, but he knows it would not be $19,600. Commissi Davis said he would be opposed to paying any more than that. Larry said he had the qualifications for a surveyor andcould not see that it would be reasonable to take less.

Commissioner Davis said that there are a lot of people with good qualifications who work for less than the going rate, but he has seen very few places where the supervisors get less than the men under them.

Larry said that if he can not afford to take the job, he won't. He said the Commissioners still have the responsibility to see that this job gets done anyway.

Commissioner Williams asked if Larry is critical of the salary they are paying the road superintendent and Larry said he thinks he is underpaid.

Commissioner Williams asked if they could eliminate the County Road Superintendent. Larry commented that if the County Surveyor took over tomorrow, they would desperately need Jay Unrue--- Commissioner Williams said "In addition to the duties of the County Surveyor" and Larry said "Yes".

Chairman Tossberg said it looks like we will need to wait for Bob's opinion and study that before a decision can be made. Bob said it should be done the middle of next week.

Larry said that he would have to be paid at a standard for his profession. Jeff said that on the salary issue, if Larry does not like the salary and resigns, it does not do away with the need to get the records straight. Chairman Tossberg said that the Commissioners understand that they would have to hire Larry to do these things when they are needed. The main trouble is that there is no levy set up for the surveyor, if they had one it would have to come from the General Fund or Road Fund and both are at their maximum right now. Larry said that it will cost a lot more to hire him separately to do this work and Chairman Tossberg said they would only hire him when they have to have something surveyed.

The Commissioners took a tour of the Ravalli County Jail facilities.
By unanimous vote Res. #396 to reg. warrants for Comp. Ins. was adopted.
Commissioner Williams moved and Commissioner Davis seconded that we adopt Resolution #397 allowing for the placing of the Ravalli County Jail Bond issue on the ballot for the November 4, 1986 election, in the amount of $1,500,000. Motion carried unanimously.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - NW 18-9-19 - Kamrath

Ag Parcel - SE 33-2-21 - Fandry

Occ. Sale - SE 12-6-21- Munson

Occ. Sale - NE 19-2-17 - J. Fred Wetzsteon

Retrace. - NW 12-5-21 - Ewalt, Morris, Sawyer, McClain and Utzinger

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Dee Dee Gianchetta and Dick Boyle from Vocational Resources met with the Commissioners to say they are trying to place a lady in an office situation where she could be supervised to see what skills she has and would like to know if there is an office in the courthouse that could use her. Chairman Tossberg suggested that they talk with the Assessor, Chief Appraiser, County Extension Agents, and Public Health Nurse.

Chairman Tossberg signed a Construction Agreement with Montana Power Co. to provide service for our gravel crusher at the new Popham gravel pit in the amount of $4,186.00. See Permanent File #7100.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of July 1, 1986:

Citizens State Bank	1,120,000
First State Bank	886,680
First Federal Savings & Loan	1,615,398
Farmers State Bank	1,470,000
Ravalli County Bank	1,600,000
Western Federal Savings & Loan	1,023,411

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, July 31, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Charles Repogle was in to talk to the Commissioners about the accessibility to the courthouse for the handicapped. He said it is hard to get his wheelchair up over the curbing.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder — APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member — APPROVED: F. T. Williams, Member

----------O----------

Hamilton, Montana, August 1, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of June, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $10,623,733.60.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Commissioner Davis was out of the office for the day.

Commissioner Williams moved and Commissioner Tossberg seconded that we approve Resolution #398 providing for the registering of warrants for the Sula Garbage and Ash Fund, not to exceed $5,000, principal and interest. Motion carried unanimously.

The Board adjourned to meet the following Monday at 8:00 a.m.

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Chairman Tossberg told Jay they would have a meeting tomorrow with Dennis Workman and Don Peters from the Fish and Game on the Stevensville Road and the Blodgett Park, and he would like Jay to attend.

Chairman Tossberg explained a complaint he had received from Mrs. McCarthy on the Stevensville Airport Road. Commissioner Williams explained a complaint he received from Mrs. Settlemire on Meridian Lane. She said that she has breathing problems and the dust is bothering her and she would like this oiled

There was some discussion on what will happen with the asphalt that is being taken off Highway 93 and piled at the Pony Palace. Jay said that sometimes it costs as much to recycle it as to start with new materials.

The Commissioners gave Jay a letter from the Corvallis School requesting a one-way street by the High School. Jay said he would not quibble on this--most people are using it as a one-way street right now. Jay said that he would contact the people involved and see what signs are needed.

Jay said he would like to know how much effort the Commissioners want spent on the Corvallis Main Street. Commissioner Williams said that they had talked with Vance Bay and have been talking with Tom Hanson about a solution. He said that the community is not willing to put up any funds for this and Tom wondered about a community block grant, but this requires matching funds. Jay said that he intends to make a good effort toward drainage this summer but this will raise the hackles of the veterinarian as he put in a pipe that is too small and did not get a permit, and Jay needs to make him open up the ditch. If he wants it covered, he will have to buy a bigger culvert. Chairman Tossberg said that Jay should enlist the support of Mr. Howard and some of the others that want to get this problem taken care of. Jay said that he had spent a couple of days with the North American Cold Research team up in Alaska in connection with some new technology they are using to insulate roads and stop frost heaves. He said that they have been real successful up there by laying a 4 or 5 inch board of dense foam polystyrene and then putting 8-16 inches of gravel over that and then laying the asphalt. This is material like they use in building airplanes and withstands heavy loads. He said that it is expensive--about $15.00 a sheet, and it would take 75,000 square feet to do the Corvallis Main Street. This would not take care of the sidewalks. Jay said that he proposes to work on the drain system this year and the people will have to cope with the lakes and then next year he is hoping to allocate a sum of money to redo this and use the insulation. It would probably cost around $40,000 to $50,000 to do this project for materials and if the prices stay the same on asphalt or drop, the road department could probably afford this by next year. Jay said that because of the way this land lies, they will always have the lakes. Chairman Tossberg said that they had talked of using a sump pump at the last meeting to pump this water away. Jay said that the feasibility of this is not good--they would need a sump pump and would need a bigger drain to put it in--he said sump pumps are expensive and he would hope that the County would not get into a situation where they need to do this. Chairman Tossberg explained that the County has two huge pumps that were used in the basement of the courthouse. Jay said these are 25 hp pumps that require high wattage and they would still need to have a place to pump from. Jay said that if the Commissioners ask him to set this up, he will, but does not like the situation. Chairman Tossberg said he would like to see a block grant obtained. Commissioner Williams asked where the source was for the insulation and Jay said that the Alaska source is Seattle, but he does not know where it was made.

Leonard Pfau was in to ask about Fletcher Lane--he said it has been washed out since April and really needs work. He said there are 10 or 12 homes up there. Jay said it was on limited maintenance, which would mean they would grade in the spring and fall. Leonard said the gravel has been washed away and Jay said their gravel source up there is a major problem, but he would check this out.

Commissioner Williams said they had received a complaint from Don Olson on the Red Crowe Road--he thinks the barrow pit needs to be cleaned. The Commissioners said they had received a call from Bill Stephanie thanking them for the job done on Sand Hill.

The Commissioners explained that Larry Higginbotham and his lawyer had met with them in regard to the County Surveyor situation and suggested that Jay read the minutes of that day. Bob explained that maybe all that is needed is to change Jay's title from Road Superintendent to Road Supervisor. He said that the law provides for a Superintendent if you don't have a Surveyor. Jay said that every time they had an occasion to need a registered surveyor, they have called Larry to do the survey.

Jay asked about the letter to Stan Boone and Robert Boyer and Chairman Tossberg said that he would like Jay to get together with Stan Boone and see if he could help him by getting some estimates on cattleguards. Roscoe Steel and Thorsons both make cattleguards and Jay said they would both be comparable in quality.

Lincoln Shonkwiler, Don McKenna, Attorney; Tom Koch, Attorney; and Bob Brown, County Attorney; met with the Commissioners to discuss the Del Carter Road situation. The bank is in the process of foreclosing on this property and Koch and McKenna are the attorneys doing the foreclosure. Link said he

does not see why the road can not be opened up. Bob Brown explained that the reason the County does not take this to Court is that when they require the fence to be moved, that puts them under an obligation to build the road to back up the request and the County wants these people to build their own road. Mr. Koch said the property will have to be sold and there will have to be a road. Without a road, the property is worth 25% less than with a road--there is no practical way to sell this with no road. He said Bob should request that they remove the obstructions in the road. Bob said that he had already done this, but if they force the issue, they would then have the right to require that the County perform this work. Bob said that when they get everything lined out, they can then go to court and get the fence removed. These people own the land that they have fenced. The Commissioners and Bob got the plat on Mountain View Orchards. Bob said that the main antagonism was between Del Carter and the Swallows and if the owner (the bank) could visit with Mr. Swallow, they might get this taken care of. Chairman Tossberg said he feels that is a good suggestion.

Link asked if much of a bond will be required and Chairman Tossberg said they would probably have Jay Unrue look at this and give them an estimate of what he thinks it would cost. Link said it was important to the sale of this property to have this road available--whether it is in or not may not matter, but they need the assurance that they will be able to build. Bob said that there are three water crossings which will need to be protected. Bob said they would have to contact the head of the irrigation district--Ervin Unruh was in control in 1982. Link asked that the Commissioners ask Jay to go make an estimate--he said that if they have to post a bond, maybe it will be worth it. Don McKenna said that Swallow was standing on the fact that he feels the County did not have the right to give him a notice to move his fence. There was some discussion on what has happened in court.

Mary Moranville and Winifred Miller were in to present petitions on the North Gold Creek Loop/Sam Foss Lane matter.

Applications for Cancellation of Taxes #723-724 were approved in the amount of $222.08.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Bill Stewart, Airport Manager, was in to visit with the Commissioners about a problem he is having with John Brennan wanting to put a well too close to a runway. He said that the Airport Rules say that if the Commissioners or the Airport Manager choose, they have the right to set rules in addition to those listed if they can see a safety hazard. Bill said he would have liked this well drilled on the other side of the building but this would require going through cement, so he feels it will be satisfactory if he keeps it up by the building. The Commissioners went with Bill to look at the situation. Bill said that he had two other problems--the sawhorses that are painted to direct the planes need repainted and Bill would like a work-fare person to help with that. Also, the runways need striped. He said they need a professional outfit to do this. The Commissioners said that they would check with the road dept. to see if they can help with this. Chairman Tossberg asked how Lonnie Roberts is doing on his payments on the fuel tax. Bill said he is paid up to November of last year. Chairman Tossberg said that Bill should tell him to pay each month's fuel tax and keep current as it is used as well as working to get the old accounts paid up.

Susan Vieth, Planning Office, met with the Commissioners to file the final plat on Mittower Meadows, a minor subdivision, for Brian and Karen Langton.

Commissioner Williams moved and Chairman Tossberg seconded that we approve the final plat of Mittower Meadows for filing. Motion carried unanimously.

Dennis Workman and Don Peters, Fish and Game; and Jay Unrue, County Road Superintendent, met with the Commissioners in connection with the Stevensville Bridge park and the Blodgett Park. Chairman Tossberg said that the most crucial problem seems to be at the Stevensville Bridge, although he does not know if Jay is as concerned as the Commissioners are. Chairman Tossberg said he is afraid that the bridge could be left high and dry if the water goes around it. Carlotta Grandstaff, Ravalli Republic; and Greg Lakes, The Missoulian; sat in on said meeting. Jay said that he is not real concerned with the old pier--whenever it is needed, the Road Department is prepared to put some rocks in to stop the river from washing it away. Jay said that there appears to be a good base where the old road bed lies. He said that the Road Department's performance in the past indicates that they are equipped to handle emergencies when they occur. Chairman Tossberg explained that he has been watching this thing for five years and the river has taken out a great amount of ground, and will eventually be lapping at the roadbed. He said that he wonders if it is in the best interests of the County to let this go when it might save money in the long-run to take care of this now--it might be better to spend some money up-stream right now to avoid this happening downstream. He said that the expense for this would not necessarily have to come out of the road department budget. Chairman Tossberg said that the park is really old road right of way. Dennis said that the channel to the East has started picking up water and Chairman Tossberg said when it was at its worst, it was picking up water while going through the bridge to the East. Chairman Tossberg asked if the flow could be redirected so it does not make a big

sweep. Jay said that the teachings of Mr. Reichman, a hydrologist, are that you can put a series of inverted "V" drop structures to create pools upstream---he wondered if this would be obnoxious to the Fish and Game as they don't like the bed of the river disrupted. Dennis and Don both said that they did not feel this would benefit the problem at the Stevensville bridge. Jay said it would take 2000 yards of big rock to do this and would involve the whole channel. Dennis said he is not convinced that this would solve the problem, they would still have the sediment to deal with. Jay said they would have to do this for 200-400 yards up the river. Dennis said that there is the potential problem with another channel anyway. Chairman Tossberg suggested that some logs could be cabled along the curve of the river-Don said that this is a major erosion so this would not work real well. Dennis said that he thinks this battle should be fought right at the bridge. Chairman Tossberg asked if it would do any good to hire Mr. Reichman to come down and look at this. Don said he did not think so, that Jay knows what he is doing. Jay said that if he had the money, he would go in and riprap the whole thing. Don agreed that this would be the safest route to go. Dennis said that going into the river and doing the inverted "V" structures would not be any cheaper than riprapping. Jay said he would want to take some of the bank off and round off the slope of the park and then riprap the whole curve. Don said that this would be a real advantage to the park. There was some discussion about the paperwork involved and the Fish and Game people said they would help Jay fill out the necessary forms.

In connection with the Blodgett Park situation, Chairman Tossberg suggested that the County cable some logs into the stream to slow down the flow. Dennis said that it depends upon the objectives--Chairman Tossberg said that this brings up the real issue "Should we be riprapping to save a park?" There was some discussion on what materials can be used in the river and Dennis said they don't like pieces of concrete or these kinds of things used unless they can be buried, and all metal rods must be removed as they are dangerous to the fish.

Dennis said that Dave O'Dell has gotten a grant to cable logs into the river and might be able to help with this.

Dennis asked Jay what would happen if the pier in the river started to move. Jay said it would depend upon what happened. If it were causing problems, he would come to the Fish and Game people and ask if he could do a little blasting to get rid of it. Dennis asked if there is any steel in it and Jay said he thinks it was made long ago enough that there is not.

Dennis said that they have had Mr. Reichman come up to look at the split in the channel down by Victor.

Greg Lakes from the Missoulian asked if the inverted "Vs" would work down on the Blodgett Park. Chairman Tossberg said that they have some problems with that as the property owners are not interested in doing anything--they may try the cabling to keep the river from eating away at the park.

Don said that Dr. Alt has written a paper on the movement of ground under the river along this stretch of ground and there are definitely some underground movements that are contributing to the changes in channels.

In connection with the drop structures, Jay said that each inverted "V" runs around $5,000. Greg asked whether the Fish and Game could do anything to help with the financing on these projects and the men said they can only help where it is a benefit to the fish.

John Brennan was in to talk with the Commissioners about the well he wants to drill out at the airport.

Jim Morton, Rose Goss and Peggy Verburg were in to discuss the Human Resource agreement for the upcoming year. They need a new candidate for the board beginning October 1, 1986 and it was suggested that Rose Goss be reappointed. Chairman Tossberg asked what happened to Human Resources with the Graham-Rudman cuts. Jim said that the State and Federal governments have agreed to keep the program at 1983 levels and they are trying to avoid any cuts, so feel it won't happen. The Fuel Assistance program was cut a while back and then restored and the weatherization program seems to be okay. Peggy said that the agreement has been changed so that it can be continued on, so that it does not have to be presented every year. She said that after the agreement is approved by all of the Commissioners for all of the counties, a copy will be sent to Mike Greeley, Attorney General, and copies will be filed in each county courthouse.

Commissioner Williams moved that the Commissioners execute the Interlocal Agreement to Designate District XI Human Resource Council as a Provider of Certain Services in Missoula, Mineral and Ravalli Counties. Chairman Tossberg seconded said motion. Motion carried unanimously.

Commissioner Williams asked if Mineral County is happy with this situation and Jim said he thought they were as they have continued to have an office and staff person.

Jim said that the SRS has appointed a Task Force to study the make-up of the agencies and that force had just issued a report that single county areas should be abolished. The areas are to be of equal population and area.

Commissioner Williams asked how many people have used this program and Jim said about 200 in the three counties, at a cost of around $1600 per home. Rose invited the Commissioners to their next meeting on August 21st in Darby.

Chairman Tossberg signed an agreement for the Department of Health and Environmental Science and Ravalli County Head Start for the Child Care Food Program, #700082.

Rose Everett was in to discuss how the Commissioners handled the cash-in-lieu of parks on the Peaceful Pines situation as she has a proposed subdivision and might want to try this. Chairman Tossberg explained the arrangement and said it was not working out to be satisfactory and they would hesitate to enter into a similar one. Chairman Tossberg suggested that Rose start at the Planning Office to see what needs to be done on her subdivision.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Mtg. Release - NE 9-3-21 - Keighley

Commissioner Davis was out of the office for the day.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis were out of the office for the day.

Commissioner Williams was on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis were out of the office for the day.

Commissioner Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, August 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams and Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners reported that they had received complaints on the corrugated and dusty conditions of the following roads:

Indian Prairie Loop
Big Creek Road
Bell Crossing - west of Highway 93
St. Mary's Loop
Granite Creek Road
Red Crow Road between Fred Burr Road and Bourne Lane

Road Supervisor Unrue and the Commissioners recognize that until the 1986 road oiling program is complete and until sufficient rainfall is received to soften road surfaces preparatory to grading, there is little that can be done at this time.

Bill Stephanie was in to express his appreciation for the maintenance on the Sand Hill road near Victor.

The Commissioners discussed the river erosion problems at the Stevensville bridge. Dennis Workman's Montana Department of Fish, Wildlife and Parks letter dated August 6th was discussed. No action was taken since there remains much research to be made before arriving at a solution.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 12, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners signed an agreement with the Montana Public Employees Association establishing the previously agreed wage levels for the County Road Department Employees.

Mary Moranville, Winnie Miller and Gordon W. Miller were in to further discuss the North Gold Creek Loop/Sam Foss Lane matter.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - NE¼ 35-4-21 - Sharon & Aaron Work

Retracement - NW 15-5-20 - Tom Fox

Retracement - NE 25-6-21 - Rieker

Retracement - NE 27-6-21 - Schaffer

Occasional Sale - NE 27-5-21 - Trabakoolas

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 13, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that Rose Goss be appointed to the Human Resources Council as their representative. Motion carried unanimously.

Lorene Skemp and Irvine Gates were in to request a speed zone sign on the corner of Little Britches and corner of Corey Lane. The Commissioners said they would discuss this with the Road Departmen and advise them of the determination on this matter. Lorene Skemps phone number is 363-3567.

At 10:00 a.m. the Notice of Budget Hearing was read by Chairman Tossberg. No person appeared at the hearing for or against said budget.

Mr. and Mrs. Lyman Carpenter of North Gold Creek Loop were in to state that they did not want the name of the road changed. They were advised that the Commissioners are not going to name or change the name of the road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners approved Maternal and Child Health Block Grant for the State Fiscal Year 1987, No. 700205, between Ravalli County and the Montana Department of Health and Environmental Sciences.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Relocation - SE 12-6-21 - Munson
Retracement - NE 36-6-21 - Tolman
Ag Exemption - NE 26-3-27 - Sipma
Ag Release - SW 27-9-20 - Chilcott
Over 20 acres - SW 14-5-20 - Berg

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

At a regular meeting held August 15, 1986, at 10:00 a.m., Commissioner F. T. Williams introduce a resolution authorizing the sale and issuance of $256,000.00 tax and revenue anticipation notes to the Montana Economic Board. The motion was duly seconded by Commissioner Marion H. Davis. The question was called for and all three Commissioners voted "Aye" . See Resolution #399 in the Commissioners' files.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, August 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Tossberg said that the Commissioners had received complaints about the speeding in the Ward's Cove subdivision and they would like some speed signs. There was some discussion on this and Jay said that if they would relinquish the County from grading that road, they could install speed bumps. Chairman Tossberg said that he would like Jay to put up a "Slow--Children at Play" sign. Jay said he would do this.

Commissioner Davis gave Jay a copy of an accident report up on the West-Side Road and Wyant Lane. He said that the Highway Patrol said they would be in to talk with the Commissioners on this as they want a sign. Jay said he would check this out and put up a "Blind Driveway" sign or something appropriate.

Jay said that all five graders are out and will be working for about two weeks now to get the grading done.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 19, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Ernie Woods, Cheryl Richards and Reba Falk met with the Commissioners to discuss the County's mill value.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 - SE 23-3-20 - Gier
Ag. Parcel - SW 25-6-21 - Osterbauer
Two Mortgage Releases - SW 18-9-19 - Kirschten

Neil Visser from Intermountain Administrators met with the employees to explain the insurance plan--one session was held at 9:00 a.m. and one at 10:00 a.m.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 20, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

At 1:30 p.m. the Commissioners attended a Health Board meeting in the Extension Conference Room.

At 3:00 p.m. the Commissioners attended a Jail Advisory Committee meeting in the Extension Conference Room.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Commissioners signed Resolution No. 394 approving and adopting budget for Fiscal Year 86-87.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 22, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg was out of the office for the day.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, August 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The request of Bill Brooks who addressed the Commissioners on behalf of some residents of Roaring Lion road to provide a school bus turn-around approximately two miles west of its present site was discussed. Jay Unrue agreed to discuss this with Ken Andrews and other Forest Service personnel and report back to the Commissioners. Jay later reported that property owners who were to provide turn around space and other residents of the area were not agreeable to an extension of the school bus route. Jay is to convey this information to Mr. Brooks.

The Commissioners said they had received a call from Ken Gardner who thinks that cabling trees along the river does not help. He said that he gave rock to the road department and thinks it would be better to use his rock. Jay explained that Ken Gardner had asked Jay to do the paper work with the State Dept. of Lands and in exchange Jay could take all the rock he wanted from his property. Jay said that they used this rock when they rip-rapped the Woodside Bridge. He said it has to be drilled and blasted and the road department does not have a compressor big enough to run the drill so they have to rent it. He said that this would be okay, but their trucks don't have rock boxes and these jagged rocks ruin their truck beds, so they are hesitant to haul these rocks. Jay said that they can get rocks from the westside from Eldon Roberts and he hauls for them, so this really turns out to be more economical. Commissioner Williams asked if this is why Jay is resistant to riprapping and Jay said his resistance is to having to use road department money to save parks, etc. He said that he does not mind doing the work if someone else pays for it. On the issue about cabling logs, Jay said that it does cut down on the washing and has been proven to work. There was more discussion on the Stevensville bridge situation and Jay said he is receptive to anything that does not cost the road department money--he wondered if the park fund could pay for this. Bob Brown explained that the law does not allow for anything except the purchasing of land and initial improvements on that land, so it is very limiting. He drew a picture of how he would like to handle the problem, but said it would cost around $50,000 to do it. There was some discussion on where money could be obtained and Jay said that the only one he knew of is the Corp of Engineers and they only help after the damage is done. Jay said that he would hope to do this project by March of 1987.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retracement - NW 35-1-22 - Kline, Wood

Retracement - SW 26-9-20 - Sangster

and Amended Plat as follows:

Amended Reloc. - Lots 3, 4, & 5, Blk. 7, Corvallis Townsite - Sherri Williams

A meeting was held with Larry Higginbotham, County Surveyor; Jeff Langton, Attorney; and Bob Brown, County Attorney, in connection with the request of Larry Higginbotham to check into the duties of County Surveyor. Bob said that the first step seems to be to find out what is available in the way of road maps, etc. He said that the Commissioners would need to ask the road department to gather this information and then the Commissioners and Larry will need to go through it. They agreed that the best thing to do if the records are bulky is to go to the road department and go through these maps. Larry said that the statute provides for road maps and bearings and distances being defined. Jeff said that a Resolution may be needed so that all county employees will cooperate in the search for the records.

Commissioner Williams asked what will happen if they just don't do anything--would Larry file suit against the Commissioners? Larry said that he would hope he would not have to do anything like that. He said we need to find out what needs to be done, and then worry about the money involved. Bob Brown said it was like the jail situation, you can not do anything if you don't have the money.

He said that the research has to be done before you can find out what is needed. Larry said he understands that you can not spend what you do not have. Bob said that he will be asking the Attorney General for an opinion on the issues that Jeff and Bob can not agree on. Larry said that it is obvious to him that the statutes are not being followed.

Bob commented that probably 90% of the roads were taken into the County on condition that the county did not have to maintain. Jeff commented that the original maps should be kept in the courthouse, and if the road department has any originals, they should get a copy and give the original to the Courthouse.

It was agreed that a good map was available for Highway 93, but Larry said that the State was not too clear on the Eastside highway. He said he might be able to get plats from Helena. He said that Hamilton Heights road is not real clear, but after this was done, the State has made better records. Larry said that they would just have to index what is available and then see if the information is useful.

Commissioner Williams said he would be agreeable to starting by looking up what is available. Commissioner Davis said he felt they had to start somewhere, if it is actually necessary to start. Larry said he thinks it will take about two hours at the road department. Commissioner Williams said that they will talk with Jay and see how to proceed on this and will get back with Larry.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m. with Commissioner Davis present.

Chairman Tossberg was out of the office for the day.

Commissioner Williams attended a Council on Aging meeting in Polson, Montana.

Frank Bedey was in in connection with the Roaring Lion turnaround in the road for the school bus.

Chuck Johnson, Great Falls Tribune, was in to talk to Commissioner Davis and Reba Falk, Administrative Assistant, in connection with the Friends of the Constitution. He said he had just finished talking to the four sisters and would like the Commissioners' input. Commissioner Davis said he does not back this initiative--he feels it is wrong. He said that he does not believe they can handle the government and all of the expenses if this occurs. It would cripple the county and put many people out of work. Reba Falk said that she feels 60-65% of the revenue in the county comes from property tax. Commissioner Davis said it would affect the services to the people and would take a large impact against education as the schools rely on the taxes to fund them for at least 60% of their funding. Reba said that another potential problem is that no one would dare to fund a bond issue because they would be afraid they would not get their money. There was some discussion about how a bond issue would get paid and the debts that the schools are already committed to pay. Chuck Johnson asked how this organization was able to get 2700 signatures regarding the subdivision regulations and Commissioner Davis said that their tactics were doubtful. He said that these people are trying to compare with California and Massachusetts and it is impossible to make a comparison with these states. He said that he does not agree with their facts and figures--this would have a lot worse impact upon the valley than Proposition 13 had in California. Commissioner Davis said that he is worried about it passing. Reba Falk commented that she does not think it will pass. She said that people will think before they would vote for something like this--they may sign a petition that is put before them, but before actually voting, they will think this over and see how many years people have put into the things that would be lost. Chuck asked about the people being disgusted with the high taxes. Reba stated that this is the fault of the legislature--they have been doing away with the tax base and this makes the whole burden fall upon the real property owner. She explained about the new motor vehicle fee system and how people now pay a set fee, no matter what the value of their vehicle is.

Commissioner Davis stated that if people would educate themselves, then this issue would not pass. He said that when he was approached with a petition from this organization, he felt it was misled to him. He said that if this issue would pass, we might have to go back to a fee system in the schools. Both he and Reba Falk expressed their concern and dismay at something like this happening. Reba said that she and her children received "free" education and she would want this available to children always--the people who can afford to pay are not the only ones who should be educated.

Lloyd Blazing was in to discuss the Forest Service Plan on timber harvest.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Mrs. Harder who lives in Corvallis Estates came in to tell the Commissioners that the neighbors in the area were going to fence the North side of the access into the Corvallis Estates park. Mr. Mitchell is apparently going to fence the south side.

Chairman Tossberg signed Agreement #700146 between Ravalli County and the Montana Department

to insure their safety.

Chairman Tossberg signed Family Planning Agreement #700228 between Ravalli County and the Montana Department of Health and Environmental Sciences for the purpose of providing family planning services to those needing them.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

During the afternoon, Chairman Tossberg and Commissioner Davis attended the Ravalli County Fair. Commissioner Williams attended a meeting at the Trapper Creek Job Corps.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, August 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Chairman Tossberg was on hand to attend to office management.

Commissioners Williams and Davis attended the Ravalli County Fair.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. T. Williams, Member

Hamilton, Montana, September 2, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of July, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $11,210,315.08.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Nancy Thomson and Shirley Abel met with the Commissioners to discuss the Stevensville Head Start rental building. Nancy asked for a 10% increase in the rent and Chairman Tossberg said that this could not be allowed, he would allow a 3% increase, but times are tough, and the 10% is not possible. The 3% increase would make the rent $206.00 a month. Nancy said that several repairs are needed and she just is not able to make the repairs and does not have the money to hire it done. Shirley went through the repairs that are needed. She said that evidently the electrician messed things up when he did his work and she told Nancy's husband about the problems at that time. However, Nancy and her husband are now divorced and Nancy got this property in her settlement and did not know there were problems. There was some discussion about getting help from the work fare program. Chairman Tossberg asked that Shirley and Nancy get together and hammer out the terms of the rental agreement and see if they could come up with an agreeable solution.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SW 27-9-20 - Chilcott

Retracement - NW 31-6-20 - City of Hamilton

Mtg. Rel. - N½ 34-8-20 - Hutchings

and the following amended plats were filed:

Commissioner Davis moved that we file the amended plat of AP Tract 14, Blk. 7, Sunnyside Orchard - Kevin & Tracy Rouse. Commissioner Williams seconded said motion. Motion carried.

Commissioner Williams moved that we file the amended plat of AP Tract 24, Lot 14, Sunnyside Orchards #4 for Dave Calvin. Commissioner Davis seconded said motion. Motion carried.

The Commissioners signed a Lease with the West Fork Fire District for a 1952 GMC Truck. See P.F. #7108.

The Commissioners appointed Charles V. Davis as Coordinator for Disaster and Emergency Services.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 3, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m. with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we grant conditional approval to Loretta Menager for Leeland Acres Subdivision, subject to the provisions as set forth in conditional approval letter. Motion carried unanimously.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 - SE 9-5-20 - Spannuth, Suitable Access #14 HB 791

Over 20 - 19-2-17 - J. Fred Wetzsteon

Retracement - NE 5-6-20 - LDS Church

Amended Plat:

Hamilton Heights Estates - Tract A - Ernest Cool

Commissioner Davis moved that we grant final approval to Ernest Cool for Hamilton Heights Estates, Tract A. Commissioner Williams seconded said motion. Motion carried unanimously.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Tossberg and Davis present.

Commissioner Williams was out of the office for the day.

Chairman Tossberg and Commissioner Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, September 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Tossberg and Davis present.

Commissioner Williams was out of the office for the day.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Bob Brown, County Attorney, sat in on said meeting. Chairman Tossberg said he had complaints as follows

Willoughby Road--up by the old Stanley place, the culverts are plugged up and flooding is going into Larry Mineer's yard.

There are some bad potholes on the West side Road up to Wyant Lane.

Larry Meyer's wife called and said there is not enough cover gravel on McEntire Road and it is real rough.

The Commissioners received a letter from Chuck Shonkwiler in connection with gravel build-up on intersections in the Hillcrest area. The Commissioners said they had gone to look at the area and some of the complaints are justified, some are not.

Mike West called to complain about the sand on Blodgett Camp Road. Jay said that he does not recollect hauling anything onto that road--he said there is a stretch there that is always washboardy.

Bill Stephanie and someone else called to say "Thanks" for the work on Sand Hill--they are especially glad that it is now paved.

Jay said that the Robinson Grade paving job turned out real good but he had received some complaints because they didn't want it paved.

Commissioner Davis said that he had received a complaint about a plugged culvert on Larry Creek Loop.

Commissioner Tossberg said he had driven Tin Cup Road and the paving job is real nice. Jay said that the rest of the job will be done next year.

Commissioner Davis asked when the sign on West Side would be installed and Jay said that Wayne Burgess had been tied up lately but would get to it as soon as possible. Commissioner Davis explained that the Highway Patrol had been in and would like a "Dangerous Intersection" sign on Cartwrig and Ponderosa up in Bonanza Lands. Jay said that he would hope that we wouldn't get into a situation where we put up signs whenever anyone has an accident. Bob Brown commented that what bothers him on this is that the people could say that the sign should have been there before.

Chairman Tossberg told Jay that the Commissioners have decided that they want the Road Departme to go to an 8-hour day, five days a week for the winter, sometime around the middle of November. Jay said that he has kept a close watch on this and studied the productivity carefully. Chairman Tossberg said that he just does not buy the "Productivity" in the winter as the men are working partly in the dark. Jay said that he and Buck had already made the decision that they would go to an 8-hour day as soon as the first snow storm hit. Chairman Tossberg said that this was partly a Public Relations matter as they seem to get snowstorms on Fridays consistently when the crew is not there. Jay said that he would appreciate very much the Commissioners allowing him to start this procedure when the first storm hits. Commissioner Davis said he would go along with this as long as it does not run past the 1st of December. Chairman Tossberg said he would go along with this too--they said that they need to have something to tell the people when they call in. Jay said that he would take care of telling his men. Chairman Tossberg said that he will want to study how this is working and that will help determine when the men can go back to four ten-hour days in the spring.

Following review with Don Mullin, Planning Officer, the following Certificates of Survey were filed:

Mtg. Release - E½ 15-1-19 - Mary Walker

Gift and Occasional Sale - SE 31-8-20 - Cheryl Smith

Occ. Sale & Gift to Son - SE 24-8-20 - Baxter

Amended Plat:

Hamilton Townsite, Blk. 7, Lots 2, 3, 4, 5, 6 - Agrigation of lots - Michael Gaudin

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Tossberg and Davis present.

Commissioner Williams was out of the office for the day.

Bart Wright from Poker Joe Road was in to explain a problem he is having with the river trying to change channels down by his place. He lives in a subdivision created by John Lightner and said that he is being told by the Fish and Game that the County should never have approved that subdivision and he should not be living down there. He said that the river has taken 150 feet in the last four years and could very easily cut a new channel within the next couple of years that would put him on an island. He said that the Fish and Game people (Tom Greenwood, Don Peters, and Dennis Workman) tell him that they can not interfere with the river. He bought this land eight years ago and pays taxes on it and feels that the County should help him to protect his land so he can continue to pay taxes.

Chairman Tossberg suggested that the protection might be riprapping and Bart said he had been doing this, but the river washes it out every year. He said he has talked with his congressmen and they have agreed to come and look at the situation and the Fish and Game people want to be present for the meeting. The Commissioners asked that he notify them of the time for the meeting and they will try to attend also. Chairman Tossberg said that he would like Bart to go talk with Tom Ruffato over at the Bitterroot Conservation District as he felt he might get some guidance there--he said they can approve these projects, but the land owner has to pay for them. Bart said that 6 people are directly involved, but around 15 people are ready to do something about this.

The Commissioners received a petition to close all that portion of the S½ of Second Street lying West of the current Water Street in Corvallis, Montana, from Robert Gingerich, Sr. Said petition had 12 signatures. (Bob Brown instructed the Commissioners to return said petition to Mr. Gingerich for correction.) Vester Wilson of Bitterroot Disposal was in to discuss some problems he is encountering with using the Darby Dump.

The County Commissioners agreed to loan to the City of Hamilton for the use of the Library the following items:

1 - Wooden 8' x 4' table with linoleum surface
10 steel folding chairs
1 Four-drawer letter size steel file cabinet

It was understood that the county could reclaim the above items at any time they were needed for County use.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 10, 1986

RESOLUTION NO. 395

It is hereby resolved by the Board of County Commissioners, Ravalli County, Montana, that the following levies were set for Fiscal Year 1986-87 for county funds and different school districts to raise the amount approved in the budget heretofore filed with the Clerk and Recorder:

Chairman Tossberg explained that Gary Leese was in to explain a serious accident on the intersection of Hoover and Leese Lane. He also asked Jay what had happened on the culvert up Willoughby Road and Jay said that there is a big culvert there but the run-off is so strong that another culvert is needed right beside the present one, so they will install another one. Commissioner Williams asked about the slippage on Bowman Road and there was some discussion on this. Chairman Tossberg asked Jay if he had checked into the gravel situation on Hillcrest and Jay said as soon as their broom was repaired, they would sweep it, but he was afraid there would still be complaints as there is no where to sweep to.

In accordance with MCA 7-5-103, the County Commissioners read the proposed Ravalli County Vicious Dog Ordinance. Commissioner Williams moved its adoption and Commissioner Davis seconded. All Commissioners voted "Aye"

The second reading of the ordinance will be held at 10:00 a.m. in the office of the County Commissioners on October 9, 1986. Copies of the proposed ordinance are available at the Commissioners' Office.

Received an appeal from Fred Thomson, Attorney, protesting the decision of Greg Danelz on the Victor-Stevensville land transfer.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a Board of Investments meeting in Helena, Montana.

Eddie Buresh from Johnson Control met with the Commissioners to give a bid of not more than $1100 to inspect the heating system, excluding the compressor, which was recently inspected. Any parts would be over and above that amount. In connection with a request to move a thermostat in the nurses' office, Commissioner Davis asked if Eddie didn't think he was a little high on his estimate. Eddie said they could do it cheaper if they were already down here. Commissioner Williams asked about the time frame involved and Eddie said the inspection should be done when the weather is down around 32°. There was some discussion about the other heater needed in the jail and Eddie said that the Commissioners could probably hire it done locally cheaper than they could do it. Eddie left a proposal for a contract that would be $3,000 a year and he would do a couple of inspections and replace all parts. He said that he would follow his visit up with a letter setting out the provisions of his bid. Commissioner Davis asked if the contract would cover a major emergency and Eddie said that it does--after the contract is signed, Johnson Controls replaces anything that goes out.

Commissioner Williams moved and Commissioner Davis seconded that Resolution No. 400 requesting prosecutorial assistance regarding the case of State v. John F. Lance be signed appointing Marc F. Racicot, Assistant Attorney General of the State of Montana as special deputy county attorney. Motion carried unanimously.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a MACO Board of Directors meeting in Helena, Montana.

Commissioners Williams and Davis were on hand to attend to office management.

Application for Cancellation of Taxes #725 was approved in the amount of $35.20.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioners Williams and Davis present.

Chairman Tossberg attended a MACO Board of Directors meeting in Helena, Montana.

Commissioners Williams and Davis were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, September 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Tossberg explained a complaint he had received from Laurie Park down in Stevensville on the Wheelbarrow Road. She said it was real rough and they have been having to drive schoolbus over it. Commissioner Davis said that he had received a complaint on the roughness of Tripp Lane but had driven it and it didn't seem too bad to him. There was some discussion on the Gingerich petition. The Commissioners set up a road trip for October 8, 1986.

Chairman Tossberg signed an agreement with the Department of Health and Environmental Sciences for providing local sanitary review of minor subdivisions.

The County Commissioners signed a document approving the "Plan Document" for the Ravalli County Employees Medical Benefit Plan and Administrative Services Agreement.

Commissioners signed an Assignment of Lease for an airport hangar. The lease was transferred from Janis K. Rosenkrans to Verlin and Valela Rosenkranz.

Mr. Dom Ruffatto came in to discuss the drainage problem on his five acre parcel located on Salish Trail.

Mr. John Eichhorn came in to discuss the valuation put on his two lots located on the Golf Course Road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, September 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

At 10:00 a.m. Final Budget Hearing was held for authority to increase funds as shown in Resolution No. 401. George and Jo Vogt attended said hearing and said that their worst concern is the overspending in the District Court budget. The Commissioners signed Resolution No. 401 after motion by Commissioner Williams seconded by Commissioner Davis to adopt said Resolution. Motion carried

Commissioner Williams moved and Commissioner Davis seconded that we appoint Jerry Ehmann as Trustee for the Sula Fire District to replace Bob Metcalf, who has resigned his position as Trustee because he is Fire Chief. Motion carried. unanimously.

Upon motion, the Board adjourned.

Commissioner Davis attended a Mental Health meeting in Polson, Montana.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Easement - E½ 28-7-21 - Unified Industries

Occasional Sale - E½ 33-7-20 - Jenkins

Gift to Family - NW 23-8-20W - McPherson

and the following amended plats were filed:

Sunnyside Orchards #3, Lot 1, Blk. 12 (2 lots) - Arnold Landon

Commissioner Williams moved and Chairman Tossberg seconded that we approve the plat of Sunnyside Orchards #3, Lot 1, Blk. 12 for filing. Motion carried.

Lots 5 & 6, Block 2, Riverview Addition to Hamilton - Smith/Hafer

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 2, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we reappoint Vic Vadheim for another term as a member of the Museum Board. Motion carried.

Commissioner Williams moved and Commissioner Davis seconded that we approve Resolution No. 403 accepting Red Ranch Road into the Ravalli County Road and Maintenance System. Motion carried.

Paul T. Gierach from Western Business Equipment met with the Commissioners to discuss a postage machine for Ravalli County.

Fred Thomas and a representative from Pennco Insurance met with the Commissioners and Bob Brown, County Attorney, to discuss comprehensive insurance for Ravalli County.

A petition with 15 signatures was received requesting that the county road department employees return to eight hour shifts during the limited day light hours. Said petition also requests that the shifts be staggered enabling roads to be cleared from snow and/or sanded any day of the week without the necessity of overtime pay.

Commissioner Davis moved and Commissioner Williams seconded that we approve Resolution No. 402 creating a Planning & Zoning District. Motion carried.

The Board adjourned to meet the following Monday at 8:00 a.m. because of the MACo meeting on Friday.

Hamilton, Montana, October 3, 1986

All three Commissioners attended the MACo District meeting in Missoula, Montana.

Hamilton, Montana, October 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners told Jay about the petition they had received requesting that the road department go to 8-hour days during the winter months. Chairman Tossberg explained a complaint from Sandy McGeorge up Bear Creek Trail where she said that the road department stops grading at the bottom of the hill. Jay said he would check this out. Commissioner Davis explained that he had received a complaint on Carlton Drive where they said it was full of holes. Jay said that his crew is working their way North and will get to this soon. There was some discussion on North Kootenai Road and a question from Henry Rudkin as to when it will be oiled. Jay said that it will not be oiled--that this was not a part of the agreement. Chairman Tossberg asked Jay if the gravel has been put on the road. Jay said that they had not gotten to this but will be getting it done.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - SE 5-18 - Lamoreaux

Ag. & Life Estate - SE 14-3-21 - Smith, Wm. D.

Occ. Sale - SW¼ 30-8-20 - Wisniewski

Reloc. - 21-7-21 - Ronald Andrews

Commissioner Tossberg signed an Agreement for Project Work Program with Human Resources District Council XI.

Commissioner Davis moved and Commissioner Williams seconded the reappointment of Tom Murphy and Pat Zeiler to the Weed Board for three years ending June 30, 1988. Motion carried unanimously.

Fred Thomas, Bob Thomas Insurance; and Doug McLaren, McLaren, Senn & Peterson; and Reba Falk, Administrative Assistant; met with the Commissioners to discuss the County's Comprehensive Insurance. Fred explained that if Penco takes over the Comprehensive Insurance, three policies will be eliminated: the property and liability, the law enforcement, and the auto. This would be a savings of $151,490. Several policies would still be retained and a couple would be cancelled. If these policies are prorated to November 1st, the refund would be $26,560, which would be a $6800 loss from the normal rate. They refund essentially 60% when you cancel a policy. The cost for the Penco program is $146,685, so the net savings over the present one would be around $4800. Chairman Tossberg commented that it looks like they would come out about even. He said that another consideration would be the claim pool--they would own a portion of that. Doug said that another big minus would be the $1,000 deductible. He said that they have had four claims this year and that would be $4,000. Some of the positives on this would be the coverage and the processing. The vehicles would only have to be reported once a year. However, the big negative is that this is not an Occurrence policy, it is a Claims Made policy. He said that these two things are different like day and night. The Occurrence Policy covers a frame of time so that two years down the road, if something comes up, it is still covered. On the Claims Made policy, it does not work this way--if the policy is not renewed with that company, then you are in a position of having to buya "tail" to cover the time frame involved. They do have to offer this "tail", but it is usually for a block of time, and does not necessarily cover all of the time involved. He said that the premium is always less on a Claims Made policy as it is an inferior policy. If the County is considering this route, he would like the privilege of asking CIGNA for a price on a Claims Made policy. Chairman Tossberg said that he would agree that the County is better off with an Occurrence policy. Reba asked what guarantee the County has that CIGNA won't go to a Claims Paid policy too. Doug said that there is no guarantee. Doug and Fred said that their professional opinion would be that it would not be wise to change from an occurrence type policy over to a Claims Made one--it might look good now from the premium standpoint, but watch out down the road, as time blocks need to be covered. Doug said that the reason he has never asked for a quote on a Claims Made policy was because he feels this is a real restricted approach.

Reba asked if there is a statutory limit on how far back they have to be covered and Chairman Tossberg commented that Bob Brown, County Attorney, felt that three years would be adequate. Chairman Tossberg said he would like to know what CIGNAs premium will be next year. Doug said that the premiums are leveling off right now and there will probably only be around a 5 to 10% increase over last year.

Chairman Tossberg explained that the counties in Montana feel that they are being ripped off--he said that he feels they will be doing something to make a change, that County Officials will be taking this risk, if there is a risk involved. He said that the initial premium has never been the sole consideration--the major consideration has been the hope that over a period of time we will not have to buy insurance from the local companies anymore--the ultimate objective is to get into a self-funded program. Chairman Tossberg said that he realizes that Montana has a bad name in the insurance-writing industry, but that is no indication that the Counties should have to suffer--it ought to eventually pay to self-insure as the background experience has been favorable. Chairman Tossberg said that he can think of no time in the past that the claims have been such to merit a premium like our county is having to pay. Doug said that the companies involved have given their best shot in order to get business. Commissioner Davis said that he knows they take this on a national average and can see why they do. Chairman Tossberg said that he does not know if the losses have been that much on a State basis--he wondered if there was some sort of a torque test performance basis, would the premium go down? Fred said that this would not happen the very next year after the good performance record, but eventually, they would go down.

Chairman Tossberg said that the companies they are dealing with--Lloyds of London, CIGNA and St. Paul are all good companies, if the experience that the County has is good, can't the Counties count on getting their policies renewed? Doug said that he supposed they would, but if they ever did not renew, then the County would have to "cover its tail" and this could be very expensive--they are presently paying over $20,000 as a "tail" on the nurses policy and "errors and omissions" to cover the time block.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 7, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bill Stewart, Airport Manager, met with the Commissioners to bring them up to date on happenings at the County Airport.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

All three Commissioners went on a road tour with Jay Unrue, County Road Superintendent.

The County Commissioners posted the notice of public hearing on the Creation of a Planning and Zoning District in Holly Lane in Burnt Fork area of Stevensville. The notice was placed on a power pole at the entrance of Holly Lane, a power pole at the end of the cul de sac on Holly Lane and a power pole at the intersection of Burnt Fork Road and the Burlington Railroad Line.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

At 10:00 a.m., the second reading of the Dog Ordinance was held. Bob Brown, County Attorney; Karen E. West, Bitterroot Kennel Club; Patricia Thompson, Betty Cook, Barbara Ormiston, Betty Cargile, Chris Devine, Ron Garlick, Robert M. Franklin, Fritz Bell, Dee Wright, Lauri Hazen, Lance E. Foster, Robert D. Hoy, Carol and Allan Walters, John W. Robinson, Evelyn Hard, G. F. Stoos, and Ronnie Pasalich attended.

Chairman Tossberg stated that this was the second reading but said that they had enough constructive suggestions after the first reading that they have made some changes, which will mean they will have to have another reading, so a final decision will not be made today. Chairman Tossberg pointed out the changes that have been made. He stated that it was called to their attention that the ordinance that they read in the last meeting was not perfectly clear as to applying only to the unincorporated areas of the county as the cities have their own controls. He said that the Commissioners do not want to tread on the cities' turf and create problems in that regard, so in the first paragraph they have stated "...general welfare in unincorporated areas of Ravalli County..." Darby, Hamilton, Pinesdale and Stevensville will not be affected by this ordinance. He pointed out that another sentence was added in the third paragraph "The head of any dog that has bitten a person and has been subsequently destroyed shall be submitted to an appropriate diagnostic laboratory, if deemed necessary by competent authority." This was done after comments from people from the Rocky Mountain Laboratory who felt that if the dog is suspected to have rabies, this should be checked, and this would take care of the problem. Paragraph 5 was changed to add "at his expense"; and paragraph 6 was changed to eliminate "City Judge" as the cities will not be involved. Paragraph 6 was also changed to "notice shall issue to the owner thereof" to make it grammatically correct. Chairman Tossberg said he would be happy to read this ordinance but since everyone has a copy of their own, he would give them a few minutes to read it themselves and then would welcome some public discussion. He said he would like to say that he was glad for the good attendance since six months ago a hearing was held and only six people attended.

Dr. Fritz Bell -- said the definition of vicious dog troubled him--it would seem to include the normal beagle dog who in the course of his training chased animals.

Chairman Tossberg said he would defer this question to the County Attorney as this is a statutory definition, and it would appear that the Legislature would have to change it. Bob Brown confirmed this by saying that this was the way it was in the statutes and we will have to wait until the Legislature changes the statutes before anything can be done.

Commissioner Williams asked what Dr. Bell would suggest.

Fritz Bell said that he would like it to say "excepting a stock dog or hunting dog which would do so in the course of its normal activities".

Bob Brown said that normally these dogs are under the control of their owners while hunting.

Fritz Bell said that this is not always so--the dogs are so far out in the brush that they might stay away for a couple of days while still on their chase.

Bob Brown said that he thinks the court would determine that they are under the owners control.

There was more discussion on the ways of a hunting dog and Bob said that it all comes back to the way the definition is in the statutes and this can not be changed except by the Legislature.

Fritz Bell said that saying that a dog who "bites, or attempts to bite any other animal" is vicious should be changed as his dog bites gophers and squirrels, but is not "vicious".

Bob Franklin expressed his concerns about the same issue. Chairman Tossberg said that they have to go by what Section 7-23-2109 (3) M.C.A. states.

Ron Garlick, Candidate for Sheriff, stated that the Sheriff's Department would be charged with the administration of this act in Paragraph 3 "shall be deemed to be a public nuisance and may be killed forthwith by any person---an officer shall be notified and the officer shall kill---". He objected to the "by any person" statement and said he believed it would open the door to anyone dispatching that animal without provocation, which would result in a larger burden on the Sheriff's Department. This is opening the door to a real liberal interpretation as to what a dog is doing in "Mr. Jones' pasture next door..." He stated that Paragraph 4 states "The officer"--who is the officer--the humane officer, the Sheriff's Officer, the Fish and Game officer--he said he felt this should be

state in what manner the dog be destroyed--will the dog be put down in a humane way?

Betty Cook from the Humane Association said that the Humane Assoc. would like to address these same issues.

Lance Foster said that there is not always a chance to get an animal contained by a veterinarian, sometimes they have to be disposed of immediately. He said that you can not make a law so specific that you bind the hands of the elected public officials--you have to trust the officials that have been elected to use good judgement.

Chairman Tossberg said that maybe this could state "...Sheriff shall see to it that the dog is destroyed..." He does not necessarily have to accomplish this personally, but could direct the responsibility. Chairman Tossberg said that he suspects that the Sheriff would be delighted to have the Humane Society handle this.

Ron Garlick said that he would have to agree with Lance Foster in that there are occasions when a dog can not be captured, and the Sheriff is going to have to have the latitude to dispatch the animal as humanely as he can--he said that he does not think any officer would be inclined to do it any other way.

Betty Cook said that she would like to have this say "...Sheriff shall see to it that the dog is destroyed in a humane manner."

Chris Devine said that there should be an understanding that it could be on the spot at the moment it is needed.

Robert Hoy said he would like to disagree with Ron about Paragraph 3 where it states "...domestic or game animal...". He says he agrees with this wording and gets calls constantly about dogs chasing deer--he said these dogs should be shot right then or they will get away and do this again and again as once a dog starts to chase deer, they will continue to do so until they are disposed of. He said that he has the authority right now to kill these dogs as a game warden, but the chance of him being in the right spot all of the time is nil---he would like the ordinance to read that if someone sees a dog chasing deer, that dog can be shot.

John Robinson commented that we already have a statute that provides that a dog chasing livestock can be killed--this ordinance is just an extension of that statute--this just adds people too. Mr. Hoy said that there is no statute that provides that anyone but specified officers can shoot a dog who is chasing a deer--he would like this left in this ordinance.

Bob Franklin stated that he lives in the city and would want to prevent someone from coming into his yard and killing his dog.

John Robinson pointed out that the ordinance reads "kill forthwith" which means in the act. Bob Franklin said then that means he can not track the animal and kill it at your house. Bob Brown explained that they would have the alternative to prove in court that it was your dog that did the damage, but if they could not prove it was your dog, the case would be dismissed.

Evelyn Hard stated that she has a greyhound that got away from her for a few minutes and was playing with the neighbors' cattle--could they have shot her dog? Bob Brown explained that under the existing law it is provided that if a dog is chasing livestock and is caught in the act, the dog can be shot.

Evelyn said that some people have an innate fear of all dogs--she does not want this ordinance to provide for wrongful condemnation of the dogs because of someone's false accusations--- She said she wonders if 24 hours is enough time to establish what should be done. Bob Brown explained that this is just to give the owner a chance to take care of the dog--if he doesn't it goes into the court's jurisdiction through the County Attorney. At that time the owner is permitted to offer evidence and the most common thing is that they are unable to specify the particular dog and the action has to be dismissed. If the dog is identified, then it would be destroyed by the court.

John Robinson said that he feels the 24 hour thing is confusing--it applies to the owner, not police officers--if the owner does not take care of this, it goes into the legal process--the 24 hour time limit does not mean the dog has to be destroyed, it just gives the owner an opportunity to do this himself.

Evelyn said that she thinks there is room for misinterpretation. Bob explained that should this happen, the owner would have the alternative to go to court and charge the individual for damages because his dog was improperly accused.

Barbara Ormiston said that in #3, if a dog should bite a child and then someone would shoot it in the head, the evidence to determine if it had rabies would be destroyed, so she disagrees about the shooting unless it could be determined that the head would not be destroyed.

Lance Foster said that this is providing for a person who is being attacked, so the objective is to save this child from injury.

Barbara Ormiston--we have had cases of dogs who were brought to the shelter because they have bitten someone--I don't think there has been a case of rabies for 25 years (that is what the veterinary tells me), but we are required to keep them for 10-14 days--that is a part of our duties. My objection

killed--I just don't think anyone should be allowed to be shooting.

Dr. Fritz Bell--I have worked with rabies for 35 years in the public health service and they only need a small part of the brain to determine rabies--just a fragment is sufficient--the whole head is preferable, but even a part of the salivary gland or a hair particle is sufficient. This should be frozen, preferably, and sent into the lab at Bozeman. It is desirable to keep a dog for ten days who has bitten someone--however, the dog will die within that ten day period if he has rabies. Another thing that is helpful is to determine whether the dog has been vaccinated. If the dog has been vaccinated within the past year, there should be no problem. However, the length of time since vaccination should be considered as the effectiveness of the vaccine diminishers as more years pass between the time of vaccination.

Lance Foster commented that he thinks there is a mindset on #3. He said that if a dog comes into a yard and disappears, we have a larger problem if he has bitten a child as the child will have to be treated against rabies as a precaution. He cited an incident in Washington with Pit Bull dogs who bit again and again--he said that the citizenry of our county should be able to shoot a dog who continues to attack and that should be the first consideration--the protection of the person involved. After that, a determination can be made about the rabies issue. He stated that not everyone obeys the laws anyway and the person who would shoot a dog without cause would probably do so with or without an ordinance.

Chris Devine asked if we could clarify this by saying the dog could be shot if attacking a person, but not livestock. Lance Foster said that it is already in the law about the dogs being shot if attacking livestock. Chris said that if they are shooting they might hit the child. Lance said he felt that person should have the right to make the decision as to whether they could shoot without harming the child.

Commissioner Williams asked whose responsibility it would be to get the parts of the animal to the lab to be tested. Dr. Bell said that usually it is frozen--if so, it can be determined a year later, and up to 7 years later. Commissioner Williams said he suspected people would be reluctant to do this and Chairman Tossberg suggested that our health officer (Dr. Bell) could help them.

Commissioner Davis reaffirmed the statement that even if the dog were shot in the head, there would probably be enough evidence to make the determination on rabies and Dr. Bell agreed, stating that even a portion of the spinal cord could be used. He said that this did not used to be the case, but with the new methods, it was not necessary to have the whole head.

John Robinson said on the 24 hour issue, he feels that the statute was designed to give this time as a humane thing for the owner of the dog, so he would have opportunity to take care of his own animal--it probably is not a necessary thing to even have in the statutes.

Evelyn Hard asked why we need this new ordinance if the statute we already have provides for these things and Bob Brown explained that it just provides for livestock, not people.

Chairman Tossberg explained that an ordinance like this when established by a body like the Commissioners has a 5-year life, if it is not renewed, it disappears. It is also possible to rescind it prior to the five-year period. If this goes into affect and we find that it is creating more problems than it is solving, then the County Commissioners will just rescind this ordinance. These things, unlike Moses's tablets, are not written in stone, and changes can be made.

John Robinson suggested that since we already have a statute on livestock, the animals could be eliminated and the provisions could be made for people only. Bob Brown explained that the statute does not provide for other dogs, game animals, etc.

Chris Devine explained about his dogs getting onto Mildenbergers' property and Harold coming to him and saying that if it happened again, he would shoot the dogs--Chris said he understands that this is necessary as people have money into their livestock and can not allow this.

Pat Thompson commented that if you have livestock, you just don't want them chased--it is not good for them.

Bob Franklin said that he hopes that when this law is put in the papers that it is strongly emphasized that if the dog is not killed "forthwith" in the act of commiting the crime, it then has to go into court proceedings. There was some discussion on this and it was determined that the word "immediately" instead of "forthwith" might be easier to understand.

Lauri Hazen asked for #9 to be explained. Bob Brown said that if the property was posted, this would warn people of a vicious dog. Also, the enclosure should be one that would hold the dog. Lauri asked how this could be determined and Bob said it would depend upon the type of dog and what it takes to hold it. If the dog gets out of its enclosure, then the owner is liable for any damages. Lance Foster suggested that the Humane Society could probably give guidelines for this.

Betty Cook asked if the wording for #3 could be changed to read "in the act".

There was more discussion on the words Forth With and Dr. Bell said that the dictionary defines it as "immediately". The Commissioners agreed that this could be changed to read "immediately."

Dee Wright asked for an explanation on "sufficient warning" in #9. Chairman Tossberg said a sign such as "Vicious Dog". She said that in some places this is an indication that you are harboring

a vicious dog. Bob said that a lot of people do keep a vicious dog for a watch dog, but there is an obligation to protect people from this dog.

Barbara Ormiston thanked Dr. Bell for clarifying the rabies issue as she said she had been informed that the whole head was necessary. Dr. Bell said that this used to be the case. Barbara asked how soon this piece of the dog needs to be obtained--would it be okay if the child had to be cared for first and Dr. Bell said it would be okay--even with a little spoilage, the determination can be made, but this should be taken care of as soon as possible.

There was some discussion on the rabies issue in the County and Dr. Bell said that for 20 years they have found rabies in bats consistently. He explained the species that carry rabies. He said that w do not seem to have the concentration of cats and dogs in the County to create a problem.

Chairman Tossberg said that the Commissioners will be attempting to incorporate the suggestions made today into the ordinance and will try to make the next hearing the last hearing on this ordinance. He thanked the people for attending.

A letter dated 10-2-86 was received from Robert E. Gingerich withdrawing his petition to abandon that portion of second street in Corvallis which lies west of his Corvallis property.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Tuesday at 8:00 a.m., because of the Columbus Day holiday.

Hamilton, Montana, October 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Mrs. Shoemaker was in to discuss an alley which adjoins her property on Lincoln Lane. She said Fred Anderson had cut down an apple tree in the alley this weekend in an attempt to open it up, and she wanted to object. The Commissioners referred her to Bob Brown, County Attorney.

Tony Bowdino was in to discuss a septic permit on Kurtz Lane. He said he applied for one in 1982 and again in 1985 and was turned down, but recently found a variance which was given in 1977 and brought it in. At that time he was told that the variance would probably be okay and he could go ahead and get started on a mounded system. Tony said that he had an engineer working on it and then came back in and they said he could not have the variance. He said that he feels that the Sanitarian and County Attorney have doubletalked him, and he would like to get this straightened out. Chairman Tossberg asked if the variance had been on the whole piece or just on the part Tony had. Tony said that it had been on the whole piece. Chairman Tossberg asked how the monitoring had gone and Tony said they had monitored it twice and water was down 24 inches. There seems to be a real problem when they irrigate up on the stock farm, the water seems to rise down in this area. He said that Bob Brown tells him that the grandfather clause does not stand in this case because a permit was not issued. Tony said that when Entrophy Acres was done, the plat states that it was filed erroneously the first time. Chairman Tossberg asked if this variance was for a Wisconsin Mounded system and Tony said it was. He said that several people in that area have mounded systems, and some have regular systems. Chairman Tossberg explained that the Commissioners have tried to take the position that if something was done wrong in the past, that was no reason to do it wrong again. Tony said he would like a meeting to discuss this. Chairman Tossberg said he would talk with Bob Brown and Don Mullin and get back with Tony on this this week. His number is 363-4025.

Commissioner Williams moved and Commissioner Davis seconded that the doors be closed for a personnel matter in the Road Department, in which the right to personal privacy clearly exceeded the publ right to know. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Mr. and Mrs. Shoemaker met with the Commissioners in connection with their problem on Lincoln Lane. They had talked with Bob Brown, County Attorney, who said that the Commissioners should either make a formal notification to Fred Anderson that he should not do anything more to open up the alley, or direct the County Attorney to give such notice. They said they are concerned about his conduct. They said that the County Attorney said that the fastest way to give notice might be to send the Sheriff out to tell him that he should not proceed any further without going the route provided for in the law. They say that the shed is into the alley about 1½ feet and the garage about 2 feet, and he has moved some fences in the alley. They said that they are concerned about his temper and the position he has taken in stating that he has the right to do this. He said that he has talked with an attorney on this. He wants to park trucks back there and put in a big garage. This is a 15 foot easement. Commissioner Davis said that he would advise the Shoemakers just to stay away. Now that the Commissioners have been told, they will take care of the matter. Mr. Shoemaker expressed his desire to get this road abandoned.

Fred Anderson came in to visit with the Commissioners in response to a telephone call from

Chairman Tossberg. Fred admitted that he had made a mistake in taking out some fence. He said that he had received permission from Vivian Kirchner to remove the obstructions in the alley on September 15th, and should have done it then, but got mixed up on this, so the woman has a legitimate complaint on this. Chairman Tossberg said the alley had not been used since 1908. Fred said that it had been used. Chairman Tossberg explained the procedure to open up an alley, or vacate the alley, whatever the case may be, and said that none of that process had been followed. Chairman Tossberg said that he was here to tell Mr. Anderson that he is opening himself to legal action if he goes ahead and opens this without going through the legal procedure. No one has the right to open up an alley that has not been used without following this procedure.

Fred wondered why he was not allowed the privilege of using this land when it belongs to the public and the Shoemakers are the only ones who get to use it. He drew a picture to show what buildings are infringing on the alley and where the pins to mark the survey are located. Chairman Tossberg asked how long the garage has been in that spot and Fred said 24 or 25 years--it was moved in on logs on Thanksgiving day.

Following review with Don Mullin, Sanitarian, the following Certificates of Survey were filed:

Boundary relocation - E½E½SE¼NW¼ 35-15-22 - Carl Lybarger
Over 20 acres - S½ 29-9-19 - Lambert
Occ. Sale - W½NE¼NW¼, S11T7N, R21W - Silas Lawrence
Occ. Sale - N½SE¼ S1T2NR21W - Elmo Hammock
Retracement - SE¼ 35-8-20, Blk 22, Lots 8-11 Home Acres Orch. - Peirce
Family Transfer - NE 33-6-21 - Irving Humphrey
Court Order - SE 16-9-20 - Antonio Otero
Mtg. Rel. - SE¼ S16 T8N R20W - Wayne Dayton
Mtg. Rel. - SE¼ S16 T8N, R20W, P.M.M. - Wayne Dayton

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 16, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg present.

Commissioner Williams was out of the office for the day.

Commissioner Davis spoke to about 110 employees of Beech Transportation on I-27.

Madge Buck came in to discuss the Corvallis-Pinesdale school situation and also the taxes on her mother's home in Corvallis.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Over 20 acres with remainder - SW 32-7-20 - Sinrud

Chairman Tossberg signed a Federal Assistance Application for Ravalli County Head Start.

Ed Schilke came in to complain about the taxes on his Big Sky Trailer Court.

Commissioner Davis moved and Chairman Tossberg seconded that we reappoint Edgar Wetzsteon to another term on the Ravalli County Weed Board. Motion carried.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, October 20, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Tossberg said that Bob Thoft had called to complain about the roads up on the bench by his place. Chairman Tossberg said he had explained that the Commissioners had just been up there and thought the roads were in pretty good shape and Bob said they needed some gravel. There was some discussion on gravel work that is being done and Jay said that they will be paying the State back for some gravel they have borrowed from them. During the winter they will do some stockpiling of gravel to prepare them for the work next summer.

Commissioner Davis brought up the unsafe conditions down in Florence at the turn-off to the store and there was some discussion on this.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

N½ 19-10-19 - Antrim

The Board adjourned to meet the following day at 8:00 a.m.

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Dog Ordinance Hearing was held at 10:00 a.m. in the District Court courtroom of the Courthouse, as follows:

Chairman Tossberg began the hearing by saying that this is the fourth meeting we have had with respect to the dog ordinance. He said that he has a letter he received this morning and read it for the benefit of those present. See letter on file in the office of the County Commissioners from the Montana State Houndsmen Association, dated October 18, 1986, signed by Steve W. Mitchell, President, Montana State Houndsmen.

Chairman Tossberg then explained that since the last meeting we had on this, two additions, or corrections, had been made. One of those was suggested by Dr. Horton, the Veterinarian in Corvallis. What he suggested, we chose to adopt, it is the third paragraph in the last sentence of paragraph numbera #3--we had originally said that the dog's head would be submitted if deemed necessary by competent authority, and he suggested that we change that to "unless deemed unnecessary" by competent authority and we thought that was a very worthwhile suggestion. The other insert in this really came as the result of some discussion with members of the Houndsmen's Association and also a phone call that I had with Mr. Hoy from the Fish, Wildlife and Game, and that had to do with the fears on the part of the houndsmen that their animals might be shot while chasing lions or bobcat or something of that nature, and Mr. Hoy suggested that we insert the word "hooved" game animals. The primary concern of the Fish and Wildlife department is deer, and to a lesser extent, I guess, elk, and if hounds are chasing wildcats and lions and it is the proper time of the year, I guess that is just fine, and we had no problem with that, so we have inserted the word "hooved" there. With those remarks, I would like to open the meeting to public discussion, and we would be delighted to hear from any and all of you, one at a time, and if you would be good enough to give us your name, as you stand up.

Skip Ward--President of the Montana Houndsmen Association--cited an incident when he was hunting up by Victor and had just gathered up his hounds and was starting up the road when Del Cameron's hounds came down the road because he was hunting up above. He said there was a woodcutter sitting up there who had been drinking beer and had guns with them and they were ready to shoot Del's dogs when they got there. Skip told them the dogs were legal--they were running a lion. He said that anytime, if anybody has a legal excuse to shoot somebody's dog, they are going to shoot it. He said that Ravalli County needs a dog law bad. He said he makes his living in the wintertime with his hounds and he does not need somebody out there shooting a $5,000 dog because they think they have legal permission to do so.

Carl Martin, Jr.--presented a petition signed by a couple of hundred people from Ravalli County from the Houndsmen Association. He read from the petition: "We, the undersigned, oppose the proposed Ravalli County Vicious Dog Ordinance in its present form. (You have changed some parts of that since we got this petition). We are particularly concerned with Article 2, Definitions; (I understand that you didn't make that definition.) Article 3, Allowing for the immediate killing of a dog by anyone (As long as it still says that, everyone who has signed their name to that still believes their name should be signed to it); and Article 11 which says you are going to throw us in jail if we chase a cat. I think we need a dog law too, but this is the man here (Dale Dye) who needs to enforce it, we don't need people running around with guns shooting our hounds.

Randy Alford--I am curious about the definition of "domestic"--does that get down to other cats and dogs? If a dog is walking down a road and sees a cat in the bushes, and chases the cat, then we have a vicious dog--

Chairman Tossberg referred this question to Bob Brown, County Attorney.

Bob Brown - I believe it would under the statutory definition because it says domestic animals and a cat and all dogs are considered as domestic animals.

Randy--Why are we going by the state definition?

Bob - It is the state definition in the statute that authorizes the county to even have a dog ordinance--a county can not pass any law except those that the statutes specifically allow them to pass, and they have a state ordinance allowing the killing of dogs chasing livestock, but for the vicious dog ordinance, they leave that to the county, but they define what is a vicious dog.

Randy--I agree with the part about the dog that bites kids, but I don't like about dog chasing cats---

Lorrie Dee --In the ordinance as it is written up right now, it defines nothing about stray dogs. I know of several instances where there have been stray dogs that have bitten children, or even adults for that matter, and the only thing that is said is that they come and take the dog and take it to the humane society and the people can go down and pick up the dog just for the price of making sure that the dog gets its shots.

Chairman Tossberg--I think the ordinance addresses all dogs, and whether they are stray, or someone's pet, they would be dealt with in the same manner as provided by in the ordinance. Are you concerned about the fact that there are stray dogs that people are not taking care of?

Lorrie -- This is my main thing--you say "owner". Every person who owns, harbors, or keeps

Dale Dye--I believe that it is pretty hard to arrest the owner of a stray dog.
Lorrie--I agree with this totally, but my main point here is, this is an ordinance for all unincorporated areas of Ravalli County, which boils down to Florence and the Corvallis area, is this not correct?
Chairman Tossberg--well, there is a good deal more to it than that---
Lorrie--those are the only two unincorporated towns in Ravalli County
Chairman Tossberg--and Victor, this applies to everything except Darby, Hamilton, Pinesdale, and Stevensville. All of the rest of the county, with the exception of those cities would be included in this.
Chuck Collier--I talked this over with as many houndsmen as I could get to over the weekend and we are still totally opposed to this--it leaves open too much of an opportunity--as these dogs run lions or coons or bobcats, many times a deer will jump up in the vicinity, many times you will run a lion through a deer yard, they will scatter. This leaves too many things open and I realize unless you are involved with hounds you don't understand the expense--I think if you talk to any houndsman, you will find that a good lion dog is going to cost you anywhere from $5,000 to $25,000, and not even 10% of the hounds that are raised in this part of the country will work--if you get one dog shot, the expense of that is going to be tremendous--somebody is going to have to replace the dog. I still think that the Game and Fish and the Sheriff's office have got to be the people doing the shooting. The Game and Fish can come out and check and he can see if the dog is running lion or deer, he can look right in the snow and you will know. As far as hunting coons and things like that at night, the Sheriff can check on that--if he shines his light up in a tree and sees that a dog has a coon in the tree, then he is legal. I think we are going to have problems if people start shooting dogs. Some of the houndsmen can get pretty protective of their dogs and you are liable to have some real battles going.

Del Cameron from Stevensville--On this dog ordinance, I think we need one in Ravalli County, there is no doubt about it. The happenings in Corvallis prompted this. I totally agree that we need something here, but as this "vicious dog ordinance" is proposed, it outlaws all hunting with dogs in Ravalli County, it does not provide for the bird hunter. When the public is allowed to have open season on dogs, you are declaring war on man's best friend. The problem is not the dogs themselves, but the people that own them. The dogs should be under control. I would say that 99% of those people who own hunting dogs control them. They keep them tied up or in kennels. It is the pet owners who think the dog ought to go out and have some exercise where the dogs get out in the country and cause the problem. This also attacks the rancher--there are so many dogs running around chasing cattle and killing sheep and that sort of thing--if the public would see the dog chasing cattle, they could shoot the man's dog. Any working dog is valuable to that man. It is costing him money, time, and hours spent to train that dog, and this ordinance does not take into consideration the working dog or hunting dog at all, and I would like you to consider that aspect in this ordinance.

Bob Brown--I would point out that as far as any dog chasing livestock, there is a state law that says anybody that sees it can kill a dog right now, and that has been on the books for years, so this doesn't change that part of it at all.
Chairman Tossberg--I would like to ask you a question if I may, you indicated that at least in your opinion that this particular ordinance would really preclude people from hunting whether it be game birds or lions with dogs, and I would be interested as to how you read that into this ordinance.
Cameron--The law says that any dog that bites, or chases, or is presumed to do so. Back on page 2, under D., the dog was acting under the order of his owner. How is the public going to know this--say I turned a dog loose to chase a lion and the trail turns cold and the dog hits the road and is coming home and some guy down the road sees a deer cross, and he immediately thinks the dog was chasing it, and decides to shoot it. It is putting the cart before the horse here because he was acting under the orders of his owner who turned him loose on the lion track. But you see, if the dog is out there beyond our reach, he is supposed to be under our control, and unless somebody intervenes and assumes something that is not so---
Chairman Tossberg--I guess I would certainly grant you that a case like that is certainly a possibility. I think on the other hand there is a supposition at least that the people, so to speak, have some intelligence. I don't have a feeling that there are a lot of dog haters out there just lurking in the bushes waiting to shoot dogs--most people like dogs, including the three County Commissioners, incidentally. But I think some of the events you are describing could occur whether or not this ordinance was in effect. Obviously, what we are predominately concerned with is trying to protect people. We have got a law that protects livestock right now, we really have a law that tends to protect game animals, but we don't have one that protects people.
We need a law also that protects dogs (someone from audience).
Chairman Tossberg--Actually the law right now protects the dogs better than it does people, and maybe that's a good thing---
Bob Hoy--(Fish and Game) Most of the time the hounds are out is a time when there are very few people out, or at a time when you can't really shoot the dog--if you are chasing coons at night, nobody is going to shoot. In the wintertime after hunting season, in the lion season, there will be a few woodcutters, a few skiers, but not many people out there, and most of them use common sense and would not shoot a

dog. The case where I am concerned is somebody eating breakfast, or whatever, looks out his window and sees a deer go by his window with his tongue hanging out and a dog right behind it. He has no idea who the dog belongs to, and no way of finding out, and I know from personal experience that once a dog starts chasing deer, they will always do it, until they are killed or get too old. The only way to stop it is kill the dog.

Carl Martin--I think this thing opens a general hunting season on dogs in Ravalli County. We don't need that, and Bob, we have a man, up in Region 1, who wears the same uniform you do, shoots every dog he sees in the hills, and you probably know the man, and we can't have anyone stand here and tell us that there aren't people who won't go out and shoot every dog they see in the hills, because they will--we just can not have it--these dogs are expensive to replace, and we can not afford to replace them, we have worked a long time to get what we have got, and people will go up and shoot them just to watch them die-- I thin the people in Corvallis, the guy is sitting right there (Dale Dye) who can solve the problem. You can't turn everyone loose with a gun and say "Go shoot dogs, if they bark at you, or growl at you, or bite you" You are going to have a lot of emotions flying, some guy is going to shoot some other guy's dog and prett soon we are going to have people shooting people. We can't have that kind of stuff--that is what we elec public officials for--Bob can take care of it, Dale can take care of it--we can not have people running around shooting dogs--I don't see how we can have it.

Cameron--I can give specific examples if you want--winter before last, I made a snowmobile trip up St. Marys, was just enjoying the day, and up the road, to my complete utter startleness there was a woman wit ll dogs, ranging in size from an Afghan type on down--four of those dogs approached me--I just stopped, I couldn't believe what I was seeing--that many dogs running loose--four of them approached me growling. I carry a handgun most of the time and I wondered whether or not I was going to have to use it because it looked like they could easily jump up on me and the snowmobile, I took pictures because this is something that people don't usually believe, --now this woman had these pets and she has every right to have them, but under this kind of a law, I could have started blasting away--

Chairman Tossberg--not until you were bitten---

Cameron--they could have easily--I have been out and have seen hounddogs out--when they get up in the hills they get wild--when they see a deer trail they get vicious and run down deer just like Bob says, but they are up in the hills where nobody but another hunter might be-- I got out of my pickup one time to take pictures of four dogs and they growled at me--I backed off and got to my pickup where I had a gun because I didn't know if they were going to attack. Some of these dogs are acting like some people, they are getting halfway vicious. The control should not come from the public, it should come from the owners controlling their dogs and taking care of them. Most of the hunters keep the dog under control.

Chairman Tossberg--I don't think any of us could take any exception to that--if people took care of their dogs, we would have no dog problem.

Betty Cook--I was just curious, did the woman call her dogs off?

Cameron--she grabbed two and held onto them, but she did not have control---

Dale Dye--Fritz, could you explain the theory behind allowing immediate destruction of the dog?

Bob Brown--You have got situations where you almost have to if they have a child down, you aren't going to call the Sheriff and have him come out and shoot the dog.

You aren't going to shoot the dog standing on a kid either---

Dale Dye--I don't think there would be anybody who would protest an action of that type in self defense. Certainly no reasonable law enforcement officer would attempt to arrest an individual for defense---

Bob--Okay, how are you going to know that dog when it leaves though?

Dale Dye--It does present a problem from time to time, but ordinarily, with the last dog problem we had, it was at night and you couldn't shoot a dog anyway--we have had pretty good identification and have had pretty good success in tracking down the owners. The example that brings this to mind, everybody knew the owners of the vicious dog. I can't think of any incidents where people were attacked that were reported to my department that we were not able to eventually come up with the owner of the dog--maybe it wasn't immediately, but generally if a dog has the reputation of being vicious, it is well-known in the community the dog lives in.

Chairman Tossberg--How has that worked out in Corvallis, Dale?

Dale--well, the lady that asked the question about stray dogs has the biggest point--when you run into a stray dog that doesn't seem to have a home, and it is tracked down, and generally you are faced with more than one instance of attack, after the second instance, there are generally enough people concerned about the dog that have notified that they pretty well know where he hangs out. In Corvallis, in Grantsdale, and some of those other more heavily populated communities, there are more stray dogs than there are elsewhere. But even then, I would be very concerned with somebody in Corvallis shooting a stra dog and perhaps shooting some innocent bystander just to get the dog. I can appreciate the houndsmen's position. I used to run hounds, and I know that was a concern. I wonder if you wouldn't avoid a lot of hassle--the reason I opposed the dog ordinance some time ago was that people use people's dogs to get bac at one another--I have been involved in that, and sometimes a little time will shed a whole lot of light on the circumstances surrounding the incident that isn't available when you give the individual the

authority to do the immediate execution. I just question the wisdom of the law allowing the immediate destruction of the animal. Number 1 you have a rabies problem, and if he does shoot him in the head with a high-powered rifle and blow his brain away, you can not make a determination on rabies.
Chairman Tossberg--we had that put to rest by Fritz Bell last hearing, that is not the case. They can take a piece of the backbone, they can take a hair follicle from the mouth--there are a number of different tests that work adequately, so that is not the case---
Dale--I stand corrected--
Chairman Tossberg--We learned a lot last time too--we are learning a lot as we go on, believe it or not. I guess the point I was trying to get to is we have Mrs. Pasalich here and I would like to ask her to comment if she would care to whether she feels satisfied about how the dog situation has been taken care of in Corvallis.
Mrs. Pasalich--I would like to ask Dale--what would your solution be when the dog was attacking?
Dale--now, or if you had an ordinance?
Mrs. Pasalich--if we had an ordinance, if a dog was attacking people?
Dale--under this ordinance, our first move would be to go down and impound the dog--take him to the humane society--at the humane society it would be observed for a minimum of ten days--during that ten day time, we would do a background investigation on the dog. We would give our information to the County Attorney and he would evaluate it and see if there was evidence to charge the owner for harboring a vicious animal. If there was, complaint would be issued and the owner would go to court and have the opportunity to defend himself. If he were found guilty, then the court would order the dog destroyed.
Mrs. Pasalich--the dog would be kept while this was going on?
Dale Dye--the County Attorney can get a temporary restraining order on the owner to keep the dog impounded within the confines of the humane society, that way we can keep an eye on it---
Mrs. Pasalich--you have a law protecting animals, could we just delete it and just do people?
Chairman Tossberg--that is a very good point, there is absolutely no reason why your legislators could not pass a law that would be equivalent for humans to the one they have for animals--it is just not in the Montana laws at the present time, but there is a provision in there that allows the County Commissioners to adopt an ordinance, or a City Government to do the same thing with respect to dogs.
Betty Cook--I would like to address Dale--do you feel then that we don't need this ordinance?
Dale--No, I am in favor of the ordinance--I am just dubious on whether it is necessary to put in the ordinance that the dog may be immediately destroyed. I believe that the circumstances where the human life or safety of an individual is at stake, then the individual must resort to those means, then that can be determined by the investigating officer at that time. The County Attorney may evaluate it and I can't believe that there is a civil court in this land that would uphold a judgement against an individual defending himself and his family against the dog, but I don't see any sense in giving written authorization for this to happen. To me, I might give a brief example, a couple of years ago up in Darby, we had a fellow out with his dog. There wasn't any season going. The dog wasn't any kind of a bird dog or a hound, it was just a dog. He heard a gun shot, went up the hill 100 yards, and the dog lay dead, and the guy standing there with a smoking rifle. He claimed the dog was running a deer--we never found any evidence to indicate the dog was running a deer, and he was not authorized to kill the animal in the case of a game animal--the Fish and Game are authorized, law enforcement are authorized, citizens are not. I believe that we charged him with criminal mischief and he beat the case. It is my belief now that the individual shot the dog, for whatever reason, that there was no justification for the action. This gives him a viable defense if it is written that he may immediately destroy the animal.
Betty Cook--Let me go a step further--how would you change this ordinance?
Dale Dye--I would eliminate the part where the dog may be immediately destroyed.
Commissioner Williams--Mr. Chairman, the thought occurs to me--it says here "may"--it doesn't mean Shall--it is may--there is the option for rational thinking on the parts of the people that are involved--I have hunted many, many years--I have been around dogs, and I think the intent here is that a dog that is vicious can be killed immediately as necessary and I don't think, there may be some people who enjoy killing a dog--I think whatever type of ordinance we propose, there will always be something that is wrong, and I am just trying to think what possibly could be written to cover every situation and every persons wants on a particular ordinance. We are faced by the facts of the state as to what we might do, we are trying to handle a very difficult situation that occurred at Corvallis, and it boggles my mind to try to figure out what in the world could be done to keep everybody happy. I think common sense applies.
Dale Dye--Yes, common sense is a good deal, Frank, I agree with you, but this is presenting a problem, a very viable problem, a probable problem that I see--suppose that we have a dog problem in Corvallis and a guy gets overwrought and doesn't phone my department and takes it upon his own and goes out to shoot the dog and he shoots into his neighbors' house--then we are going to have to pass a law where you can't shoot in described areas--in that case he is a whole lot better off to call my Department, but he is allowed under the ordinance, he has a viable defense, if he felt necessary to kill that dog at that time--he couldn't get any response to my department, or he didn't feel there was adequate time to call me--I just think it heads off the hot-heads that you don't want to have to deal with--

Chairman Tossberg--It seems to me what this is starting to boil down to is probably the remaining objection that houndsfolks had in terms of a person, and I guess I am hearing the Sheriff say that he is not real eager to have a person able to shoot a dog, and you fellows are saying that same thing, and it would appear that if some modifications could be made in that area--I guess I would ask you Dale, would this give you any new tool that you don't presently have?

Dale--Yes, absolutely--

Chairman Tossberg--You feel it would ---

Dale Dye--the Provision's there for handling it, naturally there are going to be some cases that would be complicated because of a poor description on the animal or the dog being a stray animal, and you can't readily locate--this is going to happen. But I think by and large, the law is adequate to handle just the situation we had in Corvallis--where you do down and seize the dog and impound it--the County Attorney can evaluate the case--you are given the time to run a background on the dog to determine if he had that reputation, if he was provoked, if there were any extenuating circumstances--the dog can be continued in impoundment through action of the County Attorney, and the correct determination made. We have had people stomp over to other people's houses with shot-gun in hand because the dog was barking at night--"I'm going to shoot that***if you don't shut him up"--it is a shame that it goes this far, but it does--people get upset and tend to do upsetting things--I just can see all kinds of trouble coming down the line where you and I are neighbors and you have got two "vicious" dogs and I have got a dog and he's vicious and yesterday they were over the fence and if your dogs came over the fence and jumped on mine, I could blow them away under this ordinance--none of these are vicious--but they are goi to fight--Bob Franklin pointed out the example of him walking down the street and he didn't have his dog on a leash and a man walked up and his dog growled at him and the dog won't bite anybody, it is just his way of greeting somebody--the guy could whip out a gun and blow him away--I just think it is kind of dangerous to allow this--

Chairman Tossberg--you think it is too permissive in that area then--

Dale Dye--in allowing the immediate destruction--I'll go for that on people, if you want to put it on people---

Betty Cargile--I have to agree with this gentlemen on owners--if they would take care of their dogs then we would not have the problem, but I also have to agree with Bob Hoy because we had two bird hunting dogs take a deer down in our front yard--I object to that--I don't want a hunting dog taking a deer down in our front yard--or anybody's front yard--now if the people who owned the hunting dogs had kept them at home, that would not have happened---by the time I called Mr. Hoy to report to him, the dogs were gone and chances are that if he went and talked to the people, they would no more pay attention to you than me---

Chairman Tossberg--probably a few $500 fines levied under this ordinance would do more to cure that than anything else in the world--

Martin--they would listen to Bob Hoy when he went to talk to them--

Betty Cargile--No, they would not--he told me that

Duane Zeiler--We do have a certain amount of experience with dogs and I am thoroughly against the individual taking care of dogs--another thing I am wondering about--don't we have such a thing as a public nuisance deal that could cover some of these ordinances that could be directly handled at the County Attorney's office?

Bob Brown--Only in real rare cases which are the only ones that could come under it---

Duane Zeiler--what do you mean by real rare--I want the facts--

Bob Brown--say a dog comes over on your place and chases your livestock, we have got a statute, but if a dog comes through and attacks you or somebody in your family, we can't---there is no public nuisance there--it is a private nuisance, but not a public nuisance---

Duane Zeiler--you mean you have no legal recourse there whatever---

Bob Brown--No, if you can find out who owned the dog, you could sue--but unless there had been other instances of that same dog, in fact, attacking other people, we can't do anything---

Dale Dye--correct--we handled that Corvallis dog on a public nuisance because the entire neighborhood was upset---there was no law to cover it--

Bob Brown--and because of the fact that there was more than one attack

Duane Zeiler--I understood that, but after the first attack and then another one, it certainly wasn't isolated any more---

Bob Brown--Yes, and in that case, we can do something, but that is the only case that has come up where we have been able to do that, and we are not even sure that we will be able to hold that

Duane Zeiler--I can understand that too, these attorneys are damned expensive--clear out of reason in fact--I still think you can stretch that public nuisance ordinance (law) to the extent that you can do something, if you would--

Bob Brown--the court doesn't allow it--

Chairman Tossberg--the problem is, you don't win, you know, and there is no use taking a thing to court

Carl Martin, Jr.--correct me if I am wrong, the way this thing reads right now, I could walk down the main street of Corvallis, pack my rifle or pistol and if a dog came up and growled at me and attempted to bite me, I could blow it away, it's an unincorporated area, right?

Chairman Tossberg--that is correct. Especially if it is a pit bull--

Lorrie Lee--I have a comment to make here--I know both parties that were involved in the deal in Corvallis--My question to you is the simple fact that there right now is a grudge against pit bulls--there is a grudge against a lot of different breeds of dogs--just like this lady over here said--she doesn't want to see hounds killing dogs in her front yard, or taking them down--I'm a dog lover, a total animal lover, but if you hold a grudge against one dog, it doesn't make any difference if it is a pit bull, a hound, St. Bernard, whatever--the way this ordinance reads right now, anyone of us in this room could walk down the street, and if they just even thought the dog was going to attempt to bite them, or the dog growled, they could shoot it and there is a dead dog that is worth a lot of money just because they have a grudge against somebody else's dog of the same breed. This is what it is I don't agree about in this ordinance.

Del Cameron--I think the problem with this is that the proof then lies with the owner that the dog actually was going to bite the person who shot it, and the dog can't answer that, he is already gone, and the dog has a sentence of death without a hearing--we need, as Dale says, time to look this over and determine, but if you just take an irrational action--

Chairman Tossberg--are there any further comments? Well, we'll go back to the drawing boards and take another crack at this thing--we appreciate your input--we will not pass this ordinance until we have another reading--see you all at Christmas---

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Mtg. - NE 15-3-21 - Gearhart

Occas. Sale - Gift to Family - SE¼NE¼ S15, T3N, R21W - Steve and Charlene Conner

Occ. Sale - SW¼NW¼ S35, T7N, R21W P.M.M. - Mario Locatelli

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 22, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved that the County institute a $20.00 fee for having the County Sanitarian take water samples. Commissioner Davis seconded the motion. All three Commissioners voted "Aye".

Commissioner Davis attended a Head Start meeting in the morning.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Chairman Tossberg attended the Governor's Budget Revenue Estimate Committee meeting in Helena, Montana.

Commissioner Williams was out of the office for the day.

Commissioner Davis was on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Commissioner Davis moved and Chairman Tossberg seconded that we grant conditional approval to Ronald and Barbara Smith on the Amended Plat of Tract 4A of AP #12 - Vernon Ranchettes. Both Commissioners voted "Aye". Motion carried.

Commissioner Williams attended the monthly Board meeting of the Ravalli County Council on Aging.

Mrs. Peggy Whitesitt called to inquire as to the status of the erosion of the Bitter Root River at the Stevensville bridge area.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, October 27, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners explained that Victoria Chopot from the Sleeping Child Hot Springs had been in to see what could be done about the road from the bridge up to the hot springs. She said that she would be willing to pay half of any costs to improve the road. After some discussion, it was determined that the next step is to determine if the road is owned by the Forest Service or is private road. Jay said he knows it is not a county road.

Henrietta Brandon reported that she has hired a new nurse at her office - Ann Meskimen, who bega work today.

Commissioner Williams was out of the office for the day.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg present.

Commissioner Davis attended a CDC meeting in Missoula, Montana.

Commissioner Williams was out of the office for the day.

KECI TV interviewed Chairman Tossberg on the Ravalli County jail issue.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, October 29, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Fred Anderson was in to check on what was happening with the problem with the alley between him and Shoemakers. Chairman Tossberg explained that this alleyway can not be abandoned unless everyone agrees and can not be opened or closed without a public hearing. Chairman Tossberg said his inclination would be to let things lie for a while and see what happens.

Ruth Cleveland, County Treasurer, met with the Commissioners to check securities as of October 29, 1986:

Ravalli County Bank	1,600,000
First State Bank, Stevensville	886,680
Citizens State Bank	1,070,000

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Williams said that he had received a complaint from Don Peters of the Fish and Game who wants to know who dumped the fill materials at Blodgett Park. There was some discussion on this and Jay said that his impression had been that he should do something about the washing away of land if possible, and when the opportunity came to let someone dump, he told them to go ahead. Commissioner Williams confirmed Jay's opinion that he was supposed to do something if he could. Chairman Tossberg said he believes like the Fish and Game, that the river should be left alone. He said he feels differently about the Stevensville Bridge situation because the bridge could be washed away and he feels we should protect county property. Bob Brown, County Attorney, came in on said meeting. Commissioner Davis said that he felt the river should be put back where it belongs and that people should be allowed to protect their own property. There was more discussion on Fish and Game policies and riprapping.

Commissioner Williams said that Don Peters had also said that Jay needed to get the paperwork in on the Dutch Hill Road/Mill Creek work. There was some discussion on a complaint that the Northeast side needs to be riprapped. Jay said that this project has not been completed and they would plan to do this before the project is done.

Jay said they are working right now on putting pipes in at the Corvallis Main Street. He has talked with the veterinarian and is taking out the culverts he put in and fixing things so that the drainage will be better this winter.

There was some discussion about Dick Krasovich, Office Manager, joining the union at the road department. The Commissioners signed the request made by Dick to be allowed to join the union.

At 2:00 p.m. public hearing was held on the Holly Lane Zoning Petition, with the following people in attendance: Marilyn Ducker, Ray Todd, Virginia Todd, Perry Wicks, Lois Acuff, Cap Acuff, Chuck Fitzpatrick, Montague L. Garrett, Lloyd Eickert, Jim Todd, Reba Falk, Cheryl Richards, and Larry Higginbotham.

Chairman Tossberg began the hearing by explaining the procedure for zoning. He explained that he would be giving opportunity for comments from both the proponents and the opponents. He explained

Recorder to verify the signatures. He explained that this research showed that 73% were in favor of said petition, 20% had not signed, and 7% signed against. The petition covers an area of 124.55 acres. He said that the Commissioners had adopted Resolution No. 402 on October 2, 1986 setting up a Zoning Commission. Chairman Tossberg then read said Resolution. He explained that notices had been posted in three places within the district on October 8th on a power pole at the entrance of Holly Lane, on a power pole at the end of the cul-de-sac on Holly Lane, and on a power pole at the intersection of Burnt Fork Road and the Burlington Railroad line. He said that notice was published in the local paper indicating that a hearing would be held on November 3rd, 1986, at 2:00 p.m. Chairman Tossberg read the public notice.

Chairman Tossberg asked Larry Higginbotham, County Surveyor, if he could verify boundaries on the petition and Larry said that he would do this.

Chairman Tossberg then asked for comments from Proponents. Mrs. Virginia Todd of 3550 Holly Lane spoke in favor of the petition. She said that they have been living there for many years and have been threatened by the possibility of a trailer court going in on the corner and the main reason they submitted the petition to zone was to try to combat the density and urbanization in their area. She said she was given suggestions on how to proceed and had tried to follow a model of a previous zoning petition. She said that nearly everyone she talked to seemed to want protection. They are afraid that four or five years down the road their area could be changed to be undesirable for them to live in. Ray Todd, 3550 Holly Lane, commented that they just want to maintain their status quo. They would like to keep their area pretty much agricultural.

Chairman Tossberg then asked for comments from Opponents. Perry Wicks, 3477 Holly Lane, commented that he objects to the 50 foot set-back requirement as he is living in a mobile home which is within 50 feet of his neighbors' property line. He said that he has his septic system, trees, etc., and plans to build his home there and would have to build within 50 feet of the property line and this zoning petition would prohibit him from doing so. He said he has been running a grade "A" dairy and has sold it and has a big building that he might need to use for some kind of business. Also, his wife's family is getting old and he might need to put in a house for his mother-in-law and this zoning would prevent that too. He said he might want to give some land to his kids and this would prohibit that also. Chairman Tossberg asked him how many acres he has and he said 5.6--that is the general size of the parcels in the area.

Perry Wicks said that he does not feel that people who have purchased land in this area and planned to do things should be subject to more restrictions than they had when they bought the land.

Monty Garrett, 3474 Holly Lane, said he thinks people should be able to build within 50 feet of a property line.

Cap Acuff said that he was neutral on this issue, he lives at 3510 Holly Lane, and has 5.3 acres. He said that this has always been a rural area and he objects because some people have moved in and built homes and they should have the freedom to sell their property as they wish and this is restricting them. He said that the Todds are concerned because a structure is going up right in front of their house. He said he has been in the area longer than anyone, and he objects to these restriction

Ray Todd spoke for the Proponents. He said that they were just working from a sample when they made up this petition and wondered if the 50 foot set back provision could just be deleted from the petition at this hearing. He said it would be well to address this issue right now.

Larry Higginbotham asked if the animal corrals were built up by the fence line. Mrs. Todd said that the corrals can be termed a structure, but the pasture always runs up to the fence lines.

Mr. Garrett said he would like to get the work "tract" defined.

Larry Higginbotham said it is an existing parcel. Mr. Garrett said he considers his land a parcel rather than a tract. After more discussion on tracts and parcels, Mr. Todd said he would like to know who is opposed to the deletion of the 50 foot provision for set back. Chairman Tossberg asked who would be opposed and No One was Opposed.

Mr. Garrett asked how many 1000 gallon septic tanks can be put on a 5-acre parcel of ground and Larry said five. Chairman Tossberg commented that this was provided you meet all of the requirement Mr. Acuff said that his contract provides that you can only divide your property one time. He said he would not like another set of rules to follow. Mr. Todd said that the intent of the petition was to keep this neighborhood nice. Mr. Wicks commented that even with the 50 foot set-back removed, he still did not like this petition. He asked Cheryl Richards, Assessor, if she could tell him how much taxes would increase because of this zoning. Cheryl said the zoning would not change the taxes. However, if he was in the dairy business and could no longer produce $1500 off his property, the land would be reclassified from agricultural to residential and the taxes would go up. Chairman Tossberg commented that this would happen irrespective of whether or not this was zoned.

Larry Higginbotham asked how close to the City Limits of Stevensville this zone was located. Mr. Acuff said it was almost one mile. Mrs. Todd commented that some of the acreage just about touches the city limits. Larry said that the people involved may find that five acre parcels are too large for

There was discussion about a possible annexation to Stevensville in the future and it was decided that an annexation would void any suburban zoning.

Mr. Acuff stated again that he would not like to have any further restrictions on the sale of his property.

Marilyn Ducker said that she lives next to the Todds and does not want any more divisions under the five acres. She said they bought out there to have property between them and would not want anyone to be closer--they like it this way. She said they have no objections to Perry Wicks building a house or the dairy business, but they do object to a trailer court going in.

Perry Wicks asked if the County has an application for a trailer court to go in. Chairman Tossberg said if this has occurred, he has no knowledge of it. He said he would find out about this.

Chairman Tossberg explained that the Commissioners and Zoning Commission would weigh heavily the 70% in favor. He said that he lives in a zoned area such as this and it works out quite well. He explained that the people have to enforce the zoning, but this gives them something to work with.

Mr. Acuff said he did not like this jurisdiction over sale of their land. Mr. Todd said that this was just to give them something to fall back on if someone should come in with something undesirable--then the neighbors could unite against it.

Larry Higginbotham stated that if the people involved used a restriction of one dwelling per acre, it would still be unfeasible economically to put in a trailer park. He said that he thinks the people in this area have to expect more density.

Chairman Tossberg closed the meeting saying that the Commissioners will allow two weeks for written testimony before making a decision on this matter. At this time, the Commissioners will decide whether to adopt the Resolution adopting the Regulations for the Zoning District.

The Board adjourned to meet the following Wednesday at 8:00 a.m., because of the Election Day holiday.

Hamilton, Montana, November 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Chairman Tossberg left at noon to attend a Board of Investments meeting in Whitefish, Montana.

Commissioner Davis was out of the office for the day.

Commissioner Williams was on hand to attend to office management and audit the monthly claims.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 6, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg attended a Board of Investments meeting in Whitefish, Montana.

Commissioner Davis was out of the office for the day.

Commissioner Williams was on hand to attend to office management.

In response to complaints received from Corvallis residents Lloyd A. Rockafellow and Doug Nielson on the new Main Street drainage line, Commissioner Williams made an onsite inspection of the project.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 7, 1986

Commissioner Davis was out of the office for the day.

Commissioner Williams was on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, November 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Commissioner Davis was out of the office for the day.

Chairman Tossberg attended a Budget Estimation Group meeting in Helena, Montana.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Jay said that with the storm, the East-West roads were real bad so his men are out grading them. There was some discussion on the Corvallis Main Street project and Jay said that the project has already cost over $12,000, so he hates to put too much more into it.

Albert Bartlow of 1010 Bear Creek Trail Road has requested that the county assume the responsibility of maintenance of their road from the Bear Creek turn-around to the Forest Service boundary. This request was discussed with County Attorney, Bob Brown. It will be the responsibility of the property owners to bring this road up to county specifications prior to any consideration by the Commissioners for acceptance into the county road system.

The Board adjourned to meet the following Wednesday at 8:00 a.m., because of the Veteran's Day holiday.

Hamilton, Montana, November 12, 1986

Commissioner Williams was out of the office for the day.

Chairman Tossberg and Commissioner Davis were on hand to attend to office management.

Larry Johnson, Attorney; and Bill Hadlow visited with the Commissioners in connection with the building of the new library.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 13, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Doug McLaren and Fred Thomas met with the Commissioners to discuss the County's Comprehensive Insurance coverage.

Ken Andrews and Frank Klements from the US Forest Service met with the Commissioners to say that they plan to abandon the old road to the Boulder Creek Campground as they have built a new road in there on Forest Service ground, and this one is not needed. The old road went through public land and was used by the people as access to their property, but the Forest Service does not have a need for that road anymore. They said that if the County wants to assume this road, they will let them have it. Right now the Forest Service has a deeded right of way to this road. Ken commented that if they abandon it, the land goes back to private ownership. There is already a lawsuit pending on this matter, so apparently there is a disagreement on the road right now. Chairman Tossberg said that this would have to be checked by the County Attorney before they could respond. Bob Brown, County Attorney, came in and looked at the papers involved. He said he would have to study this matter.

Chairman Tossberg asked Frank if the lady from Sleeping Child Hotsprings had contacted him and Frank said she had and he has checked out the land involved and found it to be Forest Service. Chairman Tossberg suggested that something might be worked out on this as the lady has offered to pay for part of the costs if the road can be improved. He said that a two-shot penetration might be real good. Frank said that the ditch could be cleaned and the road reshaped to make it a little better too. There was some discussion on the wash problem because of the steepness of the road. Chairman Tossberg said that the County, Forest Service and private individuals involved should be able to come up with a solution to this problem.

Resolution 94, Town Council of the Town of Stevensville, No. 7117, was recorded in the office of the Clerk and Recorder, petitioning the Town Council to reduce the 100 foot Mission Street to a 60 foot street, returning to the property owners 20 feet of property.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 14, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, November 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Commissioner Davis said he had received several complaints about the slick conditions on the intersection of Eight-Mile and Lower Woodchuck roads. People are having a hard time making the corner. Jay said that his crew is working in that area this morning.

Chairman Tossberg left for Helena to attend a Board of Investments meeting.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Ag. Parcel - NE 34-10-20W - Steven Schertenlieb

Retracement - E½ 27-9-20 - Rossi/Missoula Community Hospital

20 acres and remainder - NW¼NE¼ S23, T6N, R21W, P.M.M.-Robert & Medora Kerr

Boundary Reloc. - NE¼ S34, NW¼ S35, T6N, R21W - Derek Mitchell

and the following amended plats were filed:

AP Lots 28, 29, & 30, Blk. 8, Sunnyside Orchards - David E. Colvin

AP Lots 2, 3, & 4, Sunshine Meadows - Hazel Boscarino

Commissioner Davis moved and Commissioner Williams seconded that we accept the amended plat of Eagle Watch, Lot 62, for Robert Eckhardt. Motion carried unanimously.

Lynn and Chuck Wood and Bob and Doris Kahlstrom met with the Commissioners to say that Dick Atkins has said to the ambulance crew, of which Lynn is a member, that the hospital is not interested in keeping the ambulance and would be willing to let it go if a local person would want to run it. They would not want it to go out of the county. Lynn said she, her husband, and the Kahlstroms would be interested in taking this over as a business. Chairman Tossberg said they would have to have the County Attorney give the legal aspects of transferring this over to a private individual. He called Bob Brown, County Attorney, to come down. Bob said that a sale like this would have to be put out for bids. He said he would check out what would be needed to transfer the lease. Commissioner Williams asked if all

of the ambulances in the valley would be included in the transfer and Lynn said that would be up to the Commissioners.

Lynn said that she understands that Arrow Ambulance pays Missoula County for maintaining the 911 line and doing the dispatching, but that Ravalli County performs this service without charge. Chairman Tossberg said that this is correct. Lynn said that she has also heard that Dr. Rossi is interested in the Stevensville Ambulance as he is affiliated with the Community Hospital in Missoula and would want the ambulance business to go there.

Chairman Tossberg said that it would be okay with the Commissioners for Lynn to discuss this with Dick Atkins but the County is satisfied with what is happening right now and sees no reason to push for anything else as long as things are going okay. Chairman Tossberg also commented that if they were going to go this route, they would rather keep the service in one piece rather than splitting it up. He said that the County is interested in providing this service with as little cost to the County as possible, and that the service be adequate to serve the citizens of the valley. He said that the agreement with the hospital provides that the county continue to house the ambulances until the hospital would have a place for them.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 19, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis moved and Commissioner Williams seconded that we appoint S. H. Bridges of Victor, Montana, to fill the vacancy left by Dave O'Dell for School District #7, for the remaining term to run to 12-31-87. Motion carried.

George and Sharon Reed visited with the Commissioners about an agricultural exemption on CS# 3138. The Commissioners wrote Mr. and Mrs. Reed a letter saying they would be willing to do so pending satisfactory results from their groundwater monitoring.

At 9:46 a.m., Reba Falk received a call from the Sheriff's Office in connection with Warnex 86-2 for Disaster and Emergency Services. The Sheriff's office notified Mrs. Falk that they had followed the fanout sheet and had done the necessary calling.

At 3:00 p.m. the Commissioners attended a Jail Advisory Committee meeting in the Extension Conference Room.

Bert Morales was in to have the Commissioners sign an agreement to lift the agricultural restrictions. The Commissioners signed the agreement with the understanding that an engineer will be doing the work on the groundwater problems.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 20, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Resolution No. 470 for the City of Hamilton was signed to vacate and discontinue a portion of a city street in Hamilton, and filed November 20, 1986, at #7118.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 21, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Occ. Sale - NW 34-7-26 - Richard Starr

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, November 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Over 20 acres - S½ 7-6-20 - James H. Clark

Correction Plat - NW 23-8-20 - McPherson

Retracement - NE 23-3-21 - Jack Snedigar

Amended Plat:

AP Lot 72, Eagle Watch - Clarence Wines

Commissioner Williams moved and Commissioner Davis seconded that we accept the amended plat of Lot 72, Eagle Watch for Clarence Wines. Motion carried.

The County Commissioners adjourned and reconvened as the Ravalli County Planning and Zoning Commission. Members of the Commission present included Larry Higginbotham, County Surveyor, and Commissioners Davis, Tossberg, and Williams. The other member of the Commission, Cheryl Richards, was absent.

It was moved by Commissioner Williams that the request for zoning in the Holly Lane area be approved as submitted except that the setback provision in Section 3, item D be reduced to fifteen (15) feet. Commissioner Davis seconded. A roll call vote was taken and all members voted "Aye". Resolution

No. 18 was approved by motion of Commissioner Williams, seconded by Commissioner Davis. Motion carried See Perm. File #7122.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 25, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the Blodgett Park situation and Chairman Tossberg said that the Fish and Game men from Helena would be in this morning to discuss this situation.

There was some discussion on the tanks at the various sites for the road department and Chairma Tossberg asked if they could not get rid of the above ground tanks and Jay said they are in the process of doing this.

There was some discussion on the East Fork/West Fork Bridge and Jay explained how it will be dismantled and hauled to the Darby site.

Commissioner Williams explained that he had received a complaint on the condition of Tripp Lane.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, November 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jerry Allen, County Commissioner-Elect; Darlene Hughes, Clerk and Recorder; Betty Lund, Clerk and Recorder-Elect; Reba Falk, Administrative Assistant; Cheryl Richards, Assessor; Bob Thoft, Representative; Elmer Severson, State Senator; Bernie Swift, Representative; Jim Haynes, Justice of Peace; Ruth Cleveland, Treasurer; Kitty Leece, Treasurer's employee; Greg Lakes, Missoulian; Pat Rhodes Ravalli Republic; and John Milstead, delinquent tax collector; met with the Commissioners to discuss problems the County is having that should be dealt with at the upcoming legislature.

Commissioner Williams moved that we adopt Resolution #404 creating Ravalli County Planning & Zoning District #23. Commissioner Davis seconded said motion. Motion carried.

The Board adjourned to meet the following Friday at 8:00 a.m., because of the Thanksgiving Day holiday.

Hamilton, Montana, November 28, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Williams present.

Chairman Tossberg and Commissioner Davis were out of the office for the day.

Commissioner Williams was on hand to attend to office management.

Commissioner Williams attended the Board Meeting for the Ravalli County Council on Aging.

Upon motion, the Board adjourned.

ATTEST:

Darlene E. Hughes, Clerk and Recorder

APPROVED: F. B. Tossberg, Chairman

APPROVED: Marion H. Davis, Member

APPROVED: F. T. Williams, Member

----------0----------

Hamilton, Montana, December 1, 1986

The Board of County Commissioners of Ravalli County, Montana, met in regular session on the above date at 10:00 a.m., with the following members present: Chairman F. B. Tossberg, Commissioner F. T. Williams, Commissioner Marion H. Davis, and Darlene E. Hughes, Clerk and Recorder.

The reports of the Clerk and Recorder and County Treasurer for the month of October, 1986, were audited and found to be in balance with cash on hand in all funds in the sum of $9,303,686.14.

Upon motion made and seconded, the following claims were approved and warrants were ordered drawn in payment of same:

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. The Commissioners said they had not received any road complaints. There was some discussion on the sanding operation for this winter and Jay explained that they had a heater at their gravel pile that will make things easier this winter.

The Commissioners went to check out a complaint on the intersection of the East Fork and West Fork Roads on Highway 93; they found the access from the West Fork Road onto Highway 93 to be unsuitable where the new highway and the West Fork road meet.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 2, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

A public hearing was held at 2:00 p.m. in the Downstairs Conference Room on the proposed Dog Ordinance. The following individuals were in attendance: Jerry L. Allen, Betty B. Cook, Evelyn Hard, Enno W. Hartman, and Ronnie Pasalich.

A brief general discussion was held. Commissioner Tossberg pointed out the most recent change made in the third paragraph.

Mr. Enno Hartman expressed his concern that the proposed ordinance didn't get to the real problem and that what was really needed was a leash and licensing law.

The Commissioners expressed general agreement with this, but indicated that the costs associated with such a program would be prohibitive. Commissioner Williams cited the experience of Gallatin County.

After more discussion, Commissioner Williams moved the second adoption of the Dog Ordinance. Commissioner Davis seconded the motion. All Commissioners voted "Aye". The ordinance will become effective 30 days from today. (Ordinance #1, P.F.#7121)

Jack and Ilene Betts were in to ask about abandoning 500 feet of county road behind the Conner store that leads to their property. He said that the road goes through his place and they are the only ones that really need to use it. People from the trailer court do use the road, but they have an access straight to the road. Chairman Tossberg said that it would take some research on this to see if it could be abandoned, and explained the process. Jack said that a part of this road was abandoned 40 years ago. Chairman Tossberg took the Betts into the plat room to check this out.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 3, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Chairman Tossberg signed the Satellite Agreement for Ravalli County on the WIC program for Cheryl Schoeneman.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occ. Sale - W½ 17-1-21 - John T. Brennan

Reloc. - NE 21-3-21 - Bowler

Ag. Parcel - NW 3-8-20 - Bass

and the following Amended Plat was filed:

AP Hamilton Hts. Blk. 2 - Dwain Wood

Commissioner Williams moved and Chairman Tossberg seconded that we approve the amended plat of Hamilton Heights, Blk. 2 for Dwain Wood for filing. Motion carried.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 4, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Rose Goss and Jim Morton met with the Commissioners to discuss Human Resources.

Commissioner Williams moved and Commissioner Davis seconded the appointment of Rose Goss to a two-year term from 10/86-to9/88 on District XI Human Resources Council. All voted "Aye".

The Commissioners approved the appointment of Rose Goss, Shirley Abel and Carol Graham to the local Program Council of District XI Human Resource Council.

Commissioner Davis moved and Commissioner Williams seconded approval of Fiscal 86 year Community Service Block Grant Work Plan as prepared by District XI Human Resources Council. All Commissioners voted "Aye".

The Commissioners took a road trip and investigated mobile homes owned by Ray Bean being stored on a county road easement; viewed the almost-dry channel of the Bitterroot River; checked the dispersal of the Corvallis First Avenue drainage improvement system; checked out reported rough roads on upper Willow Creek Road; and verified the elimination of four yard lights at the Airport.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 5, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Chairman Tossberg signed a contract with Interstate Alarm Co., Inc. for the Ravalli County courthouse.

Ken Andrews visited with the Commissioners in connection with Mr. Marlin Foss's request for an easement.

In response to the Commissioners' letter to Mr. Tahija of the State Road Dept., he called and said the dip in the road where Highway 93 and the West Fork Road intersect is to be fixed next week.

The Commissioners attended a Weed Board meeting in the afternoon at the Extension Conference Room.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, December 8, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the West Hills Road and Jay said that his men had been working on it. Commissioner Davis said he had received several complaints on the Eastside Highway. Chairman Tossberg said that someone has hit the "Stop" sign on the intersection of Eastside Highway and Hamilton Heights Road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 9, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Court Order - E½ 4-8-19 - Thoft

Correction - S½ 7-6-20 - Clark

Over 20 acres - 19-2-17 - Wetzsteon, J.F.

Correction Survey - NE 19-2-17 - Wetzsteon

Occ. Sale - SW 21-9-20 - Howard E. Long

Keith V. Remfert from Wright Engineers Limited and Mark R. Welch and companion Jim from Western Resources Company and Marti White and Larry Campbell, Stansburg Mining Corp., Western Vermiculite project, met with the Commissioners to explain what will be happening in the valley with the vermiculite project. Mark spoke for Western Resources Company and said they have engaged Wright Engineers Limited (Keith's firm) and are shooting for starting the mining project as early as mid-summer. They will truck the material from the mountain up Skalkaho into the valley to be mined. He said they would plan to employ from 30-50 people on a full-time basis. The mine itself will be seasonal, but they would stockpil enough material to keep the mill in the valley going all year. He said that the main competition for this material is South Africa and the Libby mine. The main uses are for mixing with peat moss, for insulation, etc. He said that it is very difficult to separate from the rock.

Chairman Tossberg asked what sort of concentration process will be used and Mark said that the crushing and screening process will be a wet process to keep down the dust. Chairman Tossberg asked if s of the people in the Stansbury Corp. had come from South Africa and Mark said they had but they were not miners, but they brought expertise from other fields that will be helpful. Mark said that they have been talking with the Forest Service and Power Company making plans with them.

Commissioner Davis asked if the work at the mill in the valley will be a wet process too. Mark said probably some wet and some dry. Commissioner Davis asked if there will be any pollution involved. Mark said that there is no toxic waste from this mining process. He said there may be waste involved as is common to mills, but nothing dangerous. Commissioner Davis asked if there will be any dust floatation that will be getting onto the nearby fields. Mark said there would absolutely not be any of that--they do not see any problem with toxics or dust pollution.

Chairman Tossberg asked what the mining process will be and Mark said it will be open pit. He said that the first few years will be mostly bulldozer work with loading and crushing and screening. When they get deeper, they will need to do some drilling and blasting as this material gets harder as it gets deeper. They said that they would try to keep this to a minimum.

Chairman Tossberg asked what the elevation will be where they are mining and Mark said he thinks 7500 or 8000 feet. Mark said the existing Forest Service road is adequate. They may be doing some improvements to make it easier for them like straightening out some curves, etc. They will be running 20-26 ton trucks a lot like the logging trucks. Chairman Tossberg asked how long the haul will be and Mark said probably 11 miles. Chairman Tossberg asked where the processing plant would be and Mark said probably up Hamilton Heights. Commissioner Davis asked what will be done with the finished product. Mark said it will probably be trucked out and sent by rail. Chairman Tossberg asked about the waste product involved. Mark said that it will be a small pebble-like rock. This might be useful in the sanding operations and could be used in some concrete although he does not think its strengths are as

good as sand so probably will be useful only with concrete not used under great pressure. He said that they will be stacking this in a gully or somewhere that it won't be seen. He said that this product drains beautifully and could be used in drainfields. Jim asked if there are any zoning laws that they will need to be aware of and Chairman Tossberg said that the state tends to control operations of this nature. The only thing from the County would be the sanitary permits. Jim then asked about the tax rates and Keith asked if they would compare with the flourspar mine. Chairman Tossberg explained that there was no way they could guess at this--the men should go talk to the people at the Reclassification office, which is run by the State. Jim asked if there are any incentives that the County might have that would help and Chairman Tossberg said he did not know of any.

Commissioner Davis asked how much land this company will acquire with the mill and Jim said it would be less than 50 acres--the mill site will be around 1 or 2 acres, and they will need room for stockpiling--probably 20 acres. Chairman Tossberg said that they are very much interested in knowing what county roads will be used. He said they should talk with Jay Unrue about the route they will be using. There was some discussion about a bridge on the proposed route that has a load limit on it and Chairman Tossberg said he thought that bridge would have to be replaced.

Keith said they are very interested in keeping this operation compatible with the needs of the valley and will not allow anything to ruin the environment.

Chairman Tossberg asked how the financing is going and Rick said they have already put half a million dollars into the project and the total project will be from 10 to 20 million, but there is a good market for this product and they do not anticipate any problem with financing it. They expect this business to be growing and steady--it will not be real up and down like gold and silver, but should be a stable business. They may not get the plant built until January or February next year, but should start the mining process late summer, and will be hauling the materials down the hill to prepare for this.

The Commissioners adopted a policy for River and Streambank protection (See Road File).

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 10, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 11, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Mtg. Rel. - NE¼ S6, T8N, R20W - Marabeth & V. Larry Fite

G. A. Woodard from 590 Bratton Way, Stevensville, was in to complain about the condition of the Eastside Highway.

The Commissioners and Jay Unrue, County Road Superintendent, went on a road tour and checked the condition of roads in the County.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 12, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Department, the following Certificate of Survey was filed:

Over 20 acres - S½ 14-4-21 - DeFrancisco

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, December 15, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Davis left early to attend a MACO Orientation meeting for newly elected Commissioners in Great Falls, Montana. Commissioner-elect, Jerry Allen, also attended said meeting.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. There was some discussion on the condition of the East Side Highway. There was also discussion on the computer program that has been set up at the road department. They are developing data on 101 roads and figure cost per job whenever anything is done. Commissioner Davis asked if the road department ever got Carlton Drive graded and Jay said that the weather got bad before they got to it.

The Commissioners received resignations from Tom Murphy and Edgar Wetzsteon on the Weed Board.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 16, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis attended a MACO "Elected Officials Orientation" in Great Falls with Commissioner-elect, Jerry L. Allen.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 17, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Williams present.

Commissioner Davis attended a MACO "Elected Officials Orientation" in Great Falls with Commissioner-elect, Jerry L. Allen.

Commissioner Williams and Chairman Tossberg were on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 18, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

The Commissioners were on hand to attend to office management.

Chairman Tossberg left to attend a Board of Investments meeting in Helena, Montana.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 19, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Following review with Don Mullin, Planning Office, the following Amended Plat was filed:

Lot 6, Block 10, Sunnyside Orchards #3 - Cody Lunceford

Commissioner Williams moved and Commissioner Davis seconded that we approve the amended plat of Lot 6, Block 10, Sunnyside Orchards #3 for filing. Motion carried.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, December 22, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Jay Unrue, County Road Superintendent, met with the Commissioners for his weekly road update. Chairman Tossberg asked about a problem on Holly Lane that Pat McNulty had been in about. He said that Swamp Creek backs up and fills the culverts and he thinks a bigger culvert is needed. Jay explained that there are two large culverts there and if they raise it up any further, this will create a problem down the road. It is just one of the problems that occurs whenever the cold stays for very long, and the road department can not cure it without spending a lot of money to raise the whole road.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 23, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Bid opening was held for public defender in juvenile and misdemeanor cases for the period of January 1, 1987 through December 31, 1987, at 10:00 a.m. Bids were opened as follows:

1. Gerald D. Williams - $30.00 per hour whether the time is preparation time or court time.
2. Robert B. Brown--$1,665.00 per month
   (Since the bid required an hourly rate to be submitted, and Mr. Brown did not do this, his bid was rejected because he had not met the bid requirements.)

Commissioner Williams moved and Commissioner Davis seconded that we accept the bid of Gerald D. Williams of $30.00 per hour. Motion carried unanimously.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Retracement - NE 27-9-20 - Stevensville, City of

Relocation - NW 8-6-19 - Goheen

Occ. Sale - NW 34-7-21 - United Industries

Road Location - W½ 34-7-21 - Pinesdale, City of

Commissioner Williams moved and Commissioner Davis seconded that we appoint Gary Wetzsteon as a member of the Ravalli County Weed Board. Motion carried. (Gary will fill the position of his father, Edgar Wetzsteon, who has resigned.)

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 24, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Chairman Tossberg and Commissioner Davis were on hand to attend to office management.

The Board adjourned to meet the following Friday at 8:00 a.m. because of the Christmas Day holiday.

Hamilton, Montana, December 26, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Chairman Tossberg present.

Commissioner Williams and Commissioner Davis were out of the office for the day.

Chairman Tossberg was on hand to attend to office management.

The Board adjourned to meet the following Monday at 8:00 a.m.

Hamilton, Montana, December 29, 1986

and Commissioner Davis present.

Commissioner Williams was out of the office for the day.

Buck Titus, County Road Department, met with the Commissioners for the weekly road update. Commissioner Davis asked if the Road Dept. had done anything on Mill Creek and Buck said the paper work has been taken care of and they are just waiting for the Fish and Game to give their approval so they can finish the project. Commissioner Davis also asked if the Road Department is working on Tie Chute Lane. Buck said that the owners of the property were taking down the fence and they have wire off the North side and South side and the posts pulled on the South side.

Mr. and Mrs. Terrol Crane came in to discuss a possible subdivision and the cost of cash-in-lieu. Their phone number is 642-3310.

Steve Powell and Hans Ribi came in to negotiate cash-in-lieu for Mill Creek Flats, a three parcel proposed subdivision.

Since each of the parcels is five acres or greater, and the developer, Mr. Ribi, agreed that the parcels would not be split again, it was decided to accept $450 ($150 per lot) as cash in lieu. It was noted that the Commissioners had followed a similar procedure with respect to a subdivision of Mr. William Piatt.

The Commissioners went to check out a road complaint on Wakantanka Lane.

At 2:00 p.m. the bid opening was held for the county's printing and publishing for the next two years. Larry Baecht, Professional Impressions; Bob Brown, County Attorney; and Darlene Hughes, Clerk and Recorder; attended said hearing. The following bids were opened:

1. Professional Impressions - printing bid--Larry bid 90% of the Franklin Code (He said that it will be considerably higher than it has been in the past as the codes have been revised.)
2. Ravalli Republic - publications

Commissioner Davis moved and Commissioner Tossberg seconded that we take the bids under advisement. Motion carried unanimously.

Following review with Don Mullin, Planning Office, the following Certificate of Survey was filed:

Over 20 - NW 31-9-19 - McElhaney

and the following Amended Plat was filed:

AP Lots 28, 29, & 30, Blk. 8 - Sunnyside Orchards - David E. Colvin (a replat)

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 30, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with Commissioner Davis present.

Chairman Tossberg attended a Board of Investments meeting in the Governor's Office at Helena, Montana.

Commissioner Williams was out of the office for the day.

Commissioner Davis was on hand to attend to office management.

The Board adjourned to meet the following day at 8:00 a.m.

Hamilton, Montana, December 31, 1986

The Board met pursuant to adjournment on the above date at 8:00 a.m., with all members present.

Commissioner Williams moved and Commissioner Davis seconded that we accept the bid from Professional Impressions for printing for Ravalli County, and that we accept the bid from Ravalli Republic for publishing for the County. Motion carried unanimously. (Contracts run for two years.)

Harold Long was in to negotiate cash-in-lieu of parks on his Long Acres subdivision. This is a major subdivision and the County is entitled to the value of 1/12th of the acreage involved. The Commissioners called Don Mullin, Planning Office, to come down and discuss the matter. Don said that Harold is doing this in three different phases and that the first phase is the only one that has been cleared by the State Health Department. Each phase is for 40 acres. It was decided that cash-in-lieu should be paid on the 40 acres, as it should be paid as each phase is filed. The total amount of Cash-in-lieu for the whole subdivision would be $17,500, and for this phase would be $5,833. Mr. Long wrote a check for the $5,833.

Commissioner Williams moved to uphold Greg Danelz's decision on the Victor Land Transfer. Chairman Tossberg seconded the motion and a roll call vote was taken. Chairman Tossberg "Aye", Commissioner Williams "Aye", and Commissioner Davis "Nay". Motion carried.

Following review with Don Mullin, Planning Office, the following Certificates of Survey were filed:

Occas. Sale - SE 22-10-20 - G. Grider Howton

Mtg. Rel. - SW 13-8-20 - Dennis Barbian

Over 20 - NE 27-8-20 - Robin Hood

Commissioner Williams moved and Commissioner Davis seconded that we grant conditional approval to Marjorie Hospers Weeks for Amended Plat of Lot 8, 1st Add'n to Chief Joseph Heights; to Hans Ribi for Severns Meadows Subdivision (aka Mill Creek Flats); and to Betty A. Krueger for the Amended Plat of Lot 21, Blk. 2, Corvallis Tracts. Motion carried unanimously.
