Subdivider Instructions for completing the Utility Availability Certification Form

Ravalli County has given conditional approval to your subdivision, as described in the Preliminary Plat Decision. Among those conditions of approval include a requirement that you consult with the appropriate utility companies to provide telephone and electric service connections at each of the lots within the proposed subdivision. This completed form will certify completion of this requirement.

Please complete Section 1 of the form, and submit the form, along with a copy of the approved subdivision preliminary plat, to each of the utility companies that will provide service to the subdivision. The utility company will complete Section 2, and return the form directly to you.

When you're ready to file the final subdivision plat and associated materials, submit the completed form, along with all other materials, to the Planning Department.
